The Football Team Is Working Double Time

Penn State Collegian.

That "Tie-Up" Should Make A Good Scrap

VOL. XIII. No. 10 — STATE COLLEGE, PA., WEDNESDAY, November 14, 1917 — PRICE FIVE CENTS

"TIE-UP" SCRAP ADOPTED BY STUDENT COUNCIL

Novel Form Of Freshman--Sophomore Scrap Will Be Tried Out A Week From Saturday

SQUADS OF FIFTY MEN EACH ATTEMPT TO BIND OPPONENTS

A "class scrap" has finally been decided upon for the Freshman and Sophomore classes It is the "Tie-up" scrap so successfully used in many other colleges, and it will take place on Old Beaver field at 1 o'clock on the afternoon of Saturday, November 24, the day of the State-Pitt Freshmen football game at Pittsburgh

The rules for the scrap were adopted as drawn up by its committee at the regular meeting of the Student Council last Wednesday night The object of the scrap will be for the contending sides to "tie-up" as many of their opponents as possible in as many five minute periods as are required to get all members of the class into the fray The number of contestants on a side has been reduced to fifty men, about the minimum number that can be *allowed without causing danger of* injury The committee, in choosing a scrap, has kept this point uppermost in mind, and it is believed that little or no injury to contestants can result from this scrap The scrap itself is nothing more or less than a trial, and if it is not considered to be successful on the first trial, it will doubtless be abandoned

A change in the rules of the old *push ball scrap so as to make it less* dangerous than heretofore, was considered, and it is possible that this scrap will be staged in the spring together with the Tug-of-War If then found successful, both the tie-up and the push ball scraps will doubtless be staged as a regular feature for the few opening weeks of college each fall The rules for the tie-up scrap follow.

The Tie-Up Scrap

ARTICLE I

Section 1—This scrap shall be known as the Tie-up scrap, and the contestants shall be members of the Freshman and Sophomore classes

Section 2—The object of each class in this scrap shall be to tie-up as many of the opposite side as possible

Section 3—Theplace for holding this scrap shall be Old Beaver Field

Section 4—The time for holding the scrap shall be determined by the Student Council

ARTICLE II

Section 1—A space, 100 feet by 200 *feet, shall be roped off,* within which enclosure the scrap shall take place

Section 2 At a distance of five yards outside of this rope, shall be another rope No one shall be permitted to be within the area enclosed by the two ropes

Section 3—The space at each end of the field shall be reserved for contestants, and the spectators shall line up along the sides

ARTICLE III

Section 1—The scrap shall consist of six five-minute periods

Section 2—Fifty men shall be entered on each side for each period

Section 3—No contestant shall be permitted to be in the scrap for more than one period

Section 4—Each contestant shall be supplied with a five foot piece of rope

Section 5—Before the beginning of each period, the opposing sides shall line up at opposite ends of the field, rushing together at the opening of the period

Section 6—At the close of each period, all the untied contestants shall leave the field, going to their reserved space at either end

ARTICLE IV

Section 1—The officials shall consist of one Senior timekeeper and two Junior score keepers, to be appointed by the Student Council, together with twenty-five Junior assistants

Section 2—It shall be the duty of the assistants to count the "tie-up", and to *prevent violations of the scrap rules*

ARTICLE V

Section 1—All contestants must wear

(Continued on Last Page)

YEARLINGS DOWN SYRACUSE FRESH

Running Attack of Coach Martin's Team Is Irresistable—Too Much Fumbling

The Penn State Freshmen kept their record clean when they met and defeated the Syracuse University Freshmen eleven last Friday afternoon on New Beaver field by the one-sided *score of 40 to 0* The game at first looked as though it would be hard fought, but after Coach Martin's boys began to plow through the line there was never any doubt of the result The Syracuse eleven never knew defeat until the very end, but were playing an uphill game from the first quarter until the final whistle They fought gamely but two words cover the whole situation,—"outplayed" and "outclassed"

