The Fourth--At this place, passed off as quiet

keepers did quite a thriving business, in the
of edibles, drinkibles and conbustibles. In the
roman-candles, sky-rockets and other sorts
works were let off; affording some little
to the tedium of the whizzing, buzzing and
ing of fire crackers, whose virtues (if they
any) consists in noise, and a strong smell of
and saltpetre.

THE peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases which it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These all having the same origin, require the same remedy, viz. purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: **King's Evil or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses,** and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of *Sarsaparilla* in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood; purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S
CHERRY PECTORAL,
The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

PICTURE GALLERY

AMBROTYPES, PHOTOGRAPHS, ALBUVEN PRINTS, &c.

A NEW PICTURE GALLERY has just been established in Tunkhannock, which is supplied with entire new material for the taking of Pictures in the Photographic Art. The undersigned has re-fitted and furnished the Sky-Light Gallery in Samuel Stark's Brick Block, and is now prepared to take Pictures in the latest and most improved style of the Art.

GOOD ASSORTMENT OF CASES.

He has purchased a splendid assortment of Cases, among which are the *Union, Band Clasp, Octagon, Oval Gilt Frames, Gilt Trays, &c.*,—very neat and desirable patterns—besides a variety of plain and fancy Cases, of every size and description.

The foregoing, he thinks, are inducements sufficient for every one to come to the Picture Gallery and secure one of those "*faithful shadows*"—

"Which light and art, with magic spell,
By working together, can catch so well!"

If not, there are other considerations. How important that you secure a faithful likeness of your friends and relatives ere it is too late. You have all experienced something of the satisfaction afforded in gazing on the Picture of an absent friend; and some of you have known the sad pleasure derived from possessing the likeness of some loved one who has been laid beneath the church yard mound, and felt that

"No price could take from you
A memento so cherished;
For, how sacred the shadow,
Since the substance has perished.'

But you perchance have friends still with you whose pictures you have not yet secured. If so make it the business of to-day, to-morrow may be too late.

Then come to the Picture Gallery in Samuel Stark's Brick Block—third story—a few doors east of Wall's Hotel, and secure one of those "*faithful shadows*"
