Sellers' Liver Pills Superceede all others
Charleston, Va., Sept. 20, 1850.

Mr. R. E. Sellers—Your Pills have become so popular in all this region of country, as very much to supersede all others as a Liver or Anti-Bilious Pill.
Yours, &c.,
JAMES A LEWIS
(Superintendent of Letter.)

Purchasers will recollect that R. E. Sellers' Liver Pills are the original and only True and Genuine Liver Pill, and may be had at No 57 Wood st., and of agents generally in the two cities and vicinity. 130

Dr. Guysott's Extract of Yellow Dock and Sarsaparilla.

PUT up in the largest sized bottles, contains more of the pure Honduras Sarsaparilla than any other preparation extant which is chemically combined with the Extract of Yellow Dock, the Extract of Wild Cherry, and the Balsam of Fir, thus making the remedy more strongly efficient than any other Sarsaparilla before the public. At the same time it is perfectly free from all mineral poisons, which cannot be said of any portion of the Sarsaparilla compounds. The world should beware of poisons! Mercury, Iron, Quinine, Potash, Iodine, Sulphur, Arsenic, and many other mineral and metallic poisons enter into and form the active basis of most of the Sarsaparilla and Panaceas of the day. Guysott's Compound Extract of Yellow Dock and Sarsaparilla does not contain a particle of these substances, as any one can easily ascertain by applying the accompanying test.

The poisons may occasionally remove disease, but they destroy the blood, and as completely impregnate the whole system with their baneful effects that the first cold, or the first attack of disease, prostrates the patient's strength, and subjects him or her to the most excruciating torture, and renders another cure almost impossible and hopeless. Let all poisonous Sarsaparilla preparations alone, and use Guysott's Improved Extract of Yellow Dock and Sarsaparilla, which is thoroughly efficacious, perfectly harmless, and purely vegetable. All kinds of disease yields to its genial influence.

CURES.

Scrofula, Cancerous Tumors, Cutaneous Eruptions, Erysipelas, Blotes, Pimples, or Pimples on the Face, Chronic Sore Eyes, Tetter, Scald Head, Rheumatism, Enlargement or Pains in the Bones or Joints, old and stubborn Ulcers, Fever Sores, Hip Diseases, Swelling of the Glands, Blotches, Syphilitic Symptoms, Lumbago, Dropsy, Dyspepsia, Jaundice, Obstinate Chronic Diseases, Affections of the Kidneys and diseases arising from an injudicious use of Mercury, Mercurial's Sore Throat, Weakness of the Limbs, Rheumatism, Gout, Salt Rheum, and other diseases tending towards Consumption, Liver Complaint, Female Irregularities, Costiveness, Dropsical Affections, Nervous Debility, Low Spirits, Loss of Appetite, Night Sweats, Pains in the Side and Shoulders, Coughs or Hoarseness in Life, Chronic Coughs, Pulmonary Disorders, and sore Spring and Fall Purifier of the Blood, and General Tonic for the System, &c. &c. &c.

Extract of testimonials of Cures of Scrofula of sixteen years standing.

The following is an extract of a letter dated Mar. 27, 1850, from Dr. Perkins, M. D., a highly respectable physician of Cincinnati, Ohio.

John Pake—Sir: I have under my care a young woman for sixteen years, has been suffering from Diseased Limbs, and whose case has been pronounced incurable by three of our best physicians. I took her into my family, and have used Guysott's Yellow Dock and Sarsaparilla freely, and on conclude that the Yellow Dock and Sarsaparilla will effect a permanent cure. She is better in general health than she has ever been before, and walks a mile or two without fatigue or pain. A year ago she used crutches. I will report the case in due time.
Very respectfully, A. D. PERKINS.

SCROFULA.

It has been remarked, by eminent men, that in the varied catalogue of diseases to which man is liable, there is scarcely one of such importance, and of such interest as scrofula, whether we look to the obscurity of its origin, its insidious progress, the number and variety of organs that it attacks, or its remarkable incurability and extensive fatality.

Scrofula has baffled the skill of the most eminent physicians in this country and in Europe. In the first an edition of this discovery Dr. Guysott's Extract of Yellow Dock and Sarsaparilla, which is proving itself a perfect specific in the most severe cases of scrofula.

An extraordinary case of Scrofula cured by the sole use of Dock and Sarsaparilla compound syrup. It will be seen by this certificate that this man has been under the treatment of several celebrated physicians for the past eighty years, without derriving any benefit and has been effectually cured by the use of a few bottle of Dr. Guysott's Compound Syrup.

New York, June 7, 1849.

