LECTURE.—There will be a lecture delivered on Sunday evening, November 24th, in the basement of St. Paul's Cathedral, by the Rev James Keogh. Subject: Patriotism. The proceeds will be devoted to the poor, distributed by the Society of St. Vincent De Paul. The well known ability of Rev. Keogh as a lecturer, and the intensely interesting character of the subject likely to embrace the salient points of the present difficulty in the country, will not fail to draw a crowded auditory. The object of the lecture itself should attract the benevolent, to say nothing of the rich treat certain to be afforded upon that occasion.

CATHOLIC ITEMS.—The Bishop of this diocese has promulgated the following order for Thanksgiving Day: "Thursday, November 28th, having been appointed by the Governor of this State as a day of Thanksgiving, the Rt Rev. Bishop directs that on that day Mass be celebrated in all the Churches of the Diocese, at the usual hour for late Mass on Sundays. The faithful should be exhorted to attend, and, where it is possible, High Mass should be celebrated"——On Monday, 18th instant, the Rt. Rev. Bishop visited St. Mary's Church, Kittanning. He preached after Mass, and confirmed forty four persons, some of whom were adults, others converts.

THANKSGIVING DAY.—The Governors of nineteen States have designated the day for the celebration of the annual Thanksgiving. In Maine and Massachusetts it will be observed on the 21st inst, and in the following named States Thursday, the 28th instant, has been named as the day: New York, New Hampshire, New Jersey, Pennsylvania, Illinois, Indiana, Ohio, Wisconsin, Minnesota, Connecticut, Vermont, Rhode Island, Kansas, Maryland, Kentucky, and Delaware.

THE NEW DUQUESNE STEAMER.—The workmanship of this engine, the arrival of which we noticed yesterday, is very fine and creditable to the company and the manufacturers. The finish of the air chamber and other brass work is very superior. The engine is a vertical one, with an eight inch steam cylinder, a four and three-quarter" pump and a twelve inch stroke. The machinery is finished in the highest style of art and presents a truly elegant appearance. The air chamber is electroplated and surmounted by an octagonal lamp of stained glass, set in a frame of richly chased solid silver. The engine cost $3,250, of which $1,000 was raised in the Second Ward, leaving the balance yet to be collected. We understand that as yet the Insurance companies have contributed nothing to the purchase of the new engine. A public trial of the new "machine" will take place in a few days, perhaps to-morrow. In this connection we may add that the interior of the Duquesne engine house has been refitted. The second story has been fitted up, the ceiling finely frescoed and iron bunks are to be placed in it for the accommodation of members. A portion of this floor is set apart as a library and reading room. The assembly room, on the third floor, has been renovated and, as a whole, the house is now equal to any in the city.

CONTROLLING FLOWING OIL WELLS.—The Titusville *Gazette* of last week gives the following important intelligence to oil men. The new system will, it is confidently believed, be effectual in checking the extraordinary flow of some of the wells:

After testing and experimenting in a variety of ways, the managing director of the Buck Eye Well, Mr. George Cary, informs us that by a simple arrangement he can check off and let on at his will the flow from this well, and draw twenty or seven or eight hundred barrels (the capacity of the well) in twenty four hour. This, he assures us, is a complete success, and has been done repeatedly during the past ten days, and the result in every instance was in every way satisfactory to all who witnessed the operation, and for the benefit of parties, owners of flowing wells more particularly, and with a view of having such parties adopt the same or similar arrangements, he invites all such to call upon him at the Buck Eye Well and he will endeavor to demonstrate, as he thinks he can, the entire practicability and safety in controlling successfully what has heretofore been a great bugbear among owners of flowing wells on Oil Creek.

THE business of the United States Circuit Court is about concluded. Judge Grier has returned home to Philadelphia, and Judge McCandless holds Court this morning to close up the list. The opinion of the Court upon the writs issued against the city will not be delivered for some time. All the writs ordered against the cities of Pittsburgh and Allegheny have been issued and served, but no further proceedings will be had until the decision of the Court is known.

