THE LADDER.

As Jacob on travel was weary by day,
At night on a stone for a pillow he lay,
A vision appeared, a ladder so high,
With its feet on the earth, and its top in the sky,

Chorus;

Hallelujah to Jesus who died on the tree,
To raise up a ladder of mercy for me,
Of mercy for me, of mercy for me,
To raise up a ladder of mercy for me.

The sight was so pleasing, the angelic throng
With deligt to ascend and decend thereupon,
And God, rich in mercy, who stands at the top
To embrace all the ransom'd who safely got up.
Hallelujah, &c.

This ladder is Jesus, the glorious God-man,
Whose blood richly flowing from Calvary ran,
On his perfect atonement to Heaven we rise,
To sing in the mansions prepared in the skies.
Hallelujah, &c.

This ladder is long, it is strong, and well made
It has stood every storm, and is not yet decay'd,
It's so free of access, all the world may get up,
And Angels will guard them from bottom to top.
Hallelujah, &c.

Come let us ascend, be bold, never fear,
It has stood every tempest, & always will bear,
For millions have tried it & reach'd zion's hill,
And thousands by faith are climbing it still.
Hallelujah, &c.

Our fathers upon it have mounted to God,
Have finished their labors and reached their reward,
And were climbing after and soon will be there
To join in their rapture, their happiness share.
Hallelujah, &c.

Ayer's Sarsaparilla

A compound of remedies, in which we have labored to combine the most effectual alterative that art can provide. It is a concentrated extract of Pure Sarsaparilla, so combined with other vegetable and still greater alterative power as the added to enhance antidotic for the diseases Sarsaparilla is required to cure. It is believed that such a remedy is wanted by those who suffer from Scrofulous complaints, and that one which will thoroughly clear one must prove a benefactor to those who are subject to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

Scrofula and Scrofulous Complaints, Mercurial and Erupt've Diseases, Ulcers, Tumors, Blotches, Tetter, Salt Rheum, Scald Head, Syphilis and Syphilitic Affections, Mercurial Disease, Dropsy, Neuralgia or Tic Doloureux, Debility, Dyspepsia, and Indigestion, Erysipelas, Rose or St. Anthony's Fire, and indeed the whole class of complaints arising from Impurity of the Blood.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to free itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is in a great degree, bad as it has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall redeem the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are invaluable for the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

HUNTINGDON WARM SPRINGS.

The Warm Springs at the base of Warrior'-Ridge five miles north of Huntingdon, overlooking Standing Stone Creek, and environed by romantic hills and woodlands, have been leased by the former proprietor of the Lemer House.

The extensive Hotel buildings, bath houses, &c., erected at great expence by General A. P. Wilson, have been completed—and the grounds have been beautifully laid out and adorned.—The Hotel parlors and chambers airy and comfortably furnished; and the prospect, from the verandahs for beauty, cannot be excelled.

For half a century, these Springs have been celebrated for their medicinal qualities, and the great nature of the waters in rheumatic and chronic affections. The temperature of the water being 69½ degrees, renders the bathing delightful and invigorating. In the surrounding woods and mountains game abounds, and the finest fish are caught in Stone Creek. Persons in pursuit of health or pleasure, will find this a most delightful and healthful retreat; and its nearness to the Pennsylvania Railroad, and the cheapness of the rates charged guests, give it a decided advantage over any other watering place in the State.

The Proprietor has had years of experience in the business and no pains or trouble will be spared to make guests comfortable.

TESTIMONIALS.

"Having had one of Grover & Baker's Machines in my family for nearly a year and a half I take pleasure in commending it as every way reliable for the purpose for which it is designed—Family Sewing."—*Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent.*

"I confess myself delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, be simple changing the spools or thread!"—*Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate.*

"After trying several different good machines, I preferred Willis, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."—*Mrs. E. B. Spooner, wife of the Editor of Brooklyn Star.*

"I have used a Grover & Baker Sewing Machine for two years, and have found it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch. The Machine is easily kept in order, and is easily used."—*Mrs. A. B Whipple, wife of Rev. Geo. Whipple, New York.*

"Your Sewing Machine has been in use in my family the past two years, and the ladies request me to give you their testimonials to its perfect adaptedness, as well as labor-saving qualities in the performance of family and household sewing."—*Robert Boorman, N. Y.*

"For several months we have Grover & Baker's Sewing Machine, and have come to the conclusion that every lady who desires her sewing *beautifully and quickly* done, would be most fortunate in possessing one of these reliable and indefatigable 'iron needle-women,' whose combined qualities of *beauty, strength and simplicity,* are invaluable."—*J. W. Morris, daughter of Gen. Geo. P. Morris, Editor of Home Journal.*

Extract of a letter from Thos. R. Leavitt an American gentleman, now resident in Sydney, New South Wales, dated January 12, 1858:

"I had a tent made in Melbourne, in 1853, in which there were over three thousand yards of sewing done with one of Grover & Baker's Machines, and a *single* seam of that has out-lood all the *double* seams sewed by sailors with a needle and twine."

