THE EMPIRE MUTUAL.

UNEXAMPLED!

THE EMPIRE MUTUAL

LIFE INSURANCE COMPANY,

OF NEW YORK,

In the first Fifteen Months of its existence has issued

OVER FORTY-FIVE HUNDRED POLICIES!

INSURING OVER $8,000,000.00

and taking in Premiums $500,000.00, being the largest commencement business ever done by any company in the world!

THE REASON FOR IT.

Ordinary whole-life policies are absolutely non-forfeitable from payment of first annual premium.

Special insurance non-forfeitable after two annual payments.

All policies incontestable for usual causes, and absolutely incontestable after two annual premiums.

All restrictions upon travel and residence removed, and no permits required.

No accumulation of interest on Loans or Deferred Premiums, and no increase of annual payments on any class of policies.

One-third of the premium loaned to the party insured, if desired, and no Note required.

Dividends on the progressive plan, and also upon the guarantee interest plan.

Business of the company conducted on the Mutual Plan.

Policy simple and fair in its provisions.

Incontestability of Policies.

It is the purpose of The Empire to fulfill all its contracts, the evidence of which is that its policy has no convenient refuges by means of which it can deceive a just demand. Proven fraud on the part of the insured will always invalidate a policy. Also suicide, if committed previous to the payment of the second annual premium; or death caused by engaging in any specially hazardous business within the first two years. But after the expiration of two years, the policy will be held incontestable for all causes except fraud.

Non-Forfeiture of Life Policies.

No policy of insurance with continuous payments for life will be forfeited or become void by the non-payment of premiums thereon, until the full paying power of the premiums have been exhausted. The language of the policy is:

"That if any premium after the first annual premium shall have been paid, shall not be paid on the day when due, and the said assured shall, within thirty days thereafter, give notice in writing of inability to pay the same, and of a desire that said policy shall be continued in force under the following conditions: Then and in such case this policy shall not be forfeited or become void by the non-payment of the said premium due thereon, until after the expiration of a period, to be determined as follows, viz: The net value of this policy when the premium become due shall be determined by actuarial calculation, and after deducting from such net value the Loans upon said policy, uncancelled by dividends, and any indebtedness to the Company, four-fifths of the net remains shall be considered a net single premium of temporary insurance, and this policy shall be continued in force during the term for which it will insure, according to the age of the party at the time of the lapse of the premium.

Example of the Non-Forfeitable Plan of the "Empire."

Age of party insured, 35. Ordinary whole life policy.

One annual premium will continue the policy in force 2 years and 5 days.

Two annual premiums will continue the policy in force 4 years and 10 days.

Three annual premiums will continue the policy in force 6 years and 27 days.

Four annual premiums will continue the policy in force 8 years and 46 days.

Five annual premiums will continue the policy in force 10 years and 56 days.

etc., etc., etc., etc.

Everett Clapp, Superintendent of Agencies.

THE TESTIMONY OF THE PRESS.

"The Empire is a popular institution, managed by reliable men, on sound business principles, and is destined at a very early day to stand shoulder to shoulder with the oldest companies of its character in the country. Its officers and directors "mean business," and have organized with the view of establishing a model institution.—*N. Y. Independent, January 20, 1870.*

"This Company is a great success; the results of able, economical, and reliable management. The Empire has no superior in the country."—*Boston Post.*

"The success of the Empire has been unsurpassed."—*Traveler.*

"The Empire will attract the interest of those contemplating Life Insurance."—*Watchman and Reflector.*

"Having a policy in this Company, we feel a just pride in the great success it is achieving."—*Era.*

"An excellent company."—*Zion's Herald.*

"A very successful Company."—*Congregationalist.*

"The Empire Mutual is unsurpassed. The men connected with it are, for those who know them, a sufficient recommendation of the Company."—*The Nation.*

"It is with peculiar pleasure that we speak of this candidate for public favor. We know many of the officers, and since the President of the company. We know him to be a man of energy, of character, of superior business ability, and above all else, a successful man in whatever he undertakes. The truth is, the Company has adopted the best improvements of the day in its organization."—*New England Insurance Gazette.*

MACHINE WORKS.

CARLISLE MACHINE WORKS!

F. GARDNER & CO.

CUMBERLAND VALLEY REAPER AND MOWER

We are now building, and will bring out for the harvest of 1870, the New Patent Cumberland Valley Combined REAPER AND MOWER, with SELF RAKE, and all other late improvements. It will be built in the best style, and warranted to work satisfactorily. The want of a home made Reaper has long been felt, and we expect to be able to offer to the farmers of Cumberland and adjoining counties a machine which shall be a complete and perfect harvestor, equal to the best brought from a distance. Farmers are requested to call and examine it.

