Sellers' Liver Pills unsurpassed as a cathartic

Charleston, Va., Sept. 20, 1850.

Mr. R. E. Sellers:—Your Pills have become so popular in all this region of country, as very much to supercede all others as a Liver or Anti-Bilious Pill.

Yours, &c. JAMES A LEWIS
(Extract of Letter.)

Purchasers will recollect that R. E. Sellers' Liver Pills are the original and only Pill prepared at Wellsville, and that they are but at No 57 Wood st., and agents generally in the two cities and vicinity. 139

Dr. Guysott's Extract of Yellow Dock and Sarsaparilla.

PUT up in the largest sized bottles, contains more of the pure Honduras Sarsaparilla than any other preparation extant, which is chemically combined with the Extract of Yellow Dock, the Extract of Wild Cherry, and the balsam of Fir, thus making the remedy more thoroughly efficient than any other Sarsaparilla before the public. At the same time it is perfectly free from all mineral poisons, which cannot be found in any other of the Sarsaparilla compounds. Dare it be said should beware of poisons! Mercury, Iron, Quinine, Potash, Iodine, Sulphur, Arsenic, and many other mineral and metallic poisons enter into and form the active basis of most of the Sarsaparilla and Panaceas of the day. Guysott's Compound Extract of Yellow Dock and Sarsaparilla does not contain a particle of these substances, as any one can easily ascertain by applying to the nearest Druggist.

The poisons may occasionally remove disease, but they so vitiate the blood, and so completely impair and ruin the whole system with their baneful effects that the first cold, or the first attack of disease, prostrates the patient's strength, and subjects him or her to the most excruciating torture, and renders another cure almost impossible and hopeless. Let all poisonous Sarsaparilla preparations alone, and use Guysott's improved Extract of Yellow Dock and Sarsaparilla, which is thoroughly efficacious, perfectly harmless, and purely vegetable. All kinds of disease yields to its genial influence.

CURES.

Scrofula, Cancerous Tumors, Cutaneous Eruptions, Erysipelas, Biles, Pustules, or Pimples on the Face, Chronic Sore Eyes, Ulcers, Scald Head, Incurable Sores, Enlargement or Pains in the Bones or Joints, and stubborn Ulcers, Fever Sores, Sore Legs, Swelling of the Glands, Dropsical Affections, Syphilitic Complaints, Lumbago, Dropsy, Dyspepsia, Jaundice, Costiveness, Bad Breath, Affections of the Kidneys and Bladder arising from an injudicious use of Mercury, Minister's Sore Throat, Weakness of the Chest, Consumption, Affections and all other diseases tending towards Consumption, Liver Complaint, Female Irregularities and Complaints, Loss of Appetite, Nervous Debility, Low Spirits, Loss of Appetite, Night Sweats, Pains in the Side and Shoulders, Diseases of impure or bad blood, Chronic Constitutional Disorders, and as a Spring and Fall Purifier of the Blood, and General Tonic for the System, it is unrivalled.

A case of Ulcerated Limbs of sixteen years standing.

The following is an extract of a letter dated March 27, 1848, from L. F. Perkins, M. D., a highly respectable physician of Marietta, Ohio.

John Paxa—Dear Sir: I have under my care a young woman who, for sixteen years, has been afflicted from Ulcerated Limbs, and whose case has been pronounced hopeless by three of our best physicians. I took her into my family, and have used Guysott's Yellow Dock and Sarsaparilla freely, and am astonished at the result. I believe it will effect a permanent cure. Nine in twelve in general, health than she has ever been before, and walks a mile or two without fatigue or pain. A few days she used crutches. I will report the case in due time.

Very respectfully,
L. F. PERKINS.
SCROFULA.

It has been remarked, by eminent men, that in the various catalogue of diseases to which man is liable there is scarcely one of such importance, and of such universal interest, whether we look to the obscurity of its origin, its insidious progress, the number and variety of organs that it attacks, or its remarkable incurability and extensive fatality.

Scrofula has baffled the skill of the most eminent physicians in this country and in Europe. But there is an antidote for this disease in Dr. Guysott's Extract of Yellow Dock and Sarsaparilla," which is proving itself a perfect specific in the most severe cases of scrofula.

