GAZETTE OF THE UNION AND GOLDEN RULE.

The Gazette and Rule has now the support of the Order to an extent that we are delighted not only to deserve the approbation, but to send largely to our list of readers, and therefore we propose the following

NEW TERMS,

which are more liberal than have ever been offered by any newspaper devoted to Odd Fellowship.

We give, in Gazette and Rule, every year, EIGHT HUNDRED PAGES OF CHOICE READING, in a style that can be bound, thus forming a book which for a year makes more valuable. The character of the Gazette and Rule is too well known to need explanation here, and it is enough to remark that it contains, from time to time, the proceedings of the Grand Lodges of the New York and also of other States; accounts of Conventions, Institutions of New Lodges, and, in short, a Complete Directory of all the Lodges in the Union. Its

Literary Department

is filled with Original Tales of the highest excellence, by the most eminent writers in our country; Poetry; Tales; Choice Miscellany; the latest items of Poetry; from the Eastern Hemisphere; Sketches of Travel; Anecdotes, &c., &c.; and occasionally illustrated with

Beautiful Wood Engravings

Being equal in its Literary character to any Weekly Paper, and being thus perfect in its Odd Fellow-township department, it is worthy of a place in every table of every family of Odd Fellows, and indeed is suitable of every family who wish to keep fully informed of the work of our now glorious Order:

One copy, one year	$2 00
Two copies, one year	3 50
Seven copies, one year, each	1 50
Twenty copies, one year, each	20 00

Twenty copies will be sent to one address for $20, thus reducing it so that every lodge can get a first class paper cheaper than the cheapest local paper.

Read the Following.

The particular and especial attention of the brotherhood is desired to the following extract from a letter from that distinguished brother, James L. Ridgely, Grand Cor. and Rec. Secretary of the R. W. Grand Lodge of the United States, I. O. O. F.:

"The GOLDEN RULE is to me a most welcome visitor, and since it has fallen into your hands, I have witnessed its gradual and steady improvement with great pleasure. It is now become, in point of interest, by far the best periodical in our order; and I do trust, that a discerning and liberal Grand Brotherhood will, by a liberality worthy of your great Brotherhood, not only more to augment its great excellence, enable you still more to augment its usefulness to the Order at large. With great respect your friend and brother, JAS. L. RIDGELY."

Opinions of Members of G. L. of U. States.

Believing that the interests of the I. O. of O. F. as well as of society at large, will be most effectually promulgation of its principles, we would earnestly recommend to our brethren the GAZETTE OF THE UNION AND GOLDEN RULE, as now conducted by CRAMPTON & CLARKE, as a valuable medium for the exposition of the designs of Odd-Fellowship, and as worthy the cordial support of the Order.

OFFICE PITTSBURGH GAZETTE, Saturday morning, February 9, 1850.

We have nothing new to notice in the market. During Thursday night we had considerable rain in this vicinity, and the weather yesterday, was warm and cloudy, with strong indications of more rain.

The market was generally quiet, and nothing transpired showing any variation in prices.

FLOUR—The demand being entirely for the regular home consumption, no sales are transacting from store except by regular dray load lots, which range from $4,62 to $4,75 ₱ bbl. Receipts have been light, and we hear of no sales worth reporting, from first hands.

RYE FLOUR—The market is nearly bare, and best brands are held at $4,12½@4,18 ₱ bbl, with sales in small lots to bakers.

CORN MEAL—With light supplies in the market, we may quote nominally, at $2,25@2,37 ₱ bbl.

BUCKWHEAT FLOUR—The market if anything is dullerr-sales from store at $1,60@1,70 ₱ 100 lbs.

PROVISIONS—Every thing under this head remains quiet, with no change from last quotations.

BUTTER—Very little is arriving of late, and we notice only a moderate inquiry in the market. We may quote best roll at 12@14c, and keg butter at 8@9c ₱ pound.

CHEESE—We note sales of W R Cheese, in lots of 20 to 30 boxes, at 6@6½c, of cream at 6@7c, and of Goshen at 7½c ₱ ℔.

CRACKERS—A regular business is doing at the following quoted rates:

Water Crackers, per bbl	$3,75
Butter do "	4,50
Dyspepic do "	3,75
Pilot Bread, "	3,25
Sugar Crackers, per lb	7
Soda do "	7

ALTERED NOTES—The Buffalo Commercial says, quite a large number of $1 bills of the Pratt Bank, of that city, have been altered so adroitly by some scamp, as to pass current for $5's. The bill is altered by cutting out, in some instances, the "One Dollar," and substituting from some wild cat bank, the words "Five Dollars." In other instances the pasting operation is performed very neatly, without removing any portion of the bill. The figure 5, at the right hand corner is in some of the bills, pasted over the figure 1. In others, a dye, corresponding with the genuine, appears to have been used. The fraud can readily be detected by observing the vignette.

