On yesterday afternoon the engineer of 28 on the Oil Creek road went in for a deer hunt on the rail and a short distance above Tionesta managed to kill a handsome buck by driving the sugine over his hind quarters, and from that to Irvineton the passengers were regaled by the perfume floating on the breezes, of deer meat roasting in the caboose. - Oil City Telegraph

BITTERS is as a rum beverage.
They are composed wholly of the pure juice or vital principle of roots. This is not a mere assertion. The extracts from which they are compounded are prepared by one of the ablest of German chemists. Their effects can be beneficial only in all cases of the billiary system. Hoofland's German Bitters stand without an equal, acting NOTIONS, etc., etc. promptly and vigorously upon the liver; they remove its torpidity and cause health-ful secretion of bile—thereby supplying the stomach with the most indispensable

elements of sound digestion in proper pro-They purify the blood, cleansing the vital fluid . all hurtful impurities and suplanting them with the elements of genuine

realthfulness. Now, there are certain classes of persons to whom extreme Bitters are not only unpalatable, but who find it impossible to take them without positive discomfort. For such Dr. HOOFLAND'S GERMAN TONIC Feed, Beans, Butter, has been specially prepared. It is intended for use where a slight alcoholic stimulant is required in connection with the well-known Tonic properties of the pure Ger-

man Bitters.

HOOFLAND'S TONIC acts with almost marvelous effect. It not only stimulates the flagging and wasting DRIED PEACHES, strengthens its action upon the Liver and Stomach thorough, prompt than the Bitters, when the same quantity is taken is none the less certain. indigestion, Billiousness, Physical or Nervous prostration, yield readily to its potent influence. It gives the invalid a new and stronger hold upon life, removes depression of spirit, and inspires cheerfulness. But Dr. Hoofland's benefactions to the human race are not confined to his celebrated GERMAN BITTERS, or his invaluable Toxic. He has prepared another medicine, which is rapidly winning its way to popular favor because of its in-Canned Goods, trinsic metits. This is HOOFLAND'S PODOPHYLLIN PILLS, a perfect substi-

tute for mercury without any of mercury's evil qualities.

These wonderful Pills, which are intended to act upon the Liver, are mainly composed of Podophyllin, or the vital princi-ple of the mandrake root. It is the medifinal virtues of this health-giving plant in a perfectly pure and highly concentrated form. The Podophyllin acts directly on the Liver, stimulating its functions and causing it to make its billiary secretions in regular and proper quantities. The inju-rious results which invariably follow the LUMBERMEN, FARMERS, MEuse of mercury is entirely avoided by their use. But it is not upon the Liver only that their powers are exerted. The extract of Mandrake contained in them is skillfully combined with four other extracts, one of which acts upon the stomach, one upon the upper bowels, one upon the lower bowels, and prevents any griping effect, thus producing a pill that influences the entire digestive and alimentary system. in an equal and harmonious manner, and its action entirely free from nausea, vomiting or griping pains common to all other

Possessing these much desirable qualities the Podophyllin becomes invaluable as a

FAMILY MEDICINE. No household should be without them. They are perfectly safe, require but two for an ordinary dose, are prompt and effi-cient in action, and when used in connection with Dr. Hooffand's German Bitters, or Tonic, may be regarded as certain spe-cifics in all cases of Liver Complaint, Dyspepsia, or any of the disorders to which

the system is ordidarly subject. T PODOPHYLLIN PILLS act upon the stomach and bowels, carrying off improper obstructions, while the Bitters or Touic purify the blood, strengthen and invigorate the frame, give tone and appe-tite to the stomach, and thus build up the

invalid anew.
Dr. Hoofland, having provided internal remedies for disease, has given the world one mainly for external application, in the