"If Penelope could be called up from his morty bades, he would sing the advent of Grover & Baker as a more benignant miracle of art than was ever Vulcan's smith. He would denounce midnight shirt-making as the direful spring of woes unnumbered."—*Prof. North*

"It is a pleasure in saying, that the Grover & Baker Sewing Machines have more than sustained my expectation. After trying and returning others, I have three of them in operation in my different places, and, after four years' trial, I have no fault to find."—*J. H. Hammond, Senator of South Carolina.*

"My wife has had one of Grover & Baker's Family Sewing Machines for some time, and I am satisfied it is one of the best labor saving machines that has been invented. I take much pleasure in recommending it to the public"—*J. G. Harris, Governor of Tennessee.*

"It is a beautiful thing, and puts everybody in good humor. Grover & Baker should have a golden statue in commemoration of their good deeds for humanity.—*Cassius M. Clay.*

"I think it by far the best patent in use. This Machine can be adapted from the finest cambric to the heaviest cassimere. It sews stronger, faster and more beautifully than one can imagine. If mine could not be replaced, money could not buy it"—*Mrs. J. G. Brown, Nashville, Tenn.*

"It is speedy, very neat, and durable in its work; is easily understood and kept in repair. I earnestly recommend this Machine to all my acquaintances and others."—*Mrs M. A. Forrest, Memphis Tenn.*

"I have had your machine for several weeks, and am perfectly satisfied that the work it does is the best and most beautiful that ever was.—*Maggie Aimison, Nashville, Tenn.*

"I use my Machine upon coats, dressmaking, and fine linen stitching, and the work is admirable—far better than the best hand-sewing, or any other machine I have ever seen."—*Lucy B. Thompson, Nashville, Tenn.*

"I find the work the strongest and most beautiful I have ever seen, made either by hand or machine, and regard the Grover & Baker machine as one of the greatest blessings to our sex."—*Mrs. Taylor, Nashville, Tenn.*

ANTIPHLOGISTIC SALT;
A Perfect substitute
For the Lancet, Leeches and Blisters!!!

when the undersigned, after a long series of laborious and costly experiments, became fully confirmed in his conviction, that the Antiphlogistic Salt which he now has the happiness to present to the American public was a

PERFECT SUBSTITUTE

for Blood-letting, Leeches and Blisters, his mind was so agitated that he could not sleep for many nights. The cause of his agitation was the striking fact, that the manner of its operation like that of the virus in vaccination, could not be satisfactorily explained upon any known principle. How, in what way, it so effectually subdued *Inflammatory Disease* and no others, was at first wholly inexplicable—but, on further experiment, it was proved that *it equalizes the fluids of the body,* the want of an equilibrium in which, is the sole *cause* of inflammation. Such is its potency, that like the vaccine matter, it requires merely that adheres to the point of a quill dipped into a solution of it, to effect the entire system—but must be instantly used to prevent decomposition and secure its full virtue. Three quills in acute, and two in chronic diseases, every 24 hours, till the heat, pain and febrile action have subsided, and a perfect cure effected. When it takes the place of blisters, ointment and leeches in local affections, as Brain Fever, Croup, Toothache, Pleurisy, &c., its mode of administation is two-fold. (*See directin of dissolving, &c.*)

The discoverer has withheld it from the public till now, by the advice of a judicious physician and valuable friend whom he consulted—a gentleman known and felt in the medical world—and who desired to submit it to the test of experiment. After witnessing under his own scrutinizing eye, its signal triumph over both acute and chronic *inflammatory* diseases, in repeated and re-repeated trials, he offered $25.000 to come in as a special and equal partner in the Recipe for its manufacture, but the proposal was rejected.

The disuse of the lancet and blisters, is demanded both by humanity by humanity and science. Is it not a mistake, to suppose that a kettle of boiling water (the inflamed blood) will cease to boil, by dipping out a *part* of it—or a cask of bad cider (bad blood) be made good, by drawing a portion of it? Is it not a mistake, to suppose that blisters and rubefacients will remove inflammation, when they virtually superadd one inflammation to another? The late Dr. B. Waterhouse, of Harvard University, said "I am sick of *learned quackery.*" One of the most eminent physicians in New England acknowledged just before his death, that "he has been imbibing for many years, neither bloodletting and blisters did not *aggravate* rather than arrest Stone and stand high in the Old and New school, have quite recently expounded his views and now openly confess, they believe the lancet, seton, leeches and blisters injure ten where they benefit one—Turn think there is a meaning to Deut. 12. 23—Gen. 9. 4—and Levit. 17, 14—that "THE BLOOD IS THE LIFE." It is not the excess of blood (there never is too much) that causes disease, but the want of a balance between the fluids and solids.

The special excellence of the Antiphlogistic Salt, is that without the useless loss of blood and strength, it effectually subdued inflammatory diseases, (no others) by producing an equilibrium of all the fluids in the body and a consequent uninterrupted circulation. It exerts, like the vaccine matter, and extraordinary influence over the veins and arteries—resulting in a gradual decrease of inflammation as indicated by the pulse, which assumes its natural state as the heat, pain and fever disappear.

