**NEW LOT OF SPLENDID PIANOS,**

*Music and Musical Instruments,*

Sign of the Golden Harp, No 101 Third street.

H. KLEDER respectfully informs his friends and the public, that he has just returned from the east, with a most elegant and extensive assortment of Pianos of various styles and prices, selected by himself, with great care, at the celebrated factories of Nunns & Clark, N. Y., and Dunham, N. Y., (firm of Stodart & Dunham, N. Y.) Having sold out the above from an immense stock just finished by the above makers, they are warranted superior quality and tone, and will in all cases be sold at New York factory price. Purchasers will receive a written guarantee with each Piano, entitling them to an exchange or return of same, if found defective.

Also, a lot of splendid Guitars, from the factory of Schmidt & Maul, N. Y. They are a superb article, and warranted equal, if not superior, to any made in the world.

Also, a fine selection of Flutes, Clarionets, Violins, Strings, Brass instruments, and the newest and most popular music, including Jenny Lind's celebrated songs. sep22

**Sellers' Liver Pills Supercede all others**

Charleston, Va., Sept. 20, 1850.

Mr. R. E. Sellers:—Your Pills have become so popular in all this region of country, as very much to supercede all others as a Liver or Anti-Bilious Pill.

Yours, &c. JAMES A LEWIS

(Extract of Letter.)

Purchasers will recollect that R. E. Sellers' liver pills are the original and only genuine Dandelion Pill, and may be had at No 57 Wood st., and of agents generally in the two cities and vicinity. 139

**Dr. Guysott's Extract of Yellow Dock and Sarsaparilla.**

PUT up in the highest and best medicine, contains more of the pure Honduras Sarsaparilla than any other preparation extant which is chemically combined with the Extract of Yellow Dock the Extract of Wild Cherry, and the Balsam of Fir, thus making the remedy more decidedly efficient than any other Sarsaparilla before the public. At the same time it is perfectly free from all mineral poisons, which cannot be said of any or of the Sarsaparilla compounds. The invalid should beware of poisons! Mercury, Iron, Quicksilver, Potash, Iodine, Sulphur, Arsenic, and many other mineral and metallic poisons enter the and form the active basis of most of the Sarsaparilla and Panacea of the day. Guysott's Compound Extract of Yellow Dock and Sarsaparilla does not contain a particle of these substances, as any one can easily ascertain by applying the necessary tests.

The poisons may occasionally remove disease, but they so vitiate the blood, and so demoralize and impregnate the whole system with their baneful effects at the first cold, or the first attack of disease, prostrates the patient's strength, and subjects him or her to the most excruciating torture, and renders another cure almost impossible and hopeless. Let all poisonous Sarsaparilla preparations alone, and use Guysott's improved Extract of Yellow Dock and Sarsaparilla, which is thoroughly efficacious, perfectly harmless, and purely vegetable. All kinds of disease yields to its genial influence.

CURES.

Scrofula, Cancerous Tumors, Cutaneous Eruptions, Erysipelas, Biles, Pustules, or Pimples on the Face, Chronic Sore Eyes, Tetter, Scald Head, Rheumatism, Enlargement or Pains in the Bones of Joints, old and stubborn Ulcers, Fever Sores, Hip Disease, Swelling of the Glands, Blotches, Syphilitic eruptions, Lumbago, Dropsy, Dyspepsia, Jaundice, Convexness, Salt Rheum, Affections of the Kidneys and Urinary setting from an injudicious use of Mercury, Minister's Sore Throat, Weakness of the Chest, Pulmonary Affections, and all other diseases tending to or ripe for Consumption, Liver Complaint, Female Irregularities and Complaints, Sick and Nervous headache, General Debility, Low Spirits, Loss of Appetite, Night Sweats, Pains in the Side and Shoulders, Exposure or Imprudence in Life, Chronic Coughs, Venereal Disorders, and as a Spring and Fall Purifier of the Blood, and General Tonic for the System, it is unrivaled.

*Cases of Five and Ten Years of sufferer years standing.*

The following is an extract of a letter dated March 27, 1850, from R. H. Perkins, M. D., a highly respectable Physician of Medina, Ohio.

DEAR PARR—Dear Sir: I have under my care a young man who, for nearly five years, has been suffering from Ulcerated Limbs, and whose case has been pronounced hopeless by three of our best physicians. I took the medicine my family and I used Guysott's Yellow Dock and Sarsaparilla freely, and am confident that the Yellow Dock and Sarsaparilla will effect a permanent cure. She is better in general health than she has ever been before, and walks a mile or two without failure or pain. A year ago she used crutches. I will report the case in due time.

