T. H. Murray,
March 22. Chairman Co. Com.

Granted—a charter, for a Temple of Honor, at Osceola. The organization will come off in a short time.

Gone North.—We notice by our exchanges, that large flocks of wild geese passed north last week. Nary a "geese" passed this way that we wot of.

Logs.—We observe the logmen are still at work getting their logs into the river. This is accomplished by means of "splashes" on the smaller streams. The river is pretty thickly strewn with logs along this place.

In Ebensburg—about 300 dogs. The *Alleghanian* wants to know if that place wouldn't be "a good opening for a bologna sausage manufactory." Certainly; pitch in Hutchison. Dog sausage is dog cheap, if you like 'em.

Returned.—Many of the raftsmen have returned home from the east, having reached their destination safely. We also noticed several of our lumbermen in town on Saturday, who say that the prospect is pretty good for fair prices this season.

"The small fry of Clearfield are nibbling at 'Brick' Pomeroy. Sensible folks out there are "rafting in." — *Williamsport Standard.*

"Rafting-in" the "*protested* promises to pay" of the Williamsport "saw log aristocracy," eh? Not *very* sensible, that.

The River—Lumber.—During the past week, the water was too low in the river for rafting. A good deal of the lumber is still lying along the river, where it will have to remain until we have another rise in the streams, for which copious rains will be required as there is no snow remaining in the mountains.

Deceased.—The Ebensburg *Alleghanian* says: "James Smith, who for a time studied law with P. S. Noon, Esq., deceased, and afterward entered the office of Senator Wallace, of Clearfield, died at Summit last Saturday (11). He was an estimable young man, and all who knew him will regret to hear of his decease."

Illustrated Christian Weekly.—This is a new publication by the American Tract Society, at $2 a year, payable in advance. It contains a number of very interesting articles, and appropriate illustrations. The *Weekly* is devoted to the advancement of Christian knowledge, and church intelligence. Address "Illustrated Christian Weekly," 150 Nassau Street, N. Y.

Railroad Accidents—On Monday of last week, ten freight cars were run off the track at Osceola, owing to the switch being out of repair, resulting in some damage to the cars, and a slight injury to one of the hands. The same day the piston rod of the engine attached to another train broke and burst out the cylinder heads, but no other damage was done. No blame is attached to the employees of the road.

Rats.—This is a humane gentleman's way of getting rid of rats: Put potash in their holes and runs. The poor wretches eat it on their feet, and over their fur, then they lick it, and don't like the taste of it; it burns them somewhat, and the more they eat of it the less they like it; so they clear out almost as soon as the application is made. To get rid of mice, the same person used tartar emetic, mingled with any favorite food; they take it, take sick, and take their leave.

Left.—On Tuesday a week some raftsmen suddenly "snubbed up" at Philipsburg. The passenger train usually detains five minutes at that stations, during which time some are in the habit of going to a hotel to get a "nip." The train being some minutes late on that day suddenly "pulled out" on time, when there was a rush for the platform, accompanied with violent gesticulations, shouting, and finally curses, but the "hindmersheen" sped on, to the consternation of the raftsmen and the amusement of the lookers standers. Moral—don't leave a train if you want to get home on time.

Every young man, after he has chosen his vocation, should stick to it. Don't leave it because hard blows are to be struck or disagreeable work performed. Those who have worked their way up to wealth and usefulness do not belong to the shiftless and unstable class, but may be reckoned among such as took off their coats, rolled up their sleeves, conquered the prejudices against labor, and manfully bore the heat and burden of the day.

The national apportionment bill of Senator Harlan differs but little from that of Representative Mercur. It provides for two hundred and eighty members of the House, and that any new State admitted shall be entitled to a Representative or Representatives, in addition to the above number. The States entitled to increased representation, it is provided by the bill, shall elect additional members to the Forty-second Congress at their general elections next fall. If they hold no general election a special one is to be called.

HOMES FOR ALL.

IN THE

Land of Flowers and Perpetual Growth.

FLORIDA,

THE ITALY OF AMERICA.

Is not excelled in Climate by any of the United States, and it may be doubted whether it can be equaled in the world.

Located on the very borders of the Torrid Zone still her situation between the Gulf of Mexico and the Atlantic ocean is such that she is swept alternately by the winds of the Eastern and Western seas, and relieved from the burning heats which prevail in other Southern States; and thus it happens that by the joint influence of latitude and peculiar location, she is relieved, on the one hand, from the rigors of the Winter climate of the Northern and Middle States, and on the other, from the extreme heat with which not only the Southern States, but in the summer time the Northern States are characterized.

Settlers have not the hardships to undergo that have been the lot of the pioneers who opened up and developed our harsh Northern latitudes. The *entire year is a perpetual season of growth*, able to produce and send to market *all* the productions of the *Tropical* and *Temperate Zones weeks* and *months* in advance of *any other locality, and at a season when all such productions are luxurious, and command the very highest prices;*

THE FLORIDA IMPROVEMENT COMPANY, under the *auspices of the State of Florida*, propose to furnish lands of uniform *good quality*, and upon which can be raised *Vegetables, Fruits, etc.*, common to the more Northern climates, and all the Grains, Fruits and Vegetables of the Tropics.

Such *selected* lands, in the healthiest part of the State, and of the best quality.

The Company have issued a pamphlet of 128 pages, containing full and reliable information concerning Florida, its Climate, Soil, and Productions, with a sketch of its history, which the Company will forward, free of postage, on receipt of 25 cents.
