"We have now a charter for a Railroad from New Berlin to Lewistown. This, with the charter we had before for a Railroad from this place to *the Susquehanna, intersects the Railroad, now in course of construction, on that river*, at one end, and the Central Railroad, on the Juniata, at the other end."

So writes a correspondent of the New Berlin *Star* and *Times*. It would then appear that the Spruce Creek, Selinsgrove and Lock Haven routes have another competitor—on paper. We bid New Berlin go ahead, take out her charter, make the survey, and raise the money. It is fair and honorable rivalry—far better and more profitable than training old Heimbach to wear gray-headed, respectable men, into the Penitentiary—a far better game than Repudiation. Go ahead! and Union county will soon become what she should be—one of the strongest Railroad counties in the State!

But there is something especially noticeable in the matter. New Berlin has been [illegible] on the Susquehanna, with which at Winfield they will connect *when* they get their Railroad. And for six months' past they have proclaimed the Road *dead*—DEAD—"thrice dead and plucked up by the roots." ☞This is their language to the Anti-Rail road men, when they want to rope them in against Division and make the bargain, "We will go against the Railroad if you will go against Division!" ☞ Among themselves however, the sensible New Berliners *want* the Susquehanna Railroad, whether they retain or whether they lose the county seat, and they *expect* to see it built.

☞Quite an episode to the unusually dull session at Harrisburg, occurred in the House on Monday. Mr. Cook of Westmoreland was speaking very severely of some one in power, when the Speaker ordered him to take his seat, but he refused; the Sergeant-at-Arms was ordered to arrest him, but *he* refused also. Mr. Cook dared any to lay hands upon him—declared that he represented 20,000 freemen whose rights had been trampled upon—and that he would never yield. Mr. Cook is a modest, slender young man, a Methodist preacher, and has been foremost in demanding a sale of the public works.

At a meeting of the Select Council of Philadelphia on the evening of the 14th inst., the resolution authorizing the Mayor to subscribe 10,000 shares to the capital stock of the Sunbury & Erie Railroad, passed by *one of a majority*. It remains to be seen whether they will adhere to their decision.—*Lock Haven Democrat.*

A farewell sermon by Rev. Dr. S. H. Cox, pastor of the First Presbyterian Church of Brooklyn, was preached on Sunday to a crowded congregation. His people have bought him a good farm near Owego, where he will retire.

St. Louis Election.—The Benton, Anti-Nebraska candidate for Mayor, Mr. How, has been elected by a very heavy majority; and the whole Benton ticket for city officers has been likewise successful.

The Congress of Venezuela passed a bill on the 24th, abolishing slavery in that Republic. The bill having received the signature of the President, went into force on the same day.

☞Rev. Charles Hall, D.D., who died recently after 25 years' service as Secretary of the Presbyterian Board of Missions, was a native of Williamsport, Pa.

Gov. Bigler has signed the bills extending the charter of the Banks of Northumberland, Middletown and Gettysburg.

Rev. E. M. Alden, of Line Mills, Pa., has accepted an invitation to become pastor of the Baptist Church, in Berwick, Pa.

Ex-President Fillmore left Macon on Friday for Savannah.

FOREIGN NEWS.

One Week Later.

The Royal Mail Steamship Arabia, with Liverpool dates to the 15th, being a week later, touched at Halifax on the 25th, on her way to Boston.

The Steamship Pacific arrived out at Liverpool, on the 14th.

There has been an advance in Cotton, and a good demand freely met by holders at the advance of from ⅛ to ¼ of a penny; on Flour, one shilling per barrel; Wheat 6 pence; Ohio Flour, 39s; White Corn, 43s; Yellow, 42. Consols closed at 87¼.

It is said that the demands of Mr. Soule upon the Court of Spain, for reparation in the case of the Steamer Black Warrior, at Havana, were most *promptly conceded*.

The position of Austria still remains in doubt. She is still negotiating, and has not a decided policy.

The Russian fleet in the Pacific have succeeded in opening the ports of Japan.

The Arabia brings no tidings of the Steamship City of Glasgow.

FROM THE SEAT OF WAR.

Sir Charles Napier's fleet had suddenly put to sea in consequence of the ice having broken up in the Baltic.

On the 20th of March an important rally was made from Kalafat, and a sanguinary encounter ensued, which was continued for four hours. The Russians were at last routed, and pursued for a considerable distance.

The Turks, having purposely left free the passage for the Russians to Hirsova, then attacked them in the rear. After a hard fight, half of the Russian troops were cut to pieces. The remainder retired across the Danube.

The Turks had evacuated the fortress of Czar Navoda, in the Dobrudscka, which was shelled by the Russians.

It is also stated (no date) that 30,000 Russians had crossed the Danube at Galatz, without opposition.

