Sellers' Liver Pills Supercede all others

Mr. R. E. Sellers:—Your Pills have become so popular as all this region of country, as very much to supercede all others as a Liver or Anti-Bilious Pills. Yours, &c. JAMES S. LEWIS

(Extract of Letter.)

Purchasers will recollect that R. E. Sellers' Liver Pills are the original and only PURGATIVE PILL, and may be had at No 57 Wood st, and of agents generally in the two cities and vicinity. 1:30

Dr. Guysott's Extract of Yellow Dock and Sarsaparilla.

PUT up in the large quart bottles, contains more of the pure Honduras Sarsaparilla than any other preparation; which when chemically combined with the Extract of Yellow Dock, the Extract Wild Cherry, and the Balsam of Fir, thus making the remedy more therapeutically efficient than any other Sarsaparilla before the public. At the same time it is perfectly free from all mineral poisons, which cannot be said of any other of the Sarsaparilla compounds. The invalid knows beware of poisons: Mercury, Iron, Quicksilver, Iodine, Sulphur, Arsenic, and many other chemical and metallic poisons enter into and form the active basis of most of the Sarsaparilla and Panacea of the day. Guysott's Compound Extract of Yellow Dock and Sarsaparilla does not contain a particle of these substances, as any one can easily ascertain by applying the necessary tests.

The poisons may occasionally remove disease, but they are sure to the looker, and we conspicuously display into the whole system with their baneful effects than the first cold, or the first attack of disease, prostrates the patient's strength, and adjects him or her to the well exterminating fortune, and renders another cure almost impossible and hopeless. Let all persons sympathize preparations alone, and use Guysott's improved Extract of Yellow Dock and Sarsaparilla, which is thoroughly effective, perfectly harmless, and greatly vegetable. All kinds of disease yields to its great influence.

CURES

Scrofula, Cancerous Tumors, Cutaneous Eruptions, Erysipelas, Biles, Pimples, or Pimples on the Face, Chronic Sore Eyes, Tetter, Scald Head, Rheumatism, Enlargement or Pains in the Bones or Joints, Mercurial Affections Blotches, Fever Sores, Hip Disease, Enlargement of the Glands, Blotches, Syphilitic Symptoms, Mercurial Affections, Ulcerations, Dyspepsia, Pulmonary Affections, and all other diseases resulting from Consumption, Liver Complaint, Female Irregularities and Complaints, Sick and Nervous Headache, General Debility, Low Spirits, Loss of Appetite, Night Sweats, Pains in the Side and Shoulders, a Spatter of impurities in Life, Chronic or Constitutional Disorders, and as a Spring and Fall Purifier of the Blood, and General Tonic for the System, it is unrivalled.

A case of Ulcerated Limbs of sixteen years standing.

The following is an extract of a letter dated March 27, 1846, from Dr. Perkins, M. D., a highly respectable physician of Marietta, Ohio.

John Pierson—Dear Sir: I have under my care a young woman who, for sixteen years, has been suffering from Ulcerated Limbs, and whose case has been pronounced hopeless by three of our best physicians. I took her into my family, and have used Guysott's Extract of Yellow Dock and Sarsaparilla, and am confident that the Yellow Dock and Sarsaparilla will effect a permanent cure. She is better in general health than she has ever been before, and walks a mile or two without fatigue or pain. A year ago she used crutches. I will report the case in due time.

Very respectfully, S. B. PERKINS.

SCROFULA.

It has been remarkably prominent men, that in the varied catalogue of diseases to which man is liable, there is scarcely one of such importance, and of such interest as this, whether we look to the obscurity of its origin, its insidious progress, the number and variety of organs that it attacks, or its remarkable incurability and extensive fatality.

Scrofula has baffled the skill of the most eminent physicians in this country and in Europe. But there is an antidote for this disease in Dr Guysott's Extract of Yellow Dock and Sarsaparilla," which is proving in its effects superior to the most severe cases of scrofula.

An extraordinary case of Scrofula cured by the use of Dr Guysott's compound Syrup is well worth the attention of the public. This man has been the instrument of rescue from disease, for the past eight years, without derriving any benefit, and has been effectually cured by the use of a few bottles of the Syrup, as is compound by

New York, June 7, 1848.