Very respectfully, R. E. PERKINS.

SCROFULA.

It has been remarked, by eminent men, that in the varied catalogue of diseases to which man is liable, there is scarcely one of such importance, and of such interest as scrofula, whether we look to the obscurity of its origin, its insidious progress, the number and variety of organs that it attacks, or its remarkable incurability and extensive fatality.

Scrofula has baffled the skill of the most eminent physicians in this country and in Europe. But there is an antidote for this disease in Dr. Guysott's Extract of Yellow Dock and Sarsaparilla, which is proving the most perfect specific to the most severe cases of scrofula.

An extraordinary case of Scrofula cured by the sole use of Doctor Guysott's Compound syrup. It will be seen by the certificate that the man was bent under the treatment of several celebrated physicians, for the past eight years, without derriving any benefit, and has been effectually cured by the use of a few bottle of Dr. Guysott's Compound Syrup.

New York, June 7, 1848.

DR. GUYSOTT—Dear Sir—Owing to you a debt which money cannot pay, I am induced to make a public acknowledgment of the benefit I have derived from your invaluable Syrup. I was sorely afflicted with a scrofulous disease, hereditary in our family, which commenced on my neck, and, continuing to spread, soon reached my ears, running into my head, and covered all over my face, neck, and lower extremities. I became a disgusting object to look upon. At times my distress was so great that I was unable to sleep or lie down; and the disease extending into my ears seriously affected my hearing. My face was one continuous sore, from which a discharge of corrupt and water kept continually oozing out. People avoided me, supposing I had the small pox, or some other infectious disease, and I was consequently obliged to relinquish my business. Notwithstanding I had the best medical advice, and tried different plans of treatment, the disease continued to grow worse, until I gave up in despair. Fortunately I met with a passenger in the cars of Boston, while travelling for my health, who informed me that his son was at one time in as bad a condition as I was, and that by using your Syrup he was perfectly cured. I immediately procured the article, commenced using it, and now, after having used less than six bottles, I am well and able to attend to my business. I need not this statement as act of justice, only hoping that it may induce the afflicted to make use of the magic medicine, and thereby save them much suffering and expense.

I remain your obedient servant,

JOHN K. SPALDING.

*Cure of an aggravated case of Strumpkes.*

The cures performed by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla are astonishing. The patient's general health commences to improve after disease is removed. Cures are not recorded until time has fully tested that there can be no relapse or return of the disease.

NORWAY, (Herkimer Co.) Feb. 1852.

H. F. BENNETT & CO., Gents, it is with great pleasure that I write you about the Extract Sarsaparilla and Yellow Dock and Sarsaparilla spoken of so much, has long been suffering under that dreadful, loathsome disease, *Strumpkes*, with which he was attacked in 1845, and was *confined nine months* attended by some of our best physicians, who tried their skill perseveringly for five months, without any beneficial effects whatever. He became *reduced to a perfect skeleton*. He had ulcers from his ankle to his knee, which were continually discharging disgustingly offensive matter. Medical and surgical skill was baffled. Physicians said that his case was hopeless—there could be nothing done to arrest those terrible gangrening ulcers. My neighbors and myself thought he dissolution near at hand. One of my neighbors, who had cured a child of scrofula with your invaluable medicine, wished me to make trial of it, and more from the instinct desire to do something while life lasted, than from any hope of getting relief, I procured three bottles of your "Yellow Dock and Sarsaparilla," and commenced using it, and to my astonishment, he commenced improving. He had used the third bottle, and before he had used it all over a bottle he could walk out. He used in all twelve bottles, and by October last he was perfectly cured, and to my receipt of the disease except the scars are removed, and he remains in perfect health up to the present time. His recovery, under the blessing of God, is entirely owing to the use of your Yellow Dock and Sarsaparilla, and I assure you that I feel myself under great obligations to you, and it is with great joy that I inform you of what your Sarsaparilla has done for my son. Respectfully,

JAS. RUSSELL.

☞ Note: genuine unless put up in large bottles, Chemical, a quart, and the name of the Syrup blown in the glass, with the written signature of H. F. Bennett, on the outside wrapper. Price $1 per bottle—or 6 bottles for $5.