After the first few downs it was plainly evident that the Freshmen had the better brand of football, and were also able to "put it across" The Salt City boys opened the first period with a *rush and ploughed the Blue and* White Yearling line for several first downs but here Captain McCollum and his team took a brace and carried the day When the Freshmen took the offensive they opened up to such a degree as to completely throw the Syracusians into a state of chaos, and although they held hard to "come back" they were unable to do so

The Syracuse aggregation received *the kickoff from the Yearlings,* and smashed through the Freshman outfit for several first downs Then the Freshmen took a brace, and in a few minutes received the ball by punt French made an end run for a total of twenty yards, and then on a forward pass from Bitner to McCollum twenty-five more yards were netted bringing the ball to the Syracuse three-yard line French hit the line at this time and registered the first score of the game During the second period Syracuse was within eight yards of the Freshman goal line, but here they failed to produce and lost the ball on downs Tumbling was in evidence on *both sides during the early part of the*

140 Enroll In The War Courses

The special classes in Aviation Automobile Trucks, Ordnance and the Signal Corps which were organized last week, opened with an enlistment of about 140 This work will be given once a week at 6 30 on Tuesday night for the remainder of the semester Most of the subjects will probably be continued during the second semester if there is a demand for them It is hoped that the government will permit the use of the wireless apparatus, so that parties may be sent into the country with receiving apparatus to take messages The government has recently asked for 30,000 men who are *able to send and receive 20 words a* minute by wireless

All of the courses will be very practical and will follow the government requirements, so far as outlined for study have been indicated Ordnance will meet in Room 201, Engineering A, Aviation in Room 202 Engineering A Automobile Trucks, in Room 109 Engineering A, and the Signal Corps in Engineering D, the Electrical Building

MANY VISITORS FOR WARTIME PA. DAY

Great Success Of This Years' *Penn State Day Due To Fine* Weather

Penn State's first wartime Pennsylvania Day proved to be quite as strenuous for the many visitors as it has been in the past and with perfect weather the great crowds had abundant opportunity to inspect all of the departmental exhibits and enjoy the entertainments of the college organizations The attendance at all the events compared favorably with that of previous years with the exception of the Morning Assembly, which was *characterized by President Sparks as the smallest* in ten years This, however may have been due to the absence of the governor, who was unable to attend for the first time in many years

"Indian Summer" weather made the vacation period one of the most pleasant ever experienced at a celebration of kind at Penn State Each day almost cloudless and the absence of heavy wraps characterized the occasion as never before The number of college visitors was far greater than highest expectations called for, but even at that the attendance at the Pennsylvania Day football game was below the average of the past few years

There was entertainment *of all kinds* for the visitors and a series of musical programs the likeness of which has hardly been equaled at any other similar celebration, proved one of the best features of the occasion The musical treats started on Friday evening when the military band rendered what was considered by many the best program that organization has ever produced

Service Flag Unfurled

The unfurling of the "service flag at the glee and mandolin club concert on Saturday evening was one of the memorable events of the celebration The flag, which is of immense proportions was made by the women students and bears about 150 stars each of which represents an undergraduate student who has entered some branch of military service Sixteen stars *bordered* with red *occupy* the upper margin and represent the members of the faculty who have entered the service The flag was dropped over the pipe organ while the glee club and audience sang to the tune of "America" Each star on the flag bears a name painted upon it through the courtesy of the Arts Department

The glee club concert was enjoyed by an immense audience and the various numbers were very well received especially the violin solos by Miss H L Eddmon All selections by the two clubs were greatly appreciated as were the numbers given by the 'varsity and Freshman quartets The attendance at *the Sunday afternoon concert by the* orchestra was exceedingly large and in keeping with the excellent program that was rendered In addition to those concerts, the Girl's Glee Club gave several pleasing selections at the assembly on Saturday morning

