

REPUBLICAN STATE TICKET.

FOR GOVERNOR:

Maj. Gen. JOHN F. HARTRANFT, Montgomery County.

FOR SUPREME JUDGE:

on. ULYSSES MERCUR, Bradford County.

FOR AUDITOR GENERAL:

Brig. Gen. HARRISON ALLEN, Warren County.

CONGRESSMEN AT LARGE:

General LEMUEL TODD, Cumberland County. General HARRY WHITE, Indiana County.

The Campaign.

For some time past the columns of the ADVOCATE have been almost exclusively devoted to necessary legal advertisements; that time however is passed, and we now turn our attention in another direction.

The quadrennial canvass, affecting not merely a single, or particular section of our country, but the whole nation; all sections are alike interested in the exciting work of selecting from among the people the man who shall stand at the helm of State for four years to come.

Every citizen of this, the greatest of the Republics of history, (with the exception of some six or seven hundred unarmisted rebels) is concerned in this work.

Already are the partisans of the parties manly marshalling their forces; preparations for the conflict are making, and presently we shall find ourselves in a whirl of political excitement equal if not greater than that of "hard cider" and "log cabin" renown.

No less than five candidates are now before the people, to wit: Judge Davis, of Indiana, Labor-reform candidate. Horace Greeley, Ph. D., of New York, sore-headed Republican and Democratic revivalist candidate. Mrs. Victoria Woodhull, the championess of all that is ignoble in woman, the advocate of adultery in its worst form, who has as much regard for the sacred relationship of husband and wife, parent and child as she has for a spider's life. Charles Francis Adams the nominee of the Anti Secret Society party, and General U. S. Grant the nominee of the National Workingmen's Convention, also of the great National Republican party by the Philadelphia Convention on the 6th inst.

The ADVOCATE has about concluded to take some part in this matter and to do this we have been looking over the list of candidates thus far presented to find our man or woman (as there is one female among them) but our woman we could not see, she ain't thar, but our man we had no trouble in finding, that man is General U. S. Grant. Most heartily do we endorse him, and most cheerfully will we advocate his claim upon the American people according to the best of our humble ability, endeavoring to keep in sight at least of the truth of history in discussing the issues of the day.

Let it be understood then by all concerned that hereafter we shall talk a good deal about Gen. Grant, and may be an occasional word about some other man or man.

The Press says that it has been assured by members of the Indiana delegation that the failure to nominate Colfax will make no difference in that State. It will be carried by a handsome majority, and Mr. Colfax himself will take the stump and canvass Indiana for the success of the ticket.

Greeley, in a speech nearly eighteen months ago, said, "While asserting the right of every Republican to his untrammelled choice of a candidate for president, until a nomination is made, I venture to suggest that General Grant will be better qualified for that momentous trust in 1872 than he was in 1868." The people intend to give Mr. Greeley the full benefit of this truth.

THE FIRST ENDORSEMENT OF GRANT.—Oregon is the first State which sends greeting to her sister States and records a glorious triumph of the Republican ticket. An election was held on the 4th instant, for Governor, members of the State Legislature and a Representative in Congress. At the last election, two years ago, the Democrats, carried the State, electing a Governor, Congressman, and a majority in both branches of the Legislature. The newly elected Legislature will have to choose a United States Senator in place of Senator Corbett, Republican, whose term expires with the present Congress. —[Harrisburg Telegraph.

The News.

The population of Rome is 244,490. Total valuation of Cincinnati, about \$189,000,000.

Charles Lever, the distinguished Irish novelist is dead.

Cleveland's superfluous dogs are made up into glue.

The savages are unjustly styled ignorant, for any healthy Indian is a well red man.

Iowa has two thousand square miles of coal fields.

A great fire is raging in Bear Swamp, near Trenton, N. J. The loss thus far is \$20,000.

California is gathering her wheat crop her season being a month earlier than ours. The crop is said to be the largest ever gathered in that State.

