MISCELLANEOUS.

BARNUM'S HOTEL,
NEW YORK,

Broadway, corner of Maiden Lane.

THIS favorite HOTEL, has been leased by the subscriber, and has been completely refitted in the most elegant manner. Large additions are now being made, which when completed, will make it the most extensive Hotel in New York. It is the determination of the proprietor, to make it equal, in every respect, to any other House in the United States. Its location is the most desirable and central in the city, being in the fashionable part of Broadway, convenient to all the public buildings, places of amusement, and business. Grateful for the liberal patronage received from his western friends, while at Cumberland, Md., and more recently at the Weddell House, Cleveland, Ohio, he respectfully solicits a renewal of their patronage, for his new establishment, at New York, and begs to assure them that every effort on his part shall be given to administer to their comfort and pleasure.

A. S. BARNUM.

Great American Mechanical Work.

D. Appleton & Co., New York, have in course of publication, in parts price twenty five cents each,

A DICTIONARY

Of Machines, Mechanics, Engine Work, and Engineering; designed for Practical Working Men, and those interested for the Engineering Profession.

EDITED BY OLIVER BYRNE.

THIS WORK is of large 8vo. size, has will contain two thousand pages, and upwards of ten thousand ILLUSTRATIONS. It will present working drawings and descriptions of the most important machines in the United States (which, independent of the results of American ingenuity, it will contain complete practical treatises on the Steam Engine, Locomotive, Steamboat, Mechanics, Machinery, Engine Work, and Engineering; with all that is useful in more than one thousand collars worth of folio volumes, magazines, and other books.

The great object of this publication is, to place before practical men and students such a number of theoretical and scientific knowledge, in a condensed form, as shall enable them to work to the best advantage, and to avoid those mistakes which they might otherwise commit. The amount of useful information thus brought together is almost beyond precedent in such works. Indeed, Lewis and Clark, any subject within the range which is treated with such clearness and precision, that even a man of the most ordinary capacity cannot fail of understanding it, and thus learning from it much which it is important for him to know.

The publishers are, in short, determined, regardless of cost, to make the work as complete as possible; and it is hoped every one desirous to obtain the work will procure it as issued in numbers, and thus encourage the enterprise.

The work will be issued in semi-monthly numbers, commencing in January, 1850, and will progress with great regularity.

The whole work will be published in 40 numbers, at 25 cents per number, and completed within the current year, 1850. A liberal discount will be made to agents.

Any one remitting the publishers $10 in advance, shall receive the work through the post office free of expense.

Opinions of the Press.

"To our numerous Manufacturers, Mechanics, Engineers, and Artisans, it will be a mine of wealth."—Scientific American.

"Young men, arm yourselves with its knowledge.—Wear with confidence recommend our readers to possess themselves of its numbers as fast as they appear."—American Artisan.

"We unhesitatingly commend the work to those engaged or interested in mechanical or scientific pursuits, as eminently worthy of their examination and patronage."—The Ploughman.

"It is truly a great work, and the publishers deserve the thanks of inventors, mechanics, and manufacturers and indeed of the public generally."—N. Y. Independent.

"This Dictionary will be highly useful to practical mechanics, and valuable to all who wish to be acquainted themselves with the progress of invention in the mechanic arts."—New Bedford Daily Mercury.

"Young mechanics—aspirants to keep pace in the universal as well as practical knowledge, and they must will use them just as the world."—Roxbury (Mass.) Advertiser.

"We know of no work of its kind that more and hundreds of our intelligent mechanics have delivered to possess. Its numerous descriptions, and so full and explanatory as to be perfectly intelligible to the meanest mechanic, must convert an unmechanical man into a good one."—N. Y. Commercial Advertiser.

"A 1st review in mechanics should avail themselves of its advantages."—Sunbury (Penn.) Journal.

"A work of extensive practical utility and great intrinsic value to the public, increasing interest in the prosperity of the country. We regard the work as eminently calculated to promote the advancement of science and the mechanical arts, and to impart very valuable information on those subjects."—Farmer and Mechanic.

"We cannot too highly recommend this work to all mechanical and manufacturing industry, engineering &c., will find in this work a treasure which it will be to their profit to possess."—Daily Whig.

