From the Corry Republican

A Visit to Elk and Cameron Counties. ED. REPUBLICAN :- We will recount to you a few of the impressions we received during a recent trip to Elk and Camerion counties. Taking an eastward bound train at

Corry, we glided along quite smoothly as lar as Warren. Here we were pleasantly surprised by seeing a friend from Ridgway enter the car. We seated our-selves for a quite chat, but the rattling of the cars induced by the roughness of the road, precluded the possibility of conversation in the ordinary key. So we contented ourselves with occasional remarks, in tones pitching among the high notes, until we reached Ridgway. Here we met with a hospitable welcome from Dr. Bordwell and his genial wife. The Doctor is an old residence of the place, and highly esteemed for his generosity and public spirit, as well as for his skill as a physician and surgeon. After tea the Doctor took us for a drive, and recounted to us the changes he had witnessed since he came here through the wilderness, traversing miles upon miles without seeing a human habitation, and finding here only a few small dwellings. But the railroad has starled the solitude with its innovations. Two immense tanneries have sprung up here, each with its long row of tenement houses, constituting a little village in ittanneries consume twenty thousand tons Depository Penn'a. Bible of bark annually. Thus the primeval forest is fast giving way before the tanner, even as a tanner whom we all know so well compelled rebellious armies to give way before his onward march ;-

> The wealth and refinement of many of the citizens of this place is displayed recent erection of a fine school building. The school is under the supervision of Mr. Rockwell, a graduate of the Erie County Normal School, who has won the confidence of his patrons by his able past year. After spending a short time at this place, we started for Camerion, and after rattling over the road, in a Dirge, we reached our destination. found a little village embosomed among the hills, which are covered with trees, mostly dark evergreens, among which gleam forth the snowy laurel blossoms. We plucked some of the beautiful clusters without encounting the proverbial

rattlesnake that is said to haunt them. Wishing to see the prospectus of the place, we entered the school 100m, and By reference to our advertising colums, who looked as though they would some money collected from customs for a period our readers will notice the new advertise- day have a hand in making the destiny ment of Fred Schoening dealer in Piano. of the nation. Miss Eliza Martin has been training the young ideas here during the past year, to the entire satisfaction of the patrons. She is also a graduon Fritz, who guarrantees, every instru- atc of the Edioboro Normal School. All over the country we find these graduates doing a good work in the cause of education. After a little time here we took a return train for Emporium. We stopped at the Biddle House, and found ample accommodation and bounteous fare. Here we received a call from the popular and efficient school superintendent of Camerion county, Mr. Johnson and his wife, who accompanied us to the Methodist church of this place, where a fine appreciative audience was

assembled to listen to select readings. On our return trip we stopped as Ridgway and in the evening read to a goodly assembly at the Court House, notwithstanding the inclemency of the weather, it being dark, rainy and muddy. The Cornet Band of this place was present, and discoursed several pieces of excellent music. Although only recently organized this band has attained such proficiency that they will soon be able to fill any engagements where good music is required. Among its members we noticed the two editors of the place, both enterprising young men (although one of them happens to be on the wrong side of political question), and Mr. J. O. W. Bailey, a young lawyer who is al-

ready gaining emience in his profession. After spending a short time at this place, and forming several pleasant acquaintances, we found ourself en route for home which we reached without accident or incident worthy of mention.

## The Greeleyite Ratification.

Without a doubt, the most ridiculous and farcial spectacle over presented in this city, was the meeting held in the market house on Thursday evening to ratify Greeley's nomination at Baltimore for president. In the first place, the cants. He was consequently appointed adherents of what was once called the Democratic party, composed about one half of those present, the other half being Republicans well known for their but, although passing a creditable ex- devotion to Grant, the mass present not amination generally, he was yet deficient exceeding three hundred voters. THE FIRST BATTLE. Republicans must not lose sight of the fact in the "noise and confusion" raised by the Baltimore nominations, that we have a great battle to fight in this State before the Presidential election occurs, and that upon the result of that battle may depend the issue of the Presidential contest in the Union. It we want to make the election of Grant and Wilson certain, we must elect the Republican State ticket in October, and to the accomplishment of that the whole energy of the party should be directed from this time forward. To work, then, at once! Let ever good Republican take his post, and by word and deed strive for the success of the whole State self. We were informed that these ticket, for upon that will depend, in a great degree, whether the electoral vote

Pennsylvania will be with us or against us in November. IT would be well for the Greeley Democrats who prate so much about the dishonesty, corruption, and stealing of the present administration to read and thoroughly digest the following statement from the United States Treasury management of the school during the Department as published in the N. Y. Observer of July 4th, 1872.