QUICK TIME.—John W. Pittock, our agent in Pittsburgh, Pa., receives the Journal every afternoon at 4 o'clock, the day after publication, where our subscribers can find it.—*Louisville Journal, November 20.*

MR GOUGH'S LECTURE.—Our readers will bear in mind that Jno. B Gough, the great temperance orator, delivers a lecture on his favorite theme, at Concert Hall, this evening. Mr. Gough always enchains and electrifies his audience and his reputation is so great that he never fails to fill the house night after night with his eloquent language and thrilling experiences. This, will doubtless be the case to night and anticipating a rush the lecture committee of the Young Men's Mercantile Library Association ask us to request, those who purpose attending to purchase their tickets before entering the building and thus avoid crowding at the door.—Tickets are for sale at the book stores.

RE ENGAGEMENT OF MR. HACKETT.—The greatest living personator of Sir John Falstaff, Mr. Hackett, appeared again last evening in the "Merry Wives of Windsor" to an immense audience and with great success. By special request of many citizens, the managers have effected a resengagement of Mr. Hackett for two nights more. To-night he will appear once more as Falstaff in King Henry IV, and we have no doubt but the house will again be filled in every nook.

PRESENTATION.—A sword will be presented to Lieutenant J. C. Klatt, Jr., at two o'clock this afternoon. The donor is Lieut. J. L. Dawes, to whom the sword was presented by citizens of Allegheny, when going out with the three months' volunteers. Having no further use for the weapon he wishes it to do service in other hands. The presentation will take place at the residence of Lieutenant Dawes Lacock street, one door from Anderson, Allegheny.

DIED FROM INTEMPERANCE.—Coroner Bostwick yesterday held an inquest upon the body of a vagrant named Catharine O'Hare, who was found dead in bed at a house on Quarry st., near Wesley Chapel, in the morning. Deceased was about twenty-eight years of age; had for some years been addicted to intemperance and was frequently in jail. The jury sound a verdict of "death from intemperance."

COURT MARTIAL.—A General Court Martial was to have been held at Port Royal on the 18th instant, for the trial of second Lieutenant William Hammond, of Colonel Lasure's Roundhead regiment and such other prisoners as came before it.—The charges against Lieut. H. are not specified in the order, which was issued by Gen Sherman.

JANE GREEN, a young lady arrested in Western Virginia for carrying letters to the rebel army, and imprisoned at Wheeling, took the oath of allegiance on Monday last and was discharged. She is only about twenty years of age, and exhibited signs of penitence which induced the officers to "swear her and let her go."

SAMUEL DRUM, formerly of West Newton, a member of the Greenfield cavalry of Fayette county, was shot by rebel guerrillas, concealed in the woods, while on a scouting expedition between Romney and Winchester in Virginia on Thursday last. He died almost instantly.

THE track of the Ebensburg and Cresson Rail Road has been laid to the bridge across the branch of the Conemaugh, within sight of town. We learn it will be finished to the turnpike during the present week, when the iron horse will commence conveying freight and passengers to Cresson. The work will be completed before Court week.—*Ebensburg Democrat and Sentinel.*

THE APPROACHING EDUCATIONAL CONVENTION.—The approaching State Educational Convention meets at Harrisburg on the 27th inst., and will continue in session three days. The authorities of the Pennsylvania Railroad Company have agreed to issue excursion (half price) tickets to persons desirous of attending—to be good from the 23d of November till the 2d of December, both inclusive.

MILITARY.—Colonel Power's Zouave and Col. White's regiment have moved towards Washington. Cols. Wilson's and Maxwell's regiments are still at Camp Curtin filling up and awaiting marching orders.

OIL ON DUNKARD CREEK.—The Brownsville papers state the oil well on Robert Maple's farm, Dunkard creek, Greene county, has overflown, yielding a large quantity of oil of good quality.