"We have carefully perused the numbers, and have no hesitation in saying that it is the best work for the mechanic, tradesman, and scientific men, ever published. For it contains minute information on every branch of the mechanic arts and sciences, in a style and language intelligible to any reader of ordinary capacity."—Gloucester, (Mass.) News.

"We are sure we are doing the mechanics of Norwich and other parts of Connecticut a service by bringing the work to their knowledge."—Norwich, (Conn.) Courier.

"It is just such a work as every mechanic should possess."—Pennsylvania Journal.

"We consider it one of the most useful and important publications of the age. No mechanic can afford to be without it."—Newark, (N. J.) Commercial Courier.

"In all the various publications having for their object the enlightenment and advancement of the mechanic arts and sciences, none can we have seen, so far fall of promise as this."—Buffalo Com. Adv.

"It is the best and cheapest work ever offered to the scientific and practical engineer and mechanic. The plate are beautifully executed."—Washington Globe.

"This great Dictionary is one of the most useful works ever published for years, and the low price at which it is sold makes it acceptable to all."—South Carolinian.

"We regard it as one of the most comprehensive and valuable, as well as cheapest works ever published."—Baltimore Advertiser.

"Adapted to be taken by every one desiring to keep pace with the progress of art and science in every one of the branches of industry."—Hunter's Gazette.

"It is designed after the principle of Urie's Dictionary, only that it is more devoted to the mechanical and engineering professions, and will prove a valuable accompaniment for America which Urie has done for England."—Philadelphia Inquirer.

"Everything, American machinery and arts at all."—Scientific American.

"Its published in numbers, and at a price so moderate, that, taking its whole contents in each number, that one who has the least interest in such matters, need be deterred from procuring it, and every one who does so, will find that he has in a condensed form an amount of instruction which would be obtained, if at all, only by purchases of very many volumes."—Ex. Y. Gazette and Enquirer.

"The comprehensiveness with which the subjects are treated, the admirable manner in which they are illustrated, conspire to make this one of the most desirable works."—Democratic Review.

"Its work should be in the hands of every mechanic, art 1st, and manufacturer, especially those who have the real aspiration to excel in their respective callings. We have carefully examined it, with a view of recommending it to our readers. To them we say, say in the burning language of the Bible: 'Its good.'"—Baltimore Inventors' Journal.

Notice to the Proprietors of Newspapers throughout the United States and Canada.

If the foregoing advertisement is inserted five times during the year, and the paper containing it sent to us, a copy of the work will be sent gratis in payment.

M'ALLISTER'S OINTMENT,

Containing no Mercury, nor other Mineral.

THE following testimonial was given by the celebrated Dr. Wooster Beach, the author of the general medical work entitled "The American Practice of Medicine and Family Physician."

"Having been quite acquainted with the ingredients which compose McAllister's All-Healing Ointment and having prescribed it dedicated it in several cases in my private practice, I have no hesitation in saying or certifying that it is a Vegetable Remedy, containing no mineral substance whatever; that its ingredients combined as they are, and dared as directed by the Proprietor, are not only harmless, but of great value, being a truly scientific Remedy of great power and efficacy, recommend it as a compound which has done much good, and which is adapted to the care of a great variety of cases. Though I have never either recommended or engaged in the sale of secret medicines, regard for the truly honest, conscientious, liberal character of the Proprietor of this Ointment, and the value of his discovery, obliges me to say this much regarding it.

W. BEACH, D. D."

New York, April 22d, 1848.

BURNS—It is one of the best things in the world for Burns.

PILES.—Thousands are yearly cured by this Ointment. It never fails in giving relief.

For Tumors, Ulcers, and all kinds of Sores; it has no equal.

If Mothers and Nurses knew its value in cases of Swollen or Sore Breast, they would always apply it. In such cases it is used according to direction, it gives relief in a very few hours.

Around the box are directions for using McAllister's Ointment for Scrofula, Liver Complaint, Erysipelas, Tetter, Goilbais, Scald Head, Sore Eyes, Quinsy, Sore Throat, Bite Chiles, Nervous Affections, Pains, Disease of the Spine Head Ache, Asthma, Deafness, Ear Ache Bar Ache, all diseases of the Skin, Sore Lips, Pimples, &c., Swelling of the Limbs, Sores, Rheumatism, Piles, Cold Feet, Croup, Swelled or Broken Breast, Tooth Ache, Acne in the Face, &c.

