BARNUM'S HOTEL,

NEW YORK,

Broadway, corner of Maiden Lane.

THIS extensive HOTEL has been leased by the subscriber, and has been completely refitted in the most elegant manner. Large editions are now become public, which, when completed, will make it the most extensive Hotel in New York. It is the determination of the proprietor, to make it equal, in every respect, to any other House in the United States. Its location is the most desirable and central in the city, being in the fashionable part of Broadway, convenient to all the public buildings, places of amusement, and business. Grateful for the liberal patronage received from his previous friends, while at Cumberland, Md., and more recently at the Woodhull House, Cleveland, Ohio, respectfully solicits a renewal of their patronage in his new establishment, at New York, and he pledges to administer to their comfort and pleasure.

New York, March, 1850.—[may29]

A FORTUNE FOR 410 or 40

BRITANNIA SPRING PORTRAIT CLUB, Manchester, Plymouth, England. The managers beg to acquaint their numerous patrons that the next Distribution of Portraits of Great Houses, and National Rarity Prizes, for forthcoming Spring, intended to amount each place, first class member £10; second class £5. Partly equivalent to the accompanied shares is necessary. A party subscribing for more than one share has the chance of gaining an equal number of prizes. The money has arrived the various Portraits will be presented with an follows:

Portrait of Winner, or First Horse	1st class subscriber £20,000	2d ditto £10,000
	Second Horse	10,000	5,000
	Third Horse	6,000	4,000
Divided among Winners		4,000	3,000
	Non-Starters	6,000	3,000

There are 200 bonuses in each class, that being the number intended to be ever nearly for the race. The Drawing will be conducted upon the same legitimate principles as those which characterized the late Sir Lloyd Lodger and other proceedings. Full particulars of the result will be sent to absent members immediately after the decision, that each may know his position.

Subscribers registered and remit forwarded on receipt of remittance. Bills of Exchange, Drafts, Bank Notes, &c., addressed and made payable to the Managing Directors. J. JAMES & CO.

Five per cent. commission to be reduced on the presentation of honours.

Sir James Murray's Fluid Magnesia.

PREPARED under the immediate care of the Inventor and chemist, Dublin, and upwards of thirty years in extensive use in Ireland, in recommendation in all cases of gout, rheumatism, indigestion, heartburn, and gravel, Magnesia taken in water, and effectual form is much easier to take, and indeed the only one in which it ought to be administered, possessing all the properties of Magnesia in general use, without being liable to form dangerous concretions in the bowels, especially those heartburn without injuring the coats of the stomach, as soda, potash, and their compounds are known to do, it prevents the food of infants turning sour, in all cases it acts as a gentle aperient, and is peculiarly adapted to females.

Sir Humphrey Davy testified that this and other soluble combinations with uric acid and urine forms gout and gravel, thereby counteracting their injurious tendency, where other alkalies, and even Magnesia itself, had failed.

From Sir Philip Crampton, Bart., Surgeon General to the Army in Ireland:—

"Dear Sir—There can be no doubt that Magnesia may be administered more safely in the form of a concentrated solution than in substance, for this, and other reasons, I am of opinion that the Fluid Magnesia is a very valuable addition to our Materia Medica. PHILIP CRAMPTON."

Sir James Clarke, Sir A. Cooper, Dr. Bright, and Messrs Guthrie and Herbert Stepp, of London, strongly recommend Murray's Fluid Magnesia, as being the most safe and convenient than the solid, and free from the danger attending the constant use of soda or potash.

For sale by the importer's and proprietor's agents,

Great American Mechanical Work.

D. Appleton & Co., New York, have in course of publication, in parts, price twenty five cents each,

A DICTIONARY

Of Machines, Mechanics, Engine Work, and Engineering; designed for Practical Working Men, and those intended for the Engineering Profession.

EDITED BY CURVEN STATE.

THIS WORK is of large five size, and will contain TWO THOUSAND PAGES, and upwards of SIX THOUSAND ILLUSTRATIONS. It will present working drawings and descriptions of the most important machines in the United States. Independent of the results of American ingenuity, it will contain complete practical treatises on Mechanics, Machinery, Engine-work, and Engineering; with all matter useful in more than one thousand dollars worth of four volumes, imagines, and other books.