REV. W. A. TAXTOR, of Beaver county, now in command of a company at Camp Curtin, preached last Sunday in the West Harrisburg Methodist Mission Church to a large congregation, which included his company.

ATLANTIC MONTHLY.—Henry Miner, Fifth street, favors us with the December number of the Atlantic. Its contents are, as always, able, polished and interesting. A song entitled "Union and Liberty" has peculiar merit and is accordingly appropriate just now.

FOR CITY CONTROLLER.—By his card elsewhere it will be seen that Wm. Little, formerly Mayor of this city is a candidate for City Controller at the ensuing election.

THE celebrated Johnston will case was argued in the Supreme Court yesterday.

THE Washington Infantry have sent home $1,800 of their pay, to be distributed among their families.

CONTRAT.—Mr. F. Eichelman, of Manchester, has been awarded another contract for two hundred wagons for government.

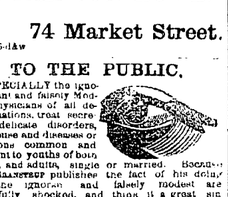
TO THE PUBLIC.



ESPECIALLY the ignorant and falsely Modest Physicians of all denominations, treat secret and delicate disorders, self abuse and diseases or situations common and incident to youths of both sexes, and adults, single or married. Because HARTSHORNE publishes the fact of his delicacy, the ignorant and falsely modest are dreadfully shocked, and think it a great sin very immoral, and for contamination and corruption among their wives, promising sons and daughters. Their family physician should be cautious to keep them in ignorance that they do the same as Dr. BRANDRETH, (except publishing) lest a lucrative practice might be lost to them among stupid, falsely modest and presumptuous families, born and raised in ignorance, sprung up as mushrooms, and who compare society, intelligence, sense, &c., to dollars and cents, mysteriously, meanly or ill gotten. It is to publicly, however, that numerous parents and guardians are thankful that their sons, daughters and wards, previously feeble, sickly and of delicate condition and appearance, have been restored to health and vigor by Dr. BRANDRETH, besides many before and after marriage through him have been saved much suffering, anxiety, mortification, &c. Having the advantage of over thirty years experience and observation, consequently, he has superior skill in the treatment of special diseases, and who is daily consulted by the profession, as well recommended by respectable citizens, publishers, proprietors of hotels, &c Spermatorrhea, or so called nocturnal emissions.—This dreadful malady can be completely cured by the very last discovery that has never yet failed. In female diseases he has had superior experience on account of his old age, seventy years, all irregularity is completely cured. As for consumption or pulmonary diseases my syrups, which are composed from iceland moss and other ingredients by a skillful physician five years at the business, it has had more success than all the pretensions that have as yet been discovered, as the certificates will show. They are all genuine and can be found according to a pamphlet that each person will get at the examination, all free of charge.—Office 85 Smithfield street, near Diamond street Private communications from all parts of the Union strictly attended to. Last Night's News up to Two O'clock.

From Washington.

WASHINGTON CITY, November 21.—The steamer Stepping Stone which ran the blockade on Tuesday night with stores for the fleet off on the lower Potomac, transferred her stores to the squadron and taking on board a number of contrabands from the steamers Baltimore and Lee, has again run the blockade last night on the upward trip and arrived at the Navy Yard this morning. She was not fired at from the batteries, but from the signaling on shore, it is supposed that the movements were noticed. The contrabands brought to the Yard number 88 men, 7 women and 8 or 10 children.

The Wyandotte is now taking on board the movement, day of the ice boat which is being equipped for her warlike paraphernalia and will soon be sent home to the Delaware river, the Government no longer needing her services.

The Post Office Department to-day received information that 15,000 letters have reached New York from Hilton Head by the last arrival at that city. Mr. J. H. Sears, who is acting as Postmaster under military authority, having forwarded them without prepayment of postage. The Postmaster General has ordered that the letters be sent to their respective destination, with an endorsement on each order thus: "The department to-day established a post office at Port Royal, to be called by that name, and has sent out a blank commission to be filled with the name of a responsible person to act, who will give the required bonds. Letters addressed to Port Royal should be sent to the New York Postoffice.

