1st—All banking privileges are prohibited, the business being confined exclusively to the insurance of lives.

2d—Its Risks are selected with great care, thus insuring small losses, and consequently larger dividends accrue to Policy holders. See Mass Insurance Reports last six years.

3rd—Its Ratio of Expenditures, including Death Claims and Working Expenses, to Receipts, are unprecedentedly low.—Same Reports.

4th.—All its profits are divided among Policy holders the original capital being limited by Charter to eight per cent dividends, no more than it earns for the Company at interest.

5th.—It declares and pays its dividends *annually* in Cash, thus assisting the insured in the payment of premiums.

6th—Its business is distributed over more than twenty Northern States, making it impossible to much of its large surplus, set apart for contingencies, even in the event of a second visitation of Cholera

7th.—It is prompt in the payment of losses, having paid to Widows and Orphans nearly ONE MILLION DOLLARS, and has *never disputed a claim.*

8th—The actual wealth insures as an investment

9th—Men of small means insure to guard their families against want.

10th.—The man of business insure to provide against possible loss in trade a life Policy, being a basis for capital

11th.—Persons in debt insure that their earnings for years of toil may not be sacrificed at death from want of ready cash to extend liabilities.

SEELY'S Patent Metallic Sole.

A NEW INVENTION.

WETTING THE FEET is, the most prolific cause of disease and death known to humanity. It is almost sure to bring on a cold; and colds, neglected, and often when not neglected, lead to fevers or to coughs and fatal consumptions. It is in recognition of this truth that the inventive talent of the country has for years been devising some method, or attempted to devise it, for keeping the feet dry, and yet that should not give inconvenience to the wearer. Rubber shoes, in one form or another, have for long been our reliance, but it is well known, as among their many evils that while they keep the feet dry from external moisture, they sweat them over much, and by this inducing an undue tendency to increase a susceptibility to colds rather than otherwise. They are also cumbersome to the foot, and withal are very expensive. The demand is for something that shall make the *ordinary* Boot and Shoe impervious to water, without affecting their elegance or durability, and if *possible, without adding sensibly to the cost of their* manufacture. These, it will be conceded are most important features, and we conscientiously affirm that they are absolutely attained in the invention here *with presented to the public*

The invention consists in inserting between the inner and outer sole, when the boot is making, a thin MATTAPAN PLATE, exceedingly ductile, combining flexibility with toughness, very light, and every way adapted to the end desired, while the additional expense is merely nominal. It furnishes a perfect barrier against the admission of water (dampness, though the feet may be exposed over so long upon wet pavements or damp ground.

To ladies and children the Mattapan Soles will be of incalculable value, as from their habits of living and delicacy of dress, they are particularly exposed to the long train of ills that attend upon an inadequate protection to the feet.

These Soles have already been tried by the best of all tests ACTUAL USE, and the testimonials to their merits, freely proffered, indicate that they must be specially and universally adopted by the public The Patent Metallic Soled Boots and Shoes are being introduced into the leading shoe stores throughout the United States, and will supplant all forms of overshoes, except possibly for deep mud or snow, as they become known. Be sure to get them and take no other. If your shoemaker does not happen to have them, he can procure them without difficulty. If he will not, then send yourself to the inventor one dollar and thirty cents, and obtain six pair, assorted sizes, with right to use, which will be promptly forwarded, by mail or express pre paid, and which can be made up by any shoemaker in the country. Agencies will be established in every city and village, and supplied with Soles and proprietary stamps, at schedule prices, and liberal commission allowed on sales. Also General Agencies for States appointed on application, with proper testimonials to the inventor.

✦ ✦ ✦ ✦ ✦ ✦ ✦

I have known Hoofland's German Bitters favorably for a number of years. I have used them in my own family, and have been so pleased with their effects, that I was induced to recommend them to many others, and know that they have operated in a strikingly beneficial manner. I take great pleasure in thus publicly proclaiming this fact, and calling the attention of those afflicted with the diseases for which they are recommended, to these bitters, knowing from experience that my recommendation will be sustained. I do this more cheerfully as Hoofland's Bitters is intended to benefit the afflicted, and is "not a rum drink."

F

From Rev W. D. Seigfried, Pastor of Twelfth Baptist Church, Phila.

