Sir James Murray's Fluid Magnesia.

PREPARED upon the immediate care of the Inventor, and established for upwards of thirty years. This elegant preparation is recommended in all cases of dim-sentions, indigestion, gout and gravel, as the most safe, easy, and elegant form of Magnesia, and indeed the only one in which it can be so achieved, possessing all the properties of the Magnesia in powder, and without being liable like it, to form dangerous concretions in the bowels, it effectually clears the alimentary canal from acids of the stomach, as well as, prevents and their exhaustion are known to be, effectually the food of infants taking sour, in all cases it is as a pleasing aperient, and is peculiarly adapted to females.

Sir Humphrey Davy remarked that the solution forms good and grateful, thereby counteracting their injurious tendency, when other alkalies, and even Magnesia itself, had failed.

From Sir Philip Crampton, Bart., Surgeon General to the Army in Ireland.

"Dear Sir—There can be no doubt that Magnesia may be administered with safety in the form of a concentrated solution than in substance, for this, and many other reasons, I am of opinion that the Fluid Magnesia is a very valuable addition to our Materia Medica. PHILIP CRAMPTON."

Sir James Clarke, Sir Charles Coopper, Dr. Bright, and Messrs Gutrie and Herbert Mayo, of London, strongly recommend Murray's Fluid Magnesia, as being infinitely more safe and convenient than the solid, and free from the danger attending the constant use of sodaor potass.

Great American Mechanical Work.

D. Appleton & Co., New York, have in course of publication, in parts, price twenty five cents each,

A DICTIONARY

Of Machines, Mechanics, Engine Work, and Engineering, designed for Practical Working Men, and those intended for the Engineering Profession.

EDITED BY OLIVER BYRNE.

THIS WORK is of large 8vo. size, and will contain TWO THOUSAND PAGES, and upwards of six thousand illustrations. It will present, in a concise form, the leading principles of the most important machines in the United States. Independent of the results of American ingenuity, it will contain complete practical details on Machines, Machinery, Engine-work, and Engineering; with all that is useful in more than one thousand distinct objects worth of folio volumes, magazines, and other books.

The great object of this publication is, to place before practical men and students such an amount of theoretical and scientific knowledge, as is condensed form, shall enable them to work to the best advantage, and to avoid those mistakes which they might otherwise commit. The amount of useful information thus brought together is almost beyond precedent in such works. Indeed, there is hardly any subject within its range, which is not treated with such clearness and precision, that even a man of the most ordinary capacity cannot fail of understanding it, and thus learning from it much which it is important for him to know.

The publishers are, in short, determined, regardless of cost, to make the work as complete as possible, and to spare no pains or expense in order to obtain the work and procure it as issued in numbers, and thus encourage the enterprise.

The work will be issued in semi-monthly numbers, commencing in January, 1850, and will progress with great regularity.

The whole work will be published in 40 numbers, at 25 cents per number, and completed within the current year, 1850. A liberal discount will be made to agents.

Any one remitting the publishers $10 in advance, shall receive the work through the post office free of expense.

Opinions of the Press.

"To our numerous Manufacturers, Mechanics, Engineers, and Artisans, it will be a mine of wealth."—Providence, (R. I.) Journal.

"Young men, arm yourselves with this knowledge.—We can with confidence recommend our readers to possess themselves of its numbers as fast as they appear."—American Artisan.

"We unhesitatingly commend the work to those engaged in or interested in mechanical pursuits; it is an eminently worthy of their examination and study."—Troy (N. Y.) Budget.

"It is truly a great work, and the publishers deserve the thanks of inventors, machinists, and manufacturers, and indeed of the public generally."—N. Y. Independent.

"The Dictionary will be highly useful to practical mechanics, and valuable to the amateur in enlarging themselves with the progress of invention in the mechanic arts."—New Bedford (Mass) Mercury.

"Young mechanics ought to keep abreast up in the science as well as practical knowledge, and this work will show them just how they stand."—Roxbury Mass. Advertiser.

"We have to be just the work that scores and hundreds of our intelligent mechanics have been asking for. Simple as its descriptions, one so full and minute as to elucidate, that it seems to us that any mechanic may construct any machine described, one by a North Ohio engravings and instructions."—N. Y. Commercial Advertiser.

"All interested in mechanics should avail themselves of its advantages."—Schuylkill, (Penn.) Journal.

"A work of extensive practical utility and great importance and value to the rapidly increasing interests of the country. We regard the work as eminently calculated to promote the cause of science and the mechanical arts, and to diffuse valuable and accurate information on these subjects."—Farmer and Mechanic.

"Practical men in all the various walks of mechanical and manufacturing industry of diffusing, &c., will find in the work a treasure which it will be to their profit to possess."—Troy Daily Whig.

