BARNUM'S HOTEL,

NEW YORK,

Broadway, corner of Maiden Lane.

THIS old established HOTEL has been re-opened by the undersigned, and has been completely refitted throughout, and has been completely refitted in the most recent manner. Large additions are now in course of erection, which will make it the largest in the world, which, when completed, will be the most extensive Hotel in New York. It is a determination of the proprietor, to make it equal, in every respect, to any other House in the United States. Its location is the most desirable and central in the city, being in the fashionable part of Broadway, convenient to all the public buildings, places of amusement, and business. Merchants, while in Cincinnati, Old and more recently in the Western Cities, Cleveland and Detroit, have given the renewed patronage to the proprietor, which he will endeavor to merit in the future, as in the past, by every effort on his part that may tend to render them their comfort and pleasure on every occasion when in New York. B. BARNUM.

St. James Carey's Fluid Magnesia.

THIS article under the immediate care of the inventor is now manufactured for the world in thirty years. Their original is recommended in all cases, for its medicinal, subject-to-drug, and travel sick, mild, safe, and effectual form in which it is taken, and indeed the only one in which it can be taken. Enclosed prescribing a little preparation of the unparalleled consumer, and get out being little or no trouble. Sea sickness without injuring the stomach, or the bowels, and their constituents, and in all cases it acts as a pleasing aperient and is equally adapted to infants.

Prepared only by the inventor, and sold by all druggists and medical venders in the world.

Solution communications with one cent sale on each solution, and twelve, thirty cents for their enjoyment, and other sickness, and even Magnesia liquid, and fluid.

For sale by Champion, Part, Surgeon General to the Army of Ireland.

Dr. Mc Mullen—Sir—There can be no doubt that Magnesia prepared and administered more safely in the form of a concentrated solution than in substance, for this, and many other reasons, I am of opinion that the Fluid Magnesia is a very valuable addition to our Materia Medica. Yours, &c. PHILIP GRAMPTON.

Sir James Clark, Sir A. Cooper, Dr. Bright, and Messrs Guthrie and Herbert Mayo of London, strongly recommend Murray's Fluid Magnesia, as far in its purity, effects and convenient than the solid, and free from the cauger attending the constant use of solids or powders.

Prepared by the importer's and proprietor's agents, For sale by the agents, B A FAHNESTOCK & CO Cor. of Wood & Fourth sts.

Great American Mechanical Work.

D. Appleton & Co. New York, have in course of publication, in parts price twenty five cents each, a DICTIONARY

Of Machines, Mechanics Engine Work, and Engineering, designed for Practical Working Men, and those intended for the Engineering Profession

EDITED BY OLIVER BYRNE.

THIS WORK is of large 8vo size and will contain TWO THOUSAND PAGES, and upwards of six THOUSAND ILLUSTRATIONS. It will present working drawings and descriptions of the most important machines in the United States. Independent of the results of American ingenuity, it will contain complete practical treatises on Mechanics, Machinery, Engineering, with all that is useful in more than one thousand dollars worth of folio volumes, magazines and other Books.

The great object of this publication is, to place before practical men and students such a work as shall be unobtrusive and scientific knowledge, in a condensed form, as shall enable them to work to the best advantage, and to avoid those mistakes which they might otherwise commit. The amount of useful information has brought together is almost beyond precedent in such works. Indeed, there is hardly any subject within its range which is not treated with such clearness and precision, that even a man of the most ordinary capacity can fall of understanding it, and use learning from it much which it is important for him to know.

The publishers are, in short, determined, regardless of cost, to make the work as complete as possible; and in hope every one desirous of obtaining the best work recent in its issued in numbers, and thus encouraging enterprise.

The work will be issued in semi-monthly numbers commencing in January, 1850, and will progress with great regularity.

The whole work will be published in 40 numbers at 25 cents per number, and completed within the current year, 1850. A liberal discount will be made to agents.

Any one remitting the publishers $10 in advance, shall receive the work through the post office free of expense.

Opinions of the Press.

"To our numerous Manufacturers, Mechanics, Engineers, and Artisans, it will be a mine of wealth."—Providence (R. I.) Journal.

"Young men, arm yourselves with its knowledge."—We can with confidence recommend our readers to subscribe for this work, as it will be a library in itself."—American Artisan.

