PITTSBURGH POST.

THURSDAY MORN., MARCH 20.

CITY MATTERS.

ORDNANCE AND PROJECTILES.—We are indebted to the research of the military and mechanical editor of the *Dispatch* for the following items: A number of ten inch columbiads, made at the Fort Pitt works, were proved on Tuesday at the proving ground above Tarentum. The system of proving this class of ordnance has been changed by the Department recently, and the guns tested on Tuesday were the first under the new regulation. The ten inch columbiads were formerly proved by two charges, the first of twenty pounds of powder, solid shot and wad, the second of twenty five pounds of powder and shell. These solid shots are now fired with fifteen pounds of powder. The principle of testing guns by a double charge is being gradually abandoned, the Dahlgren gun being now proved by ten regular service charges. The columbiads will probably be tested in a similar manner before long.

* * * *

Another rifled gun of immense size has just been finished at the Fort Pitt Works, and shipped to Washington. It was made from the regular ten inch columbiad pattern and is of eight inches bore. The gun is consequently much heavier than the regular ten inch columbiad, weighing, we believe, over eight tons. The rifling was performed in the most satisfactory manner, and the gun is said to be the best finished piece of ordnance yet turned out at the works. It will throw an immense projectile, calculated to damage any armor, on which the ball will strike at right angles. * * * We learn that a contract for a number of the heavy rifle shells, for the Union gun at Fortress Monroe, has been given to Wm Smith & Co., of the North ward, and that the manufacturer has already commenced.

We were invited to be present at a series of experiments now in progress at the proving ground, to test the penetrating capacity of cast iron and steel balls and the best form for effective use against such monsters as the Merrimac. In the experiments made so far the iron, from a long rifled 24 pounder furnished by the Government, has been very accurate, the balls striking the target, an iron plate 4½ inches thick, in the centre every time. It is believed that nothing can resist a conical cast steel ball of 12 inches diameter, shot from one of Uncle 24 pounders, which are eleven feet in the bore and rifled.

Dr. Von Eisenberg.

This gentleman, now residing in New York City, who, as the partner of Dr. Von Moschzisker, has won a high reputation as an oculist and aurist, is about to visit this city. He is now practising under his own name, but it is to him the following notice of an extraordinary surgical operation, performed on the 30th of January last, refers:

We witnessed, yesterday, a surgical operation of a most extraordinary character, performed at the office of Dr. Von Moschzisker, No. 28 Clinton Place, New York, which is said to be a case without parallel in the annals of surgery. During the voyage of the ship *Artic*, which arrived at New York, from Antwerp, on Wednesday, the first mate named Brown, had an altercation with the third mate, named Charles Scott, during which Scott struck Brown on the left eye with some instrument, the latter could not tell what, which inflicted a very severe wound, depriving Brown of the use of the eye, and scarcely breaking the frontal bone. The wound partially healed, but Brown suffered severe pain in his head, which increased in intensity, driving him almost distracted. As soon as the ship reached New York, the Captain took Brown to Dr. Von Moschzisker, who made an examination of the wound; and discovered that something like a piece of a knife-blade had penetrated the head. This the injured man did not think possible, as he saw no substance above his eye, but thought it was a piece of bone that had been broken off by the blow.

Before operating, Dr. Von Moschzisker called in Dr. Samuel Skinner, a dental surgeon, recently of Brooklyn, who administered chloroform to the patient—The instruments generally used to operate on the eye were tried and found to be too small for the purpose, and a pair of dentist's pincers were procured, with which the blade of a knife was extracted from the wound. It was the blade of an ordinary jack-knife, full three inches in length, and about three-quarters of an inch in breadth, tapering to a point. This had been in the man's head forty-two days, and was, when extracted, completely coated with rust. Scott had evidently struck Brown with a knife, the blade of which had broken off in the wound. Scott never told what he had done, and Brown always supposed that he had been struck with some blunt instrument so that the bone over the eye was broken. The knife had entered the head between the eye-ball and the bone, had passed in a downward and backward direction into the head. It was so tightly wedged in that it required the exercise of muscular force to draw it out. The bone was uninjured, though it is doubtful whether the man will recover his sight. The operation was performed in a skillful manner, exhibiting high surgical ability on the part of Dr. Von Moschzisker."

