LOCAL ITEMS.

IRON CITY COLLEGE.—A scholarship to this institution for sale at this office, and to be had at a bargain.

☞ May we ask our friends to aid in increasing the circulation of the REPORTER? Cannot each one of our present subscribers send us at least one name with the subscription price, which is $1.50 in advance. Friends, try it at once. ap10,3t.

LOCAL NEWS.—We will thank our friends of Potter and surrounding townships, for all local items of interest they can furnish for publication. Only communicate to us the facts, and we will put them in shape for the paper.

ADVERTISE.—The REPORTER has a large circulation all through Penn and Brushvallies, which business men will do well to note. As an advertising medium they will find it all they could desire.

UNSEATED LANDS.—The following is added to unseated lands sales on outside of to-day's paper.

2,50 Thomas Johns n, Spring 11,23

THE rumor we published some time ago, of the shooting of a robber at Lock Haven, we lean was unfounded.

Two new Empire Sewing Machines for sale at this office. The machines are warranted to give satisfaction.

"THE NURSERY" for May, is a pretty number. Reading and illustrations all well adapted for the entertainment of the young.

☞ Communications without the name of the author, receive no attention; it is necessary that we have the name of the author, not for publication, but that we have proper authority for articles published.

THE WEATHER.—The weather still continues very changeable, and has caused our farmers to get very much behind-hand with their work. 24th and 25th were rainy, 26th, 27th and 28th very fine and pleasant. 29th rain all day.

REMOVAL!—The office of the "Printers' Circular" and Printers' Furnishing Warehouse formerly located at 36 Hudson Street, has been Removed to 515 Minor Street. Address all orders for material to R. S. Menamin, 515 Minor Street, Philadelphia.

MR. C. F. Harlecher has just returned from the city with a large stock of Spring and Summer goods. All are invited to call and see his new stock, and convince themselves that he offers bargains. See his advertisement in another column.

WE call the attention of our readers to the advertisement of J. D. Murray, on 1st page. If you wish a good buggy or spring-wagon, leave your order with him and entire satisfaction will be rendered. His workmanship is of superior order.

(Communicated.)

For a few days we have been enjoying a visit by our Cousin Aannie F. S., of Rebersburg, with our Cousin Sallie V. S., of our native Potter township. This morning at nine o'clock, with my two Cousins and sister Annie B. S., we started to the mountain. Not alone to enjoy the Spring air, but to gather some teaberries. After the short time of fifteen minutes we arrived at the foot of the mountain. Though short the time, it was sufficient for us to realize that the air was pleasant as in the Spring of gone-by years, and that the sun shone warmer than it had on morning this Spring. Now we had already passed a beautiful spring of fresh water. Then we enjoyed the berries, and moving slow'y on we discovered a beautiful pond, from which we could have taken some relics, which were to us, and no doubt would have been to many others, of great curiosity. Leaving this, we soon arrived at the top of the mountain, where we could take a view of the valley; and not only its hills and vales—our neighbors sowing grain—the stately mansions inhabited by the richer class of persons, the humble cottage of the poor—the tall steeples to recognize the Churches of Penns-valley and the towns of Boalesburg and Centre Hall; but also the village inhabited by our friends who do not enjoy the pleasant Spring air, the warm rays of the sun. They have no clock to tell them the hours of Spring, Summer, Autumn and Winter. They never have a grain to sow or reap. In the winter their houses are covered with snow—in the Spring with appearingly dead grass—in Summer with green grass and flowers. Their marble doors are always shut. All the village lie asleep. That village soon will hold us all. With this view we also saw and conversed about a large Sycamore tree, from which I have in days of other years, plucked sycamores. Though the leafless tree was not an object of great curiosity, neither was it the sycamore tree which Zaccheus climed up into that he might have a correct view of Jesus as He passed through Jericho on His last journey to Jerusalem, where He went to partake of the feast of the passover; but it did renew to our minds the fact that Jesus was once upon earth, but has ascended to Heaven, and is now the only source of true, real, pleasure and happiness. It was now ten o'clock, and we started east along the mountain, conversing about our view, and still enjoying the berries, when suddenly we heard the loud crack of a discharged gun, and discovered close by us, Cusin S. D. S., partly hid from our view by a large tree. I presume his object in thus following us, was to have some fun in frightening us. We met another spring, and following only a few steps the little stream flowing from it, we saw and killed two water snakes, and also found and plucked some beautiful sweetly scented flowers, which were almost hid from our view by the leaves that once clothed the tall trees with beauty, but were nipped with the frosts of Autumn, and had fallen and covered the green moss carpet, and small flowers that grew along the little stream that flowed from among the rocks. We journied on to another spring, where we for a short time enjoyed the moss carpet—the ever green spruce and sweet pine. A little farther east we descended the mountain, met and gazed upon another pond. Arrived home at eleven o'clock, thinking, if in the short time of two hours so much could be seen and learned of the fleeting moments of time—the power and divinity of God; how much might be learned in a life-time, of perhaps three score years and ten.