WHAT THE U.S. TREASURY LOSES -An American gentleman about to visit Europe has written to the Treasury Department making inquiry as to the amount of losses in the collection of the internal and customs revenue, the losses sustained by depositors in national banks, and the amount of public money lost through defaulting officials. To this request, Assistant Secretary Richard-son replies that from March 3, 1869, to March 3, 1872, the loss to the Government in collecting the internal revenue was less than the one fittieth of one per cent. of the amount collected, or less than \$2 in \$10,000. According to the statement of the Commissfound about fifty bright-faced youths, ioner of Customs, showing the amount of of two years and three-fourths of a year, from the 1st of April, 1869, to the 3Ist of December, 1871, the estimated ultimate loss to the Government is \$28,000 gut of \$553,000,000 of collections, or the one twohundredth part of one per cent, being somewhat less than \$5 in \$100,000. The Controller of the Currency furnishes a schedule of all the national banks that have failed during the three years from June 1, 1869, to June 1, 1872, with their capital the amount of claims proved and the dividenus paid on the claims, from which it appears that the estimated average annual losses of these years were from \$21,700 to \$40,100. On the basis of the constant average amount of deposits of \$574,300,000, it is found that the ratio of estimated loss o creditors through the insolvency of national banks has been the one one-hundred and eighty-sixth part of one per cent. of such deposits equivalent to five dollars and three eights of a dollar in \$100,000

There is also a statement furnished by the United States Treasurer, showing the total amount of money entries as they pear on the books of the Treasury of the United States at Washington covering a period of eleven and one half years, from the 30th of June, 1861, to the 9th of Jan. uary, 1872, to be somewhat over fifty-five thousand millions of dollars (\$55,104,232,-283), and that the loss during these eleven and a half years was slightly in excess of fifty-five thousand dollars (55,057), the loss being less than one ten thousandth part of one per cent., or less than \$1, in \$1,000,000 of money transactions.

## HOW TO GO WEST.

This is an enquiry which every one should have truthfully answered before he starts on his journey, and a little care taken in examination of Routes will in many cases save much trouble, time and money.

The "C., B. & Q. R. R.," running Burlington, and the "I., B. & W. Route," running from Indianapolis, through Bloomington to Burlington, have achieved a splendid reputation in the last two years as the leading Passengers Routes to the West. At Burlington they connect with the B. & M. R. R, and form the great Burlington Route, which runs direct through Southern Iowa to Nebraska and Kansas, with close connections to California and the Territories; and passengers starting from Elk County, on their way westward, cannot do better

than to take the BURLINGTON ROUTE. This Line has published a pamphlet called "How to go West," which contains much valuable information; a large correct map of the Great West, which can be obtained free of charge by addressing the General Passenger Agent | tion. B. & M. R. R. Burlington, Iowa.

Aug 20 1870, tf.

Is one of the most remarkable facts of this remarkable age, not that so many persons are the victims of dyspepsia or in-digestion, but its willing victims. Now, we would not be understood to say that any ne regards dyspepsia with favor, or feels lisposed to rank it among the luxuries of life. Far from it. Those who have ex-perienced its torments would scout such an idea. All dread it, and would gladly dispense with its unpleasant familiarities. Mark Tapley, who was jolly under all the trying circumstances in which he was placed, never had an attack of dyspepsia, or his jolity would have speedily forsaken

Of all the multifarious diseases to which the human system is liable, there is perhaps no one so generally prevalent as dyspepsia. There are diseases more acute and painful, and which more frequently prove fatal, but none the effects of which are so depressing

none the effects of which are so depressing to the mind and so positively distressing to the body. If there is a wretched being in the world it is

A CONFIRMED DYSPEPTIC.

We have said that dyspepsia is perhaps the most universal of human diseases. This is imphatically the case in the United States. Whether this general prevalence is due to the character of the food, the method of its preparation, or the hasty manner in which it is usually swallowed, is not our province to explain. The great fact with which we are called to deal is

DYSPEPSIA PREVAILS

almost universally.

Nearly every other person you meet is a fetim, an apparently willing one; were this not the case, why so many sufferers, when a certain, speedy and safe remedy is within the easy reach of all who will avail themselves of it? But says a dyspeptic: What is this remedy? to which we reply: This great allevator of human suffering is almost as widely known as the English language. It has allayed the agonies of thousands, and is to-day carrycomfort and encouragement to thousands of others. This acknowledged panacea is none other than Dr. HOOFLAND'S GERMAN BITTERS

Would you know more of the merits of this wonderful preparation than can be learned from the experience of others? Try it yourself, and when it has failed to fulfil the assurance of its efficacy given by the proprietor, then abandon faith in it. LET IT BE REMEMBERED,

That IT BE RESIGNATED.

first of all, that HOOFLAND'S GERMAN
BITTERS is an arum beverage.