FATAL RAILROAD ACCIDENT.—A railroad accident occurred at Irwin's Station, Pa. R. R., on Thursday of last week, resulting in the death of a man named John Bennet, lately a resident of Salem, this county. Mr. Bennett was a member of Major Stokes' Battalion, 18th U. S. Infantry; having enlisted with him last fall, but was detained at home until lately by a severe attack of typhoid fever. As soon as he was able to travel, he was furnished with transportation, and was on his way to join the regiment at Nashville, Tenn., when the accident happened. He had took passage on the Express train on that day, at this station, and for some cause had got off at Irwins, when the train left him. It appears that he was in the act of getting on a freight train coming East, when he missed his footing and fell under the car, one of the wheels passing over his body, killing him instantly. We learn that the train was running very slow at the time, and that no blame can be attached to the men on the train. His remains were interred at Salem.—*Westmoreland Republican.*

FIRE IN ALLEGHENY.—About half past eleven o'clock on Tuesday night Benz & Seidle's brewery, in Duquesne borough, on the canal bank, took fire from the malt kiln and was destroyed, with some $1,000 worth of barley, malt, &c., and one hundred barrels of lager beer. The loss is between $3,000 and $4,000, partly insured in the Lycoming Mutual. A vineyard in the rear was much injured by burning of the vines. The dwelling of George Noll, carpenter, adjoining was destroyed—loss about $1,000—insurance $900 in the Lycoming Mutual. Mr. Noll saved his stable by throwing upon it a barrel of home made wine, the firemen having torn up his pump from the well, leaving him no means of obtaining water. Complaint was also made of the firemen by an adjoining tavern keeper, who states that they entered his house, took the bottles without permission, and, when he closed to save his property, threatened to break the door in.

THE Allegheny river is now open at boating stage. The Armstrong *Democrat* says: "Very little lumber has yet gone down, owing to the fact, perhaps, that so many lumbermen have gone to the war. The surface of the water is covered with oil, from the flowing wells, which still continue to out master every effort made to reduce the waste.

CONSECRATION OF THE HEBREW SYNAGOGUE.—The Jewish Synagogue on Hancock street is to be consecrated to the rites of the Jewish church at 3 o'clock this afternoon. The exercises will be most interesting, consisting chiefly of the rites usually performed on such occasions. Dr. Raphael, of New York, who has the reputation of a fine orator, will deliver the chief address, in English, and Mr. Cohen, of this city, another, followed by Mr. Arnheim, of Allegheny, in German. The Synagogue is a good, substantial building, well fitted for the purpose for which it was erected, and capable of seating some eight hundred. A large number of invitations have been issued for the occasion and there will doubtless be a large attendance. The doors will be opened at two o'clock and closed at three o'clock, when the ceremony of consecration will commence. It is seldom that the opportunity offers of witnessing so curious and interesting a spectacle as this consecration.

PROF. ANDERSON.—We forget the many tattered words which now signifies what we formerly styled a "temple of magic," but can, without using it, inform our readers that the celebrated wizard of the North, Professor Anderson, will give a series of his magical entertainments next week, at Concert Hall, which has been suitably fitted up for the purpose. Prof. Anderson's reputation as a necromancer is well established and we have no doubt but he will do a good business. In New York he was most successful, while in Cincinnati and Columbus he was equally so. We advise the public generally to see him.

PENNSYLVANIA CANAL.—The water was let into the Eastern division of the Pennsylvania canal at Clark's Ferry, on Saturday last, and the canal is now full to Harrisburg. All the canal from Clark's Ferry to Columbia, it is expected, will be in navigable order and ready for the passage of boats by to-morrow. The winding bridge at Harrisburg will be completed this week, and also the winding bridge at Lower Marietta, nothing remaining to be done but the putting on of the superstructures, which can be raised to their places in one day at least. Both of the above bridges are to be of iron.

PROF. HAMILTON crowded quite a audience last evening by his dealing the national airs on Harmony upstairs, on Fifth street. His next and last entertainment, Master Merryman, blood and rider want through some interesting evolutions, on Wednesday afternoon. The horse is on sale for at the Theatre, a bright and is well worth seeing. In addition there are "Mother Goose" and the "Lottery Ticket" will be given.

FILTHY STREETS.—Our streets, after the breaking up of the winter, are in a terribly dirty condition, and Fifth street seems to exceed in depth of mud all the rest. We call up in the Street Commissioners to clean the main thoroughfares at once. If they will not do it in daylight there is no money in the City Treasury to pay for the cleaning, we will contribute our full share to a private subscription to have Fifth street cleaned and kept so during the summer. We hope some of those interested will come to the rescue, as the present condition of affairs is almost unendurable.

WENDELL PHILLIPS.—This celebrated lecturer is announced for to-morrow evening by the Young Men's Mercantile Library Association. He lectures at Concert Hall on "The Times." The time of this eminent orator will be a lecture will, we are sure, fill the hall. Tickets will be served at the Library rooms, and at the Library rooms, after two o'clock this afternoon.

