PROMINENT CHARACTERISTICS.

**I.—They are Instructive.**

"As purely literary works, these Historical romances possess a high degree of merit. They read like genuine histories."—*Catholic World.*

"They are correct delineations of the countries and the people described."—*Herald.*

**II.—They are Entertaining.**

"We regard these books as among the best and most entertaining novels of the day." *Springfield Republican.*

"The reader is at once fascinated and spell bound until the volumes is completed"—*Free Press.*

"There is no dull chapter in it."—*Utica Herald.*

**III.—They are Mirrors of the Times.**

"No one can peruse them without conceding the author's great skill in grasping and delineating the characters which figure conspicuously in them.

"The study which enables the author to delineate so accurately the emotions and incentives to action which moved men and women of a past age must be close and unremitting, and Louise Muhlbach shows in all her works a perfection which enables the reader to enter into the very presence of character represented."—*Syracuse Journal.*

**IV.—They are Historically Correct.**

"Historically correct, and as entertaining as many of the volumes of Sir Walter Scott."—*Providence Herald.*

"Louisa Muhlbach must have carefully and diligently studied the secret history of the times and countries of her tales, and her task is done well and effectively."—*Worcester Spy.*

"No Historical novel-writer has adhered so faithfully and successfully to representations of past times and events."—*Utica Herald.*

**V.—They are Original.**

"It is a generously inspired reader to find a new work in this such constructive genius and know exactly character as Louisa Muhlbach possesses."—*Public Ledger.*

"Each succeeding novel adds to Mrs. Muhlbach's reputation as a writer of historic fiction."—*N. Y. Times.*

"She is not only the historic painter, but a heart-hearted artist."—*Christian Witness.*

"There is nothing wearying after effect, but it is really wonderful how adroitly Mühlbach manages to sustain and increase the interest to the end."—*City Item.*

"The word-painting of the authoress is much more effective than the best efforts of the engraver"—*Illinois State Register.*

**VII.—They Contain Anecdotes of Courts.**

"Scottish history offered no fresher and more romantic material, the man is working hand of Sir Walter Scott than she finds in the annals of the German courts."—*Evening Gazette.*

"I have not to be found anywhere in human annals, united, such magnificent, such unparalleled materials for romance, as clung the chronicles of the Prussian and Austrian courts of the 18th century. By their dress, their manners, their modes of thought, the language, they are almost as much separated from us as if they had lived one thousand years ago."—*Observer.*

**VIII.—They tell about Emperors, Kings and Queens.**

"We learn from her not only how Frederick William and Frederick the Great, Joseph the Second, Voltaire, Rousseau Baron Trenck, the empress Catharine, walked and talked in their grand robes, but how they powdered their hair, flirted and took tea."—*Register.*

"The choice of her subjects exhibits her genius. She takes the times of Frederick the Great, Joseph the Second, for example, and upon the background of the facts which the chronicles of the period afford, she embroiders the bright and sombre colors, the light and shade of her fiction, with the skill of a consummate artist."—*The Eagle.*

**IX.—The Style is Interesting.**

"The style of this writer for purity, perspicuity, and elegance, is something greatly to be commended. It is free from imitation, mannerisms, and tricks of every kind."—*The Argus.*

"The translation do justice to the vivid, elegant style of the original, and the story is full of movement and crowded with instructive and entertaining incidents."—*The Chicago Post.*

"The interest of the book does not depend upon its characters nor its incidents, nor yet on its charming style, but in its general harmony of composition."—*Day Book.*

**X.—Everybody is Reading Them.**

"Our people seem to have stopped reading French novels, and English works are complained of as dull. Mrs Muhlbach precisely supplies the public want.

"The novels of Clara Mundt are being read by every one."—*Times.*

"Muhlbach's novels have a world-wide reputation, and are read with avidity, as fast as issued from the press."—*Springfield Republican.*

"They are winning a wide and deserved popularity in this country."—*State Journal.*

*Either of the Novels sent free by mail to any address on receipt of price.*

## INSURANCE COMPANIES.

THE CHARTER OAK

LIFE INSURANCE COMPANY,

OF HARTFORD CONN.

Incorporated 1850, Charter Perpetual.

CASH ASSETS, $4,000,000

JAMES C. WALKLEY, President.

**Policies Issued on all Popular Plans.**

A few reasons why people insure in the Charter Oak.

1st.—All banking privileges are prohibited, the business being confined exclusively to the insurance of lives.

2d.—Its Risks are selected with great care, thus incuring small losses, and consequently large dividends accrue to the Policy holders.—See Mass. Insurance Reports last 4 x years.

3rd—Its Ratio of Expenditures, including Death Claims and Working Expenses, to Receipts, are unprecedentedly low.—Same Reports.

4th—All the profits are divided among Policy holders, the original capital being limited by Charter to eight per cent dividends, no more than it earns for the Company at interest.

5th.—It declares and pays its Dividends *annually* in Cash, thus assisting the insured in the payment of premiums.

6th.—It is prompt in the payment of losses, having paid to Widows and Orphans nearly TWO MILLION DOLLARS, and has *never litigated a claim.*

7th.—The man of wealth insures as an investment.

8th.—Men of small means insure to guard their families against want.

9th—The man of business insures to provide against possible loss in trade, a life policy being a bank for capital.

10th—Persons in debt insure that their earnings for years of toil may not be sacrificed at death from want of ready cash to cancel liabilities.

