Advices have been received from Hayti, stating that the state republic of Hayti was abrogated on the 24th ult. and Soloque proclaimed emperor.

ELECTION IN MAINE.

PHILADELPHIA, Sept. 18.

There is no choice for Governor by the people in Maine. The Whigs have probably a small majority in the Senate. The Democrats a probable majority in the House.

PHILADELPHIA, Sept. 18.

The Washington City correspondent of the Baltimore Sun says: Some weeks since, Mr Poussin, the French Minister, addressed an important note to the Secretary of State, whereupon the President addressed a note to the French Government demanding his recall. This not being done, the President offered Mr. Poussin his passports, which were accepted.

FROM NASHVILLE.

NASHVILLE, Sept. 18.

The Jennings family convention of 79 delegates from 8 states, adjourned yesterday having held a session several days. They appointed a committee of seven to obtain all necessary legal evidence, and then to send a commissioner to England to prosecute the suit for the immense sum which they claim as heirs, and as such due them in that country.

PITTSBURGH BOARD OF TRADE

COMMITTEE FOR SEPTEMBER

JAMES DALZELL, W W WALLACE, N. J. COTTEN.

REVIEW OF THE

PITTSBURGH MARKET,

FOR THE WEEK ENDING SEPTEMBER 18, 1849.

In our to day's weekly review of the market, we have to notice another week of general quietness in almost every branch of trade. Nothing has transpired showing any material change in the general quotations, and transactions have been mainly confined to limited or retail sales.

The weather has been very dry, and as a consequence, the river has gradually receded until it is now nearly its lowest stage. The business on the river continues very light, confined as it is to the highest draught steamers and keel boats.

For the past two days the weather has assumed a decided appearance, and we have had several showers of rain, and from appearances at the present writing, we are inclined to believe that, we are the eve of another week, we will have a rise in the river, and an active fall business will take the place of the practically quiet which we have been so long visited.

In reference to the general supplies of our market we may here take occasion to say to Western and Southern merchants who may design visiting us upon the first rise in the river, for their fall and winter supply, that they will find in this market every thing they may desire, upon the most reasonable terms.

The Dry Goods merchants of our city have been making ample provision for the opening of the fall trade. Many of the wholesale houses are already in all amply filled with every article in the Dry Goods line, and their present stocks, together with the large quantities now on the way from the east, will enable them to a short time to open the largest and most choice selections of goods ever before presented in this market. We have often taken occasion to impress upon our country merchants the importance of laying in their supplies in Pittsburgh, in preference to incurring the double expense of going farther east for them, and we now remind them of this fact with the greater confidence, having been assured by some of our dealers here, that greater inducements will be held out to them in this market, than has ever before been presented.

The idea which has obtained in the minds of many who have for years been in the habit of laying in their supplies in this city, that, by attending the eastern markets, they can buy on better terms, is not, either a fact, nor can, or can assure them that prices generally in our market will be less than the delivered cost of transportation; and we are assured that there are many descriptions of goods most suitable to the country dealer, that can be procured cheaper in Pittsburgh, than can be bought in the east. This may appear strange, yet it is nevertheless true, and this happy state of things is brought about by recent arrangements entered into by the wholesale merchants, by which goods are brought, fresh from the manufactories of the east, and are offered from the stores of the wholesale dealer in this city—thus saving the expense attendant upon the same goods passing through the hands of the eastern wholesale merchant before they are brought to this market. This is another important consideration which should have a bearing upon the minds of the western dealer—this is a "Time is money." The trial season is now fast advancing, and the favorable opportunity offered in our market to the western dealer, will at once save the time and expense consequent upon a journey to the east, when all their orders can be promptly filled by our merchant here with but a slight advance, if any, upon eastern prices. Let them only try the experiment, and they are bound to find it to their advantage.

PITTSBURGH MANUFACTORIES.—During the long season of dry weather, the various manufactories of our city and vicinity have not been idle, and we believe that the fullest and best stocks will be presented in this market this fall, that has ever before been shown, in every branch of manufacture for which this city of Pittsburgh is so deservedly famed. Supplies will be so ample as to present the most flattering inducements to those who may favor us with their custom.

The GROCERY market, with few exceptions, is amply supplied, and the country merchant can be furnished with the best of articles, and at as low rates as at any other point.

With all these advantages, which are now presented in our market, we anticipate upon the first rise in the river, a full business again, if not more active than has been done for many years.

ASHES—As the fall season advances, we notice a better feeling in the market, without, however, as yet, any advance in prices. No large transactions have come to our knowledge during the past week, taking sales mostly confined to limited quantities at the following rates: Pearlash, 6c; Scotch, 5½c; Pearlash, 5c; Scorchings, 2@2½, and Soda Ash, for best quality, 2½@3c.