EXPORT OF FLOUR—The following table shows the destination of Flour exported from the United States, for the fiscal years 1847, 1848, and 1849:

PITTSBURGH SCRIP.—We notice sales in Philadelphia, on the 4th inst, of $1000 Pitts 6's, coup, at 90c, and $1000 Pitts 6's, 1853, at 89½c.

STEAM FOAT ACCIDENT.—The steamer Pocahontas, Capt. Moore, from New Orleans to this city, struck a bar on Morgan's Bend, on the 19th inst, which broke a hole in her bottom, and caused her to ship near two feet of water. She was immediately ran to opposite the mouth of Red river, where she discharged her cargo, and started back for New Orleans. It was nearly all reshipped on board the steamers Storm King, Hinton, John Hancock, and Iowa. A quantity of sugar and molasses, was considerably damaged by being wet.—[St. Louis Bulletin, Jan. 31.

Explosion & Burning of the St. Joseph.

The Cincinnati Commercial gives the following further particulars of the loss of this well fated steamer:

"According to the statement of eighteen or twenty passengers on the South America, the explosion of the boilers of the St. Joseph occurred when she was under way, and had been running nearly side by side with the South America for about an hour. This is an unusual occurrence, all previous explosions, so far as we know, occurring immediately after the engine was put in motion, after the boat is loosed from her mooring—But as this matter may undergo a legal investigation, we will refrain from any further remarks on this subject. In regard to the conduct of the officers and crew of the South America, the statement represents them as having not only acted nobly, but in their efforts to save lives and property, risked their own boat, and the lives of persons under their care, to a degree which many might think temerity. Immediately after the explosion on the St. Joseph, the boat took fire, and the South America backed under her stern, and, according to the statement of the passengers referred to, both officers and crew exerted themselves to the utmost, and was the means of saving a large number of lives. The St Joseph being entirely unmanageable, in flames, and drifting in the middle of the river direct for the South America, a line was made fast to her and she was towed to shore, where she sank. During this time, part of the crew of the S. A. boarded the St. Joseph, and succeeded in so far warning that there might be powder on board, and secured a safe containing some $1,000, which was counted in the presence of the clerk of the St. Joseph, who the next day demanded the money, which was refused. The clerk of the South America proposed to deposit the money in the bank of Pittsburgh, alleging that it being in his possession, he would be held responsible in case of dispute. At the same time the captain of the South America offered to give up the money, on the loss of $100 or $500, which was refused. On the arrival of the former boat at Memphis, the money was deposited in the Memphis Bank, which has nearly settled how much of it Capt Logan, of the South America is entitled to as salvage. The loss of the South America is a serious matter, and no doubt will be speedily settled by law, which we believe allows salvage, on property saved from a wreck."

Deafness Cured.

From the New York Tribune.

A FRIEND, one word is most reliable, and who has no possible interest in the matter, but one of gratitude, desires us to say, that he has been cured of deafness by the use of "Scarpa's Celebrated Acoustic Oil," a Philadelphia medicine, which is now for sale in this city, but we know not where. He has a sister who has been cured by it. He urgently advises all who are suffering from deafness, to try this remedy, with an assurance that, unless the case be extraordinary, the experiment will prove abundantly successful.

LOCAL MATTERS.

REPORTED FOR THE PITTSBURGH DAILY GAZETTE

THE WEATHER.—Yesterday was one of the gloomiest days we have had for a long time.

Mr. Thomas McElrath, of the New York Tribune, is now on a visit to our city. We are happy to see, by a notice in another column, that this gentleman has been elected President of the Chartier's Coal Company.

DISTRICT COURT.—Before Hon. Hopewell Hepburn, Justice.

Robert Skiles vs Robert Dunlap. This was an action of slander. The jury returned with a verdict of 6¼ for plaintiff, defendant to pay the costs.

Valentine Specht vs Lewis B. Mider. Action of trespass. The jury will return a verdict this morning.

QUARTER SESSIONS.—The Court of Quarter Sessions will meet at ten o'clock this morning.