"We unhesitatingly commend the work to those engaged in or interesting in mechanical or scientific pursuits, as eminently worthy of their examination and study."—Troy (N. Y.) Budget.

"It is truly a great work, and the publishers deserve the thanks of inventors, mechanics, and manufacturers and indeed of the public generally."—N. Y. Independent.

"This Dictionary will be highly useful to practical mechanics, and valuable to all who wish to acquaint themselves with the progress of invention in the mechanic arts."—New Bedford Daily Mercury.

"Long mechanics—right to keep posted up in the mechanical as well as practical knowledge, and this work will show them just how they stand."—Roxbury Mass. Advertiser.

"We take it to be just the work that scores and hundreds of our intelligent mechanics have desired to possess. No sample are its descriptions, are so full and minute its specifications, that it seems to us that any mechanic might construct and machine it described, one or a rough of other drawings and instructions."—N. Y. Commercial Advertiser.

"All interested in mechanics should avail themselves of its advantages."—Schuylkill, (Penna.) Journal.

"A work of extensive practical utility and great importance and value to the rapidly increasing manufacturers of the country. We regard the work as eminently calculated to promote the cause of science and the mechanical arts, and to disseminate valuable information on these subjects."—Farmer and Mechanic.

"Practical men in all the various walks of mechanical and manufacturing industry, engineering, &c., will find in this work a treasure which it will be to their interest to possess."—Daily Whig.

"We have carefully perused the numbers, and have no hesitation in saying that it is the best work for mechanics, tradesmen, and scientific men, ever published, for it contains minute information on every branch of the mechanical arts and sciences, expressed in a style and language intelligible to any reader of ordinary capacity."—Gloucester, (Mass.) News.

"We are sure we are doing the mechanics of Newark and other parts of Connecticut a service by urging the work to their attention."—Norwich, (Conn.) Courier.

"It is just such a work as every mechanic should possess."—Freeman's Journal.

"We consider it one of the most useful and important publications of the age. No mechanic can afford to be without it."—Newark, (N. J.) Commercial Country.

"Of all the various publications having for their object the elucidation and advancement of the arts and sciences, none that we have seen is so full of promise as this."—Buffalo Com. Adv.

"We have examined the specimen offered to the scientific and practical engineer and mechanic. The plates are beautifully executed."—Washington Union.

"This great Dictionary is one of the most useful works ever published for years, and the low price at which it is sold makes it acceptable to all."—Scientific American.

"We regard it as one of the most comprehensive and valuable, as well as cheapest works ever published."—Baltimore Advertiser.

"Ought to be taken by every one desiring to keep pace with the progress of art and science in every one of the labors of civilized life."—Rondout Courier.

"It is designed after the manner of the Encyclopedia, only that it is more devoted to the mechanical and engineering professions, and above all, it is a work cheaper than any other work of the kind. We have done for England, visit describing American machinery and arts of all."—Scientific American.

"This published in numbers, and at a price so moderate, looking at what is contained in it number, that no one who has the least interest in such matters, need be deterred from procuring it, and every one who need be, will find the best in a condensed form and amount of information which was before obtained, if at all, only by the purchase of very many volumes."—N. Y. Courier and Enquirer.

"The comprehensiveness with which the subjects are treated, the admirable manner in which they are illustrated, complete to make a work of the most decided utility."—Democratic Review.

"This work should be in the hands of every mechanic, artisan, and manufacturer, and we trust those who have the right aspirations to excel in their respective business, will have carefully examined the specimen and recommended it to their notice. To them we would say in the strong language of the Bible: "It is good."—Baltimore Inventors' Journal.

Notice to all Proprietors of Newspapers throughout the United States and Canada.

If the foregoing advertisement is inserted five times during the year, and the paper containing it sent to us, a copy of the work will be sent gratis in payment.

M'ALLISTER'S OINTMENT.

Containing no Mercury, nor other Mineral.

THE following testimonial was given by the celebrated Dr. Wooster Beach, the author of the great medical work entitled "The American Practice of Medicine and Family Physician."