It is sold by J. D. PARK, North East corner of Smith and Walnut streets, entrance on Walnut st., Cincinnati, Ohio, to whom all orders must be addressed.

**JOHN BYLER'S SPOOL BILM,**

*Expressly for Sewing.*

TO avoid the many inconveniences attending the use of the customary Skein, the above article has been much and deservedly patronized, and has always been a matter of astonishment, that whilst the common article of Cotton, was conveniently spooled for general use—Silk, an article of much greater value, has been supplied in Skeins, from which so much trouble, vexation, and loss has arisen.

The difficulty has at last been overcome, the public is offered a good article, handsomely put up in a convenient form for domestic use.

The only objection urged against this article is the apparent small quantity on each spool. This is easily explained. Each spool is warranted to contain as many yards of Silk, while the ordinary Skein, at the same price, has but an uncertain quantity, varying from 12 to 15 yards.

The Spool Silk is ready for use at the time of purchase, and is only presented to the public for the acceptance of its superiority impliedly. Independent of the neat and convenient form in which it is furnished, it has great advantages over the Skein, it does not fray with the fashion of winding, the vexation of tangling, and the loss of time in preparing it for use.

**Great American Mechanical Work.**

D. Appleton & Co., New York, have in course of publication, in parts, price twenty five cents each, the

*Of Machines, Mechanics, Engine Work, and Engineering; designed for Practical Working Men, and those intended for the Engineering Profession.*

EDITED BY OLIVER BYRNE.

THIS WORK is of large 8vo. size, and will contain TWO THOUSAND PAGES, and upwards of six THOUSAND ILLUSTRATIONS. It will present working drawings and descriptions of the most important machines in the United States. Independent of the results of American ingenuity, it will contain complete practical treatises on Mechanics, Machinery, Engine-work, and Engineering, with all that is useful in more than one hundred dollars worth of folio volumes, magazines, and other books.

The great object of this publication is, to place before practical men in studious and easy form, the theoretical and scientific knowledge, in a condensed form, as shall enable the mechanic to work to the best advantage, and to avoid those mistakes which are productive of serious expense. The amount of useful information has brought together, has never had precedent in such works. Indeed, there is hardly any thing of value within its range which is not treated with such clearness, and so condensed, and illustrated, that the humblest capacity cannot fail of understanding it, and thus learning from it much which it is important for him to know.

The publishers are, in short, determined, regardless of cost, to place the work as complete as possible; and it is hoped every one desirous to obtain the work will procure it at a time in numbers, and thus encourage the enterprise.

The work will be issued in semi-monthly numbers, commencing in January, 1850, and will progress with great regularity.

The whole work will be published in 40 numbers, at 25 cents per number, or completed within the current year, 1850. A liberal discount will be made to agents.

Persons remitting the publishers $10 in advance, shall receive the work through the post office free of expense.

**Opinions of the Press.**

"To our numerous Manufacturers, Mechanics, Engineers, and Artisans, it will be a mine of wealth."—Providence (R. I.) Journal.

"Young men, sons yourselves with its knowledge.—We can with confidence recommend it to our readers to possess themselves of its numbers as fast as they appear."—American Artisan.

"We understand that Mr. Byrne has devoted the work to those engaged in or interested in mechanical or scientific pursuits, as a work worthy of their examination and study."—Troy, (N. Y.) Daily Times.

"It is truly a great work, and the publishers deserve the thanks of inventors, mechanics, and manufacturers, and indeed of the public generally."—N. Y. Independent.

"This Dictionary will be highly useful to practical mechanics, and valuable to all who wish to acquaint themselves with the progress of invention in the mechanic arts."—New Bedford (Mass.) Mercury.

"Young mechanics ought to keep hooked up in the office, and let us practice upon it. Nine tenths of the work will show them just how they stand."—Roxbury (Mass.) Advertiser.

"We take it as a sign of just the work that scores and hundreds of our intelligent mechanics have desired to possess. So ample are the descriptions, and so full and minute in appearance, that a man of ordinary skill in mechanic might contract any machine he describes, on the strength of the drawings and instructions."—N. Y. Commercial Advertiser.

"All interested in mechanics should avail themselves of a work of such standard merit."—Penn. Journal.

"A work of extensive practical utility and great importance and value to the rapidly increasing interests of the country. We regard the work as eminently calculated to popularize all of which it treats, and to mechanical arts, and to disseminate valuable information on the subjects."—Farmer and Mechanic.