The Navy Department to day instructed the Commandant of the Brooklyn Navy Yard to enlist the Postmaster at New York of the [illegible] vessels for Port Royal in time to keep pitch in the mate.

In the course of this week probably the Treasury Department will take definite action with regard to the cotton and [illegible] in the vicinity of Port Royal.

The following named gentlemen have just been promoted to be Majors in the regular army: Dodge of Dakota, Arthur, Lane, Christopher J. Lewis and Graham. Rutter and the following to be Lieut Colonels: Wm. S. Ketchum, Wm. H. Hammond and Henry Clay McDowell, to be Assistant Adjutant Generals, with the rank of Colonels, the former to report to Gen. Sherman, the latter to Gen. Halleck in Kentucky. The following named gentlemen to be Majors and Assistant Adjutant Generals, with the rank of Lieutenant Colonels: Chas. Davis Lovell, Chas. Bonneville, Wm. Hoffman, Samuel Cooper, Joseph E. Wagner, Wm. S. Lozier, Chas. Bay, Walter W. Armstrong, Henry H. Sibley and Ambrose E. Billings.

A [illegible] has been given to the charges against Gen. McClellan. The charges are of a specious character, but [illegible] of a superficial character. The motive of the [illegible] is apparent that they are set of as [illegible] defeats the object of its author.—It has been officially ascertained that the government now has in the field, camp and in [illegible] formation 600,000 volunteers and the enlistments for the regular service are more than [illegible] before.

A letter from Dubuque was dated to-day says, that not a [illegible] has been heard for several days of the movements of the enemy [illegible] Everything is apparently [illegible] preparations. This may be owing to the withdrawal of their forces to the defence of Winchester which they now consider [illegible] perilously.

Harrisburg News.

HARRISBURG, November 21.—The Governor [illegible] to the 11th regiment [illegible] yesterday. They [illegible] with less than a day or two for Fortress Monroe. A flag was also presented to the 50th regiment, which arrived here at noon from Union [illegible], and left at 4 o'clk after the presentation, for Washington.

The 83d regiment, Colonel McCarter passed through this city yesterday, on its way to Washington.

The Governor's Co. William's regiment of cavalry, the 92d, have arrived. This regiment is fully armed and will leave in a few days for Kentucky.

Gov. Curtin has appointed Jas Park, Jr., and Capt. M. W. Baldwin, both of Pittsburgh, a committee to visit and attend to the interests of the Penn. regiment now in Kentucky, and as they will shortly be paid off, aid them in transmitting funds to their families. The above named gentlemen were suggested to the Governor by one of his aids from the same section of the State and they are known as men, capable and responsible for the mission.

From Missouri.

ROLLA, Mo, Nov. 21.—Advices from the Southwest are to the effect that Price has abandoned his position at Cassville, and is moving toward his old camp at Neosho. About 4,000 of his army under Gen. Harris were on the Kansas line directly West of Carthage, with the evident intention of entering that State, and ravaging its Southern counties. Harris' force was principally cavalry and Indians. General Lane was in that vicinity with about 3000 infantry, and it is not improbable that an engagement will take place between his and Harris' forces. It is reported that there is a camp of 600 Cherokee Indians in McGee county, Kansas.

The rebel State Legislature in session at Neosho, had passed an ordinance of secession, uniting the State with the Southern Confederacy and elected Gen Rains one of the Senators to the Confederate Congress. It was thought Gen Parsons would be the other Senator.

It was said that Gen. Frost, of Camp Jackson notoriety, would take the command of General Rains, of the rebel army.

Arrival of the Steamer Baltic.

NEW YORK, Nov 21.—The transport steamer Baltic arrived at this port this afternoon, having in tow the gunboat Curlew. The news from Hilton Head is unimportant, affairs being in the same condition as at the departure of the transport Atlantic. Purser Allen, who is a passenger on the Baltic, brings $19,000 in Treasury notes, which is to be forwarded to the friends of the 4th new Hamshire regiment.

