OUR COFFEE BILL.

Little Wonder That There Is Such a Universal Demand for Dyspepsia Tablets.

Recent Government statistics show that one-half of the world's production of coffee comes to the United States. We pay over one million dollars a week for our coffee, and, of course, send the money out of the country. Notwithstanding the fact that France and Germany together have one-third more population than the United States, they consumed last year only half as much as we did. We consume over 800 million pounds, or about ten and one-half pounds for every man, woman and child in the country. The evil effects of the use of tobacco are fully realized, and even the legislatures of many of the states have placed restrictions on its sale, so as to keep it out of the hands of children and youth; but coffee, the twin sister of tobacco, seems to be getting in its pernicious work, comparatively unmolested. Perhaps, if men were as great champions of reform as women, coffee would have been placed on the shelf with tobacco long ago. That coffee is responsible for much of the stomach trouble of this day, is believed by the wisest physicians.

Parents who encourage their children to acquire the habit of its use are, to say the least, very thoughtless. Water is the drink that God prepared for man, and experience has shown that man's attempts to improve on that liquid has been to the detriment of those who choose to use artificial drinks.

Discussing the Pension Bureau, the Secretary of Interior points out that the Government is still paying Revolutionary pensions, two to widows and three to daughters of those who took part in the War of Independence. Of the war of 1812 there is one survivor drawing a pension, while 1115 widows are on the rolls.—The beneficiaries under the Indian wars, Mexican wars, and later conflicts swell the total to 996,-545, a decrease of 2901 for the year. To this great army of pensioners the Government disbursed during the year is 445,444.33. The re-issue of the Pope bicycle daily-leaf calendar may be considered the opening gun proclaiming the natural and healthful return of bicycling. Col. Albert A. Pope, the founder of our bicycle industries and the pioneer in the Good Road Movement, is again at the head of the bicycle industry. Upon the 366 calendar leaves are freshly written lines, from the pens of our greatest college presidents, doctors, clergymen, statesmen, and other eminent men and women, all of them enthusiastically supporting bicycling. Half of each leaf is blank for memoranda. This calendar is free at the Pope Manufacturing Company's stores, or any of our readers can obtain it by sending five 2-cent stamps to the Pope Manufacturing Co., Hartford, Conn., or 143 Sigel Street, Chicago, Ill.
