Precautions on Railroads.

The bill introduced into the State Senate by Mr. Price, for the greater security of railroad travelling, defines minutely the duties and liabilities of railroad companies. It requires that all baggage and freights cars shall invariably be placed in front of the passenger cars; steam whistles to sound an alarm at eighty rods from any crossing of the high way at the same level; speed to be reduced on approaching a draw; the running time to be so regulated that no two trains moving in opposite directions shall be on the same track at the same time, without a switch and siding between them, unless the train that is out of time is preceded by an agent on foot, eighty rods in advance, with a signal; when any train is stopped when another is expected, a signal is to be sent eighty rods in advance in the proper direction. In enclosed or fenced parts of the country, cattle guards to be constructed at every commencement and termination of such enclosure. When a rail is taken up for repairs, a signal is to be placed at eighty rods distant each way. It is made a misdemeanor for any one crossing a railroad with a horse or vehicle, or driving any animal on it when a locomotive is approaching within forty rods of such intersection. It is also made a misdemeanor, with ninety days' imprisonment, for a railroad conductor to get intoxicated. $5000 is the greatest amount which may be recovered of a railroad for any person's death through its negligence. No recovery of damages when the person injured is acting contrary to the printed regulations of the company. The punishment for injury through the negligence of any employer of the road is twelve months' imprisonment. If death ensue, the punishment is the same as manslaughter. Persons who put obstructions on railroads, whereby death ensues, shall be tried for murder. If injury is caused, the punishment, upon conviction, is ten years' imprisonment.

The Alliance between France, England and Spain.

WASHINGTON, Jan. 21.—It has been ascertained from an authentic source, that the long-talked of alliance between Spain and Great Britain and France, has been formally consummated, Spain binding herself to send into the field from ten to twenty thousand men in the spring, and her interests, particularly in Cuba, to be protected by England and France.

SAD OCCURRENCE.—We learn from the Tyrone City *Iron Democrat*, that Mr. Geo. Lyon, manager at Penna Furnace, on the 12th instant, in an altercation with one of the teamsters in his employ, seized a wagon-whip and struck him on the temple with the butt of it, killing him instantly. The account states that the teamster was approaching Lyon, evidently intending to commit an assault, when he received the blow.

Commissioner's Notice.

John McGuire, et. al. vs. Edward Shoemaker.	No. 13, Sept. Term, 1855. Fi. Fa.

And now, 15th December, 1855, on motion of Wm. Kittell, Rule to shew cause why Sheriff Patterson's, Sheriff Brawley's, Dep. Sheriff Zahm's and Dep. Sheriff Weakland's fees on Al. Fi. Fa. No. 134, Sept. Term, 1855, should not be paid out of the moneys in the hands of the Sheriff on this writ.

Same day on application of Mr. White, John S. Rhey appointed a Commissioner to take testimony.

A true extract from the Records, certified this 7th day of January, 1856.

MILTON ROBERTS, Prothonotary.

IN pursuance of the above appointment, I will attend at my office in Ebensburg, on Thursday, the 21st day of February next, at one o'clock P. M., when and where all persons interested may attend. JOHN S. RHEY, Commissioner.

Ebensburg, Jan. 9, 1856.

Strayed or Stolen.

THERE is now in my possession a dark bay mare, with black mane and tail, a small star in the forehead, a small scar on the forward part of the pasture of the left hind leg. Said mare is about 15 hands high—is supposed to be about 10 years old, and is what is called a crib biter. The above described mare was found in the possession of James S. Clossin, who has recently been convicted in our court for larceny, and he states that the said mare came to his house on or about the 15th day of October last.

The owner is therefore notified to come forward and take such measures as the law directs for the recovery of the property, otherwise the said mare will be disposed of according to law.

Among the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyment, and even prolong the term of human existence, none can be named, of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt, that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on, to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we would present the following:—and refer further enquiry to my American Almanac, which the agent below named, will always be pleased to furnish free, wherein are full particulars, and indisputable proof of the statements.

Office of Transportation, Laurens R. R., S. C., Aug. 4, 1853.

DR. J. C. AYER, Dear Sir,—My little boy, four years old has just recovered from a severe attack of malignant Scarlet Fever, his throat was rotten, and every person that visited him, pronounced him a dead child. Having used your CHERRY PECTORAL, in California, in the winter of 1850, for a severe attack of Bronchitis, with entire success, I was induced to try it on my little boy. I gave him a tea-spoon-ful every three hours, commencing in the morning, and by ten o'clock at night, I found a decided change for the better, and after three days use, he was able to eat or drink without pain.

Its use in the above named disease will save many a child from a premature grave, and relieve the anxiety of many a fond parent. For all affections of the Throat and Lungs, I believe it the best medicine extant. A feeling of the deepest gratitude, prompts me in addressing you these lines—but for your important discovery, my little boy would now have been in another world.

I am yours, with great respect,

J. D. POWELL, Supt. Trans., L. R. R.

Rocky Hill, (Somerset Co.) N. J., July 21, 1852.

DR. J. C. AYER,—Since your medicine has become known here it has a greater demand than any other cough remedy we have ever sold. It is spoken of in terms of unmeasured praise by those who have used it, and I know of some cases where the best they can say of it is not too much for the good it has done. I take pleasure in selling it, because I know that I am giving my customers the worth of their money, and I feel gratified in giving the benefit it confers.

Please send me a further supply, and believe me Yours, with respect. JOHN C. WHITLOCK.

P. S. Almost any number of certificates can be sent you if you wish it.

Windsor, C. W., June 20, 1852.

DR. J. C. AYER, Sir,—This may certify that I have used your CHERRY PECTORAL for upwards of one year; and it is my sincere belief that I should have been in my grave ere this time if I had not. It has cured me of a dangerous affection of the lungs, and I do not overstate my convictions when I tell you it is a priceless remedy.

Yours very respectfully,

D. A. McCLURE, Attorney at Law.

Wilksbarre, Pa., September 28, 1850.

DR. J. C. AYER. My dear Sir.—Your medicine is much approved of by those who have used it here, and its composition is such as to insure and maintain its reputation. I invariably recommend it for pulmonary affections, as do many of our principal physicians. I am your friend,

CHAS STREATER, M. D.