An extraordinary case of Scrofula cured by the use of Dr. Guysott's improved compound Syrup is described in the certificate that the man has been under the treatment of several celebrated physicians for the past five years, without deriving any benefit, and has been effectually cured by the use of a few bottle of Dr. Guysott's compound Syrup.

New York, June 7, 1848

DR. GUYSOTT—Dear Sir,—Owing to you a debt which none can pay, I am induced to make a public acknowledgement of the benefit I have derived from your invaluable Syrup. I was sorely afflicted with a severe Scrofulous disease, hereditary in our family, which commenced on my neck, and, continuing to spread, soon loaded me with running sores, my legs and arms were all over my face, neck, and lower extremities. I became a disgusting object to look upon, from the very distress I was greatly, I was unable to sleep or lie down, and the disease extending into my ears seriously affected my hearing. My face was one continuous sore, from which a discharge of matter and water kept continually oozing out. People avoided me, supposing I had the small pox, or some other infectious disease, and I was consequently obliged to relinquish my business. Notwithstanding I had the best medical advice, and tried different plans of treatment, the disease continued to grow worse, until I gave up in despair. Fortunately I met with a passenger on the steamboat, while travelling for my health, who informed me that he son was at one time in as bad a condition as I was, and that by using your Syrup he was speedily cured. I immediately procured the article, commenced using it, and now, after having used two of the bottles, I am well and able to attend to my business. I send you this statement as an act of justice, only hoping that it may induce the afflicted to try the medicine, and thereby save them much suffering and expense.

I remain your obedient servant,
JOHN Q. SPALDING.

Cure of an aggravated case of Erysipelas.

This cures performed by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla are lasting. The patient's general health continues to improve after disease is removed. Cases are not chronicled until time has fully tested that there can be no relapse or return of the disease.

NORWAY, (Herkimer Co.) Feb. 1836.

H. F. BENNETT & CO.—Gents, it is with great pleasure that I write you about the very happy effects of your Yellow Dock and Sarsaparilla upon my son, who has long been suffering under that dreadful, loathsome disease, Erysipelas, With which he was attacked in 1839, and was for several months attended by some of our best physicians, who tried their skill perseveringly for five months, without any beneficial effects whatever. He became reduced to a perfect skeleton. He had ulcers from his lip to his knee, which were continually discharging disgustingly offensive matter. Medical and surgical skill was baffled. Physicians said that his case was hopeless—there could be nothing done to arrest those terrible lingering ulcers. My neighbors and myself thought his dissolution near at hand. One of my neighbors, who had cured a child of scrofula with your invaluable medicine, wished me to make trial of it, and more from the restless desire to do something while life lasted, than from any hope of getting relief, I procured three bottles of your "Compound Syrup of Yellow Dock and Sarsaparilla," and commenced using it and to my astonishment, he commenced improving he had used the three bottles, and before he had used a half dozen bottles he could walk out. He used in all twelve bottles, and by October last he was perfectly restored, every vestige of the disease excepting scars is removed, and he remains in perfect health up to the present time. His recovery, under the blessing of God, is entirely owing to the use of your Yellow Dock and Sarsaparilla, and I assure you that I feel myself under a great obligations to you, and it is with great joy that I inform you of what your Sarsaparilla has done for my son.

Respectfully,
JAS. RUSSELL.

☞ None genuine unless put up in large bottles, containing a quart, and the name of the Syrup blown in the glass, with the written signature of R. E. Bennett, on the outside wrapper. Price $1 per bottle—or 6 bottles for $5.

It is sold by J. D. PARK, North East corner of Fourth and Walnut streets, entrance on Walnut st., Cincinnati, Ohio, to whom all orders must be addressed.

JOHN RYLE'S SPOOL SILK,
Expressly for Sewing.

TO avoid the many inconveniences attending the use of the ordinary sewing silk, this article has been much, and for a long time wanted. It has always been a matter of astonishment, that so simply spooled silk, of such a universally popular nature, should not have been supplied in the usual form, which so much improves the article of Cotton, and so many other goods.