They are composed wholly of the pure
juice or vital principle of roots. This is
not a mere assertion. The extracts from which they are compounded are prepared by one of the ablest of German chemists. Their effects can be beneficial only in all cases of the billiary system. Hooff ad's German Bitters stand without an equal, acting promptly and vigorously upon the liver they remove its torpidity and cause health ful secretion of bile-thereby supplying the stomach with the most indispensable lements of sound digestion in proper pro portions.

They purify the blood, cleansing the vital fluid and hurtful impurities and suplanting them with the elements of genuine realthfulness.

Now, there are certain classes of perons to whom extreme Bitters are not only unpalatable, but who find it impossible to take them without positive discomfort. For such Dr. HOOFLAND'S GERMAN TONIC has been specially prepared. It is intended for use where a slight alcoholic stimulant is required in connection with the well-known Tonic properties of the pure Ger-

HOOFLAND'S TONIC acts with almost marvelous effect. It not only stimulates the flagging and wasting energies, but invigorates and permanently strengthens its action upon the Liver and Stomach thorough, perhaps less prompt than the Bitters, when the same quantity is taken is none the less certain. Indigestion, Billiousness, Physical or Nerous prostration, yield readily to its notent influence. It gives the invalid a new Be it resolved by the Senate and House of and stronger hold upon life, removes deRepresentatives of the Commonwealth of Penness. But Dr. Hoofland's benefactions to the human race are not confined to his celebrated GERMAN BITTERS, or his invaluable Toxic. He has prepared another medicine, which is rapidly winning its way to popular favor because of its in trinsic metits. This is HOOFLAND'S PODOPHYLLIN PILLS, a perfect substi-

tute for mercury without any of mercury' evil qualities. These wonderful Pills, which are intended to act upon the Liver, are mainly com-posed of Podophyllin, or the vital principle of the mandrake root. It is the medicinal virtues of this health-giving plant in a perfectly pure and highly concentrated form. The Podophyltin acts directly on the Liver, stimulating its functions and causing it to make its billiary secretions in regular and proper quantities. The inju-rious results which invariably follow the use of mercury is entirely avoided by their use. But it is not upon the Liver only that their powers are exerted. The extract of Mandrake contained in them is skillfully combined with four other extracts, one of which acts upon the stomach, one upon the upper bowels, one upon the lower bowels, and prevents any griping effect, thus producing a pill that influences the entire digestive and alimentary system, in an equal and harmonious manner, and its action entirely tree from nausea, vemiting or griping pains common to all other

purgatives. Possessing these much desirable qualities the Podophyllin becomes invaluable as a FAMILY MEDICINE.

No household should be without them. They are perfectly safe, require but two for an ordinary dose, are prompt and efficient in action, and when used in connec-tion with Dr. Hoofland's German Bitters, or Tonic, may be regarded as certain specifies in all cases of Liver Complaint, Dys pepsia, or any of the disorders to which he system is ordidarly subject. T PODOPHYLLIN PILLS

act upon the stomach and bowels, carrying off improper obstructions, while the Bitters or Tonic purify the blood, strengthen and invigorate the frame, give tone and appe-tite to the stomach, and thus build up the invalid anew. Dr. Hoofland, having provided internal

remedies for disease, has given the world one mainly for external application, in the wonderful preparation known as DR. HOOFLAND'S GREEK OIL. This Oil is a sovereign remedy for pains

nd aches of all kinds. Rheumatism, Neuralgia, Toothache, Chilblains, Sprains, Burns, Pain in the Back and Loins, Ringworms, etc., etc., all yield to its external application. Taken internally, it is a cure for Heart-

burns, Kidney Diseases, Sick Headaches, Colic, Dysentery, Cholera Morbus, Cramps, Pains in the Stomach, Colds, Asthma, etc.

## Ayer's Hair Vigor,

For restoring to Gray Hair its

once agreeable, healthy, and effectual for preserving the hair. It soon restores faded or gray hair to its original

color, with the

gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the forma-tion of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Viger can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

**HALL'S** VEGETABLE SICILIAN HAIR

Every year increases the popularity of this valuable Hair Preparation, which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR-DRESSING ever used, as it requires fewer applications, and gives the hair a splendid glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes." Sold by all Druggists and Dealers in Medicines.
Price One Dollar.

Buckingham's Dye. FOR THE WHISKERS.

As our Renewer in many cases requires too long a time, and too much care, to restore gray or faded Whiskers, we have prepared this dye, in one preparation, which will quickly and effectually accomplish this result. It is easily applied, and produces a color which will neither rub nor wash off. Sold by all Druggists. Price Fifty Cents. Manufactured by R. P. HALL & CO.,
