CONDITIONS FOR ALLIES CHANGE FROM WORSE TO BETTER, ASSERTS SCRIBE

London, Oct. 13, 3.11 A. M.—The "Daily Mail's" correspondent sends a dispatch dated Sunday behind the French left wing. He gives interesting news of the conditions prevailing in this field of operation and says that since Thursday conditions for the allies changed for the worse, then again for the better, and that their position at the time of sending the dispatch was stronger than ever.

"The fighting around Arras," says the correspondent, "has been exceedingly severe since last Tuesday and Lens has changed hands at least three times in as many weeks. If the Germans could succeed in bursting the ring at some part their desperate program might prevail, but so far they have failed, and got their forces hopelessly scattered.

"It would be absurd, however, for that reason to say that they are negligible. On the contrary they are still capable of giving great trouble. Their cavalry lies in considerable numbers on the eastern end of Hazebrouck (32 miles northwest of Lille) and in the country surrounding Orchies (16 miles southeast of Lille). All their scattered forces in this region, however, are being slowly but surely shepherded in the right direction northeast while the forces threatening Hazebrouck are being driven northward. In short, after weeks of furious fighting they have accomplished nothing worth recording."

LEFT WING OF ALLIES HAS RESUMED THE OFFENSIVE AT HAZEBROUCK AND BETHUNE

Paris, Oct. 13, 3.08 P. M.—The following official announcement was given out in Paris this afternoon:

"On our left wing our forces have resumed the offensive in the regions of Hazebrouck and of Bethune against detachments of the enemy composed in large part of cavalry coming from the front along Bailleul, Estaires and Labasse.

"The town of Lille, held by a territorial detachment, has been attacked and occupied by a German army corps. Between Arras and Albert we have made notable progress. On the center also we have made progress in the region of Berry-au-Bac, and we have advanced toward Souain, in the west of the Argonne and north of Malancourt.

"Between the Argonne and the Meuse, on the right bank of the river, our troops who hold the heights of the Meuse to the east of Verdune have advanced. To the south of the road from Verdun to Metz, in the region of Apremont, we have gained a little territory on our right, and repulsed a German attack on our left. On our right wing, Vosges and Albert, there has been no change.

"To sum up yesterday was marked by perceptible progress on the part of our forces at various points on the field of battle. In Galicia, the Austrian corps defeated in Galicia are endeavoring to reform at a point four kilometers west of Przemyel."

BRITISH NAVY IS LOOKING OUT FOR ITS COAL SUPPLY

Washington, Oct. 13.—The provincial governments of Canada, responding to the appeal of the United Kingdom for aid in keeping up the full capacity production in English and Welsh coal mines, so there may be no lack of coal for the British navy, have removed the restriction as far as mine timbers are concerned, that all wood cut on crown lands must be manufactured in Canada. Word to this effect will be received to-day by P. S. Ridsdale, of this city, executive secretary of the American Forestry Association.

So many wood cutters from French forests which furnished the 20-year-old fir trees used as props in British coal mines were called to the French colors that there has been a serious shortage in the supply. The action of the Canadian provincial government will permit the immediate shipment to Great Britain of the trees so badly needed by the mines and will prevent the threatened curtailment of coal production which would handicap naval operations. The British government is sending a commission to Canada to investigate the possibility of that country supplying the British Isles with the timber needed.
