DR. SCHENCK

Advises Consumptives to go to Florida in Winter.

Having for the last thirty-five years devoted my whole time and attention to the study of lung diseases and consumption, I feel that I understand fully the course that ought to be pursued to restore a tolerably bad case of diseased lungs to healthy soundness. The first and most important step is for the patient to avoid taking cold, and the best of all places on this continent for this purpose in winter, is Florida, well down in the State, where the temperature is regular, and not subject to such variations as in more Northern latitudes. Palatka is a point I can recommend. A good hotel is kept there by Peterman. Last winter I saw several persons there whose lungs had been badly diseased, but who, under the healing influence of the climate and my medicines, were getting well.

One hundred miles further down the river is a point which I would prefer to Palatka, as the temperature is more even and the air dry and bracing. Mellonville and Enterprise are located there. I should give a decided preference to Mellonville. It is two miles from river or lake, and it seems almost impossible to take cold there. The tables in Florida might be better and patients complain at times, but that is a good sign, as it indicates a return of appetite, and when this is the case they generally increase in flesh, and then the lungs must heal.

Jacksonville, Hibernia, Green Cove, and many other places in various parts of Florida, can be safely recommended to consumptives in winter. My reasons for saying so are that patients are less liable to take cold there than where there is a less even temperature, and it is not necessary to say that where a consumptive person exposes himself to frequent colds he is certain to die shortly. Therefore my advice is, go well down into the State out of the reach of prevailing east winds and fogs. Jacksonville, or almost any other of the localities I have named, will benefit those who are troubled with a torpid liver, a disordered stomach, deranged bowels, sore throat or cough, but for those whose lungs are diseased a more southern point is earnestly recommended.

For fifteen years prior to 1869, I was professionally in New York, Boston, Baltimore, and Philadelphia every week, where I saw and examined on an average five hundred patients a week. A practice so extensive, embracing every possible phase of lung disease, has enabled me to understand the disease fully, and hence my caution in regard to taking cold. A person may take vast quantities of "Schenck's Pulmonic Syrup, Seaweed Tonic and Mandrake Pills," and yet die if he does not avoid taking cold.

In Florida, nearly everybody is using Schenck's Mandrake Pills, for the climate is more likely to produce bilious habits than more northern latitudes. It is a well established fact that natives of Florida rarely die of consumption, especially those of the southern part. On the other hand, in New England, one-third, at least, of the population die of this terrible disease. In the Middle States it does not prevail so largely, still there are many thousands of cases there. What a vast percentage of life would be saved if consumptives were as easily alarmed in regard to taking fresh cold as they are about scarlet fever, small pox, &c. But they are not. They take what they term a little cold, which they are credulous enough to believe will wear off in a few days. They pay no attention to it, and hence it lays the foundation for another and another still, until the lungs are diseased beyond all hope for cure.

My advice to persons whose lungs are affected even slightly is, to lay in a stock of Schenck's Pulmonic Syrup, Schenck's Seaweed Tonic, and Schenck's Mandrake Pills, and go to Florida. I recommend these particular medicines because I am thoroughly acquainted with their action. I know that where they are used in strict accordance with my directions they will do the work that is required. This accomplished, nature will do the rest. The physician who prescribes for cold, cough, or night-sweats, and then advises the patient to walk or ride out every day, will be sure to have a corpse on his hands before long.

My plan is to give my three medicines, in accordance with the printed directions, except in some cases, where a freer use of the Mandrake Pills is necessary. My object is to give tone to the stomach — to get up a good appetite. It is always a good sign when a patient begins to grow hungry. I have hopes of such. With a relish for food and the gratification of that relish comes good blood, and with it more flesh, which is closely followed by a healing of the lungs. Then the cough loosens and abates, the creeping chills and clammy night sweats no longer prostrate and annoy and the patient gets well provided he avoids taking cold.

Now there are many consumptives who have not the means to go to Florida. The question may be asked, is there no hope for such? Certainly there is. My advice to such is, and ever has been, to stay in a warm room during the winter, with a temperature of about seventy degrees, which should be kept regularly at that point, by means of a thermometer. Let such a patient take his exercise within the limits of the room by walking up and down as much as his strength will permit, in order to keep up a healthy circulation of the blood. I have cured thousands by this system, and can do so again. Consumption is as easily cured as any other disease if it is taken in time, and the proper kind of treatment is pursued. The fact stands undisputed on record that Schenck's Pulmonic Syrup, Mandrake Pills, and Seaweed Tonic have cured very many of what seemed to be hopeless cases of consumption. Go where you will, you will be almost certain to find some poor consumptive who has been rescued from the very jaws of death by their use.