DR. GUYSOTT—Dear Sir,—Owing to poverty and sickness, I cannot pay, I am induced to make a public acknowledgment of the benefit I have derived from your invaluable Syrup. I was for years afflicted with a terrible Scrofulous disease, hereditary in our family, which commenced on my neck, and, continuing to spread, at last reached my eyes, running into my head, and extending all over my face, neck, and lower extremities. I became a disgusting object to look upon; at times my sisters was so great that I was unable to sleep or lie down; and the disease extending into my eyes seriously affected my hearing. My face was one continuous sore, from which a discharge of matter and water kept continually coming out. People avoided me, supposing I had the small pox; some called it infectious disease, and I was consequently obliged to relinquish my business. Notwithstanding I had the best medical advice, and tried different plans of treatment, the disease continued to grow worse, until I gave up in despair. Fortunately I fell in with a passenger on the cars, while traveling for my health, who informed me that his son was at one time in as bad a condition as I was, and that by using your Syrup he was now in good health. I immediately procured the article, commenced using it, and now, after having used less than six bottles, I am well and able to attend to my business. I send you this statement as an act of justice, only hoping that it may induce the afflicted to make use of the right medicine, and thereby save them much suffering and expense.
I remain your obedient servant,
JOHN Q. SPALDING.

Cure of an aggravated case of Erysipelas.

The cures performed by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla are lasting. The patient's general health continues to improve after disease is removed. Cures are not chronicled until time has fully settled that there can be no relapse or return of the disease.

NEWAY, (Herkimer Co.) Feb. 1850.

S. F. BENNETT & CO., Gents, it is with great pleasure that I write you about the very happy effects of your Yellow Dock and Sarsaparilla upon my son, who has long been suffering under that dreadful, loathsome disease, Erysipelas, with which he was attacked in 1845, and has suffered severe at intervals ever since. He was at times so severe that I thought he would die. He was bloated to a most appalling degree, and was for months, without any beneficial effects whatever. He became reduced to a perfect skeleton. He had sores from top to his knee, which were continually discharging, disgustingly offensive matter. Medical and surgical skill was baffled. Physicians said that his case was hopeless—there could be nothing done to arrest the terrible lingering ulcers. My neighbors and myself thought his dissolution near at hand. One of my neighbors, who had seen a child of scrofula with your invaluable medicine, wished me to make trial of it, and move from his restless desire to do something which life lasted; then from my love of my son, I procured three bottles of your Yellow Dock and Sarsaparilla, and commenced administering it to my astonishment, he commenced improving he had used the third bottle, and before he had used a half dozen bottles he could walk out. He used in all twelve bottles, and by October last he was perfectly free from every vestige of the disease excepting scars, which are rapidly disappearing, and he remains in perfect health up to the present time. His recovery, under the blessing of God, is entirely owing to the use of your Yellow Dock and Sarsaparilla, and I assure you that I feel myself under great obligations to you, and it is with great joy that I inform you of what your Sarsaparilla has done for my son.
Respectfully, JAS. RUSSELL.

☞ None genuine unless put up in large bottles containing a quart, and the name of the Syrup blown in the glass, with the written signature of S. F. Bennett, on the outside wrapper. Price $1 per bottle—6 bottles for $5.

It is sold by J. D. PARK, North East corner of Fourth and Walnut streets, entrance on Walnut st., Cincinnati, Ohio, to whom all orders must be addressed.

Great American Mechanical Work.

D. Appleton & Co., New York, have in course of publication, in parts, price twenty five cents each,

A DICTIONARY

Of Machines, Mechanics, Engine Work, and Engineering; designed for Practical Working Men, and those intended for the Engineering Profession.

EDITED BY OLIVER BYRNE.

THIS WORK is of large size, size, and will contain two THOUSAND PAGES, and upwards of SIX THOUSAND ILLUSTRATIONS. It will present working drawings and descriptions of the most important machines in the United States. Independent of the results of American ingenuity, it will contain complete practical treatises on Mechanics, Machinery, Engine-work, and Engineering, with all that is useful in more than one thousand dollars worth of folio volumes, magazines, and other books.

The great object of this publication is, to place before practical men and students such an amount of practical and scientific knowledge, in a compact form, as shall enable them to work to the best advantage, and to avoid those mistakes which they might otherwise commit. The work will be found to contain more than ought together is almost beyond precedent in such works. Indeed, it is hardly to be expected that a work upon which is not treated with such clearness and precision, that even a man of the most ordinary capacity can find out the information he wants, thus learning from it much which it is important for him to know.

The Publishers are, in short, determined, regardless of cost, to make the work as complete as possible; and it is hoped every other consideration will be lost sight of in the attempt to succeed in numbers, and thus encourage the enterprise.

The work will be issued in semi-monthly numbers, commencing in January, 1850, and will progress with great regularity.

The whole work will be published in 40 numbers, at 25 cents per number, and completed within the current year, 1850. A liberal discount will be made to agents.

Any one remitting the publishers $10 in advance, shall receive the work through the post office free of expense.

Opinions of the Press.

"To our numerous Manufacturers, Mechanics, Engineers, and Artisans, it will be a mine of wealth."—Providence, (R. I.) Journal.