DR. GUYSOTT—DEAR SIR,—I owe to you a debt which money cannot pay, I am indeed to make a public acknowledgment of the benefit I have derived from your invaluable Syrup. I was severely afflicted with a terrible Scrofulous disease, hereditary in our family, which commenced on my neck, and, continuing to spread, has reached my ears, running into my head, and extending all over my face, neck, and lower extremities. I felt quite a disgusting object, for long years. At times my distress was so great that I was unable to sleep or lie down; and the disease extending into my ears occasioned deafness by hearing. My face was one continuous sore, from which a discharge of matter and water poured continually oozing out. People avoided me, supposing I had the small pox, or some other infectious disease, and I was consequently obliged to relinquish my business. Notwithstanding I had the best medical advice, and tried different plans of treatment, the disease continued to grow worse, until I gave up in despair. Fortunately I fell in with a passenger on the steamboat, while travelling for my health, who informed me that he was in precisely the same condition as I was, and that by using your Syrup he was specedily cured. I immediately procured the article, commenced using it, and now, after having used less than six bottles, I am well and able to attend to my business. I send you this statement as an act of justice, only hoping that it may induce the afflicted to make use of the right medicine, and thereby save them much suffering and expense.

I remain your obedient servant,
JOHN Q. SPALDING.

Cure of an aggravated case of Erysipelas.

The cures performed by Dr Guysott's Extract of Yellow Dock and Sarsaparilla are lasting. The patient's general health continues to improve after disease is removed. Cures are not announced until time has fully proved that there can be no relapse or return of the disease.

NORWAY, Herkimer Co, Feb. 1850

S F BENNETT & Co.—Sirs, it is with great pleasure that I write you about the very happy effects of your Yellow Dock and Sarsaparilla upon my son, who has long been suffering under that dreadful, loathsome disease, Erysipelas, with which he was attacked in 1845, and was for several months attended by some of our best physicians, who tried their skill perseveringly for two months, without any beneficial effects whatever. He became reduced to a perfect skeleton. He had all cures from his hip to his knee, which were continually discharging disgustingly offensive matter. Medical and surgical skill was baffled. Physicians said that his case was hopeless—there could be nothing done to arrest those terrible gangrening ulcers. My neighbors and myself thought his dissolution near at hand. One of my neighbors, who had cured a child of scrofula with your invaluable medicine, wished me to make trial of it, and more from the restless desire to do something while life lasted, than from any hope of getting relief, procured three bottles of your "Yellow Dock and Sarsaparilla," and commenced using it, and to my astonishment, he commenced improving he had used the third bottle, and before he had used a half dozen bottles he could walk out. He used in all twelve bottles, and by October last he was perfectly recovered, every vestige of the disease excepting the scars is removed, and he remains in perfect health up to the present time. His recovery, under the blessing of God, is entirely owing to the use of your Yellow Dock and Sarsaparilla, and I assure you that I feel myself under great obligations to you, and it is with great joy that I inform you of what your Sarsaparilla has done for my son. Respectfully,

JAS. RUSSELL.

☞ None genuine unless put up in large bottles, containing a quart, and the name of the Syrup blown in the glass, with the written signature of S. F. Bennett, on the outside wrapper. Price $1 per bottle—or 6 bottles for $5.

It is sold by J. D. PARK, North East corner of Fourth and Wamut streets, entrance on Walnut st., Cincinnati, Ohio, to whom all orders must be addressed.

JOHN HYLE'S SPOOL SILK,
Expressly for Sewing.

Black & Colored Sewing Silk, that will stay the course of Cotton, and is consequently spoken for great use—Silk, so much more valuable, should have been supplied in Skeins, from which so much trouble, vexation, and loss has arisen.

The difficulty has at last been overcome, the public offered a good article, and seasonably put up in convenient form for domestic use.

The only objection urged against this article is its superior, small quantity on each spool. This is easily explained. Each spool is warranted to contain 20 yards of Silk, which is considerably more than any piece, has but an uncertain quantity, varying from 15 to 17 yards.

The Spool Silk is ready for use at the time of purchase, and it only needs a trial, to convince the most skeptical of its superiority in quality. Independent of the great convenience which it is furnished, it has great advantages over the Skein, as it does away with the objections of BEAR ENDS, tangling, and the loss of time in preparing it for use.

Great American Mechanical Work.

D. Appleton & Co., New York, have in course of publication, in parts, price twenty five cents each,

A DICTIONARY

Of Machines, Mechanics, Engine Work, and Engineering; Containing a Practical Working Men, and those intended for the Engineering Profession.

EDITED BY OLIVER BYRNE.

