CHEMICAL STOVE POLISH
THE Phenix Manufacturing Company now offer to the public a article for stoves, which is highly useful and without exaggeration, or fear of contradiction, it may safely be stated it pronounce it far superior to any other in the market. No housekeeper need have apprehensions of soiling carpets, &c., as its composition prevents a dust from arising when being applied, which must be done with a brush. A box of the quantity required is so little to produce a beautiful polish, that a saving of half the usual cost is thereby to the consumers. A cooling applied to Stoves, Pipes, Furniture, and laid away for the summer, is a sure preventative against rust. A saving of half the usual cost (if it is necessable) no person will use any but the best article when they know the Company's Premium Chemical Stove Polish.