Gentlemen:—I have recently been laboring under the distressing effects of indigestion, accompanied by a prostration of the nervous system. Numerous remedies were recommended by friends, and some of them tested, but without relief. Your Hoofland's German Bitters were recommended by parties I had tried them, and whose favorable mention of these bitters induced me to try them. I must confess that I had an aversion to Patent Medicines from the "blunderbuss and one" quack "Bitters" whose only aims seems to be to palm off sweetened and dragged liquor upon the community in a sly way, and the tendency of which, I fear is to make many a confirmed drunkard. Disclaiming that yours was really a medicinal preparation I took it with hoppy effect. Its action, not only upon the stomach, but upon the nervous system, was prompt and gratifying. I feel that I have derived great and permanent benefit from the use of a few bottles.

Very respectfully yours,
W. D. SEIGFRIED,
No. 254 Shackamaxon Street.

L

From Rev. J. Newton Brown, D. D., editor of the Encyclopedia of Religious Knowledge and Christian Chronicle Philadelphia.

Although so I disposed to look on our numerous Patent Medicines in general, through distrust of their ingredients and effects, I yet know of no sufficient reasons why a man may not testify to the benefit he has himself to have received from any simple preparation, in the hope that he may thus contribute to the benefit of others. I do this the more readily in regard to Hoofland's German Bitters, prepared by Dr. C. M. Jackson, of this city, because I was *prejudiced against them* for many years, under the impression that they were chiefly an alcoholic mixture. I am indebted to my friend, Robert Shoemaker, Esq. for the removal of this prejudice by proper tests and for encouragement to try them when suffering from great and long continued debility. The use of three bottles of the so Bitters at the beginning of the present year, was followed by evident relief and restoration to a degree of bodily and mental vigor which I had not felt for six months before, and had almost despaired of regaining. I therefore thank God and my friend for directing me to the use of them.

J. NEWTON BROWN,
Philadelphia.

A

From the Rev. S. D. Fendall, Assistant Editor Christian Chronicle, Phila.

I have derived decided benefit from the use of Hoofland's German Bitters, and feel it my privilege to recommend them as a most valuable tonic, to all who are suffering from general debility or from diseases arising from derangement of the liver.

Yours, truly. E. D. FENDALL.

From Rev. D. Merrige, Pastor of the Passyunk Baptist Church, Phila.

From the many respectable recommendations given given to Dr. Hoofland's German Bitters, I was induced to give them a trial. After using several bottles I found them to be a good remedy for debility, and a most excellent tonic for the stomach.

D. MERRIGE.

N

From the Rev. THOS. WINTER, D. D., Pastor of Roxborough Baptist Church.

DEAR SIR: I feel it due to your excellent preparation Hoofland's German Bitters, to add my testimony to the deserved reputation it has obtained: I have for years, at times, been troubled with great disorder in my head and nervous system. I was advised by a friend to try a bottle of your German Bitters. I did so, and have experienced a great and unexpected relief. My health has been very materially benefited. I confidently recommend the article to those I meet with cases similar to my own, and have been assured by many of their good effects.

Respectfully yours,

AMERICAN ORGANS.

(From "Godey's Ladies' Book" February, 1866.)

REED ORGANS, &c.

THE following remarks and suggestions relative to this immensely popular instrument will doubtless interest and profit very many of our readers, we commend the article to their careful perusal:—

A hundred and one makers of Organs, Cottage, Parlor, Cabinet, American, School Organs, etc etc, are each claiming to make the best instrument in the world. Being comparatively a new instrument, as at present constructed, we are convinced the public are much less capable of judging of its merits, or demerits, than of most other instruments. If there is really an essential difference in them, if there are some excellent and some worthless ones, the public should have some criterion for judging of them, some facts which will enlighten them. We cheerfully concede the space for this article knowing that there is hardly a family, or church, or school in all the land, but is more or less interested in this topic. We are also aware of its being a great misfortune, a real calamity, to any of them to purchase an inferior or worthless Organ, ruinous to good playing, and often a source of much annoyance and vexation. We know this article to emanate from a candid and intelligent source, and thus we give it to our readers.

