Announcement.

DETROIT, MICH.—The Ford Motor Company has just made a nationwide announcement of the new Ford Weekly Purchase Plan, which is accepted here as a characteristically Ford action and a new and forward-looking move in the marketing of automobiles to be carried on by the Company's dealer organization numbering over 7,000.

That it will benefit millions of families and have a most salutary effect upon the auto buying public goes almost without saying, as it places something of a new light upon motor car ownership wherein the purchaser is able to avail himself of this modern necessity.

For some time past Ford dealers have been selling cars and trucks upon what is known as the deferred payment plan in which the purchaser makes a substantial initial payment, secures his car and completes the payment for it in regular installments.

This has been and will continue to be of immense benefit to numerous auto buyers whose means do not permit the full outlay for a car at the purchase time but who can easily make the required payments.

Now comes the Ford Weekly Purchase Plan which will make it possible for additional millions to own and operate motor cars as under the terms of the Plan as little as $5.00 will start anyone toward the ownership of a Ford Car, Ford Truck or Fordson Tractor. This initial payment, as well as all subsequent payments, will be deposited to the customer's credit in a local bank and draw interest at the regular savings rate.

It extends to the whole family an opportunity to participate in the car purchase by permitting each member to contribute a small amount weekly to the Plan with the wholesome effect of inculcating thrift and also demonstrating the benefits to be received from regular and consistent accumulation of funds to spend for things desired.

The price reduction of Ford Cars and Trucks which went into effect last October, bringing them to the low cost level in the history of the Ford Motor Company, opened a market of unusual proportions and with the inauguration of the Ford Weekly Purchase Plan this market now becomes even more comprehensive.