The demand for Pearlash is more active than any other under this head. Many of our dealers are receiving their regular supplies from the European manufacturers, and it is becoming the leading article in the manufacture of glass.

ALE—There is a good steady demand at our former quoted rates—say for common $6.50, for best $8 50 in casks included.

ALLSPICE—Sales are generally effected at the ▶ lb

BACON—The market continues quite active at the quoted rates. Receipts have been to a fair extent, considering the low water in the river, but as considerable quantities have been shipped to the east the supplies in our market are barely sufficient to meet demands. We notice sales during the week of about 60 casks, Western cured, made up of various lots, at the to lowest quoted rates.

BAGS—Sales of Rye, Flaxseed, and Linseed, at the ▶ lb

BAGGING—Sales of Kentucky, Hemp, Tow, and Flax, at the ▶ lb

BALE ROPE—Sales of Manila, at the ▶ lb

BUTTER—Very little has come in as yet. Supplies are limited, and we can report no sales worth mentioning.

BRICKS—Sales of Fire Bricks are reported from store at $12@14.50.

BROOMS—Sales of Fire Brooms are reported at $5.50@6, and common at $4.50@5 ▶ M.

BLOOMS—Owing to the long continuance of low water in the river, none have been brought in from below, the supplies on sale in the market are extremely light, and we have heard of no sales. The article may be quoted at $3@60 ▶ ton.

CHEESE—Receipts from the Western Reserve have been quite full, and notwithstanding the heavy shipments east, we notice full supplies in our market. We note sales of good common W. R., in lots of 50 to 100 boxes, at 6½@6½c, in smaller lots 7@8c is obtained for a good article. Cream Cheese is usually sold at 7@7½ ▶ lb.

COTTON SHEETINGS—The manufacture of brown sheetings in this market has become a matter of growing importance, and western dealers are assured that an article of the very best quality can be had here, at all times, free from the hands of the manufacturer, and at prices fairly to compete with eastern manufacturers. Quick sales are found for all that can be furnished, at 7½c for A No. 1, and 7½c for common, or Non-stock.

COTTON—Nose of consequence has been brought in for some time, and the market is quite bare.

COTTON YARNS—We notice no further change in prices, and continue our quotations as follows:

Cream Tartar	[illegible]	Soda Ash	[illegible]
Quicksilver	[illegible]	Saltpetre	[illegible]

FLOUR—Notwithstanding the unusually low stage of the river market during the week. The arrivals from and exceeding light, supplies are moderate and sales have been entirely confined to small lots to meet regular city trade demand. For superfine flour there are sales at $5 ▶ bbl on dray load lots but we have heard of no sales under than $4.95 ▶ bbl. $4.87½@5 may be given as the present running figures from store. From first hands sales have been very light at $4.50 ▶ bbl.

RYE FLOUR—Supplies are very light, and sales in limited lots have been effected at $3.50 ▶ bbl, the market is nominally firm.

FISH—With the exception of No. 1 and 2 Mackerel, the supplies of the market are quite full, and our former quotations are fully sustained, say for Shad, $4 ▶ bbl, for No. 2 Mackerel $10, for No 1, $12@12½, for No. 3 Mackerel $3.75@4 ▶ bbl. Salmon Herring at $3.50@3.75 ▶ bbl.

FEATHERS—Sales of live geese in lots at 30@32c ▶ lb.

FREIGHTS—Owing to the low stand now stage of the river freights to Cincinnati continue high $1 per 100 being the lowest rate. For some of the principal articles of shipment east, the following are the charges on the canal:

Bacon, Lard and Tallow	25c
Tobacco Leaf, Hhds, ▶ 100	50c
do Kg	20c
Feathers	25c
Wool	25c
Furs and Peltries	10c
Hemp,	50c
Sundries, all kinds,	60c
Whiskey per hhd	50c

REPORTED FOR THE PITTSBURGH DAILY GAZETTE.

PROCEEDINGS OF THE ALLEGHENY COUNTY AGRICULTURAL SOCIETY—The Board of Managers of this Society met on Saturday last, pursuant to notice in the New Court House.

Mr Benjamin Kelly was called to the chair.

The following members were present, Messrs. John Garrard, Joan Herron, E. Cooper, John McCoskey, John Murdock Jr., and John Scott.

The minutes of the last meeting were read and adopted.

Mr Martin of Manchester, reported that he had received $49 in aid of the Society.

Mr Garrard of Indiana Township, reported $5, 25 received for the same purpose.

