REASONS WHY THE AMERICAN WATCHES, Made at WALTHAM, MASS.

IS THE BEST.

IT is made on the best principle. Its frame is composed of SOLID PLATES. No jar can interfere with the harmony of its working and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness) and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and rivited together, and require constant repairs to keep them in any kind of order. All persons who have carried "ancres," "lepines" and "English Patent Levers," are perfectly well aware of the truth of this statement.

At the beginning of our enterprise, more than ten years ago, it was our first object to make a thoroughly good low priced watch for the million to take the place of those foreign impositions—the refuse of foreign factories—which were entirely unsaleable at home and perfectly worthless everywhere.

How well we have accomplished this may be understood from the fact, that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequalled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the simplest facilities. We have erected an addition to our main buildings expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for *less money* than foreign watches, but we do assert without fear of contradiction that for the *same money* our product is incomparably superior. All our watches, of whatever grade, are fully warranted and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

An Effectual Worm Medicine.

Brown's Vermifuge Comfits,

OR WORM LOZENGES. Much sickness, undoubtedly, with children and adults, attributed to other causes, is occasioned by worms. The "VERMIFUGE COMFITS," although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be safe and sure in eradicating worms, so hurtful to children.

CHILDREN HAVING WORMS require immediate attention, as neglect of the trouble often causes prolonged sickness.

SYMPTOMS OF WORMS IN CHILDREN are often overlooked. Worms in the stomach and bowels cause irritation, which can be removed only by the use of a sure remedy. The combination of ingredients used in making *Brown's "Vermifuge Comfits"* is such as to give the best possible effect with safety.

CURTIS & BROWN, Proprietors, New York. Sold by all Dealers in Medicines, at 25 cts. a box.
May 25, 1866—1y.

!! A Grand Epoch in Medicine !!

DR. MAGGIEL, is the founder of a new medical system. The quantitarians whose vast internal doses enfeeble the stomach and paralyze the bowels, and with whose external remedies ulcerated and eruptive surfaces are deluged in vain, must give place and precedence to the man who restores health and appetite with from one to three harmless pills, and cures the most virulent and scorbutic disorders with one or two boxes of his salve. Maggiel's Pills and Salve have ushered in a new medical era. No more nauseating avalanches of drastic pills need be poured down sick people's throats. One of Maggiel's Pills rectifies the disordered condition of the stomach and bowels, and makes health return where it has vanished. In fact Maggiel's Bilious, Dyspeptic and Diarrhœa Pills cure where all others fail. While for Burns, Scalds, Chilblains, Cuts, and all abrasions of the skin, Maggiel's Salve is infallible. Sold by J. Maggiel, 473 Fulton street, New York, Haverstick, Carlisle, and all druggists, at 25 cents per box.
April 20, 1866.

ITCH! ITCH! ITCH! SCRATCH! SCRATCH! SCRATCH WHEATON'S OINTMENT

Will Cure the Itch in 48 Hours.

ALSO cures SALT RHEUM, ULCERS, CHILBLAINS, and all ERUPTIONS OF THE SKIN. Price 50 cents. For sale by all druggists. By sending 60 cents to WEEKS & POTTER, Sole Agents, 170 Washington street, Boston, it will be forwarded by mail, free of postage, to any part of the United States.

Public Sale of Valuable Real Estate

On Saturday, August 25, 1866

THE subscriber will sell at public sale, on the premises, in Penn Township, Cumberland County, on the Yellow Breeches Creek, one half mile South of Centreville, the following described farm, containing

113 ACRES,

of choice land in a high state of cultivation. The land has a limestone basis and is of the best quality for producing grain. The improvements are a large Two-Story

Brick Dwelling House,

and a large

Frame Bank Barn,

both nearly new, and built upon the most improved plan. There is a complete set of out-buildings, all new and in the best condition. The farm is under excellent fence and has been all heavily limed within the last two years. There is a most excellent

ORCHARD,

of every variety of choice fruit trees, which is just now in full bearing condition. The Yellow Breeches Creek, runs along the North side of the farm thus making the best facilities for watering stock. This property is certainly the most desirable one in the County. In addition to the other buildings there is a new

Store Room,

fitted up, at which a Store has been in successful operation for three years. It is one of the best stands for a Country Store, in the County.

Also at the same time, Two Lots of Mountain Land in the South Mountain, within a short distance of the above described farm, one containing 20 Acres and the other 11 Acres of most excellent Timber. These are easy of access and are very desirable.

Sale to commence at 1 o'clock, P. M., on said day when terms will be made known by
PETER GARBER.

AMERICAN ORGANS.

(*From "Godey's Ladies' Book" February, 1866.*)

REED ORGANS, &c.

THE following remarks and suggestions relative to this immensely popular instrument will doubtless interest and profit very many of our readers, we commend the article to their careful perusal:—

A hundred and one makers of Organs, Cottage, Parlor, Cabinet, American, School Organs, etc etc., are each claiming to make the best instrument in the world. Being comparatively a new instrument as at present constructed, we are convinced the public are much less capable of judging of its merits, or demerits, than of most other instruments. If there is really an essential difference in them, if there are some excellent and some worthless ones, the public should have some criterion for judging of them, some facts which will enlighten them. We cheerfully concede the space for this article knowing that there is hardly a family, or church, or school in all the land, but is more or less interested in this topic. We are also aware of its being a great misfortune, a real calamity, to any of them to purchase an inferior or worthless Organ, ruinous to good playing, and often a source of much annoyance and vexation. We know this article to emanate from a candid and intelligent source, and thus we give it to our readers.

The question is often asked, what are "reed organs?" We answer, they are, in most cases, nothing in the world but the old melodeon in disguise. Many of the so-called organs have the same bellows, the same reeds, and the same general internal arrangement. With the bellows turned on edge to gain room, they have simply put on a more pretentious exterior and a more high sounding name. But an organ, to be in reality an organ, must have a wind chest or reservoir for air separate from the bellows, into which wind-chest the reeds open, and the tone has room to expand and perfect itself into the full round tone, similar to the flute or pipe organ, even, smooth, firm, and mellow; and this tone from reeds cannot be obtained in any other way known. Nothing so annoys a true organist as to have the volume of sound swelling and jerking spasmodically with every variation of force on the bellows, which is always the case where the reeds open direct into the bellows or air passages, instead of a wind chest or sound-box. And yet some makers even go so far as to claim this spasmodic or automatic jerking of the bellows on the reeds as an excellence, just as though they did not know that it must very soon throw the reeds out of tune, and injure the bellows; and as though it were not an easier matter to obtain a much better and more easily managed swell by other methods. The truth is, any organ, so called, or melodeon which has the wind acting directly upon the reeds, is nothing more nor less than a huge accordeon, dress it up as you may. And when organists and true musicians become aware of the fact that they can obtain those that are organs in fact as well as in name, they will buy no more of the objectionable ones. Then again the swell should always be separate and distinct from the bellows, so as not to be acted on by the hand, or soft blowing, but convenient so that the player can use it with the knee, separate from the hands or feet, and that always under easy control, to be used ad libitum.

The large divided bellows, or double bellows, is also a very important improvement. By this means not only can the wind be supplied more evenly, but with far greater ease to the performer, from the fact that either bellows alone will be sufficient for the lighter melodies, thus permitting the player to change about and rest the feet at will; then, if the bellows is of the requisite large size, and having the wind chest or reservoir, all will be well. As to the reeds,