Many medicines offered for sale, are backed by doubtful certificates, (their chief virtue) and claim to be universal remedies, curing all maladies—a burlesque on common sense: As the discoverer of this Salt, solemnly protests against having it placed in the category of frauds and impositions, he has resolved that it shall, with no other *passport* than its true value. If the public find it genuine, they will receive it—if spurious, they will reject and condemn it. Instead of being a panacea for all ills, it has control over but *one ill,*—has but *one aim*—accomplishes but *one thing,* to wit, SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—wether in the head, throat chest abdomen, extremities or skin. It is asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids.

The following different *forms* which the unbalanced fluids assume, and many not here mentioned that have more or less heat, pain or fever (no others) are as perfectly cured by the Antiphlogistic Salt, as fire is extinguished by water.

1. Cases where the unbalanced fluids affect the HEAD and THROAT—to wit, *Brain Fever, Fits, Headache, Inflamed Eyes, Ears and Nose, Canker, Neuralgia, Erysipelas, Catarrh, Croup, Bronchitis, &c.*

2. Cases where the unbalanced fluids effect the CHEST and BOWELS—to wit; *Inflamed Lungs and Liver, Colic, Pleurisy, Coughs, Dyspepsia, Asthma, Dropsy, Heartburn, Gravel Piles Gonorrhea, Venereal, &c.*

3 Cases where the unbalanced fluids effect the EXTREMITIES and SKIN—to wit; *Rheumatism, Gout, Scrofula, Ulcers, Chilblains, Chilblains, Chicken and Small Pox, Salt Rheum,* with itching and other *Cutaneous Affections, &c.*

This Salt greatly alleviates the inflammatory pains peculiar to married ladies, (before and at the time of confinement) and many female complaints, and is very efficacious in Fever, Ague, Wounds, Nervous and Spinal Affections and anyother form of (mark it this) inflammatory disease, attended with heat, pain or febrile symptoms.

Persons who have a tendency of blood to the head or heart, or lead inactive lives, or breath the impure air of manufactories and the poisonous fumes of metals and minerals, or live in unhealthy climates, are exposed to a particular vitiation of the fluids of the body, which one dose without interfering with the diet or business, once in three months, would invariably prevent. It is believed to afford protection from infectious disease, and therefore travellers, sailors, and soldiers should supply themselves with it.

While many nostrum-makers victimize the good natured and pill-ridden public, by ordering "from six to a dozen boxes or bottles, to cure any malady" no matter what—the undersigned is happy in being able to state, that the severest forms of recent inflammatory disease, was over come by one Acute package, and the most obstinate and long standing by one Chronic package. It does just what it claims to do—and no more, or less—equalizes the fluids by removing from the system all arterial and venous obstructions.

THE GREAT PURIFER!—
THE WORLD CHALLENGED!—
TO PRODUCE ITS EQUAL!
THE BLOOD SEARCHER
GLORIOUSLY TRIUMPHANT!
Sworn statement of David McCreary, of Napier Township, Bedford county.

In April, 1856, as near as I can remember a small pimple made its appearance on my upper lip, which soon became enlarged and sore. I used poultices of sorrel, and a wash of blue vitriol, without effect. Finding the sore extending I called on Dr. Ely, of Schellsburg, who pronounced it CANCER, and prescribed a wash of sugar of lead and bread poultices. Finding these remedies of no avail, I called upon Dr. Shaffer, of Davidsville, Somerset county, who also pronounced the disease Cancer and gave me internal and external remedies—the latter consisting principally of caustic; but all to no purpose, as the disease continued spreading toward the nose. I next used a preparation of arsenic, in the form of salve. This for a time checked the disease, but the inflammation soon increased. I next called upon Dr. Statler of St. Clairsville, Bedford county, who also pronounced the disease to be Cancer, and applied a Salve said to be a never-failing remedy, but it had no effect whatever in checking the spread of the sore. In December, of the same year, the disease had eaten away a greater part of my upper lip, and had attacked the nose, when I went to Cincinnati where I consulted Dr. R. S. Newton of the Electic Medical College. He pronounced the disease "a cutaneous Cancer, superinduced by an inordinate use of mercury." He applied mild zinc ointment, and gave me internal remedies. My face healed up, but the inflammation was not thoroughly removed. In February, 1857, he pronounced me cured, and I left for home. In April the disease again returned, and so violent was the pain that I could not rest at night. Late in May I returned to Cincinnati, and again placed myself under the charge of Dr. Newton, with whom I remained until September, during which time he used every known remedy, and partly succeeded in checking the disease, but when I returned home there were still three discharging ulcers upon my face. I continued using Newton's preparations, and also medicine that I got from Dr. Ely, but the Cancer continued growing until it had eaten off the left side of my nose, the greater portion of my left cheek, and had attacked my left eye. I had given up all hope of ever being cured, since Dr. Ely said he could only give relief, but that a cure was impossible. In March, 1858 I bought a bottle of "Blood Searcher," but I must confess I had no faith in it. I was very weak when I commenced taking it; but I found that I gained strength day by day, and also that the ulcers commenced drying up. I continued, and when the third bottle was taken my face was healed as if by a miracle. I used a fourth bottle and I have been healthier since than I