The difficulty has at last been overcome, and Ryle has offered a good article, handsomely put in a form convenient for domestic use.

The only objection urged against this article is the expensive and inelegant Cotton spool. This is easily explained. Each Spool is warranted to contain 20 yards of Silk; while the ordinary Cotton spool, of the size, has but an uncertain quantity, varying from 15 to 18 yards.

The Spool Silk is ready for use at the time of purchase, and it only needs a trial, to convince the most skeptical of its superiority and economy. Independent of the neat and convenient form in which it is furnished, it has great advantages over the Skein, as it does away with the tedious and troublesome addition of winding, and the loss of time in preparing it for use.

Great American Mechanical Work.

D. Appleton & Co., New York, have in course of publication, in parts, price twenty five cents each,

A DICTIONARY

Of Machines, Mechanics, Engine Work, and Engineering; designed for Practical Working Men, and those intended for the Engineering Profession.

EDITED BY OLIVER BYRNE.

THIS WORK is of large Imp. size, and will contain two thousand pages, and upwards of six thousand illustrations. It will present working drawings and descriptions of the most important machines in the United States in dependence of the ingenuity of American ingenuity, it will contain complete practical treatises on Mechanics, Machinery, Engine work, and Engineering; with all that is useful in more than one thousand dollars worth of folio volumes, magazines, and other books.

The great object of this publication is, to place before practical men and students such an amount of theoretical and scientific knowledge, in a condensed form, as should enable them to do their work the best advantage, and to avoid those mistakes which they might otherwise commit. The amount of useful information this work will together is also beyond practice in such works. Indeed, there is hardly any subject connected with mechanics in which, for clearness and precision, that even a man of the most ordinary capacity cannot fail of understanding it, and thus learning from it much which he may find for him to know.

The publisher is, in short, determined, regardless of cost, to make the work as complete as possible; and it is hoped every one desirous to obtain the work will immediate his name in numbers, and thus encourage the enterprise.

The work will be issued in semi-monthly numbers, commencing with the first of May, and one hundred parts, at regularly.

The whole work will be published in 40 numbers, at 25 cents per number, and completed within the current year, 1850. A liberal discount will be made to agents.

Any one remitting the publishers $10 in advance, shall receive the work through the post office free of expense.

Opinions of the Press.

Of our numerous manufacturers, Mechanics, Engineers, and Artisans, it will be a mine of wealth.—Providence (R. I.) Journal.

Young men, by themselves with its knowledge.—We can with confidence recommend our readers to possess themselves of its numbers as fast as they appear.—American Farmer.

We unhesitatingly commend the work to those engaged in or interested in mechanical or scientific pursuits, as peculiarly valuable, and worthy their study.—Troy (N. Y.) Daily Times.

It is truly a great work, and the publishers deserve the thanks of inventors, machinists, and manufacturers, and indeed of the public generally.—N. Y. Tribune.

The Dictionary will be highly useful to practical mechanics, and valuable to all who wish to acquaint themselves with the progress of improvement in mechanic arts.—New Bedford Daily Mercury.

Young mechanics will find it most apt in the practical as well as practical knowledge, and this work will show them just how they stand.—Roxbury (Mass) Advertiser.

We take it to be just the work that scores and hundreds of our intelligent mechanics have desired to possess. So perfect, so complete, so full, so free from all minute its specifications, that it seems as to that any mechanic in the country may at his discretion pass the strength of his engravings and instructions.—N. Y. Commercial Advertiser.

All intelligent mechanics should avail themselves of its advantages.—Schuylkill (Penn.) Journal.

A work of extraordinary practical utility and great importance and value to the rapidly increasing interests of the country. We trust it will continue to be, the same as the popularity of its Boston, without charge for transportation; and will be delivered free of charge with all the current numbers.—W. BRACH, D. D.—New York, April 24, 1846.

PETROLEUM, OR ROCK OIL.

"There was a time when Rock Oil was a nuisance, and a nuisance it was, when it was a nuisance, and a nuisance it was, when it was a nuisance, and a nuisance it was, when it
