DAILY MORNING POST.

FEBRUARY 7, 1843.

News for Sportsmen.—A grand Fox Hunt will take place on Thursday—on the south side of the Monongahela. The company will assembly some place in the neighborhood of Mr. Hays's farm on the old Washington Road. It is expected that the Hunt will afford those who are fond of such amusement, lots of sport.

Theatre.—Our Theatre is undergoing a thorough repair, and when it opens—which we understand will be some time next month—it will look 'as good as new.' A new stage is already constructed and the workmen are busily engaged in repairing and improving the machinery and scenery. The Lessee has the reputation of being a skilful and enterprising manager and if he will secure the aid of a talented Company, we have no doubt but he will make a successful season.

The Catholic Expositor and Literary Magazine for February is a highly interesting number. Its contents are as usual of the first order, and add to the high reputation this Magazine has already obtained throughout the country. It is embellished with a fine steel engraving of the eminent Archbishop of Baltimore.

A School House on Fire.—The Second Ward School House of Allegheny city was slightly injured by fire yesterday morning between 8 and 9 o'clock. No water was thrown.

The Weather.—Still very cold—a good deal of snow on the ground, and no *prospects* of a thaw soon, though it is too good last long. A few sleighs are seen out but not many—it is too cold for ladies to venture out of their apartments and no person cares for sleighing without a lady

Stole a Cap.—A black fellow yesterday morning stole a cap from the door of Mess Paulson & Gill, Wood street. He was seen by a boy who was sweeping the pavement next door, who followed him up to Virgin alley but was unable to overtake him. Darkee made tracks to advantage and has not since been heard from.

CIRCUS.—McFarland, the graceful tight rope performer, and Hamlin, the man of India Rubber, as he is called, have a joint benefit to-night. The whole force and talent of the Company will be exerted, and no doubt can be entertained that a superior performance will be given. Go and see!

An unkind cut—The oil merchant's of Boston consider the picture at the head of our friend Eddy's Lard Oil advertisement, a most unkind *cut*. We are not surprised that the ominous picture should make them *blubber for* in spite of all their spluttering and *spouting*, the light of lard oil will douse their glim.

Graham's Magazine for February is received by Berford, who is sole agent for this city. It has three engravings and is rich in reading matter.—Cooper's pretty story of the Pocket Handkerchief is continued.

☞ A HARD CASE.—A Western editor says he has no objection to taking wood in payment for subscriptions to his paper, but that he hates, after one of his subscribers has left a load of wood before his door in the day time, for him to come and *steal it all back at night!*

A MUTINY.—A paper published at Hobart Town Norfolk Island, gives an account of a mutiny on board of the schooner Coquette, in the course of which one or two lives were lost. The captain and his officers were below at the time. The mutineers subsequently proposed that if the commander, Boyle, would furnish them with provisions, &c., they would give up the vessel again. This he refused—as the mutineers had no arms, &c., while the officers and the men below were armed, and only waiting for an opportunity to get on deck. Captain Boyle then broke the cabin skylight, and watched for an opportunity of shooting the man who was at the wheel; and by a well directed shot, he at length succeeded, and killed him on the spot. On the fall of the two master spirits, the officers told the seamen who were on deck that the ship was their's again. The hatch was taken off, and the ship's crew and the military rushed on deck; the latter fired on the surviving mutineers, killed three, and wounded two mortally. The sergeant of the guard shot the corporal in the scuffle, mistaking him for one of the prisoners.

PHENOMENON IN CHEMISTRY—*East India Hair Die*—colors the hair and will not die the skin This Dye is in the form of a Powder which in plain matter of fact may be applied to the hair over night, the first night turning the lightest or *green hair* to dark brown; and by repeating a second or third night, to a jet black. Any person may, therefore, with the least possible trouble, *keep* his hair any dark shade or a perfect black, with the positive assurance that the powder if applied to the skin *will not* color it. There is no coloring in this statement, as any one may easily test These facts are warranted by the chemist who manufactures it.
