principles thereof fully and ably explained by Wolf, Young, Wintrode, Wert, McCreary, Bromall, May, McClure and Himes. Mr. Ellis then announced that Mr. May would favor the Association with a treatise on Geography, and explain the method of teaching it, at their next morning Session. The President also announced that Prof. Himes would deliver an address before the Association at their next morning session. On motion adjourned to 6½ o'clock.

EVENING SESSION.

Association was called to order by the President. Mr. McSherry desired that the Association have some vocal music, whereupon the choir sung the amusing piece, "School is open, take your places,"—very much to the delight of the large audience. The discussion of School Discipline was then resumed by Messrs. McCreary, Lyttle, Starry, L. Chronister, Wintrode, and D. Chronister. On motion of Mr. Ellis, it was determined that the Secretary should furnish a synopsis of the proceedings of the Association, to the County papers for publication. Adjourned to meet at 9 o'clock to-morrow morning.

FOURTH DAY MORNING SESSION.

Association met, when Mr. Ellis offered the following resolution, which was adopted:

Resolved, That, should the Executive Committee fail to publish, in the County papers, at a proper time, a call for the next meeting of this Association, the President thereof be and he is hereby authorized and required to publish said call, at least *three weeks* before the time of said next meeting. Mr. Ellis then laid before the Association a specimen copy of Lippencott's Primary Geography, on the basis of the object method of Instructions, which, he thought, would revolutionize our present method of teaching Primary Geography, and advised the Teachers to examine it thoroughly. Mr. Beals then offered the following resolutions, which were passed unanimously:

Resolved, That we have full confidence in our worthy County Superintendent, Jno. C. Ellis, Esq., and cordially extend to him a helping hand in the discharge of his arduous labor.

Resolved, That the thanks of this Association be and they are hereby tendered to the Citizens of New Oxford and vicinity, for their kind hospitality, and for the deep interest they have manifested in our proceedings.—At the instance of Mr. McCreary, Mr. May consented to Address the Association, at some length, on the subject of Geography—his remarks were well timed and forcible and were well received by the audience. The President announced that Prof. Himes would now address the Association. This was a very beautiful, eloquent, and forcible address, replete with much valuable information, and sound practical instruction. At the close of Mr. Himes' remarks, Mr. Wintrode offered the following, which passed unanimously:

Resolved, That the thanks of this Association be and they are hereby tendered to Messrs. Himes and May, for their very valuable addresses, and their assistance in explaining and illustrating many important subjects discussed by the Association. Mr. Ellis offered the following:

Resolved, That the President of this Association appoint a committee of three, to solicit copies of the addresses of Messrs. Akers, Himes, and May, for publication. Passed, and the committee appointed are Ellis, Byles and Wintrode. A discussion here sprung up with regard to the commencement of an *Educational* Column, in the county papers, and was finally disposed of by agreeing to the following motion offered by Mr. McCreary: That a committee be appointed, of which the Superintendent be chairman, to confer with the Editors of the county papers, and also with the Teachers of the county, for the purpose of commencing an Educational column in each of said papers, and if expedient, to appoint an editor of said columns, and if not, to report at the next meeting of the Association. The committee are Ellis, McCreary, Wert, Young and Gilt. Mr. Ellis expressed himself highly gratified with the attendance of the Teachers, and, as their County Superintendent was proud of their efforts to improve themselves, of the success of the Institute, and felt warranted in believing that the next meeting of the Association would be even greater success. The President made some proper remarks, and when the entire audience rose and sung the following:

GOD BLESS OUR SCHOOLS.

God bless our common Schools,
Their pupils, teachers, bless;—
Be this our prayer.—
Where e'er throughout the land,
From lakes to ocean strand,
Our growing States expand,
O! plant them there.

The Convention then adjourned sine die.

The Musical Entertainment at Petersburg, Y. S.