The great object of this publication is, to place before practical men and students such an amount of theoretical and scientific knowledge, in a condensed form, as shall enable them to work to the best advantage, and to avoid those mistakes which they might otherwise commit. The amount of useful information such work, indeed, there is hardly any subject or branch of which is not treated with such clearness and precision, that even a man of the most ordinary capacity cannot fail of understanding it, and thus learning from it much which it is important for him to know.

The publishers are, in short, determined, regardless of cost, to make the work as complete as possible, and it is hoped every one desirous of obtaining a work of the kind will lose no time in forwarding his name, as the number will be limited, and this encourage the enterprise.

The work will be issued in semi-monthly numbers, commencing in January, 1850, and will progress with (from regularity.

The whole work will be published in 40 numbers, at 25 cents per number, and completed in the present year, 1850. A liberal discount will be made to agents.

Any one remitting the publishers $10 in advance, shall receive the work through the post office free of expense.

Opinions of the Press.

"To our numerous Gas Manufacturers, Mechanics, Engineers, and Architects, it will be a boon of wealth."—Philadelphia Journal.

"Young men, aim yourselves with its knowledge—we can with a confidence recommend it to our readers as a repository of useful matter."—Scientific American.

"We cannot hesitatingly commend the work to those engaged in or interested in mechanical or scientific pursuits, as eminently worthy of their examination and study."—Troy, (N. Y.) Budget.

"A truly practical work, and the publishers deserve the thanks of inventors, mechanics, and the public generally."—N. Y. Independent.

"This Dictionary will be highly useful to practical mechanics, and valuable to all who wish to acquaint themselves with the progress of invention in the mechanic arts."—New Bedford Daily Mercury.

"Young mechanics ought to keep poring up in the work, it will be a great aid to knowledge, and it will show them just how they stand."—Roxbury Advertiser.

"We take it to be just the work that scores and hundreds of our intelligent mechanics have desired to possess. Its ample size, its descriptions, and its full and mature its specifications, that it seems to us that any mechanic might construct any machine it describes, on the strength of its engravings and instructions."—N. Y. Commercial Advertiser.

"All interested in mechanics should avail themselves of its advantageous."—Schuylkill, (Penn.) Journal.

"A work of extreme practical utility and great importance and value to the rapidly increasing interests of the country. We regard the work as eminently valuable and to promote the cause of science and the arts."—Boston Courier.

"Publications having for their object the spread of useful and advancement of the mechanic arts, are of the most beneficial tendency, and we have seen no work more well adapted to the purpose than this."—Buffalo Com. Adv.

"Practical men in all the varied walks of mechanical and manufacturing industry, engineering, &c., will find in this work a treasure which it will be to their profit to possess."—Troy Daily Whig.

"We have carefully perused the work, and have no hesitation in saying that it is the best work for mechanics, tradesmen, and scientific men, ever published. It contains valuable information on every branch of the mechanical arts and sciences, in a plain, simple style and language intelligible to any reader."—Philadelphia Mechanics' Advocate.

"We are sure we are doing the mechanics of Connecticut a service by bringing the work to their attention."—Norwich, (Conn.) Courier.

"It is just such a work as every mechanic should possess."—Freeman's Journal.

"We consider it one of the most useful and important publications of the day."—Newark, (N. J.) Daily Advertiser.

"Of all the undertakings of the kind with which we are acquainted, this is the most comprehensive and full of promise."—Philadelphia Sun.

"It is the best work of the kind we have seen, is so cheap and the cheapest work ever offered to the public, for practical engineers and mechanics."—Philadelphia Gas Light Journal.

"This work undoubtedly executed."—Washington Globe.

"It is a work of great merit, and the most useful work, it is said, ever published for years, and the low price at which it is sold makes it acceptable to all."—South Carolinian.

"In regard to it as one of the most comprehensive and valuable, as well as the cheapest works ever published."—Baltimore Argus.

"Ought to be taken by every one desiring to keep pace with the progress of the mechanic arts, and of the labors of civilized life."—Boston Courier.

