THE ADAMS EXPRESS COMPANY PITTSBURGH, ROCHESTER AND NEW BRIGHTON EXPRESS.—For the especial accommodation of the large population along the line of the Ohio and Pennsylvania Railroad, between Pittsburgh and New Brighton, whose influence, business and social relations require such Agency. THE ADAMS EXPRESS COMPANY have made such arrangement with the Railroad as to enable them to put a trusty Messenger on the *Accommodation Train*, who will take charge of all property and business properly entrusted to him. He will leave New Brighton for the Morning Train to remain in Pittsburgh and Allegheny City during the day; attend to such commissions as may be entrusted to him, and return by the Evening Train, with his goods and commissions attended. All goods, &c., will be delivered or called for in the two cities, within reasonable distance, without extra charge; but to insure such delivery, the direction on parcels especially for private houses, should be explicit.

At Way Stations, all notice will be left with the Station Agent of the Railroad Company, who is the proper person for the Station to be entrusted to. The Way Trains are called.

The charges for carrying packages, &c., and for services rendered by the Messenger, are intended to be reasonable limits. When the nature of the business is such as to render it especially objectionable, application should be made to HENRY K. IRVIN, has been appointed Messenger and will attend to the duties on Monday, December 14 1857.

TO THOSE WHO WISH FARMS!!—I have FERTILE LAND at a CHEAP PRICE, and on easy terms. Your attention is called to the Rockport Farm, containing Twenty free acres, or more in proportion, for $40 per acre, payable in instalments of $1 per week or $4 per month. It is located in Pike county, Ind., on one of the best markets for its produce in the State, the sale in such Lands, is indeed to be surprised to hear one, at examination will show.

It is ALL CULTIVABLE LAND, underlaid for two rich veins, which, on account of its facility to the Lake market, will shortly become of immense value. The Sunbury and Erie Railroad, passes directly through it, which is now under construction from Erie to within a short distance from Rockport. The Allegheny Valley R. R. also passes through or touching it with New York and Pittsburgh. The Timber, on it is of the most valuable kind. The stock, poultry, wood, and water device are given. It presents a great and substantial opportunity to commence farming, provision for one's children, or making an investment sure to increase in value. A new era is now opening to this region of country, and it cannot but become of great value. In a short time Coal Land will be treble its present price. Further particulars can be had from the pamphlets, which are answered pre-paid.

INVENTIONS AND PATENTS.

PITTSBURGH, April 12, 1856.

M. F. EATON, Esq.:
Dear Sir.—Having used G. Trott's "Patent Oil Globe" on almost all the steam engines furnished the last year, and in addition as they appear to have given entire satisfaction to our customers, we have no hesitation in recommending them as a good article, and much preferable on account of their simplicity of construction, to the old fashioned Oil Globes, or any other of which we have any knowledge.

Very respectfully yours,
F. & W. M. FABER & CO.,
Engine Builders.

This certifies that the Oil Cup patented by Mr. Trott, has been in use on our road for two years past. We find it to be an economical and durable oil Cup, and can recommend it as such.

GEO. W. GRIER,
Foreman of Pittsburgh Shops of Penna Central R'R.

November 29th, 1854.

To M. F. EATON, Esq.:

This certifies that we have had in use the patent Oil Globes or Cups, sold by Moses F. Eaton, Esq., of Pittsburgh, and consider them very much superior to any thing of the kind we have ever used.

ALFRED THOMAS,
Treasurer Ohio Tool Company.

Columbus, Ohio, November 27, 1855. apl4

[From the New York Scientific American.]

Patent Finishing Plane.

This invention is intended for use where it is desired to impart a fine, smooth, and glossy surface to the wood; but it is applicable, with advantage, to all kind of carpenter's planes. The benefit consists in placing the cutting chisel, or bit, in front of the wedge, instead of behind, as in common planes; also, in applying a metallic mouth-piece to the face of the plane, in front of the chisel, which mouth piece serves as the rest for the chisel, and confines the throat of the plane.

But the mouth piece is so close to the edge of the bit as to prevent the plane from tipping or splintering the wood in the least degree. Indeed, we have seen the implement applied to the planing of wood against the grain, and trans versely to the grain, leaving the wood perfectly smooth. So perfect is the operation of this instrument, that it may be applied to the planing of veneers with settle success a thing which cannot safely be done by the common plane. The peculiar arrangement of the mouth piece, bit, and wedge, affords a complete and firm bearing for the bit throughout its whole length, and dispenses, under all circumstances, with the use of a rap or double bit.

This is a very simple and effective improvement, deserving, we have no doubt, to find its way into every carpenter's shop in the land. No tool chest is complete without it. The inventor is Wm. C. Hopper, of Pittsburgh Pa, and his patent bears date January 16, 1855.

☞ Models, M. F. EATON, No. 120 First street, Agent for the patentee.

CLOTHING.

A CARD—I respect the attention of the public to the public, my stock of
