Diseases of Women

WILL BE TREATED FREE BY DR. HARTMAN DURING THE SUMMER MONTHS.

"Female diseases" is a term which has come, by constant use, to be applied to all of that very distressing class of affections which are peculiar to the female organism. At least three causes should be recognized. The cause which is perhaps most frequent is displacement of the womb. The second cause is congestion of one or more of the pelvic passages. The third cause is known as inflammation or ulceration. Peru-na should be taken in tablespoonful dose before each meal in all varieties and stages of the disease. This dose should be gradually increased after several week's use of it to two tablespoonfuls. Vaginal injections should be taken three times each day, two or three quarts at each injection.

Any woman wishing to become a regular patient of Dr. Hartman should send name, address, duration of disease and symptoms at once, and specific directions for every detail of her treatment will be promptly sent. The doctor will direct every item of the treatment free of charge. The patient can obtain the necessary medicines at the nearest drug-store, and every patient will be expected to report once a month. This gives every woman in the United States a chance to receive the benefit of the extensive experience of this renowned physician in all forms of female diseases.

Big Shooting.

Under the auspices of the "Shamokin Gun Club," the most enterprising club in Central Pennsylvania, a match at five birds was shot at Indian Park, Shamokin, on the 4th, between E. W. Fulford of Utica, N. Y. and G. W. Hepler of Harrisburg under American Association rules and Ben. Machamer of Trevorton and James Cox of Williamstown under Rhode Island rules. The A. A. rules are 30 yds. net, with both barrels. The R. I. rules 27 yds. use single barrel, butt of gun held as low as elbow till bird flies. E. Yocum was referee, F. K. Morgan and John Findal Judges. 100 birds each were to be shot at, but a light rain set in after the first 25 were shot at, and it was agreed to reduce the number to 50 birds each. The birds were strong good flyers and frequent spurts of west wind brought a good many incomers. Right and Left quarters and Straights were about equally divided. J. E. Herrold, the Secretary of the club and Chairman of the Committees of arrangements, deserves a great deal of credit for his labors in making it a success, and the writer thinks the trolley company ought to give him a free pass, if all the cars carried the number of passengers to and from the Park that the one did where we were on, viz. 116 passengers. Everything passed off very satisfactorily. H. H. Grimm, M. Z. Steininger, A. J. Crossgrove and George Clelan from this place were present and report the following score.