Among the passengers by the Baltic is James Darragh, a member of the Ninth South Carolina regiment, who was found in Fort Beauregard. He states that he had been five months in the service of the rebels and complains bitterly of the treatment and food received by the soldiers of Jeff Davis.

Action of the North Carolina Convention.

HATTERAS INLET, N. C., November 18.—The Provisional State Government for North Carolina, the establishment of which has been in contemplation for some months past, was formally instituted to-day by a convention of delegates and proxies representing forty-five counties of the State. An ordinance was passed which declares vacant all the State offices, and declares Marble Nash Taylor governor, and directs him to order elections for Congressmen and make temporary appointments for officers of State.

The London *Times* thinks the operations of the expedition will be very easy, but difficulties may arise from the different views and sympathies of the three powers. It is reported that the United States frigate James Adger, now at Southampton, will leave for the Mediterranean, to capture privateers.

The Grand Duke Constantine of Russia, and the Duchess, are on a visit to Queen Victoria.

A crisis among the cotton spinners of Preston was imminent, owing to the proposed reduction of wages.

The French government has given reassurances to Switzerland which will have a tendency to quiet her apprehensions, arising from the act of the French troops in occupying the valley of the Dappes. It is probable that this difficulty will be adjusted without any unpleasant consequence.

The rumor is revived that Mr. Fould will shortly resume the ministry of finance in the Paris cabinet.

The financial accounts of France show rather loss on railroads, as the Bourse closed firm at 68f. 75c.

It is reported that Garibaldi announced to the Central Italian Committee, through Gen. Turr, his firm intention not to provoke any movement in favor of Rome or Venice. At the same time he wished the Italian armament and the popular sympathy for the union of Italy to be encouraged to the utmost.

It is rumored that the preparations are being made in Genoa for a revolutionary expedition to embrace Montenegro, and all the slave populations of Turkey, and also Hungary and Galicia.

It is true, as previously stated, that Bergani has appointed an ambassador to Italy, but it is remarked that he is accredited to the Court of Turin and not to the King of Italy.

In an autographic letter, the Emperor of Austria says that the measures recently announced to be taken in the management of Hungary. It evinces a determination to carry out the policy of the government in Hungary.

LIVERPOOL, November 10.—The Royal mail steamship Arabia arrived at this port to-day.

LONDON, November 10.—At the Lord Mayor banquet the Mayor proposed the health of the Foreign Ambassador, coupled with the name of Hon. Charles F. Adams, the United States Minister, who replied that his mission to England was to promote and perpetuate friendly relations between the two countries. Lord Palmerston said, that although circumstances may for a time threaten to interfere with the supply of cotton, temporary soil will be productive of permanent good. We shall find in various quarters of the globe a sure and ample supply, which will render us no more dependent. We witness with sorrow the lamentable differences among our American cousins, but it is not for us to pass judgment in their disputes. Lord Palmerston in conclusion expressed a hope of the speedy restoration of harmony and peace.

St. Louis News.

ST. LOUIS, November 21.—General Halleck has issued orders that in consequence of important information respecting the numbers and condition of our forces being conveyed to the enemy by fugitive slaves, no such persons shall be hereafter permitted to enter the lines of any camp or any fortress, on march and any now within such lines be immediately excluded therefrom.

The General also calls particular attention of all officers commanding posts or troops in the field to the importance of preventing unauthorized persons of every description, from entering or leaving our lines and of observing the greatest precaution of the employment of aliens and clerks in confidential positions. The General also directs all staff officers of this department who could have been under recent special orders from Washington, but who still hold commissions in the regular army, or volunteers mustered into the service of the United States, to immediately report in person in St. Louis, or by letter if elsewhere to these headquarters.

Last accounts from Price place him in Barry county, making preparations for an advance to Springfield.