"Young mechanics will avail themselves with its knowledge.—We can with confidence recommend our readers to possess their selves of the numbers as fast as they appear."—American Artisan.

"We unhesitatingly commend the work to those engaged in or contemplating the manufacture of machinery, as eminently worthy of their examination and study."—Troy, (N. Y.) Budget.

"It is truly a great work, and the publishers deserve the thanks of inventors, machinists, and manufacturers, and indeed of the public generally."—N. Y. Independent.

"This Dictionary will be highly useful to practical mechanics, and valuable also to those who are about to make themselves with the progress of invention in the mechanic arts."—New Bedford (Mass.) Mercury.

"Young mechanics will be kept posted up in theoretical as well as practical knowledge, and this work will show them just how they stand."—Roxbury (Mass.) Advertiser.

"We take it to be just the work that scores and hundreds of our intelligent mechanics have desired for years. So ample are its descriptions, and so full and minute its specifications, that it seems that the meanest capacity can understand and make it described, on the strength of its engravings and instructions."—N. Y. Commercial Advertiser.

"All interested in machines should avail themselves of its advantages."—Schuylkill, (Penna.) Journal.

"A work of extensive practical utility and greatness, portance and value, will be found in every office of the country. We regard the work as eminently calculated to promote the cause of science and the mechanical arts, and inform the public of the progress of invention on these subjects."—Farmer and Mechanic.

"Practical men will find it useful and valuable. Mechanical and manufacturing industry engineering, &c., will find in this work a treasure which it will be to their profit to get access to."—Boston Mail.

"We have carefully perused the numbers, and have no hesitation in saying that it is the best work for mechanics, tradesmen, and artisans, now published. It contains minute information on every branch of the mechanical arts and sciences, expressed in a style and language intelligible to any reader of ordinary capacity."—Gloucester, (Mass.) News.

"We are acquainted with a large manufactory of Norwich and other parts of Connecticut a service by bringing the work to their attention."—Norwich, (Conn.) Courier.

"It is just such a work as every mechanic should possess."—Cincinnati Chronicle.

"We consider it one of the most useful and important publications of the age. No mechanic can afford to be without it."—N. Y. Mechanics' Gazette.

"Of all the various publications having for their object the diffusion and advancing by just two bottles, as some indicates to be, more than any other work of this nature at this."—Buffalo Com. Adv.

"We know of no work more calculated to be referred to the scientific and practical engineer and mechanic. The plates are beautifully executed."—Washington Globe.

"Great Britain is now the land of the Mechanic. Her works have published for years, and the low price at which it is sold makes it acceptable to all."—South Carolinian.

"We regard it as one of the most comprehensive and valuable, as well as cheapest works ever published."—Baltimore American.

"Ought to be taken by every one desiring to keep pace with the improvements in the arts and science in every one of the pursuits of civilized life."—Rondout Courier.

"It is designed and executed in a manner to commend it, and that it is more devoted to the mechanical and engineering professions, and whose all, is valuable to the mechanic, engineer, and artisan, than any work in England, view describing American machinery and works of art."—Scientific American.

"Its publication will be issued in semi-monthly numbers, looking at what is contained in each number, that no one who has the time to read it, and the money to spare, need be deterred from procuring it, and every one who does so, will find that he has in a condensed form an amount of information which he could not obtain, if at all, only by the purchase of very many volumes."—N. Y. Courier and Enquirer.

"The numerous works with which the subjects are treated, the admirable manner in which they are illustrated, combine to make it one of the most desirable works."—Democratic Review.

"This work should be in the hands of every mechanic, manufacturer, and man of business, especially as the least aspirations to excel in their respective business. We have carefully examined it, and find it to be a work of great value to them."—Boston Ledger.

"Its style is in the strong language of the Bible: 'It is good.'"—Hartford Daily Courant.

Notice to the Proprietors of Newspapers throughout the United States and Canada.

If the foregoing advertisement is inserted five times in a newspaper, and a copy of the paper containing it sent to us, a copy of the work will be sent gratis in payment. ap13-d&w1y

BRALLISTER'S OINTMENT,

Containing no Mercury, nor other Mineral.

THE following testimonial was given by the celebrated Dr. Wooster Beach, the author of the great Medical work entitled "The American Practice of Medicine and Family Physician."

"Having been made acquainted with the ingredients which compose McAllister's All-Healing Ointment and having prescribed and tested it in several cases in my private practice, I have no hesitation in recommending it as a Vegetable Remedy, containing no mineral substance whatever; that its ingredients combined are those which I prescribed, or intended to prescribe, to my family physician, for a great variety of cutaneous affections, and that it is a compound which has long been good, and which is adapted to the care of the great variety of cases for which it has been recommended or engaged in the sale of secret medicines. Prepared for the truly honest, and intelligent,