So far as the Mandrake Pills are concerned, everybody should keep a supply of them on hand. They act on the liver better than calomel, and leave none of its hurtful effects behind. In fact they are excellent in all cases where a purgative medicine is required. If you have partaken too freely of fruit and diarrhoea ensues, a dose of the Mandrakes will cure you. If you are subject to sick headache, take a dose of the Mandrakes and they will relieve you in two hours. If you would obviate the effect of a change of water, or the too free indulgence in fruit, take one of the Mandrakes every night or every other night, and you may then drink water and eat watermelons, pears, apples, plums, peaches, or corn, without the risk of being made sick by them. They will protect those who live in damp situations against chills and fevers. Try them. They are perfectly harmless. They can do you good only.

I have abandoned my professional visits to Boston and New York, but continue to see patients at my office, No 15 N. SIXTH street, Philadelphia, every Saturday, from 9 a. m to 3 p. m. Those who wish a thorough examination with the Respirometer will be charged five dollars. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not. But I desire it distinctly understood that the value of my medicines depends entirely upon their being taken strictly according to directions.

In conclusion, I will say that when persons take my medicines and their systems are brought into a healthy condition thereby, they are not so liable to take cold, yet no one with diseased lungs can bear a sudden change of atmosphere without the liability of greater or less irritation of the bronchial tubes.

Full directions in all languages accompany my medicines, so explicit and clear that any one can use them without consulting me, and can be bought from any druggist.

BE WISE.

While wisdom will benefit you: be not always controlled by your incredulity, hundreds have sought relief from the horrors of Dyspepsia through the medium of Demuth's Anti-Dyspeptic Stomach Bitters and found it. Why should you suffer when this admirable stomachic has cured many similar cases—why do you doubt while other believe and are cured? Delay in this matter is both dangerous and unprofitable. Your health, happiness and business suffers, while constant neglect is frequently followed by serious and uncontrollable results. Demuth's Bitters are equally useful in the numerous difficulties *attending* Indigestion: as Biliousness, Constipation, &c, while for Fever and Ague and other disorders proceeding from Miasmata, it is the only reliable preventive and remedy known. 24se69

HAIR VIGOR. HAIR VIGOR.

HAIR VIGOR. HAIR VIGOR.

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil or dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and and a grateful perfume.

THE EMPIRE MUTUAL.

UNEXAMPLED!

THE EMPIRE MUTUAL

LIFE INSURANCE COMPANY,

OF NEW YORK,

In the first Fifteen Months of its existence has issued

OVER FORTY-FIVE HUNDRED POLICIES!

INSURING OVER $8,000,000.00

and taking in Premiums $500,000.00; being the largest commencement business ever done by any company in the world!

THE REASON FOR IT.

Ordinary whole-life policies are absolutely non-forfeitable from payment of first annual premium.

Special insurance non-forfeitable after two annual payments

All policies incontestable for usual causes, and absolutely incontestable after two annual premiums.

All restrictions upon travel and residence removed, and no permits required.

No accumulation of interest on Loans or Deferred Premiums, and no increase of annual payments on any class of policies.

One-third of the premium loaned to the party insured, if desired, and no Note required.

Dividends on the progressive plan, and also upon the guarantee interest plan.

Business of the company conducted on the Mutual Plan.

Policy simple and fair in its provisions.

Incontestability of Policies.

It is the purpose of The Empire to fulfill all its contracts, the evidence of which is that its policy has no convenient refuges by means of which it can escape a just demand. Proven fraud on the part of the insured will always invalidate a policy. Also suicide, if committed previous to the payment of the second annual premium; or death caused by engaging in any specially hazardous business within the first two years. But after the expiration of two years, the policy will be held incontestable for all causes except fraud.

Non-Forfeiture of Life Policies.

No policy of insurance with continuous payments for life will be forfeited or become void by the non-payment of premiums thereon, until the full paying power of the premiums have been exhausted. The language of the policy is:

"That if any premium after the first annual premium shall have been paid, shall not be paid on the day when due, and the said assured shall, within thirty days thereafter, give notice in writing of inability to pay the same, and of a desire that said policy shall be continued in force under the following conditions. Then, and in such case this policy shall not be forfeited or become void by the non-payment of the said premium due thereon, until after the expiration of a period, to be determined as follows, to wit: The net value of this policy when the premium becomes due, shall be determined by actuarial calculation, and after deducting from such net value the loans upon said policy uncanceled by dividends, and any indebtedness to the company, four-fifths of what remains shall be considered a net single premium of temporary insurance, and this policy shall be continued in force during the term for which it will insure, according to the age of the party at the time of the lapse of the premium.

Example of the Non-Forfeitable Plan of the "Empire."

Age of party insured, 35. Ordinary whole life policy

One annual premium will continue the policy in force 2 years and 3 days.

Two annual premiums will continue the policy in force 4 years and 12 days.

Three annual premiums will continue the policy in force 6 years and 27 days.

