DALLEY'S MAGICAL PAIN EXTRACTOR.—In all diseases inflammation more or less predominates—now to allay inflammation strikes at the root of disease—hence and immediate cure. Dalley's Magical Pain Extractor, and nothing else will allay inflammation at once, and make a certain cure.

DALLEY'S MAGICAL PAIN EXTRACTOR will cure the following among a great catalogue of diseases: Burns, Scalds, Cuts, Chafes, Sore Nipples, Corns, Bunions, Bruises, Strains, Bites, Poison, Chilblains, Piles, Scrofula, Ulcers, Fever Sores, Felons, Ear-ache, Piles, Sore Eyes, Gout, Swellings, Rheumatism, Scald Head, Salt Rheum, Baldness, Erysipelas, Ringworm, Barber Itch, Small Pox, Measles, Rash, &c., &c.

To sum it it may appear incredulous that so many diseases should be reached by one article; such an idea will vanish when reflection points to the fact, that the salve is a combination of ingredients, each and every one applying a perfect antidote to its opposite disorder.

Dalley's Magical Pain Extractor in its effects is magical, because the time is short between disease and a permanent cure; and it is an extractor, as it draws all disease out of the affected part, having nature as perfect as before the injury. It is scarcely necessary to say that no house, work shop, or manufactory should be one moment without it.

No Pain Extractor is genuine unless the box has upon it a steel plate engraving, with the name of Henry Dalley, Manufacturer.

For sale by all the Druggists, and patent medicine dealers throughout the United States and Canadas.

Though it may seem strange to many who have not seen it, yet there is no doubt of the fact, that Prof. Wood's Hair Restorative will change grey hair to its original color, and cause it to grow on heads entirely bald, and by a few applications keep it from falling off. There was a time when persons who had lost their hair were compelled to wear wigs or go bald, but since the advent of Prof. Wood's Tonic, there is no longer any necessity of wigs or grey hairs.

CAUTION.—Beware of worthless imitations, as several are already in the market, called by different names. Use none unless the words (Professor Wood's Hair Restorative. Depot St. Louis, Mo., and New York,) are blown in the bottle. Sold by all Druggists and Patent Medicine Dealers. Also by all Fancy and Toilet goods dealers in the United States and Canadas.

There is besides a great quantity of excellent yellow locust growing on the farm; some 1500 posts are ready to be cut; about twice the number required to place the entire property under post and rail fence.

The Farm lies in one of the loops of the Conodoguinet Creek, is bounded on one side by it, and has running water in several of the fields. It is within one mile from the Carlisle and Harrisburg Turnpike. The Bridges at Bryson's and Rupp's Mills, render it easy access at all times. It commands the best grain market in the county, being only one mile from the aforesaid Mills, three from Mechanicsburg and seven from Harrisburg.

The SOIL is of first rate quality, consisting of a rich BLACK SLATE, very easy to till, and exceedingly reliable and productive in its yield.

As a good and desirable Farm, the above property is worthy of the attention of those wishing to purchase.

Persons desiring to make further inquiry, will please address, or call on the undersigned, at his residence in Carlisle.

Carlisle, Aug. 10, 1859. Executor.

MASURY AND WHITON,
111 Fulton St., and 50 Ann St.,
NEW YORK,

Manufacturers of

WHITE LEAD, ZINC PAINTS AND COLORS, OILS, VARNISHES, &c.,

Importers of English, French and German Artists' Materials, fine colors in oil and water, Winsor & Newton's tube and cake colors, Brushes, Mathematical and Draughtsmen's Instruments, Drawing and Tracing Papers, Stereoscopes, Stereoscopic Views, &c.

The particular attention of Painters, Dealers and others, is called to the new patent method of putting up Lead and Zinc Paints in metallic Cans, of which Masury & Whiton are the sole proprietors.

These Cans are intended by the inventor to obviate the difficulty heretofore existing in putting up of Lead and Zinc in small kegs. All consumers of paint are aware that the loss on Lead and Zinc put up in small wooden packages, is from five to ten per cent., and in many cases much more, owing to the absorption of the oil, and the consequent hardening of the paint against the wood—to say nothing of the additional labor required to mix paint ready for use, after it has become hard in the keg. The loss of the keg, too, is a consideration which should not be lost sight of. The patent CAN not only obviates these difficulties, but in addition thereto furnishes the consumer with a strong and convenient paint pot, out of which to use the paint, which is alone worth more than the difference of cost between the can and keg.

The Cans are packed in saw dust, in strong cases or boxes, which cont