11th.—All insure, as money thus laid away by littles is sure to come back largely increased to their families, death being certain to occur.

## STOVES AND TINWARE.

JAMES M'CONIGAL,

MANUFACTURER AND DEALER IN

STOVES, TIN AND SHEET-IRON WARE,

*South Hanover St., Adjoining Blair & Son's Grocery*

CARLISLE, PA.

The subscriber thankful for past favors, respectfully informs his friends and the public, that he has now on hand a large supply of the COOK and PARLOR STOVES, HEATERS and RANGES, in the Stove Department we desire to call particular attention to the following, comprising as they do, the very best Cook and Parlor Stoves now in use:

NIMROD,
QUAKER CITY,
EXCELSIOR, PENN'T
NORTH COOK,
NIAGARA,
SUSQUEHANNA and IRONSIDES.

To speak at length of the different Stoves would occupy too much space, but we deem it necessary to call the attention of the public to the

EMPIRE GAS BURNER.

This truly wonderful Parlor and Office Stove is so constructed that the cheapest quality of coal (Limeburner's) can be used with success.—It burns continuously and the fire is easily kindled. It is capable of heating one room below and two rooms above. There is no dust and no escape of gas, and an actual saving of coal, which in two or three seasons will pay for the stove.

The Empire has many valuable qualities which can only be fully appreciated by seeing it in operation. We claim that it is far superior to any other stove now in use, and we feel satisfied that we can convince all who will favor us with an examination of the Stove at our shop of this part.

We have on hand a full assortment of

TIN WARE.

Roofing promptly attended to. Spouting will be put up on reasonable terms and with dispatch.

Please give us a call at No. 34 South Hanover Street, adjoining Blair's Grocery.

## STOVES AND TIN WARE.

IF YOU WANT TO SEE THE most perfect Parlor Stove ever offered to the public, step into

WM. FRIDLEY'S

Stove Store East Louther street, in the rear of Halbert's Grocery Store and see the

GREAT AMERICAN BASE BURNER.

in operation. It is a perpetual Burner, and perfect Radiator, as well as a perfect Ventilator of the room, and is warranted to consume less coal than any other Stove of the same size, ever offered to the public, requiring but one ordinary scuttle of small coal once in twenty-eight hours, being perfectly simple in all its working, having a simple slide to regulate the fire for keeping at night, one kindling of fire being all that is required during the winter. No dust, no gas, no sing or cinder.

ITS IMPORTANT CHARACTERISTICS ARE THESE;

*NEATNESS IN DESIGN!*

*COMPACTNESS IN SIZE!*

*PERFECTION IN OPERATION!*

THE LATTER QUALITY IS PRODUCED BY THE FOLLOWING IMPROVEMENTS!

1.—An ample Magazine, or Reservoir, for Coal; having a free discharge mouth, the magazine being adjustable to different heights of six to, nine, inches from the grate, so as to accommodate the supply of Coal as to its size and quantity, thus permitting the maintenance of a certain depth of coal for active combustion within the fire-pot (whether it be of nut or stove size), which is the only way to burn Anthracite coal to advantage. Different sizes of coal require more or less depth for perfect combustion.

2.—A Funnel, or Hopper, for the passage of the coal to the magazine is so arranged as to permit the introduction of fresh coal, without allowing any escape of fumes and gas into the room; and further, when the Stove is left still it is tray uncovered, compelling any fumes that may escape from the supply in the reservoir, upwards to its top, to pass over the top of the reservoir into the surrounding flue, and so to the base-pipe outlet.

3.—A Fire-Pot with a continuous Flue, over its entire upper edge and down its whole body to the base and quite thickly which means the heat is transmitted, not in separate flues several inches apart, as is usual in downward draft Stoves, but by a continuous sheet of flame in contact with the entire circumference of the outer casing of the Stove, from the top of the Fire-Pot downwards, giving a far more extended surface of radiation of the heat that any downward draft Stove, extant.

4.—An ample Grate Surface and Air Passages, and a complete arranged Grate, for shaking and dumping, with a good size Ash Pan to receive the ashes and cinder.

We also wish it to be noted, that there is an absolute

SECURITY FROM EXPLOSIONS OF GAS!

upon the removal of the cover from the Stove, which so common; occurs upon the removal of the covers with other Vaporizing Stoves for much of the effect of the Funnel, is counteracted and arranged in reference to the Magazine and its surrounding Flue, that NO GAS CAN ACCUMULATE IN THE UPPER PART OF THE MAGAZINE TO EXPLODE. Nor can a current of air, or draft, be created upwards through the Magazine to inflame its contents, which happens with other Stoves igniting and destroying the Magazine Itself.

Every feature of this stove is patented to effect.

ECONOMY!

IN THE USE OF FUEL, DURABILITY IN ITS CONSTRUCTION AND SYMMETRY IN ITS PROPORTIONS.

In addition to the above Stove, Fridley keeps on hand a full supply of the best Cook, Parlor and Office Stoves.

Tin and Sheet Iron work of all kinds on hand, and Spouting, Roofing and Jobbing of all kinds, done at short notice, and at the lowest market. Fruit Cans and Jars of the most approved patents, and in conclusion the best Portable and Brick Set

Furnaces,

ever offered to the public. For reference call on T. Conlyer, Esq., Simon Cameron, Esq., Jas. Nodlich, A. L. Spessler; H. Saxton; Prof. Hillman; D. J. Loldigh; J. Bosler; and others.