Splendid Exhibits

The various departments were unusually active in preparing their exhibits and it can truly be said that they *were better and* bigger than ever before Of course the chief interest centered in the "Greater Ag Fair" but the engineers this year also came in for a large share of the attention The basement of the Engineering Building was a regular beehive of industry with all manner of engines and freak mechanical operations in motion Curtiss aeroplane engines 1904 Cadillacs pumps motors and "gravity defiers" were kept going at full speed by the enterprizing engineering students to the wonder of all the spectators

However it must be said that the inspecting visitor soon felt the call back to the farm and had the way to *"Ag" Hill pointed out to him, where the* beautiful horticultural and agricultural exhibits generally kept him until lunch time The display was faultless in arrangement and for care and taste surpassed the results of all previous years

The second floor of the Horticultural building was a maze of beautiful flowers and fruit with artistic flower garden arrangements and homelike *table settings* in several of the rooms The Agriculture Building housed 'The Liney Inn' with its "Co-ed" proprietor and light lunch, while over in the Stock Judging pavilion the cattle and fowl (animate and inimate) were all primped up for the show, properly labeled for an easy acquaintanceship with the guests

The morning inspection trips were concluded for the most part by the assembly in the Auditorium at eleven o'clock where President Sparks made an eloquent plea for education in wartime and introduced a number of distinguished guests

FRESHMEN REPORTERS!

Due to a probable misunder*standing* in the Freshman COLLEGIAN competition, the Editorial Staff finds that there has been a great dropping off of men in the contest Freshman candidates for reporters on the staff are supposed to receive weekly assignments at a meeting every Tuesday evening at 7 15, in room 529 Old Main Those candidates who have not received these weekly assignments are urged to get into the competition again this week, and can receive instructions for the week's work by calling G. W Sullivan, Bell Phone, 145 Too few Freshmen *have stuck with the work, and* there are still good chances to gain positions as reporters

FRESHMAN CO-EDS WIN HIKING CONTEST

Miss Ida Turner '21, Is First to Cross The Line In Fast Time of 31 Minutes, 40 1-5 Seconds.

The Freshmen have won their first scrap of the year and moreover it was reserved for the 1921 girl to record the first score against their ancient rivals, the Sophomores When Miss Ida Turner breasted the tape as winner of the girl's cross country run for Wednesday morning he led her team *to a glorious repulse for the several* things that they had had to endure on "Doctor Night" and incidently she gained the honor of having her name engraved on the handsome silver cup donated by President Sparks

The idea of a Girl Cross Country run was introduced by Physical Director of Martin early this fall and met with instant approval by the first and second year girls Since that time they

MISS IDA TURNER
Winner of the First Girls Cross — Country Hike

have been training for the scrap contest and the result was shown by the excellent time made in the race the winners time being 31 minutes 40 1-5 seconds

The course as mapped out by Coach Martin was approximately three miles in length starting and finishing on New Beaver Field While the race has been called a "run" it was in reality more of a "hike", until the contestants reached the final 200 yards From there on the finish was sensational and the leaders showed a burst of speed that was remarkable under the circumstances

The first 20 to finish on each side were counted in the final result and the side having the least number of points was the winner The Freshman total was 198 to 411 for the Sophs which gives an idea of just how close the result was The first three places all went to 1921 Miss Lois McCloskey *being second and Miss Louise Still* third, while Miss Isabel Hanford who finished fourth was the first Soph to cross the line From then on the finished almost alternate About 75 started the race

The cup donated by Dr Sparks will remain in possession of the winning class until next year when they will be compelled to defend it against the new Freshman class It is hoped to make this an annual affair and that each winning class will get its numerals engraved on the cup

Miss Turner will also have her name engraved on the cup together with her winning time and year Efforts are *also being made to have the Freshman* class award numerals to the winner but this question will have to be decided in class meeting This is the first time that an actual scrap contest between the first and second year girls has ever been held and the question of numeral has never been brought up before

