NEW ADVERTISEMENTS.

THE
UNION PACIFIC
RAILROAD COMPANY
OFFER A LIMITED AMOUNT OF THEIR
FIRST MORTGAGE BONDS
AT PAR,
PRINCIPAL AND INTEREST
PAYABLE IN GOLD.
The Great Pacific Railroad Line, extending 1721 miles from Omaha, on the Missouri River, to the tidewaters of the Pacific Ocean, is being built by two powerful Companies—THE UNION PACIFIC, beginning at Omaha, building West, and the Central Pacific to California, beginning at Sacramento, building East until the two roads shall meet.
Both Companies have prosecuted the work with great vigor, the Union Pacific having already expended over
THIRTY MILLION DOLLARS,
and the Central over *Twenty Millions*, upon their respective parts of the undertaking. THE UNION PACIFIC HAVE COMPLETED 500 MILES—have iron and other materials for two hundred miles more upon the ground, and one hundred additional miles are ready for the track. They will have a much larger force employed this year than ever before, and it is expected that between
800 and 900 MILES
will be in operation during 1868. There seems to be no reasonable doubt that the distance between Omaha and Sacramento will be traversed by rail in 1870.
THE GOVERNMENT GRANTS 12,800 acres of land, and its Bonds, to the average amount of $28,000 per mile, to aid in the construction of the line, and authorises the issue of the First Mortgage Bonds now offered for sale, to the same amount and no more. The Government takes a *second* lien, and gives to the First Mortgage Bonholders a prior lien for their security, to which a large paid-up capital is added. The Bonds cannot be issued except as each section of twenty miles is accepted by Government commissions, so that they always represent a real property.
It is universally admitted that on the completion of the Union Pacific Railroad, its through business will make it one of the most profitable in the world—but its *way or local* business is already several times the interest on its bonds; so that, if not another mile were built, they would be a secure investment.
THE NET EARNINGS for eight months of last year on an average of 366 miles are officially reported at $1,069,136, while the interest on all the Bonds it could issue on that length of road for that time, reduced to currency, is only $345,856.
The amount paid by the Government for the transportation of troops, munitions, stores and mails has been, and doubtless will continue to be, much more than the interest on the United States Second Mortgage Bonds. It is not, the charter provides that after the road is completed, and until said bonds and interest are paid, at least five per cent. of the net earnings of the road shall be applied to such payment.
The Union Pacific Bonds are for $1,000 each, and have coupons attached. They have thirty years to run, and bear annual interest, payable on the first days of January and July at the Company's Office in the City of New York, at the rate of six per cent. in gold. The Principal is payable in gold at maturity. At the present rate of gold, these bonds pay an annual income on their cost of
NEARLY NINE PER CENT.,
AND IT IS BELIEVED THAT THEY WILL SOON BE AT A PREMIUM.
The Company have but a very limited supply of their Bonds remaining on hand, but any subscriptions accepted to a greater amount than can be filled from Bonds now in the Company's possession, will be supplied from the New Bonds to be issued on that portion of the road completed in the Spring, in the order in which they are received.
The Company reserve the right to advance the price of their bonds to a rate above par at any time, and will not fill any orders or receive any subscriptions on which the money has not been actually paid at the Company's office before the time of such advance.
Parties subscribing will remit the par value of the bonds and the accrued interest in currency at the rate of six per cent. per annum, from the date on which the last coupon was paid. Subscriptions will be received in Carlisle by
A. L. SPONSLER,
and in New York
At the Company's Office, No. 20 Nassau Street,
AND BY
John J. Cisco & Son, Bankers No. 59 Wall-St,
And by the Company's advertised agents throughout the United States.
Remittances should be made in drafts or other funds par in New York, and the Bonds will be sent free of charge by return express. Parties subscribing through local agents, will look to them for their safe delivery.
A PAMPHLET AND MAP FOR 1868 has just been published by the Company, giving fuller information than is possible in an advertisement, respecting the Progress of the Work, the Resources of the Country traversed by the Road, the Means for Construction, and the Value of the Bonds, which will be sent free on application at the Company's office or to any of the advertised agents.
JOHN J. CISCO, Treasurer, New York.

CHARLES WILLIAMS
HEATING AND VENTILATING WAREHOUSE,
Nos. 1132 & 1134 Market Street,
PHILADELPHIA.
Has an entirely new heater. It is constructed so as to at once commend itself to general favor, being a combination of wrought and cast iron. It is very simple in its construction, and is perfectly air tight, self-cleaning, having no pipes or drums to be taken out and cleaned. It is so arranged with upright flues as to produce a larger amount of heat from the same weight of coal than any furnace now in use. The hygrometric condition of the air as produced by my new arrangement of evaporation will at once demonstrate that it is the only
HOT AIR FURNACE
that will produce a perfectly healthy atmosphere. I am now making five sizes of PORTABLES, and four for Planters.
RANGES,
Special attention is call to my NEW GOLDEN EAGLE COOKING RANGES, as I feel assured there is nothing in use that can compare with them, as regards their durability, economy and efficiency, with a large assortment of Low Down Grates, Fire Place Stoves, Registers and Ventilators. Send for illustrated circulars.