The musical entertainment given at Petersburg, on the 13th inst., both in the afternoon and night, by Professor ALEXANDER and a portion of the members of his singing classes from six different towns and villages, was truly a grand success. In the early part of the day, the village of Petersburg was enlivened by the presence of strangers and citizens, anxious to see and hear whether "any good thing could come out of Nazareth." The number of vocalists present was one hundred and sixty-eight, all of whom have been under the efficient instruction of Prof. Alexander for the past three months. Their execution of difficult pieces, considering the short time they have been under the Professor's instruction, reflected great praise on both teacher and pupil. Their style of execution was not of such a character as is generally heard in country towns. Owing to the "mechanical skill" which the singers have acquired under their new teacher, each one was enabled to sing in public without resorting to the rude practice of swinging the arm—besides it was not necessary for the Professor to speak out, in an audible voice, "down, left, right, up," &c., which is always exceedingly annoying. They had acquired the ability to measure tones, in the school room, previous to their singing in public. The entertainment was a musical one, in the strictest sense of the term. The articulation was distinct, the tones were pure and mellow, from "forte" down to "pianissimo." 'Tis true, they sang with "mechanical expression," but they did not by any means neglect to sing with "emotional expression," without which all singing seems lifeless, dull and insipid. The programme presented a pleasing variety of "sparkling gems." The quartetts were grand and exceedingly well executed. The anthems were numerous and exquisitely fine, chiefly selected from the "Keystone Collection of Church Music," and were listened to and deeply appreciated by a large and intelligent audience. In fact, the whole entertainment, from first to last, was a complete success, and has secured for Professor Alexander a host of friends, and has placed him in the highest rank as a teacher of music. I cannot well forbear giving the names of a few of the singers, who evinced marked ability, and were listened to with much pleasure and attention. Among the soprano singers, I mention Miss Kate Wenshoff, Miss Emma Wolford, Miss Winebrenner, Miss Alice Myers, Miss Molly Johns, Miss Clara Myers, Miss Sadler, Miss Hildebrand, with many others, who possessed fine soprano voices. Contralto singers, I will mention Miss B. Koser, Miss Molly Myers, Miss Hofheins, Master J. Flickinger, Miss Kate Getz, Miss Winebrenner, Miss Neely and Master Himes. Tenors, Mr. Kinneman, Mr. Hofheins, Mr. John O. Gardner, Mr. P. Hurst, Mr. E. Myers, and Messrs. King, Trone and Yont. Bassos, Mr. John O. Gardner, Mr. B. W. Ziegler, and Messrs. Wolf, Kinneman, Helsel, Shriver, Myers, Wofford, Shireman, Brough, Lamott, Yeagy, and Neely, all possessing voices of a superior quality. There were many others whose names are not mentioned, who possessed undoubted musical qualities. The "Union War Song," as sung by Prof. Alexander, elicited the most enthusiastic applause; also the "Star Spangled Banner," which was sung with fine effect by all present.

And now, Mr. Editor, I presume you will agree with me, that we had a rare musical treat; and in connection with this, I would state that Prof. Alexander does not come in our midst as a stranger, as "Incog." falsely accused him, in a long tirade of abuse and slang, which was not deemed worthy of notice at the time of its publication. Mr. Alexander is well known to the citizens of Petersburg and vicinity, many of whom have known him from youth up—and although he was absent for many years, he returns to his native place an accomplished musician, both in vocal and instrumental music—a student from the best Musical Academy in America. It would be well if "Incog." and his friends would go and do likewise. Mr. Alexander has no need of any more classes, nor does he require any eulogy at my hands to ensure him success.

THE GREAT FEMALE MEDICINE.—The functional irregularities peculiar to the weaker sex, are invariably corrected without pain or inconvenience by the use of Judson's Mountain Herb Pills. They are the safest and surest medicine for all the diseases incidental to females of all ages, and more especially so in this climate.

