SHINGLE MACHINE.—KENDALL'S PATENT DOUBLE ACTING RIVER AND SHAVER—The attention of Shingle and lumber dealers, speculators and others, is called to this valuable invention, which is now presented to the public as the *best and only practical* machine ever invented for Riving and Shaving Shingles.
Various machines of merit have been invented for making Shingles, but it is a well known fact that Shingles out of sawed stuff, from pine, are quite too flimsy for a lasting purpose. Kendall's Machine has recently appeared for riving and shaving, and it has been on some months, from their superior method of riving, which consists of splitting from the butt of the log, the shingle, which almost invariably runs off. This difficulty is entirely obviated by
KENDALL'S MACHINE.
Which first splits from the side of the block a piece thick enough for two shingles, and then rives it to a taper and by means of elastic knives each part is carried through a pair of self-adjusting knives, which complete the operation; thus producing two shingles at every revolution.
This machine will rive and shave from the block three thousand shingles per hour, of uniform thickness and taper, superior in utility and durability to those made by hand or any other process.
Its operations are by no means confined to pine and other soft wood, but work to equal advantage, oak, walnut, and every other description of timber that can be split.
The workings of the machine can be examined at H. H. Rhodes' Machine Shop, corner of Ninth and Penn streets.
To timber owners, shingle dealers, and men of enterprise, the opens a new field for speculation, as there is no similar invention extant.
The machine occupies but a small space, is of durable construction, and costs but about two hundred dollars, and hands and two boys can make from 25,000 to 30,000 shingles per day.
For right of territory, or machines, inquire at No. 31 Fifth street, or at the City Hotel.
Any other needed information will be furnished by letter, when desired. O. S. CHAMPERLIN, Agent.

DR. H. J. BORRETTE, 13 Fourth street, Pittsburgh, offers his valuable FRENCH REMEDY, which is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, and removes all obstructions—operates the delicate and the hardy, by regulating and strengthening the system, and fortifies the constitution for the duties of life.
TO MARRIED LADIES
It is peculiarly suited, as it will in a short time remove all obstructions.
We are not of the number who believe and act in accordance with the belief that long and elaborate detail gives weight and dignity to objects of either importance or trivial import; we incline to the contrary opinion, and hold that simplicity and truth insest such as are worthy of any attention, in decidedly the most rich and comely dress. In the present instance, our great desire is to be understood by those who may look to us for information, all else being considered of minor importance.
See circulars.

J. & T. GROUTT, Importers of Brandies, Gin, Wine; Dealers in Fine Old Monongahela Rye Whisky, Peach Brandy, &c. Also, Rectifiers and Distillers. Corner of Smithfield and First streets, Pittsburgh. [dec31

BOTTLERS.—JOHN OGDEN & Co., Bottlers, No. 187 First street, would respectfully inform the public that they have constantly on hand a large supply of SARSAPARILLA, MINERAL WATER, ALE and PORTER.
The attention of families is particularly directed to the fact that they bottle WAINSRIGHT'S ALE in its purest state. Physicians recommend it to families on account of its wholesome and strengthening qualities. oct3ly

NOTICE—The partnership heretofore existing between Jacob Hostetter, D. Hostetter and G. W. Smith, under the firm of HOSTETTER, SMITH & CO., was dissolved on the 29th day of November last, by the entire purchase of the interest of D. Hostetter by Jacob Hostetter.
The business will be conducted as heretofore, under the name of HOSTETTER & SMITH.
JACOB HOSTETTER,
de6 G. W. SMITH.

MISCELLANEOUS.

HARMONIUMS AND MELODEONS.
H. KLEBER & BRO. have received and for sale a lot of the above instruments, which they warrant EQUAL, IF NOT SUPERIOR, to any others made.
HARMONIUMS, with eight stops, made by SCHIEDMEYER, Stuttgard, Germany.
HARMONIUMS, with three stops, by Truyser & Co., Stuttgard.
These instruments have been examined by the Professors and amateurs of the two cities, who pronounce them, in point of volume and sweetness of tone, fully equal to any small Church or Parlor Organ. The treadles are so arranged that a CHILD OF EIGHT YEARS CAN WORK THEM WITH EASE.
MELODEONS MADE BY CARHART & NEEDHAM, N. Y. It is almost superfluous to say anything in their favor. The senior partner, Mr. CARHART, is the *original inventor* of the Melodeon, and the superiority of his instruments has never been questioned. They receive orders from all parts of the world. One of their last and most important improvements is the DOUBLE SWELL, which, while it enriches the tone, affords the player greater variety of effects. Purchasers are requested to examine and convince themselves of the superiority of the above, which will be sold on the most reasonable terms by H. KLEBER & BRO., No. 23 Fifth street.
P. S. A fresh supply of NUNNS & CLARK'S and other PIANOS on the way. ja28

TO MANUFACTURERS AND OTHERS—The undersigned, having in view the extension of their business, lately purchased the
"EXCELSIOR WORKS,"
On the Monongahela River, opposite the city. Since then we prefer enlarging our
"NOVELTY WORKS,"
in the city. We would therefore sell the "Excelsior Works" at a fair price, and make the payments easy. The property consists of late corner of Neville and McKee streets, in the Borough of Birmingham, being one hundred and twenty feet front on Neville street, extending same width to low water mark on the Monongahela river, including right of Wharf. The buildings are of brick, one and a half stories and two stories high, the main building is one hundred and twenty-five feet long by 60 feet wide, containing Foundry and Fitting-up Shops, and adjoining thereto is the Engine House, 25 feet by 40, containing a Foundry, Blacksmith Shop, and Boiler Shop, and adjoining thereto is the Engine and Boiler House, 25 feet by 40, containing a Steam Engine in good order, and other fixtures, with upwards of twenty-five feet of Shafting, Pulleys, &c., and adjoining thereto is a Two Story Brick of seventy feet in length for engine house and other purposes. There is also an excellent