"It is designed after the manner of Encyclopedia, only that it is more devoted to the principle of Life's Business, containing a vast amount of useful matter, as accompanying diagrams, and above all, the valuable England, viz: describing the mechanic arts as they are in Europe and America."—Boston Mercantile Journal.

"Also, looking at what is contained in each number, that is, looking at what is contained in each number, that we do not know of a more valuable work, and we believe it will be deemed by all who inspect it and every one who knows so, will find that he has in a condensed form an amount of matter, which would be obtained, if at all, only by the collection which would be obtained, if at all, Courier and Enquirer.

"The comprehensiveness with which the subjects are treated, the admirable manner in which they are arranged, and the compute to make this one of the most desirable works of the kind ever published."—Philadelphia Inquirer.

"The work should been the hand of every mechanic, and manufacturer, especially those who have the means of appreciating the high and important objects it proposes. We have carefully examined it, with a view of recommending it to inventors. To them we would say in the strong language of the Bible 'it is good.'"—Baltimore Inventors' Journal.

Notice to the Proprietors of Newspapers throughout the United States and Canada.

If the foregoing advertisement is inserted five times during the year, and the paper containing it sent to us, a copy of the work will be sent gratis in payment.

may29-dtw

B'ALLISTER'S OINTMENT,

Containing no Mercury, nor other Mineral.

THE following testimonial was given by the celebrated Dr. Wooster Beach, the author of the popular medical work entitled "The American Practice of Medicine and Family Physician:"

"Having been made acquainted with the ingredients which compose McAllister's All-Healing Ointment and having prescribed it instead of mercury and other my private practice, I have no hesitation in saying or certifying that it is a Vegetable Remedy, containing no mineral substance whatever, that is adapted and combined as they are, and used as directed by the Proprietor, are not injurious, but, on the contrary, being a truly scientific Remedy of great value, cheerfully recommend it as a compound which has done much good, will which is adapted to the wants of a great variety of cases. Though I have never either recommended or engaged in the sale of secret medicines, regard for the truly honest, and meritorious character of the Proprietor of this Ointment, and the value of his discovery, gives me to say this much regarding it.

W. BEACH, D. D."

New York, April 24, 1848.

BURNS—It is one of the best things in the world for Burns.

PILES—Thousands are yearly cured by this Ointment. It never fails in giving relief.

For Tumors, Ulcers, and all kinds of Sores, it has no equal.

If Mothers and Nurses know its value in cases of Swollen or Sore Breasts, they would always supply it in such cases, if used according to directions, it gives relief in a very few hours.

Around the back are directions for using McAllister's Ointment for Scrofula, Liver Complaint, Erysipelas, Fever, Chilblains, Scald Head, Sore Eyes, Quinsy, Sore Throat, Bronchites, Nerve and Affections, Pains, Disease of the Spine, Head Ache, Asthma, Deafness, Ear Ache, Tetter, Tetter, Ringworm, Burns, Scalds, Lips, Piles, &c., Swelling of the Limbs, Sores, Rheumatism, Piles, Chapped Hands, Croup, Swelled or Broken Breast, Tooth Ache, Ear Ache, Face Ache.

From the Rev. Greg Eagle.

There was never, perhaps, a Medicine brought before the public, that has in so short a time won such a reputation as McAllister's All-Healing or World Salve. Almost every person that has made trial of it speaks warmly in its praise. One has been cured by it of the worst kind of rheumatism, another of the piles, a third of a terrible sore pain in the side, a fourth of a swelling in the limb, &c. If it does not give immediate relief, in every case, it can do no harm, being simply and entirely.

Another evidence of the wonderful healing power possessed by this salve, we subjoin the following certificate, from a respectable citizen of Maidencreek township, in this county:

Maid encreek, Berks co., March 30, 1847.

Messrs. Ritter & Co:—I desire to inform you that I was entirely cured of a severe pain in the back, by the use of McAllister's All-Healing Salve, which I purchased from you. I suffered with it for about 20 years, and at night was unable to sleep. During that time I tried various remedies, which were prescribed for me by physicians and other persons, without receiving any relief, and at last made trial of this Salve, with a result favorable beyond expectation. I am now entirely free from the pain, and enjoy at night a peaceful and sweet sleep. I have also used the Salve since for sore throat and other complaints, with similar happy results. Your friend, JOHN HOLBERNACH.