"Practical men in all the various departments of mechanical and manufacturing industry, engineering, &c., will find in this work a treasure house of facts, and will be their profit to possess."—Troy Daily Whig.

"We have carefully pursued the numbers, and have no hesitation in saying that little the work for the chance, tradesmen, and scientific men, ever published, for it contains much information on every branch of the mechanical arts and sciences, expressed in a style and language intelligible to any reader of ordinary capacity."—Universal Herald, Pa.

"We are sure we are doing the mechanics of Northern and other parts of Connecticut a service by bringing the work to their notice."—Norwich, (Conn.) Courier.

"It is just such a work as every mechanic should possess."—Pittsburgh Saturday Visiter.

"We consider it one of the most useful and important publications of the age. No mechanic can afford to be without it."—Ohio Farmer.

"Of all the various publications having for their object the elucidation and advancement of the mechanical arts, and science, we know of none of such full or promise as this."—Buffalo Com. Adv.

"It is the best work of the kind we have offered to the scientific and practical engineer and mechanic. The plates are beautifully executed."—Washington Globe.

"This work will be valued more and more as its merits are ever published for years, and the low price at which it is sold makes it adaptable to all."—South Carolinian.

"We regard it as one of the most comprehensive and valuable, as it is the cheapest works ever published."—Baltimore Advertiser.

"Ought to be taken by every one desiring to keep pace with the progress of mechanical science or one of the labors of civilized life."—Rondout Courier.

"It is designed for the principle of the Encyclopedia, only that it is more comprehensive, and embracing engineering professions, and above all, it is valuable as compiling, for American readers, the best work in England, viz: describing American machinery and works of art."—Scientific American.

"We publish the prospectus, and at a price so moderate, looking at what is contained in each number, that no one will be the poorer for taking each numbers, and be deterred from procuring it, and every one who does so, will find that he has in a condensed form an amount of information, which, if it cost him twice as much, only by the purchase of very many volumes."—N. Y. Courier and Enquirer.

"The engraved illustrations with which the subjects are treated, the admirable manner in which they are illustrated, compare with the best one of the most desirable works."—Democratic Review.

"This work should be in the hands of every mechanic, artisan, and manufacturer, particularly those who have the least aspirations to excel in their respective business. We have carefully examined it, with a view of recommending it to our readers. To the man who is easy in the strong language of the Bible "it is good."—Hillsboro Democratic Press.

**MALLISTER'S OINTMENT,**

*Containing no Mercury, nor other Mineral.*

THE following testimonial was given by the celebrated Dr. Wooster Beach, the author of the great work, "Beach's Practice of Medicine and Practice of Medicine and Family Physician."

"Having been much acquainted with the ingredients which compose McAllister's All-Healing Ointment and having prescribed and tested it in several cases in my private practice, I do with satisfaction in giving or certifying that it is a great and valuable Family Remedy, containing no mineral substance whatever; that its ingredients combined, are such as I can and do, prescribe by the Proprietor, are not only harmless, but of great value, being a truly scientific ointment of great power; and cheerfully recommend it as a compound which has done much good, and which is adapted to the cure of great variety of diseases, and I do recommend it and engaged in the sale of secret medicines, regard for the truly honest, conscientious, humane character of the proprietor, for his high talent, and the value of his discovery, oblige me to say this much deservedly."—W. BEACH, D. D."

New York, April 23, 1846.

BURNS—It is one of the best things in the world for Burns.

PILES.—Thousands are yearly cured by this Ointment. It never fails to give relief.

For Tumors, Ulcers, and all kinds of Sores, it has no equal.

If Mothers and Nurses know its value in cases of swollen or Sore Breast, they would always apply it. In such cases, it will prove according to directions, it gives relief in a very few hours.

Around the box are directions for using McAllister's Ointment for the cure of Scald Head, Sore Nipples, Tetter, Chilblain, Scald Head, Sore Eyes, Quinsy, Sore Throat, Piles, Sore Breast, Sore Mouth, Burns, Diseases of the Spine, Head Ache, Asthma, Bronchitis, Ear Ache, Burns, Corns, all Diseases of the Skin, Sore Legs, Pimples, &c. Cures Ulcers, Tetter, Scald Head, Rheumatism, Piles, Cold Feet, Croup, Swelled or Bruised Breast, Tooth Ache, Ague in the Face, &c.

From the Reading Eagle.

