FEVER AND AGUE.

DR. EDWARD BLEECKER'S STAMPEDE MIXTURE, for the Fever and Ague, Chagres Fever, Dyspepsia, and all Billous Affections.—The proprietor of this Medicine will state, without hesitation or fear of contradiction, that the Stampede Mixture has cured more persons where it has been introduced, than any other medicine in use for the above diseases. This Medicine has neither arsenic nor quinine in its composition; all of the ingredients are of a perfectfully healthy character, and highly stimulating and invigorating in their tendency. Persons while using this Medicine will not be affected by exposure to water or a damp atmosphere any more than when in their usual health. Planters in sections of the country where the Ague prevails, will do well to adopt this Medicine, as the patient is not obliged to lay by while under treatment, and they may be assured of a SPEEDY CURE. The proprietor could introduce thousands of certificates from those of the highest respectability, but prefers saying to the sick—Buy one bottle, and you will have the infallible proof in yourself. Full directions for its use accompany each bottle.

Certificates can be seen at the office, showing where this Medicine has CURED when all others have failed.

For Dyspepsia and all other Billious Complaints, there is not a better Medicine in market.

It has also been taken with the most astonishing success in several cases of Rheumatism and Gout; for these complaints take a tablespoonful twice a day.

Mechanics, Inventors and Manufacturers.

$570. IN CASH PRIZES. $570.

VOMUME TEN OF THE "SCIENTIFIC AMERICAN" commences on the 16th of September. It is chiefly devoted to the advancement of the interests of *Mechanics, Inventors, Manufacturers and Farmers,* and is edited by men practically skilled in the arts and sciences. Probably no other journal of the same character is so extensively circulated, or so generally esteemed for its practical ability. Nearly all the *Valuable Patents* which issue weekly from the PATENT OFFICE are *illustrated with Engravings,* and the claims of all the Patents are published regularly in its columns as they are issued, thus making it a perfect SCIENTIFIC AND MECHANICAL ENCYCLOPEDIA of information upon the subjects of *Mechanical Improvements, Chemistry, Engineering* and the *Sciences* generally. It is published weekly in quarto form suitable for binding, and each volume contains FOUR HUNDRED AND SIXTEEN PAGES of Reading Matter, SEVERAL HUNDRED ENGRAVINGS, with a full and complete Index.—Its circulation on the last Volume exceeded 23,000 copies per week, and the practical receipts in one volume are worth to any family much more than the subscription price.

The following CASH PRIZES are offered by the Publishers for the fourteen largest lists of subscribers sent in by the 1st of January, 1855:—$100 will be given for the largest list; $75 for the 2nd; $65 for the 3rd; $55 for the 4th; $50 for the 5th; $45 for the 6th; $40 for the 7th; $35 for the 8th; $30 for the 9th; $25 for the 10th; $20 for the 11th; $15 for the 12th; $10 for the 13th; and $5 for the 14th. The cash will be paid to the order of the successful competitor immediately after the 1st of January, 1855.
