Lewisburg, Pa.

FRIDAY MORNING, SEPT. 10, 1852.

ADVERTISE!—Executors, Administrators, Public Officers, City and Country Merchants, Manufacturers, Mechanics, Business Men—all who wish to procure or to dispose of anything—would do well to give notice of the same through the *Lewisburg Chronicle*. This paper has a good and increasing circulation in a community certain ting as large a proportion of active, salvent producers, consumers, and dealers, as any other in the State.

State Election, Oct. 12—Presidential, Nov. 2

Most Liberal Offer!

We will send the FLAG, the WHIG, and the CHRONICLE, one year for ONE DOLLAR, Cash *in advance*. This offer to extend to the 1st of October only. *Three* good papers for $1—and latest Telegrams besides—is the Cheapest in the World!

[A large number of names of Clubs on these terms, has induced us to extend the time, that all may have the same opportunity.]

Now send on your Dollars!

☞ The CHRONICLE is the only straight-out, consistent Railroad paper in Union county. We want the Railroad men to think of that, and look at our Railroad terms—cheap, good, and no afterclaps!

☞ COURT, at New Berlin, next week and the week after.

☞ Rev. Mr. SMYTH of the Milton Covenanter Church will preach in the Lewisburg Baptist house on Sunday afternoon next at 2 o'clock.

☞ More TOWN LOTS and WOODLAND among our New Advertisements this week.

The MESSER Lots and Farm, the WILSON FARM, and M'CORMICK'S Woodland, for sale on *Saturday of this week.*

EXPLANATION.—The Susquehanna R.R. Co and not the County is to pay the interest on the County Subscription until the road is completed, and the interest is to be added to the cost of construction. The supplement to the charter—which we shall publish next week—requires this.

☞ President MALOON'S Baccalaureate Address will be found on the first page of the Chronicle, and will commend itself to the attention of our readers. The following is the paragraph to which we took the liberty of demurring in our brief notice of the Commencement exercises:

"The great struggle in Europe is to overthrow a titled aristocracy, and hitherto it has miserably failed because the means have been erroneous. The ONLY way to abolish birth right oppressions, is to raise the intelligence and consequently the wealth of the mass, up to a level with that of the patricians. The line of separation then becomes only nominal, and can be abolished without the change of 'anything but a name.'"

Unless we totally misapprehend the drift of this paragraph, and mistake the worthy Dr's meaning, the views here expressed are so utterly impracticable that, it seems to us, their untenable character must be self-evident to the apprehension of every intelligent reader. It is true there have been many melancholy failures in the attempts to revolutionize Europe, and there may be again, but like the fabled touch of Antaeus to his mother earth, the people gather increased energy and wisdom from every defeat, and they will yet signally triumph; but not in the way proposed by Dr. M. A funeral pall could not cast a deeper gloom over their hopes than the practical operation of such doctrines as are here advanced, for they ignore the right of revolution itself, and abandon the masses in Europe to the tender mercies of the most helpless and hopeless bondage that ever cried to heaven for vengeance. *Force*, physical *force*—bayonets, dungeons, and the scaffold in the hands of the absolutists—is the paramount obstacle in the way of the political regeneration of Europe; Hungary and Italy owe their late disasters, and the entire continent its present miseries, principally to this potent cause; and until it is overcome or neutralized, there can be no hope for Europe. It is a question of *power* as well as of opinion, and the world has never yet seen, and is not likely to see, a surrender of despotic power to any thing short of superior force. Civil, ecclesiastical and military power are all combined against the people, repressing their energies, stultifying their intellects, and crushing their hearts—cutting off, with remorseless rigor, all means of improvement—and how, under such circumstances, they are to be "raised" in "intelligence" and "wealth," is what we do not clearly perceive. One might as well expect vegetation to spring up luxuriantly beneath a platform of iron riveted close to the earth, shutting out the light, and preventing all growth. The barriers of arbitrary and irresponsible power must first be removed, and then freedom of conscience and of opinion will work out their own beneficent results.

—This is a fruitful subject of discussion, but we have not leisure or space at present to more than briefly indicate an honest difference of opinion. If the doctrines from which we dissent are right, our revolutionary fathers must have been wrong in appealing to arms; and Dr. M. should, to be consistent throughout, cease to advocate the Maine Liquor Law, and rely upon moral suasion, as the "only" means of consummating the temperance reformation.

