PATENT SELF-SHARPENING
YANKEE FEED CUTTERS, manufactured for ALDRICH & SARGENT, No. 410 Market street, Philadelphia.

This cutter is superior to any now in use, for simplicity, durability, and simplicity of construction; it cuts fast, and is the only self-sharpening Hay, Straw and Corn Stalk Cutter ever made. It has but ONE STRAIGHT KNIFE, which any person can grind, and set in motion, but in ordinary case, is ground in the machine. Thousands have already been sold, and the demand is daily increasing. In most cases an examination is sufficient to convince one of its superiority. No one after a short trial would part with it for any other. All sizes of the above constantly on hand and for sale by

TO FARMERS & GARDENERS,
THE LODI MANUFACTURING COMPANY

offer for sale 40,000 barrels of their

NEW AND IMPROVED POUDRETTE,

(Manufactured from the night-soil of New York City,) in lots to suit purchasers

This article (greatly improved within the last two years) has been to the market for eighteen years, and still defies competition, as a manure for corn or garden vegetables being cheaper and more powerful than any other, and at the same time free from disagreeable odor. Two barrels will manure an acre of corn in the hill, will save two-thirds in labor, will cause it to come up quickerto grow faster, ripen earlier, and will bring a larger crop on poor ground than any other fertilizer, and is also a preventative of the cut-worm; also, it does not injure the seed to be put in contact with it.

The L. M. Co. point to their long standing reputation, and the large capital ($100,000) invested in their business, as a guarantee that the article they make shall always be of such quality as to command a ready sale.

Price in Philadelphia as follows:

One barrel to 5 bbls,	$2 00
Five " to " 10 "	1 87½
and for the trade,	$1 75 per barrel for any quantity over 10 barrels.

A pamphlet containing every information will be sent (free) to any one applying for the same.

Orders are requested early in advance, to avoid disappointment. Address,