There is less crime in Alaska, according to its population, than in any other portion of the globe. Whale's blubber is not an exciting dish.

Charles H. Staples, aged 18, has been arrested and held in \$6,000 bail, charged with kindling the forest fires which, six weeks ago, caused great damage in Franklin and Medway counties, Mass.

Nashville, Tenn., June 7.—The Labor Reform Executive Committee yesterday agreed upon a State ticket, with John C. Brown for Governor and Andrew Johnson Congressman at large.

Toledo, O., June 8.—A furious storm of wind and rain passed over this city at five o'clock last evening, lasting twenty minutes and causing much damage to property and the loss of several lives.

Father Cleveland died in Boston on Wednesday, June 5th. He was born in Salem, June 21, 1772, and lacked sixteen days of completing a century of life.

The President has approved the bill authorizing the Secretary of War to make certain appointments in the quartermaster's office, thus removing the trouble heretofore existing on that subject.

There are seventy-five Democratic newspapers in the State of Illinois. Forty-six of them have announced their determination to support the Cincinnati ticket, and twenty-five have promised to abide the decision of the Baltimore convention.

The maximum money value of human life has determined by an act of the Ohio Legislature fixing \$10,000 as the largest sum that may be demanded from the railway company for killing anybody.

In Chicago it is estimated that there are 10,000 carpenters, 8,000 bricklayers, 2,000 plasterers, 2,000 painters, 3,000 stone cutters, and more are constantly arriving. The wages are for carpenters an average of \$3 25 and bricklayers \$5.

It is said that never before has Florida such an influx of northern visitors as during the past season. It is estimated that 15,000 strangers have visited Jacksonville alone within the last six months.

The land owners and manufacturers of mid-England have been thrown into ecstasies by the recent discoveries of new coal fields of sufficient magnitude to put the question of coal supply at rest for a long time to come.

Portland, Me., June 8.—An explosion occurred in the attic of the United States hotel yesterday morning, setting fire to the building. The roof was burned through and the house drenched with water. The furniture and fixtures are damaged to the extent of 15,000. Damage to building, \$8,000; all fully insured. The cause of the explosion is unknown.

A large and formidable organization of pirates has been discovered, whose places of rendezvous and field of operations are along the Mississippi between St. Louis and Dubuque. It is estimated that over \$50,000 worth of property has been stolen by them since the opening of navigation. Some of the party, one of whom is supposed to be the chief, have been arrested at a secluded house on an island near St. Louis.

The great fires that have raged during the past spring in New York, New Jersey and Pennsylvania have consumed vast quantities of valuable timber, of which only an approximate value can be ascertained. In Centre and Clearfield counties, Pa., the estimate of loss is \$500,000, and this principally on standing timber. Other sections have suffered quite as severely, and it has been estimated that in the three States mentioned above the loss cannot fall far short of five millions of dollars.

The fearful increase of crime within the past few months in the city of New York has had the effect of rousing the people to a determination to take the severest measures for its crushing out. It is suggested that in addition to imprisonment the worst criminals shall be subjected to the lash. Several years since, when garrotting became so epidemic in London, the punishment by whipping was revived, and effected at once what imprisonment had failed to do. The crime ceased almost immediately.

The famine in Persia, which now seems to be drawing near its close, has been productive of an amount of misery almost unparalleled in modern times. Captain Piers, an Englishman who has recently traveled in that unhappy country, describes the last stage of the famine as worse than the first. On his journey from Shiraz to Teheran he found the road strewn with half-eaten corpses; cannibalism was very prevalent, and starvation had aroused the usually peaceable inhabitants to despair, and big game and other crimes of violence were rife all along the roads. In the capital alone, out of a population of eighty thousand, at least twenty thousand had fallen victims to the famine and its attendant diseases.

ONE MILLION OF LIVES SAVED.

