DAILY MORNING POST

JULY 8, 1843.

Theatre.—This evening N. H. Banister, an old favorite, gives an entertainment at the Theatre. The piece of "Robert Emmet," is one of thrilling interest, and the other portions of the entertainment are of an interesting and amusing character.—Those who so warmly supported Mr B. during former visits, will doubtless give him a hearty welcome this evening.

☞ We are requested to state that Mr. Max Bohrer, at the request of a number of friends, will give his second and last Concert this evening at Concert Hall.

CORRECTION.—An error occurred yesterday in the publication of Capt Porter's reply to the letter of the Committee, requesting a copy of his address for publication. The first word in the 4th line should read *grateful*, not '*gratifird*,' as printed.

Black Vomit.

The Age says there were two cases of black vomit in this city last Thursday, both of which terminated fatally. May not this be a hoax? Rumors of new diseases are flying about town in all directions. A few days ago for instance, we heard that the 'black tongue' was raging in Coal Lane, which of course, had no foundation in truth.

Cherries are getting plenty and cheap in our Markets. Mulberries are nearly done. Plums come next.

The Weather is getting warm again. Since Sunday afternoon it has been cool and pleasant notwithstanding we had very little rain. Yesterday, however, showed symptoms of another scorching spell.

On the Fourth there were several fights and petty rows in the city and vicinity, but we are happy to say that drunkenness was not the cause of all of them. Such scenes will be enacted in all cities, as long as man is what he is, and we must expect to bear with it; yet it is the duty of all to do what they can in effecting a reform universal, if possible, but general at any rate.

FIRE!—A very destructive Fire occurred last evening, about 8 o'clock. The smoke house of Messrs. McCutcheon and Galway, on Irwin street, one door from the corner of Penn was totally destroyed. It was filled with Bacon, not a particle of which was saved. The house itself was owned by Mr Henry M'Cullough. We have not heard the extent of the loss, but in case the property was without insurance, it must be great. Much fear was entertained for the safety of the block of warehouses on Liberty, stretching to Market street, and the furniture was removed from the dwelling houses adjoining on Penn street. But by the indefatigable exertions of our unequalled Fireman, no further damage was done than the total destruction of the building in which the fire originated, and the plough manufactory of Mr Calhoun

The Sandwich Islands.

From the tone of the English press relative to the seizure of these islands, we are led to suppose that England is afraid to retain them; but she is evidently preparing for a negotiatory secession of them, and unless our government stirs in the matter, the Islands are gone! The Subtile London Times of 15th says of the seizure:—'The view which has been taken of this treaty of cession in this country is not favorable to its confirmation. Although no blame can be laid on Admiral Paulett for his share in the transaction, we understand that the Sandwich Islands are not to be annexed to the dominions of the British Crown, but to be restored to the independent authority of the native sovereign.—Although these islands are unquestionably superior to all the other groups of the Polynesian archipelago, in size and in position, both as regards the whale fisheries and refreshment of vessels crossing the Northern Pacific, it does not appear that the possession of them would confer upon this country any advantage not equally to be attained by the maintenance of their independence. That independence having been recognized by the United States, and having been pointedly adverted to by the representatives of this country upon a recent occasion, it was obviously our duty as well as our interest to respect it. This very transaction will have placed the independence of the Sandwich Islands on the strongest possible foundation—for we may presume that no other state will venture to appropriate what England has convinced herself bound to restore, after it had been made over to her with the consent of the reigning powers in the island."

The following ominous announcement appears in the Parliamentary reports:

'Sir R Peel has stated, in the House of Commons, that the Sandwich Islands had been ceded to the British Crown.'

So then they *have been ceded to the British Crown*, and the Premier announces the fact. The official Journal, in the meantime, would fain gloss the matter over and blind-fold the Americans until the British have the Islands hard and fast in their clutches.

Indian Method of Courtship.—Catlin, in one of his lectures, exhibited a Winnebago courting flute, which he said was used by the Indian lover in wooing the dark-eyed maid of the wilderness. For hours he has heard the sounds of this simple flute, and he has seen the patient lovers sitting under a tree by the bank of a river, or in front of a hedge, and never has he heard a word exchanged between the seemingly happy pair. Many marriages take place solely by the charms of this flute, as he knows it to be a fact that a single word has never been spoken by either party during the whole period from courtship to marriage.

COUNTY COMMISSIONER.

At the solicitation of a number of friends of all political parties, I respectfully offer myself to the consideration of my fellow citizens for the office of County Commissioner. That my sentiments may not be misunderstood, either as to political or private affairs, I make free to say that I have been all my life a consistent Republican, in the true sense of the word. As the county is somewhat embarrassed in its financial affairs, and the reduction of salaries of public officers has received the approbation of large majorities of the people, the undersigned would not should he be so fortunate as to be elected, in any manner attempt to resist this salutary reform; should it reach the office of County Commissioner.

10,000 *TRIALS*, and all successful prove *DALLEY'S MAGICAL PAIN EXTRACTOR* inestimable. It not only cures quicker, but gives no additional pain, nor leaves a scar. Fire is positively rendered harmless. ($10) has been offered six months to any person returning an empty box, and saying that allagony on anointing is not extracted in a few minutes, yet not one from thousands of trials since has claimed the bonus.) Parents anxious to guard against genero injuries, and save time, fortune and life, and prevent their offspring from being disfigured by burns, or even small pox pustules, (it possessing the enviable power to replace the cutitary organs destroyed,) can do so by obtaining this inimitable salve. Many deeply burnt cases wounded three distinct times in the same spot while healing, yet in no case can be traced the least cicatrice or mark! For all kinds of hurts its rapid soothing effects are beyond important; even sore eyes, all inflamations and broken breasts would be unknown. The toilet and nursery, find it indispensable. One using only will forever establish the sovereign *HEAL-ALL* quality. After this notice, heads of families allowing torture for months, and ultimately distorted features, can never wipe away reproach, justly uttered by a disabled child, for neglecting to triumph over fire.