There was not long since, a Medicine brought before the public, that has in so short a time won such a reputation as McAllister's All-Healing or World Salve. Almost every person in this city, or vicinity, speaks warmly in its praise. One has been cured by it of the most painful rheumatism, another of the piles, a third of a troublesome pain in the side, a fourth of swelling in the limbs, &c. It does not give immediate relief, in every case, it can do no injury, being applied outwardly.

As another evidence of the wonderful healing power of McAllister's All-Healing Ointment, we publish a certificate, from a respectable citizen of Maidenreck township, in this county:

Maidenreck, Berks co., March 20, 1847.

Messrs. Ritter & Co—I desire to inform you that I was entirely cured of a severe pain in the back, by the use of McAllister's All-Healing Salve, which I purchased from you. I suffered with it for about 20 years, and as night was unable to sleep. During that time I tried various remedies, which were prescribed for me by physicians and other persons, without receiving any relief, and at last made trial of this Salve, with a result favorable beyond expectation. I am now entirely free from the pain, and enjoy at night a peaceful and sweet sleep. I have also used the Salve since for tooth ache and other complaints, with similar happy results. Your friend, JOHN HOHNBACH.

JAMES McALLISTER,

Sole Proprietor of the above medicine.

Principal Office, No 58 North Third street, Philadelphia.

PRICE 25 CENTS PER BOX.

# MISCELLANEOUS

JULES HAUEL'S MEDICATED NYMPH SOAP.—The pain of many persons is disfigured with slight eruptions, as pimples, morphew, &c., and when this is merely a disease of the skin, as it is in ninety cases out of every hundred, it is very easily removed. Jules Hauel's Nymph Soap is expressly adapted to diseases of the skin, as it acts directly cleansing them from impurities, and by its balsamic properties healing and eradicating all eruptions, and rendering the darkest and roughest skin soft, fair, and blooming.

Persons who have been in the habit of using ordinary soap, will be astonished at the beautiful effect produced by the Nymph Soap, in imparting a delicate bloom, preventing the neck, face, or hands from chapping, allaying all irritation, and removing all cutaneous eruptions. It possesses an exquisite perfume, and is entirely devoid of all alkaline properties, rendering it the only article which can be used with safety and comfort in the nursery.

All those whose faces or necks are disfigured with pimples, blotches, tan, morphew, &c., should make trial of Jules Hauel's Nymph Soap, as the proprietor positively assures them, that its use will render the most discolored skin white, the roughest skin smooth, and the most diseased skin healthy, pure, and blooming.

Jules Hauel's Nymph Soap is the only article which will effectually produce the above effects in so short a time, and the only one which is at the same time all powerful and entirely harmless. Prepared only by

JULES HAUEL, Perfumer and Chemist,
199 Chestnut street, Phila.

For sale wholesale and retail by R. A. Fahnestock & Co., and R. E. Sellers, Pittsburgh; and John Sargent and J. Mitchell, Allegheny city. feb8

**Metallic Night Lights.**

SUPERCEDING the Wooden Plants, and being incombustible, thereby economizes the oil, and prevents ignition, heretofore so much objected to in all other plants. One metallic plant will last for the full or promise as this."—Buffalo Com. Adv.

"It is the best and most perfect article offered to the scientific and practical engineer and mechanic. The plates are beautifully executed."—Washington Globe.

"This article will be found a great saving of oil, and will be more durable than any other plant ever published for years, and the low price at which it is sold makes it adaptable to all."—South Carolinian.

"We regard it as one of the most comprehensive and valuable, as it is the cheapest works ever published."—Baltimore Advertiser.

"Ought to be taken by every one desiring to keep pace with the progress of mechanical science or one of the labors of civilized life."—Rondout Courier.

"It is designed for the principle of the Encyclopedia, only that it is more comprehensive, and embracing engineering professions, and above all, it is valuable as compiling, for American readers, the best work in England, viz: describing American machinery and works of art."—Scientific American.

"We publish the prospectus, and at a price so moderate, looking at what is contained in each number, that no one will be the poorer for taking each numbers, and be deterred from procuring it, and every one who does so, will find that he has in a condensed form an amount of information, which, if it cost him twice as much, only by the purchase of very many volumes."—N. Y. Courier and Enquirer.

"The engraved illustrations with which the subjects are treated, the admirable manner in which they are illustrated, compare with the best one of the most desirable works."—Democratic Review.

"This work should be in the hands of every mechanic, artisan, and manufacturer, particularly those who have the least aspirations to excel in their respective business. We have carefully examined it, with a view of recommending it to our readers.