It is one of the most remarkable facts of this remarkable age, not that so many persons are the victims of dyspepsia or indigestion, but its willing victims. Now, we would not be understood to say that any one regards dyspepsia with favor or feels disposed to rank it among the luxuries of life. Far from it. Those who have experienced its torments would scout such an idea. All dread it, and would gladly dispense with its preparation, or the laster, Mark Tapley, who was jolly under all the trying circumstances in which he was placed, never had an attack of dyspepsia, or his jollity would have speedily forsaken him.

At all the multifarious diseases to which the human system is liable, there is perhaps no one so generally prevalent as dyspepsia. There are diseases more acute and painful, and with more frequent provocation, but none the effects of which are so depressing to the mind and so positively distressing to the body. If there is a wretched being in the world it is

A CONFIRMED DYSPETIC. We have said that dyspepsia is perhaps the most universal of human diseases. This is emphatically the case in the United States. Whether this general prevalence is due to the character of the food, the method of its preparation, or the hasty manner in which it is usually swallowed, is not our province to explain. The great fact with which we are called to deal is this:

DYSPETIC PREVAILS almost universally. Nearly every other person you meet is a victim, an apparently willing one; were this not the case, why so many sufferers, when a certain, speedy and safe remedy is within their easy reach, all that they will wait themselves of it? But says a dyspeptic: What is this remedy? to which we reply: This great alleviator of human suffering is almost as widely known as the English language. It has alleviated the agonies of thousands, and is today carrying comfort and encouragement to thousands of others. This acknowledged panacea is none other than

DR. HOOFLAND'S GERMAN BITTERS. Would you know most of the merits of this wonderful preparation, that can be learned from the experience of others? Try it yourself, and when it has failed to fulfil the assurance of its efficacy given by the proprietor, then abandon faith in it.

LET IT BE REMEMBERED, first of all, that HOOFLAND'S GERMAN BITTERS is a pure vegetable.

They are composed wholly of the pure juice or vital principle of roots. This is not a mere assertion. The extracts from which they are compounded are prepared by one of the ablest of German chemists. Their effects can be beneficial only in all cases of the biliary system. Hoofland's German Bitters stand without an equal, acting promptly and vigorously upon the liver; they remove its torpidity and cause healthful secretion of bile—thereby supplying the stomach with the most indispensable elements of sound digestion in proper proportions.

They purify the blood, cleansing the vital fluid of all hurtful impurities and supplanting them with the elements of genuine healthfulness.

Now, there are certain classes of persons to whom extreme Bitters are not applicable, but who find it impossible to take them without positive discomfort. For such Dr. HOOFLAND'S GERMAN TONIC has been specially prepared. It is intended for use where a slight alcoholic stimulant is required in connection with the known Tonic properties of the pure German Bitters.

HOOFLAND'S TONIC acts with almost marvelous effect. It not only stimulates the flagging and wasting energies, but invigorates and permanently strengthens its action upon the Liver and Stomach through, perhaps less promptly than the Bitters, when the same quantity is taken, none the less certain. Indigestion, Biliouness, Physical or Nervous prostration, yield readily to its potent influence. It gives the invalid a new and stronger hold upon life, removes depression of spirit, and induces cheerful-ness. But Dr. Hoofland's benefactions to the human race are not confined to his celebrated GERMAN BITTERS, or his invaluable Tonic. He has prepared another medicine, which is rapidly winning its way to popular favor because of its intrinsic merits. This is HOOFLAND'S PODOPHYLLIN PILLS, a perfect substitute for mercury without any of mercury's evil qualities.

These wonderful Pills, which are intended to act upon the Liver, are mainly composed of Podophyllin, or the vital principle of the mandrake root. It is the medicinal virtues of this health-giving plant in a perfectly pure and highly concentrated form. The Podophyllin acts directly on the Liver, stimulating its functions and causing it to make its biliary secretions in regular and proper quantities. The injurious results which invariably follow the use of mercury is entirely avoided by their use. But it is not upon the Liver only that their powers are exerted. The extract of Mandrake contained in them is skillfully combined with four other extracts, one of which acts upon the stomach, one upon the urinary bowels, one upon the lower bowels, and another upon the griping pains common to all other purgatives.

