REPORTED & TELEGRAPHED FOR THE PITTSBURGH DAILY GAZETTE

TORONTO, Dec. 21

Inspector General Hinks left here this morning for Washington, on business connected with the reciprocity question.

It is stated by an opposition journal, and not denied by the Government organ, that the Finance Minister is proposing a tariff of deferential duties in favor of the St. Lawrence, with a view of retaliating on Congress, if it continues to refuse reciprocity.

PITTSBURGH MARKET.

OFFICE, PITTSBURGH GAZETTE
Monday Morning, Dec. 23, 1850.

The weather, on Saturday, was clear and pleasant for out door business, but as usual on the closing day of the week, but little of interest transpired in the market

FLOUR—Nearly all the receipts of Saturday were on consignment, consequently sales were moderate.—We note limited sales from river and from wagon at $3,62@$3,70, and from store at $3,81@$3,87 ₱ bbl.

RYE FLOUR—We note further sales, in small lots, at $2,25@$2,37 ₱ bbl.

CORN MEAL—Sales are principally by retail, from store and the mills, at 68@60c ₱ bu.

BUCKWHEAT FLOUR—Supplies in store are light, and held at high rates, say, $1,10@$1,12½ ₱ sack of 50 pounds.

BEESWAX—Supplies are moderate, and prime small white are held at $1,12@$1,15½ ₱ lb.

DRIED FRUIT—Apples are, of any thing, less firm, and we may now quote from first hands at 70@75c, and from store at 75@80c ₱ bu. Peaches are without change, with regular sales at $1,25@$1,31 from store. We have no sales of consequence to report, either from first hands or store.

GROCERIES—Some additions are making to the supply of sugar and molasses, and supplies are more than equal to the present demand. A fair regular business is doing in sugar at 6¼@6½c, and in molasses at 28@30c ₱ gal, for New Orleans.—Coffee is stationary at 11¼@12½c ₱ lb. Other articles under this head are unchanged.

LARD—Sales 20 bbls, at 7¾@8c, time.

TALLOW—The usual rates from store are 7½c ₱ pound.

SOAP AND CANDLES—Sales of rosin soap at 4 @4½c; of Stark Candles at 9¼@9½c; model tallow, 10c and common dipped at 8c ₱ lb.

STORE CROP OF LOUISIANA.—John Hall, Esq, a reliable merchant of New Orleans, who has been making a tour of the sugar regions, gives a gloomy account of the state of the crop. He says:

"Up to Saturday morning last, all was going on well, and most planters appeared satisfied with their prospects, but on Sunday and Monday mornings we had a very severe frost, killing every cane standing, from Derwick's Bay to as far up the country as our been heard from, many of the planters not having put up a stock of wood. We can well leave them without a crop next year, and the impression is that one half of the cane now standing will not be taken care to make up, which undoubtedly will be the case if the weather should turn warm and moist. The reports from the parishes are worse and worse every day; very few had saved half their seed, and many none at all, and are already spelling from the frost two weeks ago. Should the winter be a severe one, I doubt if there will be a cane rolled next year in the parishes of St Landry, Rapides, or Avoyelles, and but very few short crops in Pointe Coupee, the Feliciannas, or Baton Rouge, for want of seed and loss of ratoons. Prices should be good this season, and must be better the next."

The Thibodeaux Minerva, of the 23d ult, says:

From all parts of this and the adjoining parishes we hear but of complaints as to the effects of the late frosts on standing cane. Never, within the memory of our oldest planters, has there been, at this season of the year, a frost half so destructive as that with which this portion of the State was visited on the mornings of Sunday and Monday last. It is the almost unanimous of persons more experienced in matters of the kind than we are, that the sweet crops of Louisiana will be cut short at least, eight thousand hogsheads of sugar, in consequence of the last frost, should it have been as severe in other portions of the sugar growing district

All planters are now busily employed in windrowing their standing cane—but the deed is already done—the frost has now had its effect, and the planter, in a greater or less degree, must be the sufferer. Too warm weather which prevailed on the evening of Sunday morning, we are inclined to believe, has settled the matter for the worse, rendering the least probable crop, though we hope we may err in conclusions.

THE HIDE TRADE—The number of hogs arrived during the week was as follows

Arrived from Ohio and Indiana	20,257
Arrived by railroad, canals	12,891
From Kentucky, (alive)	8,455
Slaughtered in Covington, (two weeks)	12,700
Slaughtered in Platsville	7,500
Total this week	61,756
Previously reported	40,000
Grand total	101,756

NOTE.—This statement does not include lots arriving by country wagons

The following figures show the aggregate receipts of Kentucky and other hogs since the commencement of the season, the former including all that have been slaughtered in Covington to this date, and the number that crossed the river alive

From Kentucky	61,96
From Ohio and Indiana	48,21
By river, railroad, and canals	21,299

Of the latter, 4,836 were received by river, 7,325 by railroad, and 107 by Whitewater canal.—[Cin. Price Current.
