CAUSTIC or the Knife was formerly resorted to in all cases of tumors, scrofula and wounds where mortification was apprehended. The necessity for such cruelty exists no longer. The Medical Pain Extractor, from Comstock & 21 Maiden Lane, is a far more efficient process of mortification than caustic or nitrate of silver. The application of this wonderful compound instantly removes the inflammation and the wound, ulcerous or bruise has not to be cut or burnt out, but again to heal, cure immediately, as well in a very short space of time restore the part affected to a sound and healthy state without leaving the disease behind. This preparation is also a certain remedy for inflamed eyes, cancerous sores, and chapped breast and sore nipple and all diseases of the piles in impalpable skin. Its success as a cure for these properties are from and the vouchers for its extraordinary lightened sources—Herald. respectable and en

PHENOMENON IN CHEMISTRY—East India Hair Dye—colors the hair and will not stain the skin. This Dye is in the form of a Powder which in plain matter of fact may be applied to the hair over night, the first night turning the hair—for grey hair to dark brown; and by repeating a second or third night, to a jet black. Any person may, therefore, with the least possible trouble, keep his hair any dark shade or a perfect black, with the positive assurance that the powder if applied to the skin will not color it. There is no coloring in this statement, as any one may easily test. These facts are warranted by the chemist who manufactures it.

FRANKLIN HOUSE, PHILADELPHIA.
THIS elegant establishment has been in operation during the last nine months, and notwithstanding the general depression of business, it has met and sustained the approbation of the public and yielded to the proprietors a full compensation for their labor and attention. Its location being in Chestnut street, in the immediate neighborhood of the Post office, the Exchange, Banks, the Steamboat landing, the most business part of Market street and the places of amusement, it presents to the business community or those visiting the city on pleasure, all the facilities and comforts so desirable to the travelling public. Its arrangement, also, enables the guest to regulate his expenses, and to live in a style of elegance or economy suited to his notions or disposition. The facility of procuring meals at any hour, and of getting that which the appetite craves, is also a saver of time which the business portion of the guests know how to appreciate. The proprietors, therefore, solicit the custom of their old friends, and promise a continuance of their exertions to make them comfortable.

LOOK AT THIS.
The attention of those who have been somewhat sceptical in reference to the numerous certificates published in favor of Dr. Swayne's Compound Syrup of Wild Cherry, on account of the persons being unknown in this section of the State, is respectfully directed to the following certificate, the writer of which has been a citizen of this borough for several years, and is known as a gentleman of integrity and responsibility.
To the Agent, Mr. J. Kirby
"I have used Dr. Swayne's Comp and Syrup of Wild Cherry for a cough, with which I have been severely afflicted for about four months, and I have no hesitation in saying that it is the most effective medicine that I have been able to procure. It composes all uneasiness, and increases well with my diet, and maintains a regular and good appetite. I can freely recommend it to all others similarly afflicted. J. Myers, Borough of Chambersburg. PROSPECTUS
For publishing a new Daily Paper in the City of Pittsburgh, to be entitled the
DAILY MORNING POST.
THE Subscribers having made arrangements to merge the American Manufacturer and Pittsburgh Mercury into one Journal, have concluded to publish a daily paper with the title of the *Daily Morning Post.*
The leading object of the "Post" will be the dissemination and defence of the political principles that have heretofore been maintained by the Editors, in their respective papers, and their best efforts will still be devoted to the advancement and success of those doctrines.
Although in politics, the paper will be thoroughly democratic, yet the Editors hope, by giving an honest, candid history of passing Political events, Foreign and Domestic Intelligence, and brief notices of all matters and occurrences that come properly within the sphere of a Public Journal, to make their paper sufficiently interesting to entitle it to the patronage of the public, irrespective of party considerations.
In addition to the political and general news that will be found in the "*Morning Post*," the Editors will take pains to furnish the business community with the latest and most interesting COMMERCIAL INTELLIGENCE from all parts of the country, and to have prepared such accounts of the Markets and the State of Trade as will be advantageous to our Merchants and Business Men in their several callings.
Terms.—The Post will be published on a large imperial sheet of fine paper, (manufactured especially for this Journal) at the unusually low rate of FIVE DOLLARS per annum, payable in advance. It will also be sold by news boys at the low rate of TWO CENTS a copy.
Advertisements will be inserted at the lowest rates charged by the other daily papers of the city.
☞ TWENTY active lads are wanted to sell the Post, who will be engaged on the most liberal terms

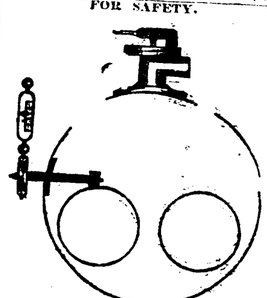
FOR SAFETY.