The question is often asked, what are "reed organs?" We answer, they are, in most cases, nothing in the world but the old melodeon in disguise. Many of the so-called organs have the same bellows, the same reeds, and the same general internal arrangement. With the bellows turned on edge to gain room, they have simply put on a more pretentious exterior and a more high sounding name. But an organ, to be in reality an organ, must have a wind chest or reservoir for air separate from the bellows, into which wind-chest the reeds open, and the tone has room to expand and perfect itself into the full round tone, similar to the flute or pipe organ, even, smooth, firm, and mellow; and this tone from reeds cannot be obtained in any other way known. Making so annoys a true organist as to have the volume of sound swelling and jerking spasmodically with every variation of force on the bellows, which is always the case where the reeds open direct into the bellows or air passages, instead of a wind chest or sound-box. And yet some makers even go so far as to claim this spasmodic or automatic jerking of the bellows on the reeds as an excellence, just as though they did not know that it must very soon throw the reeds out of tune, and injure the bellows; and as though it were not another matter to obtain a much better and more easily managed swell by other methods. The truth is, any organ, so called, or melodeon which has the wind acting directly upon the reeds, is nothing more nor less than a huge accordeon, dress it up as you may. And when organists and true musicians become aware of the fact that they can obtain those that are organs in fact as well as in name, they will buy no more of the objectionable ones. Then again the swell should always be separate and distinct from the bellows, so as not to be acted on by the hand, or soft blowing, but convenient so that the player can use it with the knee, separate from the hands or feet, and thus always under easy control, to be used at libitum.

The large divided bellows, or double bellows, is also a very important improvement. By this means not only can the wind be supplied more evenly, but with far greater ease to the performer, from the fact that either bellows alone will be sufficient for the lighter melodies, thus permitting the player to change about and rest the feet at will; then, if the bellows is of the requisite large size, and having the wind chest or reservoir, all will be well. As to the reeds, they must be scientifically tuned and voiced, or all the other good qualities in the world cannot produce a good toned instrument. They now very naturally arise, where can the organ be procured combining all these essential and desirable qualities? There is only one possessing all these points, and that is the AMERICAN ORGAN, made by S. D. & H. W. Smith, of Boston, Smith Orr Wholesale Agent, 581 Broadway, New York. These organs have a wind chest extending the whole length of the instrument and so constructed as to act at the same time as a reverberating sound-box and have the same important relation and part to perform that the sounding-board has to the piano. This feature the makers have patented, and to it are owing in a great measure the entirely unequalled fullness and rich ness of tone so highly prized by all who have used these organs. They also have the largest and best divided bellows in use, which is another important feature. No part of their work is slighted, no expense or pains spared to make the American Organs perfect musically, as well as mechanically, and, judging from the immense sale of them at present, they will fair to long maintain the proud position they have won by superior merit alone. We would most heartily advise all interested to call upon or address Mr. SMITH Orr, the Wholesale Agent, at 581 Broadway, New York, and can assure them he will, in the most gentlemanly and truthful manner, impart to them all the information they may desire relative to this truly delightful instrument.

The Family Grocery.

THE subscribers, having taken the Family Grocery store of Monasmith & Baker, on Main St., adjoining Gardner & Co's Machine Shop and Foundry, have just opened a new and elegant assortment of GROCERIES, GLASS and QUEENSWARE, selected with great care for family supplies, which they will sell at the very lowest prices, for cash. Every article in the line of Family Groceries will always be kept fresh and cheap. They also call particular attention to the

Eureka Patent Glass Fruit Jars,

of which they have the exclusive agency for Carlisle, and vicinity, and recommend their superiority over all other cans or jars now in use by its great simplicity, perfect reliability in keeping Fruit, and the extraordinary ease with which it is sealed and opened, without injury for future use. No family should purchase other jars, without first examining the Eureka, *if they want to buy the best.* We have also KNOX'S PATENT STEEL GELATINE, and other articles which no housekeeper should be without. Also, Lash's celebrated WASHING MACHINE, only Five Dollars, and the Amidon CLOTHES WRINGER, both of which they confidently recommend to give entire satisfaction. They have also been appointed Agents for the sale of

EARTHEN DRAIN PIPES,

to which they would call the attention of Farmers and others needing them as the best and cheapest article to be found for conveying water through yards and barn yards. A large variety of other articles, such as DOOR MATS of several kinds and prices.

☞ Just opened a supply of Fresh Herring and all kinds of Salt Fish, put up this Spring. Also Flour in barrels and sacks and Feed by the bushel.
