Manhood, How Lost, How Restored.

Just published a new edition of Dr. Culverwell's Celebrated Essay on the *radical cure* (with out Medicine) of SPERMATORRHŒA or seminal Weakness, Involuntary Seminal Losses, IMPOTENCY, Mental and Physical Incapacity, Impediments to Marriage, etc., also, CONSUMPTION, Epilepsy and Fits, induced by self-indulgence or sexual extravagance.

Price, in a sealed envelope, only 6 cents.

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of self abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and *radically.*

This Lecture should be in the hands of every youth and every man in the land.

Sent, under seal, in a plain envelope, to any address *postpaid*, on receipt of six cents, or two post stamps. Also, Dr. Culverwell's "Marriage Guide," price 25 cents. Address the Publishers,

MISCELLANEOUS.

600 MILES

OF THE

UNION PACIFIC

RAILROAD

Are now finished and in operation. Sixty miles of track has been laid late spring, and the work along the whole line between the Atlantic and Pacific States is being pushed forward more rapidly than ever before. More than twenty thousand men are employed, and it is now possible that the entire track, from Omaha to Sacramento, will be finished in 1869 instead of 1870. The means provided are ample, and all that energy, men and money can do to secure the completion of this

GREAT NATIONAL WORK,

at the earliest possible day, will be done.

The UNION PACIFIC RAILROAD COMPANY receive in part of

I.—A Government Grant of the right of way, and all necessary timber and other materials found along the line of its operations.

II.—A Government Grant of 12,800 acres of land to the mile, taken in alternate sections on each side of its road. This is an absolute donation, and will be a source of large revenue in the future.

III.—A Government Grant of United States Thirty-year Bonds, amounting to $16,000 to $48,000 per mile according to the difficulties to be surmounted on the various sections to be built. The Government takes a second mortgage as security, and it is expected that not only the interest, but the principal amount may be paid in service rendered by the Company in transporting troops, mails, &c. The interest is now much more than paid in this way, besides securing a great saving in time and money to the Government.

IV.—A Government Grant of the right to issue its own FIRST MORTGAGE BONDS, to aid in building the road, to the same amount as the U. S. Bonds, issued for the same purpose, and *no more.* The GOVERNMENT PERMITS the Trustees of the First Mortgage Bondholders to deliver the Bonds to the Company only as the road is completed, and after it has been examined by the United States Commissioners and pronounced to be in all respects a first-class Railroad, laid with a heavy Trail, and completely supplied with depots, stations, turnouts, carshops, locomotives, cars, &c.

V.—A Capital Stock Subscription from the stockholders, of which *over Eight Million Dollars* have been paid in upon the work already done, and which will be increased as the wants of the Company require.

VI.—Net Cash Earnings on its Way Business, that already amount to MORE THAN THE INTEREST on the First Mortgage Bonds. These earnings are no indication of the vast through traffic that must follow the opening of the lines to the Pacific, but they certainly prove that

FIRST MORTGAGE BONDS

upon such a property, costing nearly three times their amount.

Are Secure beyond any Contingency.

The Company have abundant means in their treasury, and make no appeal to the public to purchase their Bonds, as the daily subscriptions are entirely satisfactory; but they submit that, for entire security and liberal returns, there is certainly no better investment in the market.

The Union Pacific Bonds run thirty years, are for $1,000 each, and have coupons attached. They bear annual interest, payable on the first days of January and July at the Company's Office in the City of New York, the rate of six per cent. in gold. The principal is payable in gold at maturity. The price is 102, and at the present rate of gold, they pay a liberal income on their cost.

The Company believe that these Bonds, at the present rate, are the cheapest security in the market, and reserve the right to advance the price at any time. Subscriptions will be received in New York

Parties subscribing will remit the par value of the bonds and the accrued interest in currency at the rate of six per cent. per annum, from the date on which the last coupon was paid. Subscriptions will be received in Carlisle by

A. L. SPONSLER,

and in New York

At the Company's Office, No. 20 Nassau Street,

AND BY

John J. Cisco & Son, Bankers No 59 Wall St.,

And by the Company's advertised agents throughout the United States.

Remittances should be made in drafts or other funds par in New York, and the Bonds will be sent free of charge by return express. Parties subscribing through local agents, will look to them for their safe delivery.

A PAMPHLET AND MAP FOR 1868 has just been published by the Company, giving fuller information than is possible in an advertisement, respecting the Progress of the Work, the Resources of the Country traversed by the Road, the Means for Construction, and the Value of the Bonds, which will be sent free on application at the Company's office or to any of the advertised agents.

JOHN J. CISCO, Treasurer, New York.

SHERK'S

Tincture of Roots

WILL EFFECTUALLY CURE

Dyspepsia or Indigestion, Disordered Stomach and Liver, Costiveness, Impurity of the Blood, Headache, Vertigo or Giddiness, Nervous Debility, Fever and Ague, Incubus or Nightmare, General Debility, Cramp, Colds, and Pains in the Back and Side.

This is not a new Medicine; the receipt for making it was brought from Germany to Baltimore, Md., over fifty years ago by Mr. Klein, who introduced it among a few of his German friends and neighbors, who, finding it to be an invaluable remedy of the above diseases, recommended it to others, until it became, and still continues, to be, the household medicine of a large portion of the Germans of Baltimore.

The Bitter Tincture of Roots is composed of the juices of a number of the most valuable roots, and seeds known to the medical faculty, with a sufficiency of pure old rye whiskey to make one of the most effectual Tonic Tinctures ever offered to the public. Every person should use it every Spring Summer and Fall to purify the blood, give tone to the stomach and invigorate the system.

TESTIMONIALS.

The Rev. Geo. Hunter says:—

I do hereby certify that having used one bottle of Sherk's Bitter Tincture of Roots, I have found it *invaluable* for the stomach and bowels. It relieved me of pains, nausea and costiveness and created an excellent appetite. I confidently recommend it to all as a reliable medicine. GEO. HUNTER.

A. W. BENTZ,

No. 27, South Hanover St., Carlisle.

In the summer of 1866 my health failed so that my whole system was prostrated as if worn out, so that I was unfit for business. I used Sherk's Bitter Tincture of Roots for some time, and was completely restored to health. I believe this medicine will do all that is claimed for it. SAMUEL GOODYEAR.

Carlisle, February 1, 1868.

Having been afflicted a long time with nervous debility and indigestion, I used Sherk's Bitter Tincture of Roots, and have found it exceedingly beneficial, and recommend it to all as a reliable medicine. Mrs. E. KELLER.

There is more medical virtue in one of these bottles than in a gallon of many of the Bitters and mixtures now offered to the public.