☞ The steamer 'Reindeer' exploded on the North River, on Saturday last, by which 20 or 30 lives were lost.

THE NEWSPAPER POSTAGE LAW.—We learn, by a despatch, received in this city, from the Postmaster-General, that the Newspaper Postage Law, as published in the Washington papers, from which we copied it, had several essential words left out, which made it appear that pre-payment of postage could only take place at the office where the newspaper is mailed. Such was not the intention of the law, which allows the postage to be pre-paid also at the place where the newspaper is delivered. That clause in the section should read—"Each newspaper, periodical, unsealed circular, or other article of printed matter, not exceeding three ounces in weight, shall be sent to any part of the United States for one cent; and for every additional ounce, or fraction of an ounce, one cent additional shall be charged, and when the postage of any newspaper or periodical is paid yearly or quarterly in advance, at the office of delivery, or at the office where the same is mailed, and evidence of such payment is furnished to the office of delivery in such a manner as the Post Office Department shall, by general regulation prescribe, one-half of said rate only shall be charged." A corrected copy of the Postage Law will be published by the Postmaster-General.—*Phila. Ledger.*

The Counterfeiting Nest.

Dr. Giltner, having plead guilty, and made some revelations of importance, was by the Court at Danville sent to the Penitentiary for two years only.

☞ At the present term of the Court, on motion of Mr. Clark, THOS. J. GALBRAITH, Esq., was admitted to practice in the several Courts of Montour county; and on motion of Mr. Comly, FRANKLIN STEWART, Esq., was admitted to practice in the same county.

POISONING.

Thousands of parents who use Vermifuge composed of Castor oil, Calomel, &c. are not aware that while they expect to benefit the patient, they are actually laying the foundation for a series of diseases, such as salivation, loss of sight, weakness of limbs, &c.

In another column will be found the advertisement of Hohensack's Medicines, to which we ask the attention of all parents interested in their own as well as their children's health. In their Cathartic and all disorders arising from the use of the Mercurial type, the judicious use of Hohensack's Vegetable Pills, Hohensack's Liver Pills, &c., *is not doubted*, but ask for Hohensack's Worm Syrup and Liver Pills, and observe that each has the signature of the Proprietor, J. N. HOHENSACK, as none else are genuine. [3y439

Great Improvements for 1852!

MANUFACTURED and for sale at the Lewisburg Foundry by GEDDES, MARSH & CO.

$500 CHALLENGE.

WHATEVER concerns the health and happiness of a people, is at all times of the most valuable importance. I take it for granted that every person will do all in their power to save the lives of their children, and that every person will endeavor to promote their own health at all sacrifices. I feel it to be my duty to solemnly assure you that WORMS, according to the opinion of the most celebrated Physicians, are the primary causes of a large majority of diseases to which children and adults are liable. If you have an appetite continually changeable from one kind of food to another, bad Breath, Pain in the stomach, Puking at the Nose, Hardness and Fullness of the Belly, Dry Cough, Slow Fever, Pulse irregular—a restless and sight pain in the Head, and Blotches on the Face, these are the certain indications that these detestable WORMS, and you should at once apply the remedy—

HOHENSACK'S WORM SYRUP.

An article founded upon scientific principles, compounded with purely vegetable substances, being perfectly safe when taken, and can be given to the most tender infant with decided beneficial effect. Where Bowel Complaint and Diarrhoea have made them weak and debilitated, the tonic properties of my Worm Syrup are such, that it stands without an equal in the enhancement of medicine in giving tone and strength to the stomach, which makes it an infallible remedy for those afflicted with *Dyspepsia*. The astonishing cures performed by this Syrup after Physicians have failed, is the best evidence of its superior efficacy over all others.

THE TAPE WORM!

This is the most difficult Worm to destroy of all that infest the human system. It grows to an almost indefinite length, becoming so coiled and fastened in the intestines and stomach, effecting the health so sadly as to cause St. Vitus Dance, Fits, &c. that the afflicted seldom if ever suspect that it is *Tape Worm* hastening them to an early grave. In order to destroy this worm, a very energetic treatment must be pursued; it would therefore be proper to take 6 to 8 of my *Liver Pills*, so as to remove all obstructions, that the Worm Syrup may act direct upon the worm, which must be taken in doses of two tablespoonfulls three times a day; those directions followed have never been known to fail in curing the most obstinate case of *Tape Worm*.