"We have carefully perused the numbers, and have no hesitation in saying that it is the best work for mechanics, tradesmen, and scientific men, ever published, for it contains many information on every branch of the mechanical arts and sciences, expressed in a style and language intelligible to any reader of ordinary capacity."—Gloucester, (Mass.) News.

"We say safe we are doing the mechanics of Norwich and other parts of Connecticut a service by bringing the work to their attention."—Norwich, (Conn.) Courier.

"It is just such a work as every mechanic should possess."—Freeman's Journal.

"We consider it one of the most useful and important publications of the age. No mechanic can afford to be without it."—Cabinet and Chair Maker.

"Of all the various publications having for their object the diffusion and advancement of the mechanical arts and sciences, none can we have seen, is of half so great a value."—Medical Gem. Adv.

"It is no boast and exaggeration to say that practical and practical engineers and mechanic. The work are beautifully executed."—Washington Globe.

"This great Dictionary is one of the largest and finest works ever published for years, and the low price at which it is sold makes it accessible to all."—South Carolinian.

"We regard it as one of the most comprehensive and valuable, as well as cheapest works ever published."—Baltimore Advertiser.

"Ought to be taken by every one desirous to keep pace with the progress of arts, and acquaintance with the ideas of civilized life."—Rochester Courier.

"It is declared after the principle of Urie's Dictionary, only that it is more devoted to the mechanic and engineering professions, and above all, is available to accomplishing for Artisans what Urie has done for England, viz: describing American machinery and mechanics."—Scientific American.

"It is published in numbers, at a price so moderate, looking at what is contained in each number, that no one who has the least interest in such matters, need be deterred from procuring it and every number thereon, will find that he has in a condensed form an amount of information which would be cheap, if at all, only by the purchase of very many volumes."—Courier and Enquirer.

"The comprehensiveness with which the subjects are treated, the admirable manner in which they are illustrated, and the cheapness, place it one of the most desirable works."—Democratic Review.

"This work should be in the hands of every mechanic, artisan, and manufacturer, and every one who wishes the best appliances to excel in their respective business. We have carefully examined it, with a view of recommending it to our readers, and we would say in the strong language of the Bible 'it is good.'"—American Farmers' Journal.

Notice to the Proprietors of Newspapers throughout the United States and Canada.

If the following advertisement is inserted five times during the year, and the paper containing it sent to us, a copy of the work will be sent gratis in payment.

MALLISTER'S OINTMENT,

Contains not a Mercury, nor other Mineral.

THE following testimonial testifying to the extraordinary Dr. Wooster Beach, the author of the great medical work entitled "The American Practice of Medicine and Family Physician."

Having been made acquainted with the ingredients which compose McAllister's All-Healing Ointment, and having prescribed and tested it in several cases in my private practice, I have no hesitation in saying or pronouncing that it is a Vegetable Remedy, containing no mineral substance whatever, that its ingredients combined are safe, and that it is directed by the Proprietor, are not only harmless, but of great value, being a truly scientific Remedy of great power; and I cheerfully recommend it to the public, as being a most much good, and which is adapted to the cure of a great variety of cases. Though I have never either recommended or prepared the sale of secret medicines, regard for the truly honest, conscientious, humane character of the Proprietor of this Ointment, and the value of his discovery, induce me to say this much regarding it. W. BEACH, D. D.

New York, April 26, 1846.

BURNS.—It is one of the best things in the world for Burns.

PILES.—Thousands are yearly cured by this Ointment. It never fails in giving relief.

Tow Tumers, Ulcers, and all kinds of Sores, it has no equal.

If Mothers and Nurses knew its value in cases of Swollen or Sore Breast, they would always apply it. In such cases, if used according to directions, it gives relief in a very few hours.

Around the box are directions for using McAllister's Ointment for Scrofula, Liver Complaint, Erysipelas, Tetter, Cutbloth, Scald Head, Sore Eyes, Quinsy, Sore Throat, Bronchitis, Nervous Affections, Pains of the Spine, Head-Ache, Asthma, Deafness, Ear Ache, Horse, Corns, all Diseases of the Skin, Sore Lips, Pimples, &c., Swelling of the Limbs, Sores, Rheumatism, Piles, Cold Feet, Croup, Swelled or Ulcerated Breast, Tooth Ache, Acne in the Face, &c.

From the Reading Fagle.

There was never, perhaps, a Medicine brought before the public, that has in so short a time won such a reputation as McAllister's All-Healing or World Salve. Almost every person that has made trial of it speaks warmly in its praise. One has been cured by it of the most painful rheumatism, another of the piles, a third of a troublesome pain in the side, a fourth of a swelling in the limbs, &c. If it does not give immediate relief, in every case, it can do no injury, being applied outwardly.