CROPS IN VIRGINIA.—The Wellsburg *Herald* says the appearance of the wheat crop in this and Hancock counties, so far as our information goes, observation extends, is unusually good, and experienced farmers express the opinion that unless something out of the usual course of events occurs, there will be an abundant crop. There is also every prospect of an early and forward spring.

THE OLD FOLKS.—This excellent troupe is doing a fine business at Masonic Hall nightly. Last evening the audience was large and fashionable, and all seemed satisfied with the entertainment. Mrs. Emma J. Nichols, who has a really fine voice, and is besides a finished musician, excelling herself and delighted the entire audience. We advise all who can to visit the Old Folks during their stay.

FIRST OF APRIL CHANGES.—Persons intending to change their places of residence the first of April, desiring their papers sent to a different place, will save much trouble by sending us early notice of the fact, always stating where they are now or have been sent. The matter will at once be attended to, and subscribers will not be subjected to the loss of any papers.

PROMOTED.—Harry McFadden, formerly a well known resident of Kittanning, was promoted for gallant conduct at the battle of Fort Donelson, to the rank of Orderly to Gen. Grant, under whose eye he performed some of the most daring acts "of the bravest of the brave," on that well fought field.

THE BLAIRSVILLE RECORD has been purchased by J. Irvin Steel, a young man of energy and capacity. It will be, as heretofore, a Democratic paper, conducted on Democratic principles. The first number looks well. We wish the *Record* success, pecuniarily and political.

BARN DESTROYED.—Last Thursday night, the barn of John Grow, Pine township, Indiana county, was burned, with its contents, three head of horses, a quantity of grain, gearing, farming implements, etc. Loss $800; no insurance. The barn is supposed to have been fired by an incendiary.

MEETING OF GOVERNORS.—There was a meeting of the Governors of Pennsylvania, New Jersey and Delaware, and a deputation from the Legislatures of Pennsylvania and New Jersey, at the Continental Hotel in Philadelphia, yesterday, to consult upon the best plan to be adopted for the establishment of permanent coast defences.

THE connection between the Allegheny Valley and Pittsburgh, Fort Wayne and Chicago Railroads, over the canal, has been completed so far as to permit trains to pass.

SUDDEN DEATH.—Thomas Hedgeland, a recruit, 23 years of years of age, died suddenly at Mercer, last Friday night, after violent exercises in jumping, which is supposed to have injured him internally.

HORSE THIEF.—Adam Rusk, of Valley township, Armstrong county, was arrested on Friday last, and committed to jail, at Kittanning, for horse stealing.

ARRIVED.—Dr. Chambers the *avant courier* of the renowned Robert Heller, greatest of all "prestidigitatives" and pianists, arrived last evening, and intends arranging for a few of his attractive soirees.

A DWELLING HOUSE FOR RENT.—A fine dwelling house, in a good location, with all the modern improvements and in good repair, will be rented on moderate terms, on application to Wm. H. Smith & Co., 118 Second and 147 First streets.

THE water has been let into the Erie extension canal, which will be open for navigation on Saturday.

THE Pittsburgh Annual Conference of the Methodist Episcopal Church is now in session at Christ Church, Penn street.

THE TIMBER BUSINESS.—The *Raftsman's Journal*, in referring to the timber business in Clearfield county, Pa., and the region in that vicinity, says that from inquiries made during the last ten days and the information obtained, it inclines to the opinion that the quantity of timber taken out this season will fall considerably short of what it has been for several years past.

CHEAP.—The managers of the Mercy Hospital have offered to take the patients from the Marine Hospital, near Manchester, at $2 50 per week. At this rate they would not cost one tenth of what is now required to maintain the Hospital.

ROUTE AGENT APPOINTED.—On that part of the mail route between Cumberland, Maryland, and Wheeling, Virginia, Wm. A. James has received the appointment of agent.

THE trade sale of queensware takes place this morning at the auction house of E. W. Lynd, No. 145 Wood street.

Last Night's News up to Two O'clock.

ANOTHER FORT TAKEN.

East Florida Evacuated!

WASHINGTON, March 19.—Despatches have been received at the Navy Department from Flag Officer Dupont, announcing that the Flag of the United States flies over Fort Marion at Saint Augustine, Florida. The town was surrendered without a fight. This is the second of the old United States forts taken. Jacksonville, Florida, was also surrendered. The Governor has recommended the entire evacuation of East Florida.

