The lawyer's brief seldom demonstrates that brevity is the soul of wit.

Art seldom pays, in which respect it resembles a good many artists.

The self-made man admires even his own mistakes because he makes them.

Honesty is the best policy, but don't forget to keep your premiums paid up.

Many a budding poet who woos the muse should be sued for breach of promise.

We often hear of love at first sight, but after that love is just as blind as ever.

The only people who believe they are two old to learn are those who are really too young.

The happiness of being miserable is often exemplified by a young girl's first love affair.

Some fellows can no more keep out of debt than other fellows can help falling in love.

When a man is under a cloud you can't always convince him that it has a silver lining.

When a woman begins to pay full fare for her children she realizes that she is getting along in years.

Some parents rejoice in the strength of minds of their children, but lose sight of the strength of don't mind.

Cause and Prevention of Typhoid Fever.

Dr. A. C. Abbott, chief of the Philadelphia bureau of health, has made the following statement concerning the cause and prevention of typhoid fever:

"People contract typhoid fever principally by swallowing germs that have come from some other case of typhoid fever; sometimes the germs are conveyed to the mouth on soiled hands. This is most frequently seen in the cases of careless nurses who are in attendance upon typhoid patients. Sometimes they get into the drinking water, where they may live for a time and cause the disease in those using the water.

"Sometimes they get into milk by way of water that is used in washing the milk cans, bottles, etc. When present in milk they grow and multiply with great rapidity, and a number of serious outbreaks of the disease have been traced to milk in which these germs were growing.

"Now and again, oysters that are kept in water that is polluted with sewage are also known, when eaten raw, to have caused the disease. It is also possible that typhoid fever is sometimes spread through other food stuff, on which the germs have been by accident or carelessness deposited.

"Fortunately, the germ of typhoid fever is easily killed by heat. If water be boiled for one minute they are rendered free of danger, as such treatment kills all living germs. The cooking of other foods robs them also of all power to cause typhoid.

"When typhoid fever is present in a neighborhood, much may be done to check its spread by the use of only boiled water, milk and other food stuffs that have been freed from danger by cooking. They are to be protected against the dust and dirt until used.

Your Column.

To show our appreciation of the way in which the Fulton County News is being adopted into the homes of the people of this county, we have set apart this column for the FREE use of our subscribers for advertising purposes, subject to the following conditions:

1. It is free only to those who are paid-up subscribers.
2. Only personal property can be advertised.
3. Notices must not exceed five lines.
4. All usual notices excluded.
5. Not free to merchants or any one to advertise goods sold under a mercantile license.

The primary object of this column is to afford farmers and folks who are not in public business an opportunity to bring to public attention products or stocks they may have to sell, or may want to buy.

Now, this space is yours if you want to buy a horse, if you want hired help, if you want to borrow money, if you want to sell a pig, a buggy, some hay, a goose—in fact you want to advertise for a wife—this column is yours.

The News is read weekly by eight thousand people, and is the best advertising medium in the county.

NEEDMORE.

Hay making is about done.

The shrill whistle of the steam threshing machine now disturbs the morning napper.

Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased.

Mr. D. Kaubie, of Nevada, O., says: I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me.

Kodol Digests What You Eat