Four annual premiums will continue the policy in force 8 years and 46 days.

Five annual premiums will continue the policy in force 10 years and 56 days.

etc., etc., etc., etc.,

THE TESTIMONY OF THE PRESS.

The Empire is a popular institution, managed by reliable men, on sound business principles, and is destined at a very early day to stand shoulder to shoulder with the oldest companies of its character in the country. Its officers and directors "mean business," and have organized with the view of establishing a model institution.—*N. Y. Independent, January 20, 1870.*

"This Company is a great success; the result of able, economical, and reliable management. The Empire has no superior in the country."—*Boston Post.*

"The success of the Empire has been unsurpassed."—*Traveler.*

"The Empire will attract the interest of those contemplating Life Insurance."—*Watchman and Reflector.*

"Having a policy in this Company, we feel a just pride in the great success it is achieving."—

"An excellent company."—*Zion's Herald.*

"A very successful Company."—*Congregationalist.*

"The Empire Mutual is unsurpassed. The men connected with it are, for those who know them, a sufficient recommendation of the Company."—*The Nation.*

"It is with peculiar pleasure that we speak of this new candidate for public favor. We knew many years since the President of the company. We knew him to be a man of energy, of character, of superior business ability, and above all else, a successful man in whatever he undertakes. The truth is, the Company has adopted the best improvements of the day in its organization."—*New England Insurance Gazette.*

Stoves and Tinware.

THE OLD ESTABLISHED

STOVE AND TINWARE STORE.

JAMES McGONIGAL,

NO. 83 SOUTH HANOVER STREET,

(Adjoining Blair & Son's Grocery Store,)

CARLISLE, PA.

After an experience of over thirty years in the Stove and Tinware business, in Carlisle, the undersigned feels confident that his recommendation of Stoves has some weight with the community. He now offers the celebrated

EMPIRE GAS BURNER,

which he feels satisfied is the best Base Burner in the market. It is handsome, throwing a cheerful light around the room; there are no clinkers even with the worst coal; the heat is reflected to the floor and strikes the feet instead of the face; the gas is entirely consumed; all dust is carried off by a back pipe; it has a ventilating damper by which rooms may be kept thoroughly ventilated; and it produces as great heat from as small a quantity of coal as any stove ever offered to the public.

He also offers the "Cozy Light," and the "Beacon Light," both Base Burners, highly recommended by all who have used them. All these Base burners are insured for three years, and if they do not work satisfactorily may be returned. Also the following well known

COOK STOVES:

Nimrod,
Ironsides,
Farmer,
Diamond Slate,

and others. These are all warranted and may be returned if unsatisfactory. Hundreds of them have been put up by me in this community, and their popularity is universal.

All these Stoves may be seen at my establishment, and references can be given to parties using them.

CITY ADVERTISEMENTS.

WALTHAM WATCHES.

The extensive use of these watches for the last fifteen years by railway conductors, engineers and expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these time-keepers.

More than 500,000 of these watches are now speaking for themselves in the pockets of the people—a proof and a guarantee of their superiority over all others.

The superior organization and great extent of the Company's Works at Waltham, enables them to produce watches at a price which renders competition futile, and those who buy any other watch merely pay from 25 to 50 per cent more for their watches than is necessary.

These time-pieces combine every improvement that a long experience has proved of real practical use. Having had the refusal of nearly every invention in watch-making originating in this country or in Europe, only those were finally adopted which severe testing by the most skillful artisans in our works, and long use on the part of the public, demonstrated to be essential to correct and enduring time-keeping.

Among the many improvements we would particularize:

The invention and use of a centre-pinion of peculiar construction, to prevent damage to the train by the breakage of main-springs, is original with the American Watch Company, who, having had the refusal of all other contrivances, adopted Fogg's patent pinion as being the best and faultless.

Hardened and tempered hair-springs, now universally admitted by Watchmakers to be the best, are used in all grades of Waltham Watches.

All Waltham Watches have dust proof caps, protecting the movement from dust, and lessening the necessity of the frequent cleaning necessary in other watches.

Our new patent stem-winder, or keyless watch is already a decided success, and a great improvement on any stem-winding watch in the American market, and by far the cheapest watch of its quality now offered to the public. To those living in portions of the United States where watchmakers do not abound, watches with the above mentioned improvements which tend to insure accuracy, cleanliness, durability and convenience, must prove invaluable.

The trademarks of the various styles made by the Company are as follows:

American Watch Co., Waltham Mass.
American Watch Co., Waltham Mass.
American Watch Co., Crescent street, Waltham, Mass.
Appleton, Tracy & Co., Waltham, Mass.
American Watch Co., Adams street, Waltham, Mass.
Waltham Watch Co., Waltham Mass.
P. S. Bartlett, Waltham Mass.
Wm. Ellery, Waltham, Mass.
Home Watch Co., Boston Mass.