"Having been made acquainted with the ingredients which compose McAllister's All-Healing Ointment, and having prescribed and tested it in several cases in my private practice, I have no hesitation in saying, in certifying that it is a Vegetable Remedy, containing no mineral substance whatever; that its ingredients combined as they are, and used as directed by the proprietor, are not only harmless, but of great value, being a truly scientific Remedy of great power, and that, cheerfully recommend it as a compound which has done much good, and which is adapted to the cure of a great variety of cases. Though I have never either recommended or engaged in the sale of secret medicines, regard for the truly honest conscientious, humane character of the proprietor, and a knowledge of the value of his discovery, oblige me to say this much regarding it. W. BEACH, D. D."

New York, April 22d, 1846.

BURNS.—It is one of the best things in the world for burns.

PILES.—Thousands are yearly cured by this Ointment. It never fails in giving relief.

For Tumors, Ulcers, and all kinds of Sores, it has no equal.

If Mothers and Nurses know its value in cases of Sore Throat, Sore Breast, they would always apply it, in such cases if used according to directions, it gives relief in a very few hours.

Around the box are directions for using McAllister's Ointment or Scrofula, Liver Complaints, Erysipelas, Tetter, Chilblain, Scald Head, Sore Eyes, Quincy, Sore Throat, Bronchites, Nervous Affections, Diseases of the spine, Head Ache, Asthma, Deafness, Ear Ache, Burns, Corns, all Diseases of the Skin, Sore Lips, Pimples, &c., Swelling of the Limbs, Sores, Rheumatism, Piles, Cold Feet, Croup, Swelled or Broken Breast, Tooth Ache, Ague in the Face, &c.

From the Reading Eagle.

There was never, perhaps, a Medicine brought before the public, that has in so short a time won such a reputation as McAllister's All-Healing or World Salve. Almost every person that has made trial of it speaks warmly in its praise. One has been cured by it of the most painful rheumatism, another of the piles, a third of a troublesome pain in the side, a fourth of a swelling in the limbs, &c. If it does not give immediate relief, in every case, it can do no injury, being applied outwardly.

"As another evidence of the wonderful healing power of possessed by this salve, we subjoin the following certificate, from a respectable citizen of Maidencreek township, in this county:

Maidencreek township, Berks co., March 30, 1847.

MESSRS. Ritter & Co.—I desire to inform you that I was entirely cured of a severe pain in the back, by the use of McAllister's All-Healing Salve, which I purchased from you. I suffered with it for about 20 years, and at night was unable to sleep. During that time I tried various remedies, which were prescribed for me by physicians and other persons, without receiving any relief, and at last made trial of this Salve, with a result favorable beyond expectation. I am now entirely free from the pain, and enjoy at night a peaceful and sweet sleep. I have also used the Salve since for tooth ache and other complaints, with similar happy results. Your friend, JAMES MCALLISTER,

Sole Proprietor of the above medicine.

Principal Office, No 26 North Third street, Philadelphia.

PRICE 25 CENTS PER BOX.

Valuable and extensive Water Power to let on favorable terms.

THE WABASH NAVIGATION COMPANY are now prepared to lease the Water Power at the Grand Rapids, to an amount sufficient to propel four hundred pairs of mill stones. The location is based upon a rock foundation, and the power can conveniently be applied on both sides of the river. The grain of the White River, as well as the Wabash, can be readily furnished at this point. While timber, iron ore, and coal, in the greatest abundance, and of superior quality, can be easily procured through the same country.

Texas—One hundred dollars per annum for a power sufficient to propel a single run of medium sized mill stones, for a period of fifteen years, with the right of renewal on the expiration of the lease, at a fair valuation of the power employed. The site of the mill or manufactory included, without further charge from the Company. By order of the Directors.

ABNER T. ELLIS President of the W. N. Co.

VINCENNES, Ia., May 9, 1850 my21:d2m

JULES HAZEL'S MEDICATED NYMPH SOAP.—The skin of many persons is disfigured with slight eruptions, as pimples, morphew, &c., and when this is merely a disease of the skin, as it is in nineteen cases out of every hundred, it is very easily removed. Jules Hazel's Nymph Soap is especially adapted to diseases of the skin, as it acts directly upon the minute pores which open on the surface, cleansing them from impurities, and by its balsamic properties healing and eradicating all eruptions, and rendering the darkest and roughest skin soft, fair, and blooming.

