A SAFE INVESTMENT.

There is no safer or better investment for small or large sums of money than the stock of

The Wright Universal Electric Co.

This Company owns some of the most valuable patents ever issued by the United States Government for Electric Lighting, Electric Batteries, Electric Motors, Electric Dynamos, and many other valuable

ELECTRICAL INVENTIONS.

This Company owns the only patent in existence for a practical ELECTRIC LAMP for HOME USE. The Company's

Electric Lamps for Family Use

can be carried about the house and used the same as a kerosene lamp. There is no smoke, no smell, no danger, and you have a Beautiful Electric Light instead of the fluttering, smoky light of an oil lamp or a gas jet.

The Wright Universal Electric Company has two large factories, both running to their full capacity, and they are unable to fill their many orders on time. Hundreds of orders are turned away because the goods cannot be made. The Company *must* have more factory facilities, and for that reason it is compelled to sell a limited amount of Treasury Stock. There is nothing which pays such

BIG PROFITS

on the amount invested as first-class Electrical Stocks. If you had purchased a few shares of the Bell Telephone Stock, or the Edison Electric Stock, or the Thompson-Houston Electric Stock, when those companies were young, your profits on the investment would have made you rich. The stock of the Wright Universal Electric Company affords just as good an opportunity to

MAKE MONEY

as any electric stock which has ever been offered to the public. The Wright Universal Electric Stock will increase in value every month, and the price will be raised every month. You will never again see the time when you can buy it as low as we are now offering it. If you want to buy a stock which will afford perfect safety and pay big profits send for our prospectus and catalogue to-day, with price of stock, terms of payment and full particulars of our business.