DR. SPARKS AT WASHINGTON

President Sparks has gone to Washington D C to attend the annual meeting of the Association of College Presidents which will be held there this week Secretary of War Baker is to meet the Association, and it is expected that steps will be taken for the standardization of the training to be given the members of the Reserve Officers' Training Corps as well as a general discussion on the war situation *in the colleges*

Calendar

Wednesday, November 14:

6 30 P M - Meeting of the E I Society, Engineering Club Room Professor Markle will speak

7 00 P M.--Le Cercle Francais, 226 Old Main

Thursday, November 15:

6.30 P M - Student Rally Auditorium

Saturday, November 17:

1 00 P M Football, Field Normal vs Penn State Freshmen New Beaver

2 30 P M Football, Maryland State College vs Penn State, New Beaver

Sunday, November 18:

10 00 A M - Freshman Chapel Arthur Hewitt, Old Chapel

10 30 A M - Dunwart Memorial Bible Class, Old Chapel

11 00 A M--College Chapel Arthur Hewitt, Auditorium

6 30 P M.--Y M C A Meeting, Old Chapel

UNDERCLASS DRILL WILL CONTINUE

Junior Members Of Officers' Reserve Corps Allowed $11 To Purchase Uniform

Contrary to the custom in existence at *Penn State that even the Sophomores* and Freshmen drill did not close with the Pennsylvania Day review This change has been made necessary by the installation of the Officers Reserve Training Corps which provides that the members must have at least three hours a week during their first two years Another factor that contributed to this decision is the absence of "Doc" Lewis who had charge of the gym classes in previous years There is a probability that "Pill" Martin may find time to take charge of the gym classes but it seems more than likely that the Military Department will be in charge this year It has not been definitely decided how many hours will be required a week but it will be at least two with possibilities of three

As each applicant for the extra drill given during the third and fourth years must have had the three hours a week during his first two years it will be seen that this will exclude Penn State's athletes Efforts are being made to induce the government to accept the athletes of the present *Junior* class to this class in the requirement for membership in the corps as a post facto provision Naturally for all coming classes it will depend on the individuals if the wish to enter the Corps or not

Officers' Corps Begins Work

About 150 Juniors have signed the contract binding them to continue the *course during their present Junior and* coming Senior year This number was pretty evenly divided by forming one company of members of the Engineering and Liberal Art schools and the other member of the Agricultural and Natural Science schools Both companies have been drilling regularly at 4 00 every afternoon with the exception of the holidays for a week This same line of work is being continued this week until Major Baylis is able to complete the plans for the course The members will all be given a physical examination by Dr Kitchen as soon as he completes the Freshmen examination

Uniform To Be Secured

The government will give fourteen dollars towards the purchase of a uniform It can readily be seen that this will not be sufficient to purchase a uniform with the present high prices but, as the particular style of uniform to be used is left to the individual units to decide the Penn State Corps can come a suit*able uniform by paying the extra* cost themselves the particular style will probably be decided on the new uniform

The members of the corps will not be required to wear their uniform all the time but only during drill hours However if the uniform is worn at any other time the wearers will be under military jurisdiction and will be required to maintain a military bearing at all such times

Major Baylis At Harvard.

Major Baylis was at Harvard for about two days last week observing the methods in use there in training *the cadet officers Harvard, in* common with many other schools has had a unit of the officers Corps since the beginning of the year and secured several officers of the French army as instructors However as he returned at the beginning of the Pennsylvania Day celebration last week he has not yet had time to decide upon any definite plan for the course of instruction

STUDENT COUNCIL ASKS THANKSGIVING VACATION

Student Council at its two hours meeting voted to petition the Council of Administration of the college to allow a Thanksgiving vacation this year The vacation asked for will extend from Wednesday noon November 28 to Monday noon December 3 but if granted it all the final decision is to the time limits will rest with the faculty council Last year a vacation was allowed from Wednesday noon until Monday morning The council of Administration *has not yet met to consider the* matter

