MR. EATON—Dear Sir: Having examined the "Accometer," manufactured at your rooms, I do not hesitate to commend it to the use of those gentlemen who are about removing to California in search of Gold.

It gives a close approximation to the specific gravity of metals, and enables the adventurer to ascertain when his placer is yielding Gold. Yours, resp'y, R. M. MCCUTCHEON.

York, although clear and pure to the eye, yet when it passes an hour through this filter, it leaves an hour through this filtering cock, shows a large deposit of animal substances, worms, &c. Thus impure substances, worms, &c. Thus is the case more or less with all hydrant water.