From the Reading Eagle

There was never, perhaps, a Medicine brought before the public, that has in so short a time won such a reputation as McAllister's All-Healing or World Salve. Almost every person that has made trial of it speaks warmly in its praise. One has been cured by it of the most painful rheumatism, another of the piles, a third of a troublesome pain in the side, a few of a swelling in the limbs, &c. If it does not give immediate relief, in every case, it can do no injury, being applied outwardly.

As another evidence of the wonderful healing power possessed by this salve, we subjoin the following certificate, from a respectable citizen of Maidencreek township, in the county:

Maidencreek, Berks co., March 20, 1847.

Messrs. Riter & Co.—I desire to inform you that I was entirely cured of a severe pain in the back, by the use of McAllister's All-Heating Salve, which I purchased from you. I suffered with it for about 20 years, and at night was unable to sleep. During that time I tried various remedies, which were prescribed for me by physicians and other persons, without receiving any relief, and at last made trial of this Salve, with a result far beyond expectation. I am now entirely free from the pain, and enjoy at night a peaceful and sweet sleep. I have also used the Salve since for a burning harness of the Bible. "Its good."—Baltimore Inventors' Journal.

Notice to the Proprietors of Newspapers throughout the United States and Canada.

If the foregoing advertisement is inserted five times during the year, and the paper containing it sent to us, a copy of the work will be sent gratis in payment.

NEW STOCK OF PIANOS.

CHICKERING'S PIANOS.

John H. Mellor, 81 Wood Street, Pittsburgh, Sole Agent in Western Pennsylvania, for the sale of CHICKERING'S CELEBRATED

Grand and Square Piano Fortes.

Being in constant receipt of the musical public, that he has new invoices and will receive and expose for sale, during the present month, the largest and most desirable stock of Piano Fortes ever offered for sale in the west—among the number will be found a full supply of

Chickering's celebrated Rosewood Grand Piano Fortes, with all the recent improvements in mechanism and style of exterior.

Splendidly carved Rosewood seven octave Square Piano Fortes, finished in the Elizabethan and Louis XIV. styles.

With a large stock of all the various styles of Piano Fortes, varying in price from $175 to $1000. Prices, prepared by Mr. Chickering for the present year (1850).

Purchasers are assured that the prices of Mr. Chickering's Pianos have been, and will continue to be, the same as at the manufactory in Boston, without the expense for transportation; and will be delivered and set up in perfect order, in any part of the city, without charge.

mr9 JOHN D. JOYCE.

A CARD.

The undersigned beg leave to inform the public that they have declined business in favor of Mr. Joyce, who will continue at the old stand, corner of Wood and Fifth streets, and for whom he respectfully solicits a continuance of the liberal patronage heretofore bestowed upon the house.

JOHN D. JOYCE,
April 9th, 1850.

P. M. DAVIS,
(SUCCESSOR TO JOHN D. DAVIS,)
AUCTIONEER AND COMMISSION MERCHANT,

Will make sales, on liberal terms of Foreign and Domestic Merchandise, Real Estate, Stocks, &c., and hopes, by experience and close attention to business, to merit a continuance of the support and patronage so liberally extended to the former house.

April 9, 1850.

Notice to our Patrons.

RELIANCE PORTABLE BOAT LINE.

This concern of the undersigned, in Philadelphia, (the late firm of James M. Davis,) produces no interruption to the business—arrangements have been made which involve the same interests previously with those heretofore existed. The business is continued under the same firm, viz:

JAMES M. DAVIS & CO., Philadelphia;
JOHN M'FADIN & CO., Pittsburgh.

The continuance of the patronage of our many friends is respectfully solicited. If any persons have demands against the concern, they are requested to present them forthwith for payment.

JOHN M'FADEN,
Philadelphia, April 10, '50. Pittsburgh, April 10, '50.

PETROLEUM, OR ROCK OIL.

"There are more things between and earth Than are dreamed of in philosophy."

THE VIRTUES of this remarkable remedy and the constant application of it, to the principal ills and diseases for the benefit of the public.