AMBULANCE DELEGATION HERE OVER WEEK-END

Among the great crowd of Pennsylvania Day visitors that were present over the week-end, many former Penn State students who are now in the service of Uncle Sam stood out conspicuously No less than 15 of these men came from the ambulance camp at Allentown that being all of the unit who were permitted to leave at one time Penn State men who are in other branches of the service were also present but they were more scattered than the ambulance men

The Allentown delegation consisted of Sergeants Lee Hoi and T M Reed privates Stoltzfus, Wheeler McKay Musser, Adam, Grant Rheinhart, Homan Bailey Hayes Peters and Richenold They had to return on Monday for their furlough was for a limited time only According to several of the men there is no chance of their getting to France before next Spring, at the earliest All of the boys are in good condition, but they are tired of the monotonous inactivity at the camp

CONTRIBUTE TO RED CROSS

The Penn State branch of the Red Cross has just received a donation of $2 70 from Le Cercle Francais to aid in their relief work This sum represented the balance left in the treasury of the society at the close of last year.

LEHIGH DOWNS STATE IN PENNA. DAY GAME

Ability Of Visitors To Take Advantage Of Blue And White's Misplays Results In Victory

WAY'S OPEN FIELD RUNNING IS ONE REDEEMING FEATURE

MARYLAND STATE NEXT ATTRACTION

The Loss Of Tavenner Felt By Varsity—Now Holding Practice Twice a Day

The outcome of the football game next Saturday afternoon with the team from the Maryland Agricultural College is very much in doubt Very little is known of the strength of the aggregation from College Park They had a good reputation in that section last year when Tavenner the well known sprinter and star of the L S A C team this fall was playing with them and it is said that the team this year has developed wonderfully since the opening of the season They have met defeat in the hands of the strong Navy eleven but since then they have improved to a great extent and a good game should result on New Beaver field on Saturday

Coaches Harlow and Scott are putting the Blue and White players through an extremely hard drill this week and in addition to the regular *drill practice scrimmage and signal* practice have been held at night

The team has suffered a severe loss in Tavenner who has been called home to report for examination today under the military draft proceedings His absence on the line will be keenly felt and it is hoped that he will not be asked to report for duty before Thanksgiving and the Pittsburgh game

FRESHMEN WILL PLAY MANSFIELD NORMAL

On Saturday the Freshmen will be given another hard tussle, when they go up against the strong eleven from Mansfield Normal Through this team did not get a very auspicious start losing to Bucknell University by a 21 to 0 score they have been steadily improving defeating Bloomsburg Normal and Bellefonte Academy by scores of 14 and 48 to 0 respectively and recently trimming Lock Haven Normal with an 87-0 score

Only four of last year's men were available this fall but there was a wealth of new material and all the new men are playing like veterans With an average weight of but 157 pounds they succeeded in holding the University of Buffalo to a tie *and in* *blocking the conversion* the Normal School championship of the State

LEHIGH CAPTAIN FREES RAUCH FROM ALL BLAME

A severe injustice was done Dick Rauch varsity left end when he was put out of the game last Saturday for slugging Apparently Field Judge Dougherty used snap judgment in the matter for after *admitting that he did* not see Rauch strike Maginnis he claimed that he put Rauch out for *knocking* the runner When the Penn State coaches questioned Lehigh about the matter both Coach Keady and Captain Maginnis exonerated Rauch from all blame in the matter Maginnis admitted that it was entirely his fault and that Rauch should not have been put out This was indeed *a very fine sportsmanship on the part of* the visitors captain