The town of St. Augustine was surrendered without a fight, the town authorities receiving Commander Rodgers in the town Hall, and after being assured that he would protect the loyal citizens, they raised the flag with their own hands. The rebel troops evacuated the night before the approach of the gunboats. This is the second of the old government forts that has been taken by Com. Dupont.

10,000 Rebels at Decatur.

HEAVY CANNONADING HEARD.

CHICAGO, March 19.—A special dispatch to the *Tribune*, dated Cairo 18th, says that the steamer Gladiator from Paducah, brings a large quantity of rebel stores captured at Fort Donelson, consisting in part of 500 pounds of military and a large quantity of ammunition. The steamer McGregor arrived from Fort Donelson on the Tennessee, yesterday afternoon. The reports of heavy cannonading at Fort Donelson yesterday afternoon by the troops there. Refugees had crossed from the fort over to the other side, and have reached Paducah with prisoners.

The rebels are concentrating at Corinth, Mississippi, and at Decatur, Alabama, at the latter place in large numbers. The officers of the McGill report that there is a portion of Buford's command at Decatur. A gentleman just arrived from Pittsburg Landing says, that on Friday last the rebels had burned the bridges and destroyed the railroad between Corinth and Memphis, Bolivar, Florence and Eastport. The country in that vicinity was covered with water. The Tennessee having overflowed its banks, military operations are entirely restricted. The rebels avoid the river, keeping out of the range of the gunboats. The rebel force at Decatur and Corinth is estimated to number 40,000.

The latest intelligence from below, contained a dispatch from Gen. Pope, dated "Tuesday 8 o'clock," stating that up to a little before that time the firing had been heavy and continued until 8 o'clock. It had made very little impression on Columbus. Pope's batteries are now within about 1 mile of Columbus. It is thought it is impossible for them to take it.

Thirty-Seventh Congress.

WASHINGTON, March 19.—Senate.—The House message on all general appropriations, forty in number, making no important amendments.

Mr. Wickliffe, of Ky., stated an amendment to exempt slaves from confiscation whose lives are forfeited, and delivered his amendment by a speech.

A long debate followed during which Mr. Lovejoy decided that this Constitution of our fathers ever recognized property in man and it never would. Slavery has no guaranty in the Constitution, and which, if it had been honestly administered, would have destroyed slavery long ago.

Mr. Wickliffe said he had been informed that Mr. Lovejoy had recently made a similar speech before a black association.

Mr. Lovejoy replied that it was likely he had attended two meetings of that character; he believed the slave had as much right to own master as master to own him, as much right to whip and sell the master as the master to whip and sell the slave and his children.

Adjourned.

SENATE.—The bill for the abolition of slavery in the District of Columbia was taken up.

Mr. Doolittle, of Wisconsin, proceeded to speak in favor of the bill. He believed that every man had a right to liberty; he believed that all races of mankind were capable of enjoying civil and religious freedom and social and political equality under proper circumstances. He quoted from Jefferson in favor of emancipation. The two races could not live together on the temperate zone. The Caucasian race was always dominant, and in tropics the colored race was dominant. Nature had made a law stronger than any law of man, and she must be obeyed.

Mr. Pomeroy favored emancipation, but was opposed to paying the masters.

Adjourned.

From Chicago.

CHICAGO, March 19.—Special dispatch to the Tribune, dated Cairo 19th, says that the published reports of the capture of Island No. 10, are undoubtedly premature. The latest accounts from Columbus are to 11 o'clock yesterday forenoon, at which time heavy cannonading was distinctly heard in the direction of the Island.

There have been no arrivals from the Tennessee and Cumberland in the last 24 hours.

None of the gunboats ascended higher than Savannah since the engagement of the Lexington with the rebel batteries at Pittsburg.

The collection of eighty transports in connection with circumstances known here not considered proper for publication indicates that the country about the Tennessee river near the Alabama line will be the theatre of extensive military operations.

Pennsylvania the Honor of Planting her Colors at Newbern.

NORRISTOWN, Pa., March 19.—We have glorious news from the Fifty-first regiment of Pennsylvania volunteers. Col. J. F. Hartcraft, now in service in Burnside's expedition. The regiment is mainly composed of officers and men of the old Fourth Pennsylvania, of the three months term.

Serjeant Major C. Jones Irwin, of that regiment, writes home that the 51st after taking the enemy's batteries, on the left of the defenses of New Bern with the bayonet, was the first regiment to plant its colors along with the flag presented by the ladies of Norristown to the old 4th three months regiment, on the enemy's entrenchments. Thus their gallantry at the reduction of Newbern fully vindicates the fame of the old regiment, and does honor to the old Keystone.