JAMES McALLISTER,

Sole Proprietor of the above medicine.

Principal Office, No 22 North Third street, Philadelphia.

"Also, looking at what is contained in each number, that is, looking at what is contained in each number, that we do not know of a more valuable work, and we believe it will be deemed by all who inspect it and every one who knows so, will find that he has in a condensed form an amount of matter, which would be obtained, if at all, only by the collection which would be obtained, if at all, Courier and Enquirer.

"The comprehensiveness with which the subjects are treated, the admirable manner in which they are arranged, and the compute to make this one of the most desirable works of the kind ever published."—Philadelphia Inquirer.

"The work should been the hand of every mechanic, and manufacturer, especially those who have the means of appreciating the high and important objects it proposes. We have carefully examined it, with a view of recommending it to inventors. To them we would say in the strong language of the Bible 'it is good.'"—Baltimore Inventors' Journal.

Notice to the Proprietors of Newspapers throughout the United States and Canada.

If the foregoing advertisement is inserted five times during the year, and the paper containing it sent to us, a copy of the work will be sent gratis in payment.

MISCELLANEOUS

Valuable and extensive Water Power to let on favorable terms.

THE WABASH NAVIGATION COMPANY offer for sale or lease, the water power at the Grand Rapids, on the Maumee, sufficient to propel four hundred pairs of mill stone. The location is based upon a foundation, and the power can carry grain of the White River, as well as the Wabash, can be readily furnished at this place. While, timber, iron ore, and coal in the greatest abundance, and of superior quality, can be easily procured through the same company.

TERMS—One hundred dollars per annum for a power sufficient to propel a single run of medium sized mill stones, for a period of fifteen years, with the right of renewal on the expiration of the lease, at a fair valuation of the power employed. The rise of the dam is included, without further charge.

ABNER T. ELLIS, President of the Wabash Co.

VINCENNES, Ia., May 0, 1850 may29-3m

JULES HAUEL'S MEDICATED NYMPH SOAP.

THE skin of many persons is disfigured with slight eruptions, as pimples, morphew, &c., and when nine tenths out of every hundred, it is very easily removed. Jules Hauel's Nymph Soap is expressly adapted to diseases of the skin, it acts effectually in cleansing the minute pores which cover its surface, promotes healing and eradicating all eruptions, and rendering the darkest and roughest skin soft, fair, and blooming.

Persons who have been in the habit of using ordinary soaps, will be astonished at the beneficial effect produced by the Nymph Soap, in imparting a delicate polish, preventing the neck, &c, or hands from chapping, allaying all irritation and removing all cutaneous eruptions. It possesses an exquisite perfume, and is entirely devoid of all injurious properties, rendering it the only article which can be used with safety and comfort in the nursery.

All those who have faces or necks are disfigured with pimples, blotches, tan, morphew, &c., should make trial of Jules Hauel's Nymph Soap, as the proprietor positively assures them, that its use will render the most discolored skin white, the roughest skin smooth, and the most diseased skin healthy, pure, and blooming.

Jules Hauel's Nymph Soap is the only article which will effectually produce the above effects in so pleasant, powerful and delicate a manner.

Prepared only by JULES HAUEL, Perfumer and Chemist, 120 Chestnut street, Phila.

Great American Mechanical Work.

D. APPLETON & CO., New York, have in course of publication, in parts, price twenty five cents each, a DICTIONARY of Machines, Mechanics, Engineering Men, and those intended for the Practical Profession. Edited by Curven State.

This work is of large five size, and will contain two thousand pages, and upwards of six thousand illustrations. It will present working drawings and descriptions of the most important machines in the United States. Independent of the results of American ingenuity, it will contain complete practical treatises on Mechanics, Machinery, Engineering, &c.

The great object of this publication is, to place before practical men and students such an amount of theoretical and scientific knowledge, in a condensed form, as shall enable them to work to the best advantage, and to avoid those mistakes which they might otherwise commit. The amount of useful information such work, indeed, there is hardly any subject or branch of which is not treated with such clearness and precision, that even a man of the most ordinary capacity cannot fail of understanding it, and thus learning from it much which it is important for him to know.