NOVELTY HAY RAKE.

We are building, this season, only a limited number of Hay Rakes. The Novelty has the Self Acting arrangement, or can be worked by hand, on the old principle. It will be made of the best materials, in handsome style, and warranted to give satisfaction. Send in your orders early.

THE GUM SPRING GRAIN DRILL.

We continue building the original Willoughby Patent Gum Spring Grain Drill, so well known, and popular among farmers. No good farmer can afford to do without the Willoughby, for it largely increases, and improves his crops, and soon pays for itself. We make it as a Grain and Grass Seeder alone, or with Patent Guano Attachment for sowing phosphates or guano. We also build the Willoughby with the shovels in straight rank or zig zag, as farmers may prefer.

VARIOUS FARM IMPLEMENTS.

We are manufacturing a variety of agricultural implements, such as horse powers and threshers, cider mills, Star corn shellers, three sizes, Cannon corn shellers, Eureka fodder cutter, and keep always on hand the National Fodder Cutter, three sizes, with various other farming implements. We also make Farmer's patent Tire bender, and Porter's go out Tuyere, which every blacksmith should have. Also cast iron corn crushers, wash kettles, four sizes, cellar grates, five different patterns, plow castings and other castings kept always on hand.

The CARLISLE COOK STOVE, our own casting, is one of the best and cheapest stoves in the market.

STEAM ENGINE AND MILL WORK.

As heretofore, we give particular attent on to building STEAM ENGINES, and furnishing SHAFTING, BEARING, PULLIES, and every part of the machinery connected with Paper mills, Flouring mills, Saw mills, Tanneries, &c. Our patterns for steam engines are from two up to twenty five horse power, combining simplicity of construction with all modern improvements, and furnished at accommodating prices. We also build portable engines of two horse power for running printing presses, &c. We have an extensive variety of patterns for mill work, to which we are constantly making additions, and can fill contracts for engines and mills at short notice.

☞ Two new stationary engines now on hand and for sale

BUILDING MATERIALS.

Attached to our establishment is an Extensive PLANING MILL and SASH and DOOR FACTORY, with all the machinery for manufacturing door and window frames, sash, shutters and blinds, brackets, mouldings, cornice, and portico drapery, stair rail and balusters, flooring, siding and every other article in the line of building materials, from the lowest price to first class quality. Builders and contractors may rely on all orders, large or small, being promptly filled. An extensive supply of seasoned pine, walnut and oak lumber kept constantly in our lumber yard ready for use. Small sizes of lath and low priced doors always on hand, and other articles made to order.

All orders or inquiries by mail, or otherwise, in connection with any branch of our business will be promptly attended to

WILCOX & GIBBS'

SEWING MACHINE

We have secured the Agency of the Wilcox & Gibbs' Sewing Machine. A little family arrangement no one seems willing to do without after having seen one in operation. The Wilcox & Gibbs' is a Single Thread Machine and claims superiority over all Double Thread Machines in the following particulars. It is simpler and less liable to get out of repair. It is cheaper. It runs with less noise. It runs easier. It runs faster. It has the best device for preventing the wheel from running backward. It requires less mechanical skill to operate it. It requires less time and instruction to learn to use it. It is the most certain and reliable in its operations. Its needle is straight and less liable to be broken than a curved one. The needle is secured in its place by an ingeniously patented device which renders it self adjusting so that neither skill nor experience are required in arranging it. It sews directly from the spool thus doing away with the tedious operation of rewinding the thread for adjustment in the shuttle. It makes the Wilcox & Gibbs' or "twisted loop stitch," a stitch original with this machine and made by no other, the seam is more elastic and stronger than the Lock Stitch. The seam is the most even and beautiful, the seam is always self-fastened thus avoiding a reversible feed. Its tension is more simple and more easily adjusted, it is more speedily changed from one kind of work to another, it does unequalled embroidery, it has the best hemmer, it has the best filler, it has the best braider, it has the best belt. The Wilcox & Gibbs has been in the market for a little more eight years, during which time upwards of sixty thousand have been made and sold, a number by fifty per cent larger than were sold of any Double Thread Machine in the same number of its earliest years. Such success is sufficient to warrant the sale of this Machine wherever it has an Agency without the doubling evidence of testimonials, of which there are enough to fill up the columns in the land. These Machines are on exhibition at our store, No. 26, North Hanover street, Carlisle, where they may be examined, and they will take great pleasure in explaining anything relating to it.

Respectfully &c.,