As another evidence of the wonderful healing power of the Salve, we subjoin the following certificate, from a respectable citizen of Maidencreek township, in this county.

Maidencreek, Berks co., March 30, 1847.

Messrs. Ritter & Co.—I desire to inform you that I was entirely cured of a severe pain in the back, by the use of McAllister's All-Healing Salve, which I purchased from you. I suffered with it for about 10 years, and at night was unable to sleep. During that time I tried various remedies, which were prescribed for me by physicians and other persons, without receiving any relief, and at last made trial of this Salve, with a result favorable beyond expectation. I am now entirely free from the pain, and enjoy at night a peaceful and sweet sleep. I have also used the Salve since for tooth ache and other complaints, with similar happy results. Your friend, JOHN HOLLENBACH.

Sole Proprietor of the above medicine.

JULES HAUBIN'S MEDICATED NYMPH SOAP.—The skin of many persons is disfigured with slight eruptions, as pimples, morphew, &c., and when nine cases out of ten, simplest, it is very easily removed. Jules Hauel's Nymph Soap is expressly adapted to diseases of the skin, as it acts directly upon the minute pores to open, cover its surface, cleansing them from impurities, and by its balsamic properties healing and eradicating the eruptions, and rendering the darkest and roughest skin soft, fair and blooming.

Persons who have been in the habit of using ordinary soap, will be astonished at the beautiful effect produced by the Nymph Soap, in imparting a delicate lustre to, preventing the pore, face, and other chapping, allaying all irritation, and removing all cutaneous eruptions. It possesses an exquisite perfume, and is entirely devoid of all alkaline properties, rendering it the only article which can be used with safety and comfort in the nursery.

All those whose faces or necks are disfigured with pimples, blotches, tan, morphew, &c., should make trial of Jules Hauel's Nymph Soap, as the proprietor positively assures them, that its use will render the most discolored skin white, the roughest skin smooth, and the most diseased skin healthy, pure, and blooming.

Jules Hauel's Nymph Soap is the only article which will effectually produce the above effects in so short a time, and the only one which is at the same time all powerful and perfectly harmless. Prepared only by

PARASOLS! PARASOLS!

The largest and most splendid stock of Parasols ever opened by any one house in Pittsburgh, in this city, or any other place out of the western French styles, which, for richness and beauty, cannot be surpassed. As we have a large lot of these Parasols, they will be sold cheaper than any other house in the city can afford to sell the same quality of goods.

The ladies are respectfully invited to examine these Parasols, as they will find some of the richest and newest styles ever imported from Europe.

Also, the same all of the richest and most fashionable colors, and are worthy of the attention of the ladies.

All of the above goods will be sold off at prices far below any other house in the city, and in order to prove this fact, the public will please call and price these goods, and compare them with any other house in the city, and be convinced of the truth of my assertion.

The subscriber would here say to his numerous customers and friends in general, that there are two other bee hives stores in market street, and he would ask to compare with the Big Bee Hive, which is alone the only well established and far famed Dry Goods establishment in Pittsburgh. The subscriber would therefore say to the purchasers of Dry Goods, either wholesale or retail, that the Big Bee Hive, on Market street, between Third and Fourth, is now opening the largest, richest, and most splendid stock of spring and summer Dry Goods ever offered for sale in Pittsburgh.

N.B. Merchants will find it to their interest, to call at the Big Bee Hive, on Market street, between Third and Fourth streets, where the Dry Goods are every description are selling cheaper than any other house in the city. The public will please take notice that there are two other bee hives on Market street, who pretend to compete with the Big Bee Hive, on Market street, between Third and Fourth, the public will find, at all times, the largest and newest styles of Dry Goods, fresh opened.

☞ Please take notice that the store is between Third and Fourth streets, sign of the BIG BEE HIVE, where a full stock of every description are selling cheaper than at any other house in the city.

BIDWELL'S

SANDY AND BEAVER LINE.

From Pittsburgh to Columbus and Cleveland, through the rich and populous counties of Columbiana, Carroll, Stark, Tuscarawas, Coshocton, Muskingum, Licking, and Franklin.

The completion of the Sandy and Beaver Canal opens up to our city through this great natural central route a direct communication to the above as well as the adjoining counties of Wayne, Holmes, Knox, and Delaware.

From this section of Ohio, the trade with Pittsburgh has been, to a great extent cut off, in consequence of the high rates of transportation, which are now reduced 10, 20, and 50 per cent.

Boats of this line will leave daily, and run through without transhipment. The Canal company have bestowed upon this line an interest in the unprecedented advantages of their charter, and thus secured to the middle portions of Ohio in ordering their goods by BIDWELL'S SANDY AND BEAVER LINE, an equal interest in this advantage.