The publishers are, in short, determined, regardless of cost, to make the work as complete as possible, and it is hoped every one desirous of obtaining the work will lose no time in forwarding his name, as the number will be limited, and this encourage the enterprise.

The work will be issued in semi-monthly numbers, commencing in January, 1850, and will progress with (from regularity.

The whole work will be published in 40 numbers, at 25 cents per number, and completed in the present year, 1850. A liberal discount will be made to agents.

Any one remitting the publishers $10 in advance, shall receive the work through the post office free of expense.

Opinions of the Press.

"To our numerous Gas Manufacturers, Mechanics, Engineers, and Architects, it will be a boon of wealth."—Philadelphia Journal.

"Young men, aim yourselves with its knowledge—we can with a confidence recommend it to our readers as a repository of useful matter."—Scientific American.

"We cannot hesitatingly commend the work to those engaged in or interested in mechanical or scientific pursuits, as eminently worthy of their examination and study."—Troy, (N. Y.) Budget.

"A truly practical work, and the publishers deserve the thanks of inventors, mechanics, and the public generally."—N. Y. Independent.

"This Dictionary will be highly useful to practical mechanics, and valuable to all who wish to acquaint themselves with the progress of invention in the mechanic arts."—New Bedford Daily Mercury.

"Young mechanics ought to keep poring up in the work, it will be a great aid to knowledge, and it will show them just how they stand."—Roxbury Advertiser.

"We take it to be just the work that scores and hundreds of our intelligent mechanics have desired to possess. Its ample size, its descriptions, and its full and mature its specifications, that it seems to us that any mechanic might construct any machine it describes, on the strength of its engravings and instructions."—N. Y. Commercial Advertiser.

"All interested in mechanics should avail themselves of its advantageous."—Schuylkill, (Penn.) Journal.

"A work of extreme practical utility and great importance and value to the rapidly increasing interests of the country. We regard the work as eminently valuable and to promote the cause of science and the arts."—Boston Courier.

"Publications having for their object the spread of useful and advancement of the mechanic arts, are of the most beneficial tendency, and we have seen no work more well adapted to the purpose than this."—Buffalo Com. Adv.

"Practical men in all the varied walks of mechanical and manufacturing industry, engineering, &c., will find in this work a treasure which it will be to their profit to possess."—Troy Daily Whig.

"We have carefully perused the work, and have no hesitation in saying that it is the best work for mechanics, tradesmen, and scientific men, ever published. It contains valuable information on every branch of the mechanical arts and sciences, in a plain, simple style and language intelligible to any reader."—Philadelphia Mechanics' Advocate.

"We are sure we are doing the mechanics of Connecticut a service by bringing the work to their attention."—Norwich, (Conn.) Courier.

"It is just such a work as every mechanic should possess."—Freeman's Journal.

"We consider it one of the most useful and important publications of the day."—Newark, (N. J.) Daily Advertiser.

"Of all the undertakings of the kind with which we are acquainted, this is the most comprehensive and full of promise."—Philadelphia Sun.

"It is the best work of the kind we have seen, is so cheap and the cheapest work ever offered to the public, for practical engineers and mechanics."—Philadelphia Gas Light Journal.

"This work undoubtedly executed."—Washington Globe.

"It is a work of great merit, and the most useful work, it is said, ever published for years, and the low price at which it is sold makes it acceptable to all."—South Carolinian.

"In regard to it as one of the most comprehensive and valuable, as well as the cheapest works ever published."—Baltimore Argus.

"Ought to be taken by every one desiring to keep pace with the progress of the mechanic arts, and of the labors of civilized life."—Boston Courier.

"It is designed after the manner of Encyclopedia, only that it is more devoted to the principle of Life's Business, containing a vast amount of useful matter, as accompanying diagrams, and above all, the valuable England, viz: describing the mechanic arts as they are in Europe and America."—Boston Mercantile Journal.

"Also, looking at what is contained in each number, that is, looking at what is contained in each number, that we do not know of a more valuable work, and we believe it will be deemed by all who