Possessing these much desirable qualities the Podophyllin becomes invaluable as a FAMILY MEDICINE.

No household should be without them. They are, perfectly safe, require but two for an ordinary dose, are prompt and efficient in action, and when used in connection with Dr. Hoofland's German Bitters, or Tonic, may be regarded as certain specifics in all cases of Liver Complaint, Dyspepsia, or any of the disorders to which the system is ordinarily subject. The PODOPHYLLIN PILLS act upon the stomach and bowels, carrying off improper obstructions, while the Bitters or Tonic purify the blood, strengthen and invigorate the frame, give tone and appetite to the stomach, and thus build up the invalid anew.

Dr. Hoofland, having provided internal remedies for disease, has given the world one mainly for external application, in the wonderful preparation known as Dr. HOOFLAND'S GREEK OIL.

This Oil is a sovereign remedy for pains and aches of all kinds. Rheumatism, Neuralgia, Toothache, Chilblains, Sprains, Burns, Pain in the Back and Loins, Ringworms, etc., etc., all yield to its external application.

Taken internally, it is a cure for Heart-burns, Kidney Diseases, Sick Headaches, Colic, Dysentery, Cholera Morus, Cramps, Pains in the Stomach, Colds, Asthma, etc.

These remedies will be sent by express to any locality, upon application to the PRINCIPAL OFFICE, at the GERMAN MEDICINE STORE, No. 631 ARCH ST., PHILADELPHIA.

CHAS. M. EVANS, Proprietor. Formerly C. M. JACKSON & CO. These Remedies are for sale by Druggists, Storekeepers, and Medicine Dealers everywhere. vln24y1

A LECTURE To Young Men.

Just Published, in a Sealed Envelope, Price six cents. A Lecture on the Nature, Treatment, and Radical cure of spermatorrhoea, or seminal weakness, involuntary emissions, sexual debility, and impediments to Marriage generally; nervousness, consumption, epilepsy, and fits; mental and physical incapacity, resulting from self-abuse, etc. etc. By Robert J. Culverwell, M. D., author of the "Green Book" etc. Indisputably Lectured, clearly proves from his own experience that the awful consequences of self-abuse may be effectually removed without medicine, and without dangerous surgical operations, bougies, instruments, rings, or cordials, pointing out a mode of cure at once certain and effectual, and by which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and radically. THIS LECTURE WILL PROVE A BOON TO THOUSANDS AND THOUSANDS.

Sent, under seal, to any address, in a plain sealed envelope, on the receipt of six cents, or two postage stamps. Also, Dr. Culverwell's "Marriage Guide," price 25 cents. Address the Publishers, CHAS. J. C. KLINE & CO. 127 Bowery, New York. P. O. Box 4586. vln47y1

The Improved Gerard Oroid Gold Watches.

\$9.00 \$12.00 \$15.00 \$18.00. WE have recently brought our Oroid Gold metal to such perfection that it is difficult for the best judges to distinguish it from gold. The \$9 watches are with patent escapement movements; in appearance and for time equaling a gold one costing \$100. The \$12 are full jeweled patent lever, equal to \$150 gold watch. The \$15 are the same as the last but a finer finish, nickel movements, equal to one costing \$175. And the \$18 watches are of a fine finish with full jeweled American lever movement, equaling a gold one costing \$200.

They are all in hunting cases, gent's and ladies sizes, and guaranteed for time and wear by special certificate. Also elegant designs of gent's and ladies chains from \$1 to \$4, and jewelry of all kinds. Goods sent C. O. D.—Customers permitted to examine what they order before paying bill, on payment of express charges. When six watches are ordered at one time we will send an extra watch of the same quality free.

For further particulars send for circular. Address JAMES GERARD & CO., 85 Nassau Street, New York. P. O. Box 3,361 Nov. 30, 1872—vln87m6.