The Treasurer reported that his receipts on that day, amounted to $21 75.

On motion a vote of thanks was returned to Messrs Martin and Garrard, for their exertions in raising funds.

The Committee on horses read a report announcing that they had selected as judges Dr. George Hays, upper Saint Clair, John Thompson Wilkins and Robert Stewart Shaler.

The following gentlemen were appointed judges of cattle, John McKeever Wilkins, John Boyd Indiana, and John Young, Robinson.

Messrs. Wm. C. Dunn Pitt township, George Stokes, and W. G. Hawkens Wilkins, were duly appointed Judges of fruit.

JUDGES ON MANUFACTURES.—John Shaw, Shaler, James S. Lang Wilkins, James Garrard Indiana.

JUDGES ON SHEEP.—P A Way Ohio Township John Garrard Fayette, and James Stoner Wilkins.

It having been thought expedient to make an alteration in the place selected for holding the fair, as it is supposed that the yard of the Mansion House on Liberty street was too small for that purpose Messrs. Martin and Cooper were appointed a committee for that purpose.

A letter from Mr. Buchanan concerning the establishing an agricultural paper in Allegheny County was read, and laid over for further consideration.

On motion it was resolved that Mr. John Murdock jr of Peebles cause five hundred bills, and one thousand certificates of membership to be printed.

On motion the society adjourned until the twenty second day of September.

Owing to some mistake, the proceedings of the meeting of the Board of Managers held on the first of September, failed to reach us. It was, however, resolved that the exhibition of stock at the fair be opened to the public, free of expense.

On motion it was resolved that all persons intending to exhibit stock or any article mentioned in the lists of premiums, shall enter them with the Secretary prior to the day of exhibition.

The Secretary's books are open at all times at the Mansion House, Liberty street, and at the office of Mr John Scott, County Register.

The fair will, we understand, be held on the first Tuesday and Wednesday of October.

PACIFIC RAILROAD.—The members of the Board of Trade and Merchants Exchange Association, and the citizens generally, are requested to attend a meeting at the Exchange Rooms on Thursday evening the 20th inst, at 7½ o'clock, for the purpose of appointing Delegates to represent this community in the Pacific Railroad Convention to be holden in the city of St. Louis, on the 16th of October next.

We would call attention to the advertisement of Messrs A A Mason & Co's extensive Dry Goods establishment, in another column of to day's paper. An offering rare inducements to country dealers.

We examined their splendid and very extensive assortment of dry goods, a few days since, and said a every thing that can be desired. The selections are very choice, and in point of extensiveness, are equal to those of the best Eastern houses.

READING OF SHAKSPEARE.—By an advertisement in the approved style column our readers will learn, that Mr W. M. Fleming proposes to give readings of Shakspeare at Philo Hall, on Thursday evening. Mr. Fleming gives the entire play, in all its various characters and does exhibits the masterly genius of this author, which cannot be done in detached parts. We have seen various notices of Mr. Fleming's ability, as a reader, in the eastern presses. The New York Courier and Enquirer says, of one of his exhibitions:—

"Mr Fleming's conception of the character was extremely just and admirably sustained, and his method of delivery was unexaggerated, yet effective, delicate, yet intense, and polished without being cold. In fact, no finer performance of the kind has been witnessed than his representation of this master play of the immortal Shakspeare."

The New York Albion, the Mirror, and the Brown Star speak in the highest terms of praise. Those of our readers who are numbered among the admirers of Shakspeare, will not fail to enjoy so rare an opportunity of hearing a favorite author given correctly and in the spirit of the author.

EXTENSIVE FRAUD.—A gentleman named Nicholson, came to this city a time time ago to negotiate for a number of land warrants, which he had purchased, but, not having been acquainted with the requisite legal forms, the transfers were not properly executed. He applied, we understand, to several persons, in this city, who declined having anything to do with them. At last a Mr. William Hunemison, who has been operating quite extensively in purchasing land warrants, undertook to get the transfers properly executed and free of the lapse of some time returned the warrants, purporting to be correct in every particular to Mr N, who found, when he sent them out to Washington that they were forgeries. Hutchinson was arrested yesterday, and taken before Alderman Major, but, during the examination managed to escape, thus leaving the lawyers constable, and the magistrate in the lurch

MAYOR'S OFFICE, Allegheny, September 18th—There were only two common cases of drunkenness brought before his honor the Mayor, this morning, and they were dealt with in the usual manner.

MAYOR'S OFFICE, Pittsburgh, September 18.—Six men and two women were brought before the Mayor this morning, accused of drunkenness and disorderly conduct. One of the women was committed to jail for twenty days, and the other for twenty four hours. Two of the men paid their fines, the others were sent to jail.