Fire.

MARENGO, Ill., March 19.—Ephemia Hell was destroyed by fire to-day. Loss, $25,000.

The Rebel Gunboat Fleet Repulsed

WASHINGTON, March 19.—A despatch received from Cairo, dated nine o'clock yesterday, says:

The following news from Island No. 10 is dated:

Gen. Pope repulsed the rebel gunboat fleet at New Madrid, sinking one and disabling others more or less. Not a man was lost on our side.

Captured Bridge-Builders Released

LOUISVILLE, March 19.—The bridge builders captured by Morgan's party, on the Louisville and Nashville Railroad, have been released and returned here this evening.

From Washington.

WASHINGTON, March 19.—The tug Leslie, which arrived here late last night, reports that when she passed Arquia Creek the buildings and wharf there were on fire, the supposition being that the rebels have evacuated and burnt them.

Cincinnati Market Rport.

CINCINNATI, March 19.—*Evening.*—Flour closed dull with some not much demand; Superfine at $4 25 for 3s. Wheat to hold rather higher, owing to a large shipping, but prices remain unchanged, 1.50 to 1.60. Corn is in good demand at 70. Oats 27@27½. Whiskey quiet at 19. Provisions unchanged and quiet; there was no much done. Pork is offered still more freely. Bulk Meat sold at 4 for shoulders and 4½ for sides. Bacon was the rate offered for shoulders. Lard is in good demand at 7. Linseed Oil has advanced to 32c. There is an active demand for Cloverseed and prices are up to $4 30@4 40, but $4 45 is the ruling rate. There is no change in Gold or Exchange for prime paper.

PETROLEUM OIL WORKS.

BURKE & BARNES' SAFES

AGAIN TRIUMPHANT.

ON THE FOLLOWING VOLUNTARY testimonial in regard to BURKE & BARNES' SAFES:

ALTON, ILLINOIS.

Messrs. Burke & Barnes—Gentlemen: On the night of the 22nd of February, 1862, all our Machine Shop, Office, Wood, Material, Engine House, and all the Wagon Shop, Smithy where stood the Spoke and Carriage Manufactory, all being entirely filled with dry combustible material, were burned down. In a corner stood a Burke & Barnes Safe, there the most valuable papers was one of your make of Safes, contained in it our papers, the deeds, policies, &c., in a manner perfectly good, which, on being taken out, were found perfectly uninjured. We cordially recommend the Burke & Barnes Safe as being very superior.

Yours truly,

PLATT, MARTIN & GORDON,

Manufacturers of every size, on hand and made to order.

BURKE & BARNES,

Author of the Burglar Proof Safe Factory,

MORGAN HOUSE DROVE YARDS.

—The undersigned has opened the MORGAN HOUSE, for the accommodation of drovers and stock dealers, at the corner of PASTURE LANE and TAYLOR AVENUE, near the stock depot of the Pittsburgh, Fort Wayne and Chicago Railway. He has extensive stock pens, well covered and commodious feed and sale yards, abutting upon the railroad platform, thus giving great convenience in loading and unloading. The pens have been enlarged so as to accommodate 3,000 to 4,000 head, and the yards as many more. Comfortable accommodations are provided in the house for owners of stock, and the subscriber respectfully solicits a share of their patronage. Terms for boarding and rent of yard moderate.

FARM FOR SALE—

The subscriber offers for sale

158½ ACRES OF LAND,

situate in North Fayette Township, Allegheny county. There is a good frame and log house, and a large barn on the premises. Also, outhouses, &c., 100 young apple trees, and other necessaries.

The land is well watered and is in an excellent state of cultivation, and full of limestone and coal. It is within ¼ of a mile of the Steubenville Turnpike and a short distance from church and school house. It is in every way a desirable piece of property, and such terms will be offered as to suit purchasers wishing a good and safe investment. Apply to

fe12-2tdstw A. J. HANNAH, on the premises.

THE RIVER.—Last evening at twilight there were eleven feet water in the channel and falling. The weather during the day was pleasant.

The wharf yesterday looked rather bare, the only boats leaving for the lower ports being the Prima Donna, she will leave to-day.

The splendid Passenger steamer "Prima Donna," Captain George D. Moore, leaves this day for Cincinnati and Louisville. Our old friend Captain Murdock will be found in the office.

Captain W. B. Hazlett's new side wheel steamer Estella will be down in the landing this morning. She will leave at the foot of the wharf. We refer to her card in.

For Cincinnati and Louisville

THIS DAY, 10 A. M.
