U. S. 7-30 LOAN.

THE Secretary of the Treasury gives notice that subscriptions will be received for Coupon Notes, payable three years from August 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum.—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of $50, $100, $500, $1,000 and $5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from the deposits.

SPECIAL ADVANTAGES OF THIS LOAN.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and the best security. Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it cannot pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discounts.

Convertible into a Six per cent. 5-20 Gold Bond.

In addition to the very liberal interest on the notes for three years, this privilege of conversion is worth about three per cent. per annum, for the current rate for 5-20 Bonds is not less than nine per cent. premium, and before the war the premium on six per cents. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special Act of Congress exempts all bonds and Treasury notes from local taxation. On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in various parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only is pledged for payment, while the whole property of the country is held to secure the discharge of all obligations of the United States.

While the government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.

Duplicate certificates will be issued for all deposits. The party depositing must endorse upon the original certificate the denomination of notes required, and whether they are to be issued in blank or payable to order. When so endorsed it must be left with the officer receiving the deposit, to be forwarded to the Treasury Department.

Subscriptions will be received by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the

FIRST NATIONAL BANK OF CARLISLE, PA.,

and by all National Banks which are depositaries of public money, and

ALL RESPECTABLE BANKS AND BANKERS

throughout the country will give further information and

AFFORD EVERY FACILITY TO SUBSCRIBERS.

The New Skirt for 1864.

A NEW AND GREAT INVENTION IN

HOOP SKIRTS.

The Duplex Elliptic (or double) Steel Spring.

J. I. & J. O. WEST, NO. 97 CHAMBERS STREET NEW YORK,

ARE THE OWNERS OF THE PATENT AND EXCLUSIVE MANUFACTURERS

OF THIS

J. R. BRADLEY'S.

Patented Duplex Elliptic Steel Spring Skirts.

This invention consists of Duplex [or two] Elliptic Steel Springs, ingeniously braided tightly and firmly together edge to edge, making the toughest, most Elastic Flexible and Durable Spring ever used, enabling the wearer in consequence of its great elasticity and flexibleness, to place and fold it when in use as easily and with the same convenience as SILK or MUSLIN DRESS. It entirely obviates and silences the only objections to Hoop Skirts, viz: the annoyance to the wearer as well as the public, especially in crowded assemblies, Carriages, Railroad Cars, Church Pews, or in any crowded place, from the difficulty of contracting them and occupying a small space. This entirely removes the difficulty, while giving the Skirt the usual and full and symmetrical form, and the lightest, most stylish and graceful appearance for the street, opera, promenade, or house dress. A lady having enjoyed the pleasure and comfort and great convenience of wearing one of the Duplex Elliptic Spring Skirts for a single day, will never afterwards willingly dispense with the use of them. They are also equally desirable, and a great improvement over other kinds of Skirts for Misses and Young Ladies who wore short dresses, the elasticity and flexibility of them prevents when coming in contact with anything crowding the Hoop close to the person, from pushing out the other side of the Hoop or dress; and again, they are so much more durable and not likely to bend or break or get out of shape. The bottom rods on all the Skirts are also double steel and twice or DOUBLE COVERED to prevent the covering from wearing off the rods when dragging down stairs, stone steps, &c., &c. which they are constantly subject to, when in use. All are made of the best quality of colored Tapes, and every part of the Skirt is of the very best materials; it is guaranteed in every respect, to be by far the best, most comfortable, and most durable Skirts ever made.

Enquire for the Duplex Elliptic Spring Skirts.

FOR SALE in all variety styles and sizes by all first class dealers.

April 21, 1864—tf. D. P. HAZELTON.

THE peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases which it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These all having the same origin, require the same remedy, viz. purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most efectual antidotes that medical science has discovered for this direful disease, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of *Sarsaparilla* in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood; purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S

CHERRY PECTORAL,

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

UNIVERSAL CLOTHES WRINGER.

No Iron Frame to Break, or Rust, and Spoil the Clothes.

53,818 SOLD IN 1863.

IT was pronounced superior to all others at the World's Fair at London, 1862. It took the First Premium at the great Fair of the American Institute, in N. York City, 1863, and wherever exhibited.

Self-Adjusting and Adjustable!

The only Wringer with the Patent COG WHEEL REGULATOR, which positively prevents the rolls from BREAKING OR TWISTING ON THE SHAFT.

Without Cog wheels, the whole strain of forcing the cloth through the Machine is put upon the lower roll causing three times as much strain upon the lower roll as when Cog wheels with our Patent Regulator are used, besides the extra strain upon the cloth.

In reply to the question, "How Long will it Last?" we can only say, "As long as a wash tub, cooking stove, or any other family utensil." See testimony of Orange Judd, of the American Agriculturist, No. 41 Park Row, N. Y., who says of the

UNIVETSAL CLOTHES WRINGER

"We think the machine much more than PAYS FOR IT SELF EVERY YEAR in the saving of garment:—We consider it important that the Wringer be fitted with Cogs, otherwise a mass of garments may clog the rollers, and the rollers upon the crankshaft slip and tear the clothes, or the rubber break loose the shaft—Our own is one of the first made, and it is as GOOD AS NEW after nearly FOUR YEARS' CONSTANT USE."

IT SAVES
TIME, LABOR, CLOTHES AND MONEY.

It is easily and firmly secured to the tub or washing machine, and will fit tubs of any size or shape.

It will save its cost every six months in the saving of clothes. Those with COG WHEELS ARE WARRANTED in every particular.

This means, especially, that after a few months' use the lower roll

WILL NOT TWIST ON THE SHAFT,

and tear the clothing.