Safety valves should select Boats provided with Evans's Boilers. Preventing Explosion of Steam
IT would be well for the travelling public to bear in mind that their security depends entirely upon their own encouragement of boats that have or may not be at the expense of procuring the Safety valves, and that every individual making a selection of a conveyance, is contributing towards a general introduction of an invention admitted by all men who understand the principles of the Steam Engine, to be a sure preventative against those dreadful disasters. You have constantly, in the hundreds of explosions that have already taken place, their almost daily occurrence, and the thousands of lives that have already been lost, a sufficient warning, and inducement to make inquiry for a Safety guard Boat, and in every case to give it the preference. They have went, to an additional expense that your lives may be secure. Ought you not therefore to meet them with a corresponding degree of liberality, and by your preference show that you appreciate their laudable endeavors to stop this awful sacrifice of human life. They do not charge more than other boats; their accommodations in other respects are equal, and in many cases superior; and as there is one leaving Pittsburgh every day, why will you run any risk, when it is so completely in your own power to avoid those disasters.
All boats marked thus [*] in the List of Arrivals and Departures, in another part of this paper, are supplied with the Safety Guard.

THE LITERARY POST.

Imperial from Texas.
COM. MOORE A. PIRATE.

Our Southern papers bring news from Texas, and confirm the report of another Santa Fe expedition.

The news has also relation to the expedition of Com. Moore against the Mexicans at Campeachy, and consists of a proclamation of President Houston, denouncing the Commodore as a pirate and a [illegible] for reasons which are fully set forth in the proclamation, and which we present in condensed form, as follows:

"That Commodore Moore was at several times, from 29th October up to 23d March, officially ordered by the Secretary of War to carry his vessels to Galveston, and finally to go, that he [illegible] his squadron under charge of [illegible] command; that further, when he [illegible] regarded all these orders [illegible] commissioners had been sent, by a secret act of Congress, to displace him from command and take charge of his squadron, and that these he had set at defiance, instead sail for Campeachy, though expressly forbidden to do so; that, in consequence, he is suspended from command, all previous orders and authority to him revoked, and he ordered forthwith to return to Galveston. If he disobeys (as he is now known to have done) it is declared that a big Government will no longer be responsible for his acts, and all nations are warned not to aid, as are requested to seize, sink, burn, and take Galveston him, his vessels and crews, that they may be arraigned and punished.

This proclamation is dated on the [illegible] March, twenty three days before Com. Moore set sail from New Orleans. The Commodore being aware of the step which the President might take against him, addressed to the Editor of the Galveston Times, under date of April 19th, a note, in which he states that he sailed against the Mexicans with the consent of Col. Morgan, one of the Secret Commissioners, now on board of his ship, who judged that course to be the best for the interests of the Republic.

It now appears that as far back as 14th December, President Houston denounced and disavowed all cooperation with [illegible] catan.

From the COURIER.

COM. MOORE.

Common Times of the 16th inst. contains a complete history of the difficulties between Com Moore, the commander of the Texan squadron, and President Houston, from which we glean the following facts: It appears that Com Moore, whilst at New Orleans with his fleet, involved in debt contracted on the faith of his Government, received orders to put to sea and proceed to Galveston, but it was not in his power to obey these orders, because his Government had not fulfilled its promises to afford him the means required, to pay the debts incurred on account of the squadron. Relying on the faith of his Government, Com Moore had pledged himself not to leave New Orleans, until he could pay for provisions which kept his officers and men from starving, and clothing, which concealed their nakedness.—His officers had also pledged themselves not to leave with him until the debts, which the deplorable situation to which they were reduced forced them to incur, should be provided for.

Whilst thus circumstanced, the Government of Yucatan proffered him the pecuniary aid he was so much in need of, with the express understanding that he should repair at once to the port of Campeachy, where the Mexican squadron had concentrated itself. Conscious that whilst he would be enabled to afford relief to the besieged Yucatanese, he would also promote the interests of his own country, Commodore Moore accepted the overtures of the Government of Yucatan, and the result has already been made known to our readers.