Ladies who wish to enjoy health should always have these Pills. No one who ever uses them once will allow herself to be without them. They remove all obstructions, purify the blood and give to the skin that beautiful, clear and healthful look so greatly admired in a beautiful and healthy woman. At certain periods these Pills are an indispensable companion. From one to four should be taken each day, until relief is obtained. A few doses, occasionally, will keep the system so healthy, and the blood so pure, that diseases cannot enter the body. Judson's Mountain Herb Pills are sold by all Medicine Dealers. [Jan. 20. 1m

AYER'S CATHARTIC PILLS.—The sciences of Chemistry and Medicine have been taxed their utmost to produce the best, most perfect purgative which is known to man. Numerous proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win unprecedented confidence upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the everyday complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produced powerful effects, they are at the same time, in diminished dose, the safest and best physic that can be employed for children.—Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent me the assurance of their conviction that our preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for Ayer's Pills, and take nothing else.—No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

SHEADS & BUEHLER's Store is well worthy a visit just at this time. We doubt whether, even in our largest cities, so fine a display of Stoves can be found. Their large room is full of Stoves of every pattern; also, every variety of Hollow Ware, Sheet-iron Ware, Tin Ware, Planished Ware, Japan Ware—embracing, indeed, everything in the house furnishing line. deso, Sausage Cutters, Sausage Stuffers, Lard Presses, &c., &c. They are prepared to sell wholesale and retail, Tin Ware and Sheet-iron Warre of their own manufacture—keeping a sufficien, number of hands to supply any demand. Their assortment of Lumber is very large; also Coal of every kind.

GREAT DISCOVERY!—Ample tests, both by able practitioners and chemical analysis, have demonstrated the great value of Prof. De Grath's beautiful combination, called "ELECTRIC OIL," for the relief and cure of pain.—But the people themselves are rendering their verdict in a manner both unmistakable and satisfactory. More than two million bottles have been sold in a very short time—a great proportion of those who heard others recommend it, who had tried it. That it's a splendid discovery is every where acknowledged, and nothing like it was ever before prepared. The only genuine Electric Oil is Prof. De Grath's, which is to be had at all the respectable Druggists in the cities, and at wholesale and retail, at the proprietors' prices of the agent here. Also, STOVES, such as Cook Stoves, three different kinds; and five different sizes of Ten-plate Stoves. Likewise Mill and Saw-mill Castings, and all kinds of Turning in iron or Wood.

REPAIRING of all kinds on Machinery and Castings will be done to order on short notice. Patterns made to order: Plough Castings, ready made; PLOUGHS, such as Seyfert, Witherow, Plocher, Woodcock, and many others not mentioned here; and eight different kinds of IRON FENCING, for Cemeteries, Porches or Yards.

Also, Mortising Machines, one of the best now in use. This machine works with a lever by hand; any little boy can manage it.

Call and examine our stock; no doubt but what we can please. Persons ought to see it the advantage to buy machinery of any kind at home, where it is manufactured, so that they can very easily get any part replaced or repaired.

STEAM LIME MILL, CORNER OF WEST AND RAILROAD STREETS, NEAR THE FOUNDRY.—The subscriber, having leased the Steam Mill of Mr. C. W. HOFFMAN, in this place, has had it thoroughly repaired, by placing in it the necessary machinery for grinding Limestone. The mill is now in operation, and I am ready to supply any demand for this useful Fertilizer. GROUND LIME-STONE is now conceded by those who have tested it, to be a much better Fertilizer than Burnt Lime, or indeed any of the other Fertilizers generally applied to land. The following Certificate from Mr. Diehl, an extensive farmer, and highly respectable citizen of Adams county, will attest the truth of this assertion:

"I have been trying the Ground Limestone on my land for the last four years and find it to be a better fertilizer than the Burnt Lime, and cheaper. It has given satisfaction in the first crop. PETER DIEHL."

Numerous other certificates of like character could be produced, but this is sufficient.

Farmers are requested to send in their orders and to give it a trial.
