PHILADELPHIA MARKET being easily accessible, your attention is called to it, as possessing facilities and advantages, worthy of your consideration.

Among its advantages may be enumerated its location, having shorter lines of communication to the interior, its proximity to the iron and anthracite Coal districts of Pennsylvania, the large and various stock of its manufactures, being far in advance of any other city in the United States, the moderate expenses necessary for carrying on business, &c., &c.

The market possesses unrivalled advantages for the sale of many kinds of produce, such as Flour, Wheat, Barley, Wool, Butter, Cheese, &c., while the charges made upon sales and attendant expenses are more moderate than neighboring seaboard markets.