C. L. RUMBERGER BEST DRILLED SOPHOMORE

After the regimental review last Saturday a competitive drill in the manual of arms was held for Sophomores C L Rumberger proved to be the best with C L Watt a close second *Major Baylis presented the former* with a ten dollar prize and the latter with one of five dollars The Commandant expects to offer a similar prize at Commencement and with this incentive it seems altogether probable that a great increase in the proficiency of the various Sophomores in the manual will be attained

LOOK 'EM OVER

If the proposed cheer leading system goes through, the student body will be called upon next spring to elect a head cheer leader from the Junior classmates who are now trying out Students will do well to look these men over in the remaining football games in order that they may have an idea as to who is best fitted for the position The Junior assistant cheer leaders are

Lichtenberger	Koehler
Gramley	*Gamblitz*
Denny	Auch
Forsythe	Lines

STUDENT COUNCIL MEETINGS.

Regular meetings of Student Council will be held every other Wednesday evening in room 121 Main Building, at 7-o'clock The next meeting will be held on Wednesday evening of next week All members of Council are requested to keep these dates in mind

THIS TELLS THE STORY

First Downs

Penn State	9
Lehigh	1

Ground Gained in Scrimmage

Penn State	1,29 yards
Lehigh	66 yards

Penalty

Penn State	[illegible]
Lehigh	[illegible]

Punts

Penn State	[illegible]
Lehigh	[illegible]

Forward Passes

Penn State Made [illegible]

Lehigh Attempted 17
Completed [illegible]
Yards [illegible]
Intercepted 1

Long Runs

Penn State [illegible] yards
Lehigh Herrington [illegible] yards

Fumbles.

Penn State	[illegible]
Lehigh	1

Coach Reed Lehigh played very victorious in their annual game with Penn State on New Beaver Field last Saturday before an enormous crowd of Pennsylvania Day visitors The Brown and White gave Lehigh a complete licking to the tune of [illegible] to [illegible] and while the score of 9 to [illegible] did not have a chance to score on the State eleven

While great credit must be given to the visiting eleven for their fine playing, it was their ability to take advantage of the breaks of the game that really brought them out on top last Saturday Time after time a Penn State back would tumble the ball and when the resultant pile would be untangled a Brown and White jersey would be found covering the pigskin Leon Chubb Way was guilty of a *fumble* when he attempted to pick up a punt

CAPTAIN MACINNES

HERRINGTON, QUARTERBACK

Way Does His Best

However this same Way was the star of the game regardless of the score Time after time he stood back and handled Herrington's long punts faultlessly, and then would dash for the Lehigh team before he was finally brought to earth Twice he cut loose for runs of 15 and 50 yards only to *be downed by Herrington* the only remaining obstacle in his path But

(Continued on Last Page)

STUDENT RALLY TO BE HELD TOMORROW

Old Chapel Will Be The Scene Of Old Time Penn State Spirit Demonstration

A "Cheer and Song Rally" has been *called by Blair Mingle, president of* the Athletic Association, to be held in Old Chapel at 6 30 tomorrow evening for the purpose of rehearsing songs and yells and encouraging the football players for the wind-up of the season The new college song will be rehearsed, as well as other college songs that are more or less unfamiliar to the student body in general Some additional yells in the "College Yell" contest will be tried out also

The glee club will be out in full strength to assist in the singing, and the cheer leaders will be on the job to make the rally one of the old-fashioned kind that stirred the spirit *of the student body in former days* Nothing of the kind has been held at Penn State for several years, and a full turnout of the student body is bound to have the desired effect The *occasion is an opportunity to show the* true Penn State spirit

Due to lack of time at the mass meeting last Thursday nothing further could be done concerning the yell contest, and a variety of new ones will be introduced tomorrow night Two additional yells that have met the approval of the committee follow.

Hoo-rah! Hoo-rah!
Hoo-rah-rah!
Penn State! Penn State! Penn State!
STATE!

S-T-A-T-E-
State, State State!
Hoo-rah-rah-rah-!
Hoo-rah-rah-rah-!
Penn State!