THIS WORK is of large size, and will contain two thousand pages, and upwards of six thousand illustrations. It will present working drawings and descriptions of the most important machines in the United States. Independent of the results of American ingenuity, it will contain complete practical treatises on Mechanics, Machinery, Engine-work, and Engineering, with all that is useful in more than one thousand dollars worth of folio volumes, imported instances, and other books.

The great object of this publication is, to place before practical men and students such an amount of theoretical and scientific knowledge, in a condensed form, as shall enable them to work to the best advantage, and to avoid those mistakes which they might otherwise commit. The amount of such information thus brought together is of much beyond price to such works. Indeed, there is hardly any subject within its range which is not treated with the fullness and precision, that even a man of the most ordinary capacity cannot fail of understanding it, and thus learning from it practical lessons of value for him to know.

The publishers are, in short, determined, regardless of cost, to make the work as complete as possible; and it is hoped every one desirous to obtain the work will procure it, as issued in numbers, and thus encourage the enterprise.

The work will be issued in semi-monthly numbers, commencing on the 1st of May, and will progress with great regularity.

The whole work will be published in 40 numbers at 25 cents each number, and completed within the current year, 1850. A liberal discount will be made to agents.

Any one remitting the publishers $10 in advance, shall receive the work through the post office free of postage.

Opinions of the Press.

"To our numerous Manufacturers, Mechanics, Engineers, and artisans, it will be a mine of wealth."—Providence, (R. I.) Journal.

"Young men, qualify yourselves with its knowledge. We can with confidence recommend our readers to possess themselves of its numbers as fast as they appear."—Boston Courier.

"We unhesitatingly commend the work to those engaged in or interested in mechanics or engineering, as an eminently worthy of their examination and study."—Troy, (N. Y.) Pledget.

"It is truly a great work, and the publishers deserve the thanks of inventors, mechanics, and manufacturers, and indeed of the public generally."—N. Y. Commercial Advertiser.

"This Dictionary will be highly useful to practical mechanics, and valuable to all who wish to acquaintance themselves with the progress of invention in the mechanic arts."—New Bedford Daily Mercury.

"Young mechanics ought to get and read up in theoretical as well as practical knowledge, and this work will show them just how they stand."—Roxbury (Mass) Advertiser.

"We value it the more for the work that scores and hundreds of our intelligent mechanics have been doing for years. So ample are its descriptions, and so full and minute its specifications, that it seems as if the very mechanic himself must have had a hand in preparing the strength of its engravings and instructions."—N. Y. Commercial Advertiser.

"All engaged in mechanics should avail themselves of its advantages."—Schuylkill, (Penn.) Journal.

"A work of extensive practical utility and great importance and value to the rapidly increasing interests of the country. The work is well and ably executed, calculated to promote the cause of science and the mechanical arts, and we cordially and earnestly commend it to the attention of the public."—Farmer and Mechanic.

"Practical men in all the varied walks of mechanical and manufacturing enterprise, will find the above and in this work a treasure which it will be to them profit to possess."—Daily Times, Phila.

"We have carefully perused the numbers, and have no hesitation in saying that it is the best work for mechanics, tradesmen, and manufacturers, ever published, for it contains minute information on every branch of the mechanical arts and sciences, expressed in a style and language so intelligible to the meanest of ordinary capacity."—Gloucester, (Mass.) News.

"We are as we have said the mechanics of Norwich and other parts of Connecticut a service by bringing the work to their attention."—Norwich, (Conn.) Courier.

"We consider it one of the most important publications of the day."—Scientific American.

"Various publications having for their object the elucidation of the principles of the mechanical arts and sciences, none but we have seen, is so well and satisfactorily executed as this."—Ibid.

"It is the best and cheapest work ever offered to the scientific and practical engineer and mechanic. The plates are beautiful, and the work is well printed."—Ibid.

"This great Dictionary is one of the most useful works of the kind ever published, and the low price at which it is issued makes it acceptable to all."—South Carolinian.

"We regard it as one of the most comprehensive and valuable, as well as cheapest works ever published."—Baltimore Advertiser.

"Ought to be taken by every one desiring to keep pace with the progress of art and science in every one of the latest developments."—Boston Courier.

"It is designed after the principle of Ure's Dictionary, only that it is more devoted to the mechanical and engineering department, which it is furnished, it has great advantages over the Skein, as it does away with the objections of BEAR ENDS, tangling, and the loss of time in preparing it for use.