Hope for the City of Glasgow.

New York, April 26.—The Journal of Commerce has received a communication from E. T. Richardson & Co., of Old Slip, who learns from a passenger on board the schooner Canton, from Jamaica, that on the 12th inst., near Castle Island, one of the Bahamas, he saw a large three-masted screw steamer painted black outside, with bulwarks inside painted apparently yellow. Her yards were squared, and the steamer had no appearance of being in a disabled condition.

The schooner passed within two or three miles of the steamer, but no person could be seen on board of her, though a clear view of the deck was had. She appeared to be either at anchor or aground. No one on board the schooner knew of the apprehended loss of the City of Glasgow, and therefore the schooner kept on her way. The steamer's sails were clewed up, and all things considered, she was in a very unusual position.

[We are strongly inclined to believe that this steamer is the long missing City of Glasgsw, which by some mishap has been driven from her course; and that her passengers and crew have landed at the Island in question, or some other port, in safety.]—*Phila. Daily Register.*

Washington, April 25.

The Gadsden treaty was ratified to-day by the Senate. The vote was close, but as secrecy was still enjoined, nothing is known as to the shape in which the treaty passed.

The Supreme Court has reversed the the decree of the Circuit Court of Ohio, which recently declared against giving the Methodist Episcopal Church, South, a part of the assets of the Cincinnati book publishing concern, held exclusively by the Methodist Episcopal Church since the separation of that denomination in 1840; and has remanded the cause for further proceedings.

California News.—The United States from Aspinwall, arrived at New Orleans on Sunday, with California dates to the 1st instant. The steamer Illinois left Aspinwall on the 17th inst., with $1,000,000 in gold and the mails for New York. The intelligence by this arrival is but meagre. The markets were excessively depressed. The British ship Challenge had been seized for violation of the revenue laws. Col. Watkins, of the Walker Expedition, had been found guilty, but recommended to the mercy of the Court. A duel had taken place between Mr. Washington, one of the editors of the *Times*, and Mr. Washburn, of the *Alta California*. The latter was badly wounded. The Japan squadron arrived at Leo Choo in January. All well.

Politics in New York.—That portion of the Democratic party in New York State, designated the "Hards," are determined to be the first party in the field for the fall election. They speak out boldly, and are understood to be resolved on running Hon. Greene C. Bronson, for Governor, and Geo. W. Clinton, for Lieut. Governor. Their State Committee met at Albany, on Wednesday last, and adopted resolutions of an emphatically Adamantine character denouncing the President and his Cabinet—approving the course of the Hon. F. B. Cutting, and other hard shell members of Congress—congratulating the party on the recent Canal vote, etc. They call a State Convention to be held at Syracuse on the 12th of July next, at noon, to nominate a Governor and other State officers.

SEWING MACHINE.
(*Grover, Baker & Co's Patent.*)

OFFICES.
Haymarket Square, Boston.
465 Broadway, New York.
No. 42 South Fourth St. near Chestnut, Philadelphia.
156 Baltimore St. Baltimore.

☞No Controversy between this and any other Patent.

The utility and practical advantages arising from the use of the great time-and-labor-saving qualities of the Sewing Machine being now universally admitted, and several patents having already appeared, the next question which naturally arises is, Which one of these is best adapted for household or manufacturing purposes? In answer, we would beg leave to state in a few words the advantages which we believe our Machine possesses over all others, ask a fair and candid examination of its merits, and with confidence leave the case in the hands of an enlightened and discriminating public for a just, righteous verdict.

We claim, in the *first* place, our ability to make the *strongest, handsomest, and most durable seam*, and one which will neither rip nor ravel when every third stitch is cut. The stitch by which this end is attained is a distinguishing feature of our patent, being wholly unlike any other in use, and secured to us exclusively by letters patent.

Secondly, the simplicity of the construction of our Machine, running as it does *entirely* on the "cam or eccentric movement," without the use of a single cog wheel, can not fail of convincing the most casual observer, of its *immense* strength and consequent durability.

Thirdly, our rejection of the "shuttle" action, frees the operator from the necessity of stopping every few minutes to replenish the quill, and enables us to use ordinary spools of cotton or silk of 2 or 500 yards in length.

Manufacturers of Boots, Shoes, Bags, Clothing, Mattresses, Carriages, and all Cloth or Leather work, where strength and durability are required, from the very finest to the heaviest, will find this the *only* Machine adapted to their use.

Pamphlets containing drawings and numerous testimonials from those who have used them for years, may be had, or will be sent by request, and the Machine may be seen in full operation by calling at any above offices.

☞The Gold Medal for the *Best* Sewing Machine was awarded us at the Great Fair of the American Institute, held in New York, and at the Fair of the Maryland Institute, held at Baltimore, Oct. 1853.