FINE PAINTING.—The "Intercepted Letter," a beautiful painting obtained by one of our citizens, at the recent drawing of the American Art Union, is now on exhibition at Mr. H. Bosworth's Book Store, where it may be seen for a few days. It reflects great credit on its talented artist, J. B. Flagg, Esq.

FINE LITHOGRAPH—MESSRS. Bout and Shuchman have laid upon our table a very fine lithograph of the Washington Euterpeans, a band of vocalists who recently performed here. The likenesses are very good, and, altogether, the Lithograph reflects great credit upon the draughtsmen.

ELECTION—At the annual meeting of the Guardians of the poor, the following Gentlemen were selected as officers for the ensuing year.

President—Hon. Harmar Denny.
Secretary and Agent—Jared M. Brush.
City Physician—Dr. Robert Snyder.
Superintendent at Farm—Captain James Herriott.
Farm Physician—Dr. James Carothers.
Farm Committee—Messrs. Christy, Albree and Hartley.
Lot Committee—Messrs. Wray, Lightner, and Jones.
Building Committee—Messrs. Denny, Rowan, and McKelvy.
Finance Committee—Messrs. Friend, Howard, and Potter.

The landlord of a grog shop on Second street, was fined $5 by the Mayor, the night before last, for abusing a man who had become helplessly drunk in his house. The man, it appeared, had been kicked out into the gutter.

We learn that some rascals have been prowling around the Perry House for the last two or three nights. Two gentlemen, boarders at the house, have been attacked by them, and other circumstances appear to indicate evil intentions. The Mayor placed an extra policeman in the neighborhood last night.

DIRTY ICE.—We are informed that men are engaged in taking ice out of a stinking, stagnant pond, in the neighborhood of the upper Allegheny Bridge, for the purpose of packing in an ice house.

FUN AHEAD.—Signor Blitz is en route for Pittsburgh.

GRANT STREET.—The Street Commissioners had been busy at work yesterday, in washing the mud off Grant Street, a cleansing operation which it much needed.

MAYOR'S OFFICE.

ALLEGHENY, Feb. 8.

A huckster was brought before the Mayor yesterday, charged with buying provisions during market hours, to sell again. He was fined five dollars and costs.

Two men charged with drunkenness were sent to the bill in default of bail.

Two young men accused of disorderly conduct, were fined two dollars and costs, which they paid. Another charged with the same offence, being unable to plank down the rhino, was sent to jail, to board out his fine.

MAYOR'S OFFICE.

Pittsburgh, Feb. 8.

There were nine cases from the tombs disposed of this morning.

During the day a man named Dunn was held to bail for his appearance in Court, on the charge of assault and battery upon a boy named Wilson. From the appearance of Dunn's face, however, we should judge that the other was chargeable with the battery, from whatever quarter the assault may have proceeded.

COAL WORKS FOR SALE.

THIS property lies at the upper end of Limestone—a short distance below the mouth of Mingo Creek. The rail road and the necessary buildings are all in good order. The Pit opens within 25 yards of the river, and the inclination from it is just sufficient to put it in good order. The water at the landing is good—permitting boats to be loaded at all seasons; and the mouth of Mingo is short distance above, affording a safe harbor to protect them from the floods and ice of winter. The Tract connected with these works consists of 200 Acres Coal, lying in the neck of land between Mingo Creek and the Monongahela. All things considered, this property combines, perhaps, as many advantages, and holds out as fine inducements to the capitalist, as any on the river. The entire tract is offered for sale; but to suit purchasers, a portion may be reserved. For further particulars and terms very easy, inquire of

Judd's Medicated Liquid Cuticle.

THIS is undoubtedly the best preparation ever discovered, for dressing Burns, Bruises, Cuts, Chilblains, Broiles, or any kind of fresh wounds, also for sore Nipples a remedy unequaled.

This article is intended for family use, and should be found in the possession of every family in the land. Mechanics who are in constant danger of injury to themselves through accidents, and the liability of their persons through neglect, will find this article to be invaluable to them, and after a fair trial will consider it indispensable.

It is an excellent substitute for adhesive plaster of all kinds, without any of its inconveniences, and most medicated as to allay all pain immediately and most speedily.

A very little applied any where on the surface of the skin, immediately forms a firm, smooth coating, very similar to the natural cuticle or outer skin; which may be freely washed with water and soap, without any injury to the wound.

The article is freely used and highly recommended by the most eminent physicians of New England, and other parts of the country.

For sale only by H. SELLERS, 57 Wood st.

☞ N. B.—The trade supplied at the manufacturer's price. feb4