Persons who have been in the habit of using ordinary soap, will be astonished at its beautifying effect produced by the Nymph Soap, in imparting a delicate bloom, preventing the neck, face, or hands from chapping, allaying all irritations, and removing all cutaneous eruptions. It possesses an exquisite perfume, and is entirely devoid of all alkali or properties, rendering it the only article which can be used with safety and comfort in the nursery.

All those whose faces or necks are disfigured with pimples, blotches, tan, morphew, &c., should make trial of Jules Hazel's Nymph Soap, as the proprietor positively assures them, that its use will render the most discolored skin white, the roughest skin smooth, and the most diseased skin healthy, pure, and bloom ing.

Jules Hazel's Nymph Soap is the only article which will effectually remove the above effects in so short a time, and the only one which is at the same time all powerful and entirely harmless. Prepared only by JULES HAZEL, Perfumer and Chemist, 199 Chestnut street, Phila.

"The comprehensiveness with which the subjects are treated, the admirable manner in which they are illustrated, complete to make a work of the most decided utility."—Democratic Review.

"This work should be in the hands of every mechanic, artisan, and manufacturer, and we trust those who have the right aspirations to excel in their respective business, will have carefully examined the specimen and recommended it to their notice. To them we would say in the strong language of the Bible: "It is good."—Baltimore Inventors' Journal.

Pittsburgh Portable Boat Line.

1850.

FOR THE TRANSPORTATION OF FREIGHT TO AND FROM PITTSBURGH, PHILADELPHIA, BALTIMORE, NEW YORK, BOSTON, &c.

THOMAS BARNSLEY, } TAAFFE & O'CONNOR, Philadelphia. } Pittsburgh.

THE Line having now open, the proprietors of this long established Line are as usual at their old stands, receiving and forwarding Merchandise and Produce at the lowest rates, and with the promptness, certainty, and safety, peculiar to their system and mode of transportation, which invariably secures the lowest rates, and with the consequent delays and probability of damage.

Merchandise and Produce shipped easier west, and Bill of Lading forwarded free of charge for commission, advancing, or storage. Drafts on interest discounted, or advances made on the same, that of the owners is solely consulted when shipping their goods.

All communications to the following agents promptly attended to:

PROPRIETORS:
THOMAS BORBRIDGE,
No 278 Market street, Philadelphia.
TAAFFE & O'CONNOR,
Corner Penn and Wayne streets, Pittsburgh

AGENTS:
John McCullough & Co, 85 North st, Balt; P. B. Burt & Co, 25 Doane st, Boston; W. & J. T. Tapscott & Co, 86 South st, New York; James Wheelwright, Cincinnati.

BINGHAM'S TRANSPORTATION LINE,

1850.

Between Pittsburgh and Eastern Cities.

The Canal being now open, we are ready to receive and forward promptly, produce and merchandize east and west.

Freights always at lowest rates, charged by responsible house.

Produce and merchandize will be received and forwarded free of charge for commission, storage, or advancing freight, commission or storage.

Bills of lading forwarded, and all directions faithfully attended to

HARNDEN & CO's

Passenger and Remittance Office.

HARNDEN & CO. continue to bring persons from any part of England, Ireland, Scotland or Wales, upon the most liberal terms, with their usual punctuality and attention to the wants and comfort of emigrants. We do not allow our passengers to be robbed by the swindling scamps that infest the seaports, as we take charge of them the moment they report themselves, and see to their well being, and despatch them without any detention by the first ships.—We say this fearlessly, as we defy one of our passengers to show that they were detained 48 hours by us in Liverpool, whilst thousands of others were detained months, until they could be sent in some old rush, at a cheap rate, which too frequently proved their coffins.

We intend to perform our contracts honorably, cost what it may, and not act as was the case last season, with other officers,—who either performed not all, or when it suited their convenience.

Drafts drawn at Pittsburgh for any sum from £1 to £100, payable at any of the provincial Banks in Ireland, England, Scotland and Wales.

JOSHUA ROBINSON,
European and General Agent,
Fifth street, one door below Wood.

UNION LINE,

ON THE PENN'A AND OHIO CANALS.