DR. S. L. TOBIAS'
PULMONIC LIFE SYRUP,
FOR THE CURE OF
INCIPIENT CONSUMPTION, Coughs, COLDS, Croup, Asthma, Liver Complaints, Dyspepsia, and General Debility. For several years I have been urged by kind friends, who have used, and been benefited by, my Life Syrup, to put it up for general sale; but few know the large expense, now that the country is flooded with patent Medicines, which attend the same. For years past I was reluctant to do so, as the capital required would be large, and I did not wish to curtail the operations of my Venetian Liniment business. But, thanks to the generous public, who have appreciated my Venetian Liniment, I am now able to do so without any detriment to my large business in that medicine. The foundation my of success I attribute to attending to the manufacture of every drop myself, and shall do the same in regard to my Pulmonic Life Syrup. The Ingredients are perfectly harmless, but act on the Lungs and Liver with astonishing effect. Price 75 cts. Depot, No 56 Cortlandt Street, New York, near Jersy City Ferry. Sold by the Druggists and Storekeepers.

THE JUSTLY CELEBRATED
PATENT METALIC CLOTHES LINE.—These Clothes Lines are a practical, commonsense article, and adapted to the wants of every family. This line is composed of Metalic substances, and will not corrode. The finest linen can be placed upon it without becoming in the least soiled. The finest fabric can also be removed in the coldest day of winter, without the least particle of injury. This line, if permanently fixed, need not be taken down—is always ready for use. Will last a lifetime, if properly taken care of. Retail price three cents per foot. Mr. G. W. TWITMEYER, is the agent for this line, and will call upon the citizens of Centre Hall, and vicinity, in a few days. The line should be in every yard.

THE WORLD'S

Mower & Reaper.

A year ago we presented this novel Harvester to the farmers of the West, on the Merits of its Construction, and with strong assurance that its equal was not to be found. To-day we are happy to present it again, on its Merits in the field, and feel safe in re-asserting its superiority over all competitors, in Construction, Simplicity, Ease of Management, Lightness of Draft, Strength and Durability.

We have abundant testimonials, from the intelligent and influential farmers in the State, to the fact that this Machine will not only cut more grass or grain, with greater ease to the team than any other Machine in use, but that no trace of ware can be detected in the working parts after a whole harvest's work.

These facts triumphantly prove that cut gear, as applied to Harvesters, is even a greater success than in its application to stationary machinery, and silence forever the selfish outcry against it.

Remember! Its Frame is of solid iron and of a Single Piece.

The journals, shaft and gears cannot change their relative positions.

The Gears and all cut out of solid iron, and run with the precision of Clock-Work.

The case incloses all the works and protects them from sand, grass, rain, rust, &c. It is made to last a farmer his life-time.

We build two sizes, both of which can be had as single Mowers, or Combined Machines.—It mows, it reaps, it drops, and can be used as a hand-rake, as well. By attaching the celebrated "Johnston Rake," we have made it the best Self-Raker, ever offered in this country. We offer you the cheapest machine in the market, because it is the best and most durable.

We also manufacture the celebrated

VEFF REAPER
AND MOWER,

which now stands unrivalled.

This Reaper has advantages over all other Reapers now manufactured. One advantage we claim for it, is the lever power, by which we gain one hundred per cent over other machines. Another advantage is the hoisting and lowering apparatus, whereby the driver has under his complete control of the machine; in coming to a spot of lodged grain, the driver can change the cut of the machine in an instant, without stopping the team, varying the stuble from 1 to 14 inches at the outside of the machine, as well as on the inside. It is constructed of first class material; and built by first class machanics. We warrant it second to none.