HOHENSACK'S LIVER PILLS.

No part of the system is more liable to disease than the Liver, it serving as a filterer to purify the blood, or giving the proper secreting to the bile; so that any wrong action of the Liver effects the other important parts of the system, producing Costiveness, Liver Complaint, Jaundice, Dyspepsia, &c. We should, therefore, watch every symptom that might indicate a wrong action of the Liver. These Pills being composed of *Roots and Herbs* furnished by nature to heal the sick, namely, lst, An *Expectorant*, which augment the secretion from the pulmonary mucous membrane or promotes the discharge of secreted matter. 2nd, An *Alterative*, which changes the same inoperable and immutable matter to certain material actions of the system. 3d, A *Tonic* which gives tone and strength to the nervous system, renewing health and vigor to all parts of the body. 4th, A *Cathartic* which, when in perfect harmony with the other harmonious and operating on the bowels, only expelling the accumulations of corrupt and vitiated matter, and purifying the bowels, which destroys disease and reduces health.

TO FEMALES.

You will find these Pills an invaluable medicine in many complaints to which you are subject. In cases of Obstructions either total or partial, they have been found of inestimable benefit, restoring their functional arrangements to a healthy action, purifying the blood and other fluids so effectually to put to flight all complaints which may arise from Menstrual irregularities or headache, giddiness, distressed sight, pain in the side, back and limbs, &c.

None genuine unless signed J. N. HOHENSACK, and others being base imitation.

Agents wishing new supplies, and store keepers desirous of becoming agents must address the Proprietor, J. N. HOHENSACK, at his Laboratory, No. 120, North 2d, above Race St., Philad., Pa.

Important to Farmers and Housekeepers!

HICKOK'S PATENT CIDER MILL.

IN all former times it was supposed that a large quantity of Cider could be made only by using a ponderous machine, that slowly crushed the apples without grinding them fine. They were then made into a massive cheese in straw, and a most severe and long pressure was required to extract a portion of the cider, a considerable portion being absorbed by the straw and the mass of pomice, and to obtain this unsatisfactory result the farmer had to take all his hands and perhaps his six horse teams and devote a whole day that could have been more profitably employed, to make from six to twelve barrels of cider. To obviate the difficulty the farmers have heretofore labored under.

This Machine

has been invented, and the statement of a few facts may prove that it is not only the *Best Machine* of the kind in existence, but that it is the most *profitable* that a man can have on his farm. The apples are by this machine grated up into a fine pulp, so that it requires but a comparatively light pressure, and that but a minute or two, to extract all the cider, it being ascertained by practical experiment that *One Fourth* more can be obtained than by the old process. Besides this it requires only two hands to grind and make up into cider a larger quantity of apples than can be possibly made on the old-fashioned machines. On this press, owing to the compactness of the pomice in the tub and the complete manner in which it is ground, a pressure of three to five tons—which can be easily obtained—will produce a more favorable result than one hundred tons pressure on the ordinary cider press, even if the apples were ground as finely as on the improved Mill; and if the apples were merely crushed as on the Nut machine, it would require a pressure of two hundred tons to produce the result accomplished by this Patent Mill. The following are adduced as decided advantages of this machine:

First—It makes more Cider than any other press, with a given quantity of apples, in a given time, and with much less labor and expense.

Second—It makes clearer and sweeter Cider than any other machine.

Third—You can make your Cider as you want it, and when you want it—and in quantities from one gallon to six or twenty barrels.

Fourth—With it you can press your Currants, Cherries, Berries, Cheese, Butter, Lard and Tallow.

Fifth—With it you can have ONE FOURTH of your time in making Apple Butter.

Sixth—With it you can grind or chop your Apples, Potatoes, Turnips, Beets, Carrots, or Pumpkins, for Cattle.

Seventh—By its use you can at all times have FRESH and SWEET Cider.

The price of the Cider Mill, with right to use the same on any one farm, is $35. Price of the Root Cutting Cylinder, $5.