THEATRE—We understand that Mr. Porter has engaged the celebrated Montplasir troupe for three nights only.

Is G. W. Smith an Artist!

Many persons having thought me guilty of misrepresentation in saying that Geo. W. Smith, Esq. as he now styles himself, G. Warren Smith, was not an artist, I trust that the next time they have the honor of meeting that worthy gentleman they will ask him to make a drawing of a penny white lie, and, should he succeed in the arduous undertaking, they may set me down as a libeller and detamer of honest merit. WORMS—At this is the season of the year when parents are most tormented among children the propriety of Dr Lewis's Vermifuge leap leave to call upon parents, soliciting their attention to its virtues for the expulsion of these annoying and often fatal enemies of children. Their invention is by a physician of great experience in Virginia, and after using it for several years in his own practice, and finding its success so great, he has been induced at last to offer it to the public as a cheap but certain and excellent medicine. MISCELLANEOUS.

The Manufactories of Pittsburgh, Thirty Years Ago.

We extract the following from the directory of Pittsburgh for the year 1815, the following account of the manufactories which then existed in this city:

"The establishment of the Pittsburgh Steam Engine Company, on the north side of Front, below Ferry street, consists of a Steam Engine Factory for forging steam engines on Oliver Evans's construction.

An Air Foundry—On an extensive scale, capable of turning castings of any description, but particularly adapted to machinery.

An Anvil and Anchor Factory—Capable of furnishing anvils and anchors of the largest size. Many of the anchors for Commodore Perry's squadron on Lake Erie, were made at this factory.

A Brass Foundry—Calculated for general castings, but more particularly for machinery and large bells, which will be warranted of the first quality.

A Bolt Hinge Factory—On a scale sufficiently large to supply any demand. It is also intended to supply small castings unannealed.

A Pattern Making Shop—and a Boring and Turning Shop—The lathes are driven by the force of steam and all orders in the different branches of turning iron, brass, wood, &c., will be executed with despatch.

They also carry on the business of Screw Making, and are prepared to furnish rolling and slitting mill, paper mill rollers, tobacco and mill stone screws, &c. &c.

Steam Engines—Are made by Thomas Copeland on Watt & Leslie's plan improved.

The Mississippi Steam Boat Company—also manufacture steam engines on Fulton's plan.

A Wire Factory—Propelled by steam, by Mr William Eichbaum Senr.

A Steam Flour Mill—owned by George Evans & Co., driving three pair of stones, and grinding about 60 000 bushels of grain annually.

A Steam Rolling and Slitting Mill—Owned by Messrs. Whiting & Co., also much nery for cutting and heading nails.

A Steam Paper Mill—owned by R. Patterson & Co., in which great qualities of excellent paper are made, and of all varieties.

A Steam Cotton Factory—Owned by Mr J. Jeffrey, on Watt & Bolton's plan.

A Steam Fulling Mill—Owned by James Arthurs. The company on an improved plan by a Son of Mr. Arthurs

Steam Boats—Four steam boats have been built here—the New Orleans, Vesuvius Etna and Buffalo, besides one lately launched and another on the stocks.

Air Foundries—Two large three cupolas in Pittsburgh and one Birmingham at which castings of every description, from a cannon to a spider are executed in connexion with the founder of Messrs. Mercer Clarke & McKnight is a tool for boring cannon.

Breweries—There are three large and extensive breweries, and one upon a smaller scale. They consume from 20 to 40 000 bushels of grain annually.

Lead Factories—Two white lead factories, by A. Beelen and James Stevenson, and a white and red lead factory by Trevor Pettigrew and Tressel, who also manufacture various colors &c.

Stirrup Iron and Brace Iron—These articles are manufactured extensively sufficiently to meet and to supply the demands of the Western country.

Saddlery—This business is carried on to a large amount, and the work is of the best quality, without doubt in no place can better saddles be made.

Brush Making—There are two brush factories, the one owned by Mr. Lynn, the other by George Bense. Large quantities of every description of brushes are made.

Rope Walks—There are three large and extensive rope walks, which make all kinds of rigging twine and cordage. The rope walk on the Commons for Perry's fleet was made here. Two cables weighed each, about 4000 lbs and were 4½ inches in diameter.

Glass—There are two with and three green glass houses. The amount annually manufactured is estimated at $200 000. Glass cutting is a new executed equal to any in Europe.

Woolens—George Cunningham, at the corner of Diamond alley and Liberty street, carries on the manufactory of woollen cloths, such as superfine broad cloths, cassimeres, satinets, &c.