Examine the spelling of these names carefully before buying. Any variation even of a single letter, indicates a counterfeit.

For sale by all leading jewelers. No watches retailed by the Company.

HALL'S

VEGETABLE SICILIAN

HAIR RENEWER

Restores Gray Hair to its Original Color, Promotes its Growth! and is a Splendid Dressing. Try one Bottle and Thicken up the Thin Locks!

Is the only perfected and scientifically prepared preparation of its kind ever offered to the public, and has no competitor in merit. By its use Gray Hair is soon restored to its original youthful color and brilliancy, which is so much admired by all. Persons whose hair is thin or falling out will, by the use of our Renewer, soon see its good effects, as, by its tonic and stimulating properties the hair glands will be invited and the hair grow thick and strong again. In cases of Baldness it will create a new growth unless the follicles are destroyed. It is cooling, and allays all itching and irritation of the scalp. It does not stain the skin as do dyes, but makes the scalp white and clean. As a dressing it is the best and most economical preparation in the world, as its effects last so much longer. Send for our Treatise on the hair, free to all, by mail.

Sold by all Druggists and Dealers in Medicine.

CARLISLE MACHINE WORKS.

NEW MACHINES FOR 1871

Reaping! Seeding! Threshing!

THE CUMBERLAND VALLEY
THRESHER AND SEPARATOR!

We offer this new Thresher and Separator, (Casho & Co's Patent,) to the farmers of Cumberland and adjoining counties; as fully equal, if not superior, to any machine now manufactured. It has the great advantage of being plain and simple in construction. It is a

VERY RAPID THRESHER,

and a

PERFECT SEPARATOR AND CLEANER

In using it the farmer will be sure of making the most he possibly can out of his crop, because it

WASTES NO GRAIN,

but saves all that goes through the machine, and separates entirely the chaff from the straw. It is an easy running machine, and will do its work thoroughly. This we guarantee. It is at the same time the cheapest machine in the market. The

HORSE-POWER,

which we furnish to run the Cumberland Valley Thresher is also new and entirely different in construction from what we have heretofore built, securing much greater power and speed with lighter draft, so that four horses only will be required, where many other machines require six and eight horses.

The Cumberland Valley Thresher and Cleaner was tried on the grounds of the Cumberland County Agricultural Society at the Fair of 1870, a large crowd of farmers being present to witness its operation. The trial was completely successful, and the machine proved its ability to thresh, clean, and separate grain in the most satisfactory manner. All who witnessed the trial expressed their approval in the warmest terms. The Committee on Agricultural Implements also gave the machine a special notice in their report, strongly recommending it. The Cumberland Valley Thresher and Separator has also been recently used by Col. William M. Henderson, at his farm near Carlisle, in threshing and cleaning a large crop. So fully is he satisfied of its great merits that he allows us to use his name as a reference. Farmers who wish further and fuller particulars as to the working qualities of this new machine are therefore respectfully referred to Col. Henderson, one of the most widely known farmers of Cumberland county.

The Cumberland Valley Thresher will always be well and substantially built, of the best material, solidly framed in every part, and presenting a handsome external appearance. Price of machine, with 30 inch cylinder, $200, without wagon. A great advantage of this machine is that it can be readily repaired at any good shop without trouble.

THE CUMBERLAND VALLEY PATENT SELF-RAKING

MOWER AND REAPER.

We will also build this new machine, with changes and improvements, fully remedying the defects and weak points of those built last season. Our aim is to supply farmers with a good home-made machine, which, if not superior in all respects to those brought from a distance, will nevertheless prove in all essential points a good and reliable harvester. All we ask for it is a fair trial.

The Willoughby Patent

GUM SPRING GRAIN DRILL.

We build this well known Grain Drill now, with or without Guano Attachment, and the shovels in straight or zigzag rows, just as the farmer prefers. We now have, also, a new and improved plan of attaching the gum tubes, for which we have obtained Letters Patent, which, with other improvements, makes the Willoughby the most complete and perfect Drill manufactured in the country.

Always on hand a full line of

AGRICULTURAL IMPLEMENTS

both of our own manufacture and from other establishments, including every useful machine needed by the farmer. We may enumerate Hay Rakes, old fashioned Threshers and Horse Powers, Corn Shellers, of which we have three kinds, and five different sizes, Cannon Corn Shellers, Fodder Cutters, Cider Mills, and other articles too numerous to specify.

Orders taken for all kinds of

IRON WORK

in our extensive Foundry and Machine Shops, and for

BUILDING MATERIALS

of every description in our Door and Sash Factory. A full stock of

WELL-SEASONED LUMBER

always on hand, enabling us to fill all orders promptly, at the lowest prices. Farmers, builders and manufacturers are invited to give us a call and see our facilities for turning out good work.