The PETROLEUM is procured from a well in this county, at a depth of four hundred feet, in a pure, unadulterated article, without any chemical change, but just as flows from Nature's Great Laboratory. That it contains properties reaching a number of diseases, is no longer a matter of uncertainty. There are many things in the arcana of nature, which, if known, might be of vast usefulness in alleviating suffering, and restoring the bloom of health and vigor to many a sufferer. Long before the proprietor thought of putting it up in bottles, it had a reputation for the cure of disease. The constant and daily increasing calls for it, and several remarkable cures it has performed, is a sure indication of its future popularity and wide spread application in the cure of disease.

We do not wish to make a long parade of certificates, as we are conscious that the medicine can soon work its way into the favor of those who refer and wish to be healed. Whilst we do not claim for it a universal application in every disease, we unhesitatingly say, that in a number of Chronic Diseases it is universal. Among these may be enumerated—all diseases of the mucous tissues, such as CHRONIC BRONCHITIS, CONSUMPTION (in its early stage,) Asthma, and all diseases of the air passages, LIVER COMPLAINT, DYSPEPSIA, Diarrhoea, Diseases of the Bladder and Kidneys, Pains in the Back or Side, Nervous Diseases, Neuralgia, Gravel, rheumatic Pains, Gout, Erysipelas, Tetter, Ringworm, Burns, Scalds, Bruises, and Sores, &c., &c. In cases of debility resulting from exposure, or long and protracted cases of disease, this medicine will bring relief. It will act as a general TONIC and ALTERATIVE, in such cases, imparting tone and energy to the whole frame, removing obstructions, opening the sluggish functions, which cause disease and a broken constitution, and giving increased and renewed energy to all the organs of life! The proprietor knows of several cures of PILES, that resisted every other treatment, yet were under the use of the PETROLEUM for a short time. The proof can be given to any person who desires it. None genuine without the signature of the proprietor, held by the proprietor.

PETROLEUM, OR ROCK OIL.

"There are more things between and earth Than are dreamed of in philosophy."

THE VIRTUES of this remarkable remedy and the constant application of it, to the principal ills and diseases for the benefit of the public.

The PETROLEUM is procured from a well in this county, at a depth of four hundred feet, in a pure, unadulterated article, without any chemical change, but just as flows from Nature's Great Laboratory. That it contains properties reaching a number of diseases, is no longer a matter of uncertainty. There are many things in the arcana of nature, which, if known, might be of vast usefulness in alleviating suffering, and restoring the bloom of health and vigor to many a sufferer. Long before the proprietor thought of putting it up in bottles, it had a reputation for the cure of disease. The constant and daily increasing calls for it, and several remarkable cures it has performed, is a sure indication of its future popularity and wide spread application in the cure of disease.

We do not wish to make a long parade of certificates, as we are conscious that the medicine can soon work its way into the favor of those who refer and wish to be healed. Whilst we do not claim for it a universal application in every disease, we unhesitatingly say, that in a number of Chronic Diseases it is universal. Among these may be enumerated—all diseases of the mucous tissues, such as CHRONIC BRONCHITIS, CONSUMPTION (in its early stage,) Asthma, and all diseases of the air passages, LIVER COMPLAINT, DYSPEPSIA, Diarrhoea, Diseases of the Bladder and Kidneys, Pains in the Back or Side, Nervous Diseases, Neuralgia, Gravel, rheumatic Pains, Gout, Erysipelas, Tetter, Ringworm, Burns, Scalds, Bruises, and Sores, &c., &c. In cases of debility resulting from exposure, or long and protracted cases of disease, this medicine will bring relief. It will act as a general TONIC and ALTERATIVE, in such cases, imparting tone and energy to the whole frame, removing obstructions, opening the sluggish functions, which cause disease and a broken constitution, and giving increased and renewed energy to all the organs of life! The proprietor knows of several cures of PILES, that resisted every other treatment, yet were under the use of the PETROLEUM for a short time. The proof can be given to any person who desires it. None genuine without the signature of the proprietor, held by the proprietor.

S. M. KIER, Canal Basin, near Seventh st.

Agents: R. E. SELLERS, 59 Wood st and—KEYSER & MIDDWELL, 3 corner Wood st. sale Virgin alley; who are duly appointed Agents.
